ENVIRONMENT CONTROL – Control of Pollution of Water sources - Location of industries within 1 K.M. from the embankments of rivers, streams, dams etc. - Imposition of restrictions - Orders Issued.

ENVIRONMENT AND FOREST (EC-1) DEPARTMENT

G.O.Ms.No.213 Dated the 30th March 1989

Read:-

1. G.O.Ms.No.1 Environment Control dated 6.2.84
2. From the Member Secretary, Tamil Nadu Pollution Control Board Lr.No.BMS(1) 15878/88 dt.23.8.88.
3. From the Chairman, Tamil Nadu Pollution Control Board Lr.BMS(1) 44365 /88 dt.3.11.88 and letter of even No. dated 30.12.88

ORDER:

In the Government Order first read above, the Government have ordered, among other things, that no industry causing serious water pollution should be permitted within one kilometre from the embankments of rivers, streams, dams etc. and that the Tamil Nadu Pollution Control Board should furnish a list of such industries to all local bodies. It has been suggested that it is necessary to have a sharper definition for water sources so that ephemeral water collections like rain water ponds, drains, sewerages (bio-degradable) etc. may be excluded from the purview of the above order. The Chairman, Tamil Nadu Pollution Control Board has stated that the scope of the Government Order may be restricted to reservoirs, rivers and public drinking water sources. He has also stated that there should be a complete ban on location of highly polluting industries within 1 kilometre of certain water sources.

2. The Government have carefully examined the above suggestions. The Government impose a total ban on the setting up of the highly polluting industries mentioned in Annexure I to this order within one kilometre from the embankments of the water sources mentioned in Annexure-II to this order.

3. The Government also direct that under any circumstances if any highly polluting industry is proposed to be set up within one kilometre from the embankments of water sources other than those mentioned in Annexure – II to this order, the Tamil Nadu Pollution Control Board should examine the case and obtain the approval of the Government for it.

4. The receipt of the order may be acknowledged.

GOVERNMENT OF TAMIL NADU

ABSTRACT

Mines and Quarries – Minor Minerals – Fixation of minimum distance between the quarries and the adjoining inhabited sites – orders issued.

INDUSTRIES (MME-I) DEPARTMENT

G.O.Ms.No.13

Dated 22.01.2002

Read:

1. G.O.Ms.No.286, Industries (MMC.I) Department, dated 1.4.99
2. G.O.Ms.No.100, Industries (MME.I) Department, dated 23.11.2000
3. From the Director of Geology and Mining, Lr.No.7778/LC/99, dated 30.1.2001 and 15.6.2001
4. Supreme Court of India order dated 25.9.2001 in CA.No.6742/2001 (SLP No.13564/98)

ORDER:

In the order first read above, in adherence, to the Supreme Court order in CA.No.10732/95, the Government issued amendment to rule 36(1) of Tamil Nadu Minor Mineral Concession Rules, 1959 to the effect that no quarrying shall be done within a radial distance of 500 metres from inhabited site. The position was also informed to Supreme Court of India in connection with SLP (C) No.13564/98.

2. When the case came up for hearing on 8.8.2000, the Supreme Court of India observed among others that the decision of the Supreme Court of India in Kenndey Valley's case was based on the facts of that case, namely, where there was an Expert Committee's Report dated 3rd July, 1991 which had recommended

Verified @ RealEstate

a distance of 500 metres from the residential area. Notwithstanding the said Report, NEERI was required by the State Pollution Control Board to examine the matter and give a report. This report having been given, the State should have the option to choose what parameters should be laid down unencumbered by the decision of the Court in Kennedy Valley's case. When the State Government has two Expert Committee's Report before it, it is for the Government to consider what would be the appropriate rule to frame. As such, the Tamil Nadu Government Advocate on Record had informed the Government that it would be open to the State Government to re-examine the matter and fix and appropriate distance taking into consideration the Export Committee reports such as NEERI report.

3. In pursuance of the orders of Supreme Court of India dated 8.8.2000, the Government constituted an Expert Committee in consultation with Director of Geology and Mining, to re-examine the question of fixation of minimum distance between the quarries of the adjoining inhabited sites in the G.O. second read above. The Expert Committee had submitted its recommendations and the Director of Geology and Mining had accepted the recommendations and forwarded them to Government for passing necessary orders. The Expert Committee's report and the NEERI Report were examined. In its studies NEERI had found that depending on the number of crushers operating, the pollution level varied from 50 metres to 300 metres. Considering the fact that noise and dust pollution are detected even for smaller number of crushers operating, the Government felt that a uniform distance of 300 metres may be fixed between the inhabitation and quarries and crushers.

4. Accordingly, the Government have decided that:

a) No lease shall be granted within 300 metres (Three hundred metres) from any inhabited site.

b) In respect of blasting operations, the lessees should strictly comply with the provisions laid down in Rule 164 of Metalliferous Mines Regulations, 1961.

The lessees whose quarry lie within a radius of 100 metres and 300 metres from the inhabited site shall undertake blasting operations only after getting permission from Director of Mines Safety, Gorgaum as required under Rule 164 of Metalliferous Mines Regulations, 1961 read with the Mines Act, 1952 (Central Act 35 of 1952).

c) No new layout, building plans falling within 300 metres from any quarry should be given approval by any agency unless prior clearance of Director of Geology and Minig is obtained.

d) The dust emissions are from the quarrying operations by drilling, blasting and fugitive emissions from hauling of trucks. Hence, the following methodology has to be adopted in respect of the particular emission sources and typical control measures are for rock quarrying operations.

OPERATIONAL SOURCES	METHODOLOGY TO BE ADOPTED FOR CONTROLLING THE DUST
1. Drilling	Liquid injunction (water with a wetting agent) of capturing and venting emissions to a control device.
2. Blasting	Adoption of good blasting practices
3. Loading (at Mines)	Water wetting
4. Transport	Watering treatment with surface agents, soil stabilisation on paving

The Government have also taken the following stand on the Clarifications sought for by the Hon'ble Supreme Court of India.

CLARIFICATIONS SOUGHT FOR BY SUPREME COURT	VIEWS OF THE GOVERNMENT
1. Whether decision being made by the State Government would be prospective in its nature and whether it will apply to existing quarries and crushers and if so, to what extent?	The decision taken by the Government will be applicable from the date of order with a saving clause to protect the existing quarries till the expiry of lease period. However, Pollution Control measures (i.e. Dust control measures) will apply to both new as well as existing units.

Verified © RajEstate™

2. Whether licenses granted for crusher units or lease granted for quarry would be cancelled, if they are within the prohibited distance as per policy that may be made or whether they would apply to only fresh licences / leases.	The licenses already granted for the quarries will not be cancelled as the new policy will be given effect from the date of order. It will be enforced from the date of the expiry of the existing lease period. It will apply to all licences from the date of order.
3. Whether licenses earlier granted and not within the prohibited distance as per new policy that may be made would be required to comply with other conditions in regard to pollution control measures, etc.	The licenses earlier granted and not within the prohibited distance as per new policy that may be made would necessarily be required to comply with other conditions in regard to pollution control measures.
4. What is the normal duration of license for quarrying / crusher	The quarry lease in respect of virgin stone quarries is ten years whereas the normal period of other stone quarries is five years.
5. The policy that may be brought into effect based on a decision on the recommendations of the Expert Committee would in any event be, relevant and would be taken into consideration and applied while the question of renewal of an existing license comes up for consideration and renewal cannot be on the basis of rules existing at the time of original grant.	As there is no provision of renewal of stone quarry leases, the question of considering the renewal on the basis of rules existing at the time of original grant does not arise.

5. The above decisions of the Government were informed to the Supreme Court of India. In the order fourth read above, the Supreme Court of India accepted the views and decisions taken by the Government of Tamil Nadu.

6. The Government accordingly direct that necessary amendment to Rule 36(1) of Tamilnadu Minor Mineral concession Rules, 1959 be issued in accordance with the decisions taken by the Government and also accepted by the Supreme Court of India as mentioned in para 4 and 5 above.

7. The Director of Geology and Mining is requested to send necessary proposals with draft amendment notification in this regard to Governmen immediately.
