ABSTRACT

Urban Development – Development Plan 2046 for Hosur New Town Development Area – Approval under section 28 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) – Accorded – Orders – Issued.

==========

HOUSING AND URBAN DEVELOPMENT [UD4(2)] DEPARTMENT

G.O.(Ms).No.08. **Dated: 20.01.2025.**

குரோதி வருடம், தை 7.

திருவள்ளுவர் ஆண்டு 2056.

Read:

1. G.O.(Ms).No.96, Housing and Urban Development Department, dated 29.05.2017.
2. G.O.(Ms).No.205, Housing and Urban Development Department, dated 18.11.2022.
3. From the Director of Town and Country Planning, letters Na.Ka.No.9569/2012/TCP-7, dated 07.10.2024 and 28.11.2024.

======

ORDER:

In the Government Order first read above, orders were issued declaring the inclusion of additional areas in the Hosur New Town Development Area under sub-section (4) of Section 10 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972).

2. In the Government Order second read above, the Government have accorded consent under sub-section (2) of Section 24 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) to the Hosur New Town Development Authority for the publication of a notice of preparation of the New Town Development plan under Section 26 of the said Act for Hosur New Town Development Area.

3. The Director of Town and Country Planning in his letter third read above has forwarded the draft Development Plan 2046 for the Hosur New Town Development Area and has requested the Government to accord approval under section 28 of the said Act.

4. The Government, after careful consideration, have decided to accept the proposal of the Director of Town and Country Planning in para 3 above and to approve the Development Plan 2046 for the Hosur New Town Development Area. Accordingly, in exercise of the powers conferred by Section 28 of Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972), the Governor of Tamil Nadu, after consultation with the Director of Town and Country Planning, hereby approves the draft Development Plan 2046 for the Hosur New Town Development Area.

5. The copies of the said Development Plan 2046 for the Hosur New Town Development Area as approved by the Government are communicated to the Director of Town and Country Planning.

6. The following Notification shall be published in the Tamil Nadu Government Gazette. The Director of Town and Country Planning is requested to ensure that the Notification is republished in the manner as prescribed in rules 12 and 15 of the Master Plan (Preparation, Publication and Sanction) Rules.

NOTIFICATION.

In exercise of the powers conferred by sub-section (1) of section 30 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972), the Governor of Tamil Nadu hereby publishes the approval of the Government under Section 28 of the said Act for the Development Plan 2046 for the Hosur New Town Development Area submitted by the Director of Town and Country Planning.

2. The approved Development Plan 2046 for the Hosur New Town Development Area with all its enclosures shall be kept open for the inspection of the public during working days in the office of the Hosur Municipal Corporation during office hours.

1.1 Background

1.1.1 Purpose of Development Plan

A Development Plan serves as a dynamic and long-term roadmap, envisioning the sustainable growth of a new town over a horizon period of 20 to 30 years. This comprehensive plan acts as a framework, shaping the town's future in a structured yet adaptable manner. Its foundation lies in a collaborative process, incorporating community feedback, survey results, and expert planning efforts. It considers the town's current development, physical landscape, and socio-economic environment to craft a vision that encompasses not just physical infrastructure but also crucial aspects like economic development, housing, transportation, and social amenities. This legislative framework, supported by the Tamil Nadu Town and Country Planning Act of 1971, aims to guide the creation of well-planned and thriving new towns in the state.

As per the **Tamil Nadu Town and Country Planning Act [TNTCPA], 1971,** the Master Plan, a crucial document for guiding development in the state, has the authority to address various aspects of land use and development, both rural and urban. Here are some of the key areas it can cover,

- The manner in which the land in the planning area shall be used;
- The allotment or reservation of land for residential, commercial, industrial, and agricultural purposes and parks, play fields, and open spaces;
- The allotment and reservation of land for public buildings, institutions and civic amenities;
- The traffic and transportation pattern and traffic circulation pattern;
- The major road and street improvements;
- The areas reserved for future development, expansion and for new housing;
- The provision for the improvement of areas of unplanned layout or obsolete development and slum areas and for relocation of population;
- The amenities, services and utilities;
- The provision for detailed development of specific areas for housing, shopping, industries and civic amenities and educational and cultural facilities;
- The control of architectural features, elevation and frontage of buildings and structures;
- The provision for regulating the zone, the location, height, number of storeys and size of buildings and other structures,

Verified © RedStone

the size of the yards and other open spaces and the use of buildings, structures and land;

- The stages by which the Development Plan shall be carried out; and such other matters as may be prescribed.

The Tamil Nadu Town and Country Planning Act, [TNTCPA] 1971 establishes a similar framework for implementing Development as Master Plans, with some nuanced differences. Key steps involved in the process are,

A. Identification: Considering the special nature of the area in terms of industrial, educational, historical, heritage and tourism aspects, the government designates specific areas with high growth potential as "New Town Development Areas".

B. Development Plan Preparation: A dedicated New Town Development Authority has been constituted for Hosur Development area. This authority prepares the Development Plan with technical assistance from the Directorate of Town and Country Planning (DTCP).

C. Public Participation: Similar to master plans, public hearings and feedback collection are conducted to ensure stakeholder involvement.

D. Approval Process: The draft Development Plan is submitted to the State Level Committee for approval, followed by the government's final sanction.

The URDPFI 2015 guidelines describes the Development Plan in the following manner:

- The objective of the Development Plan is to provide further necessary details and intended actions in the form of strategies and physical proposals for various policies given in the perspective plan and regional plan depending upon the economic and social needs and aspirations of the people, available resources, and priorities.

- Proposals of a Development Plan should be definite and supported by an implementation strategy and evaluation criteria.

- The time frame of these plans is generally valid over 20-30 years and should be planned in phases of 5 years, for periodic reviews.

Furthermore, the Development Plan aims to pinpoint areas in need of preservation and conservation, focusing on regions of ecological significance, natural beauty and landscapes. It also includes safeguarding sites, buildings, or locations of historical, architectural, scientific interest, and environmental importance.

Verified RealEstate™

1.1.2 Need for the Development Plan

- Over recent decades, urban regions in Tamil Nadu, as in other places, have expanded in both scope and complexity, becoming increasingly difficult to manage. This growth underscores the need for a strategy to inclusively plan, regulate, and oversee urban development. More than ever, the environmental consequences of urbanization require thorough examination. The Town and Country Planning Act, 1971, facilitates the creation and execution of New Town Development Plans for urban locales, aiming to improve conditions in these areas and promote their development in a safe, healthy, and sustainable manner.
- Hosur city has been witnessing rapid urbanization in the last two decades. This is due to salubrious weather, employment opportunities, growth of industrial estates and good connectivity. It serves as a satellite town for the electronic city, Bengaluru.
- The objective of the Development Plan is to transform Hosur city into an industrial and floricultural hub in Tamil Nadu. So, it is important to define how this growing urban settlement can responsibly steward and co-exist with the surroundings.

1.2 Development Plan for Hosur Development Area

The Directorate of Town and Country Planning (DTCP), Government of Tamil Nadu (GoTN) has taken up Development Plan preparation of Hosur Development Area. Hosur was constituted as a selection grade town panchayat in 1962. It was upgraded to second grade municipality in G.O.Ms.No.5 Municipal Administration and Water Supply Department, dated 07.01.1992. In 1998, Hosur was upgraded to selection grade municipality. Later, town panchayat Mathigiri and village panchayats Avalapalli, Chennathur, Mukondapalli (including Motham Agraharam) and Zuzuvadi (including Santhapuram and Anumepalli Agraharam) were included in Hosur and upgraded into selection grade municipality as per G.O.Ms.No:262 Municipal Administration and Water Supply Department dated 25.10.2010, as shown in the Figure

Figure 1 : Hosur with Expanded Area

Verified © PenEtqs

Then, Hosur selection grade municipality was upgraded to special grade municipality as per G.O.Ms.No.62 Municipal Administration and Water Supply Department, dated.25.06.2012. Later, Hosur municipality was upgraded as municipal corporation as per G.O.Ms. No.40, Municipal Administration and Water Supply Department, dated.28.02.2019. It covers an area of 60.86 Sq.km.

The Development Plan was formulated for only the critically urbanizable area comprising Hosur town and its contiguous areas, Mathigiri, Achettipalli, Chennathur, Nalligabetta Agraharam, Mukondapalli, Moranapalli, Motham Agraharam, Onnalvadi, Rangapanditta Agraharam, Santhapuram Agraharam and Zuzuvadi embracing an area of 94.10 Sq.km and Gazetted on 23.05.1984. This plan is named Hosur New Town Development Plan. The extent of the villages is given in Annexure I.

Later, with urbanization and industrialization expanding into adjacent villages of Hosur Development Area, the second Development Plan was prepared for Hosur, Mathigiri and 55 villages with an extent of 292.01 Sq.km. This Development Planwas consented by Government on 17.12.2002. The list of villages with their extent is given in Annexure-II.

With the urban sprawl further extending into peripheral areas of Hosur town, additionally 73 villages with an extent of 442.06 Sq.km were added to the existing area. Thus, a total of 734.07 Sq.km was delineated and notified on 29.05.2017 for preparation of New Town Development Plan. The growth history of Development Plan area is shown in Map below.

The constituted Hosur Development Area [HDA] comprises of Hosur Corporation area [including Hosur Town and 8 villages], Kelamangalam Town Panchayat and 120 villages. This Development Planwas consented u/s 24 of T&CP act 1971 by Govt vide G.O ms No.205 H&UD dated 18.11.2022 and published in TN Govt gazette on 21.12.2022. The list of villages with their extent is given in Annexure-III.

Map 1 : Chronology of Development Activities

1.3 Preparation of the Draft Development Plan 2021-2046

The Directorate of Town & Country Planning (DTCP), Government of Tamil Nadu (GoTN) has tasked with preparing a Development Plan for Hosur DA along with the other towns in the state.

1.3.1 Existing Land Use Preparation

The DTCP (Department of Town and Country Planning) prepared the Existing Land Use Map for the Hosur Planning Area, adhering to the Guidelines. High-resolution satellite images from the National Remote Sensing Agency (NRSC) were utilised for this purpose. Additionally, village maps containing survey numbers, sourced from the Survey and Land Records department, were employed by the IGC (Integrated Geo-Information Consultants) to establish the cadastral framework. Differential Global Positioning System (DGPS) surveys were conducted to enhance accuracy to collect Ground Control Points (GCPs). These GCPs facilitated the georeferencing of scanned paper maps, a task also undertaken by the IGC. The survey boundaries were digitized as polygon features in the GIS database, and relevant details such as village names and survey numbers were incorporated into the dataset by the IGC.

Satellite data acquisition & Ground truthing - High-resolution satellite images were obtained from the National Remote Sensing Centre (NRSC) of ISRO. NRSC initially generated a preliminary land use map based on these satellite images. Subsequently, ground truth verification was conducted to verify the accuracy of the land use map.

GIS survey & Geo Referencing – The cadastral framework was established using village maps containing survey numbers obtained from the Survey and Land Records department. To enhance georeferencing accuracy, Differential Global Positioning System (DGPS) surveys were conducted to collect Ground Control Points (GCPs) for scanned paper maps. Subsequently, the survey boundaries were digitized and incorporated as polygon features in the GIS database, including details such as the village name and survey number.

Quality Checking and Vetting – The Indian Geoinformatics Centre (IGC) conducts a thorough quality assessment and verification process for the GIS data, focusing on both topological integrity and attribute accuracy. Given the diverse origins, timeframes, and scales of the map data, it is crucial to individually examine each layer and conduct cross-comparisons.

Preparation of Base Map - For the creation of the Base map, the Digital Terrain Model (DTM of SRTM) is utilized by IGC to delineate terrain features and contours. This map highlights the physical characteristics of the Development Area, including topography, rivers, streams, and tanks, providing a comprehensive view of the area's natural landscape in Hosur Planning Area.

Verified CReDAI TM

1.3.2 Vision Document

The primary goal of this visioning exercise was to conduct a thorough analysis of the Planning Area's multifaceted dimensions—its socio-economic dynamics, environmental concerns, housing scenarios, mobility challenges, and more. From these discussions, the aim was to distil a unified vision for the future of the Hosur Planning Area, a vision that would guide the area's development over the next two decades.

This ambitious endeavour sought not only to outline potential policy reforms that would pave the way for realizing this vision but also to explore alternative strategies and methodologies that could contribute to its achievement. It involves the crafting of a vision statement, a collective aspiration for Hosur, which was later validated through a comprehensive survey, marking the next phase in this participatory planning process.

1.3.3 Data Collection

During this stage, the following activities were undertaken:

A. **Primary Data Collection** – Detailed reconnaissance survey was conducted to understand the land use pattern and the present condition of the waterbodies.

B. **Secondary Data Collection** - Secondary data was requested and obtained from various government departments. Secondary data from various other sources were collected, for example, list of functional quarries, etc.

1.3.4 Issues, Potential, Projected Requirements & Draft Proposals

Based on the analysed data, the various discussions with the local community and as per the outcome of the stakeholder meeting held, a set of issues and potentials were identified. The current requirements were cross verified with various standards like URDPFI, Service Level Benchmarks, Environmental Parameters, etc. and the proposals were prepared accordingly. These were presented for discussion for further development.

1.4 Vision Formulation

Hosur will be a dynamic centre creating a strong link between the states – Tamil Nadu and Karnataka. It evolved as an industrial town which is also in a location to support the housing demand of its local and other industries in the proximity. Considering the rich prospects in industries and floriculture, the DEVELOPMENT PLAN 2046 has been formulated for the planning area with the following vision, goals and objectives.

1.4.1 Vision – 2046

The vision is to transform Hosur into a thriving and vibrant economic hub, fostering connections between Tamil Nadu and Karnataka.

Verified by BeIES

The goals that will be pursued over the plan period are as follows:

Goal–1: Establish Hosur as a prominent industrial and commercial centre in the region

A. Harnessing agricultural and mining potential

B. Attract industries and businesses by creating a favourable investment environment and infrastructure services.

Goal-2: Enhance Hosur's connectivity and accessibility

A. Improve existing transportation links between Hosur and other major cities in Tamil Nadu and Karnataka.

B. Explore and implement other modes of transportation, such as improved public transport infrastructure or even potential high-speed rail connections.

C. Facilitate seamless flow of goods and services.

Goal-3: Fostering an inclusive & Vibrant community

A. Create a well-planned and inclusive urban environment with access to quality housing, education, healthcare, and recreational facilities.

B. Prioritize green infrastructure development, including parks, green spaces, and sustainable urban drainage systems.

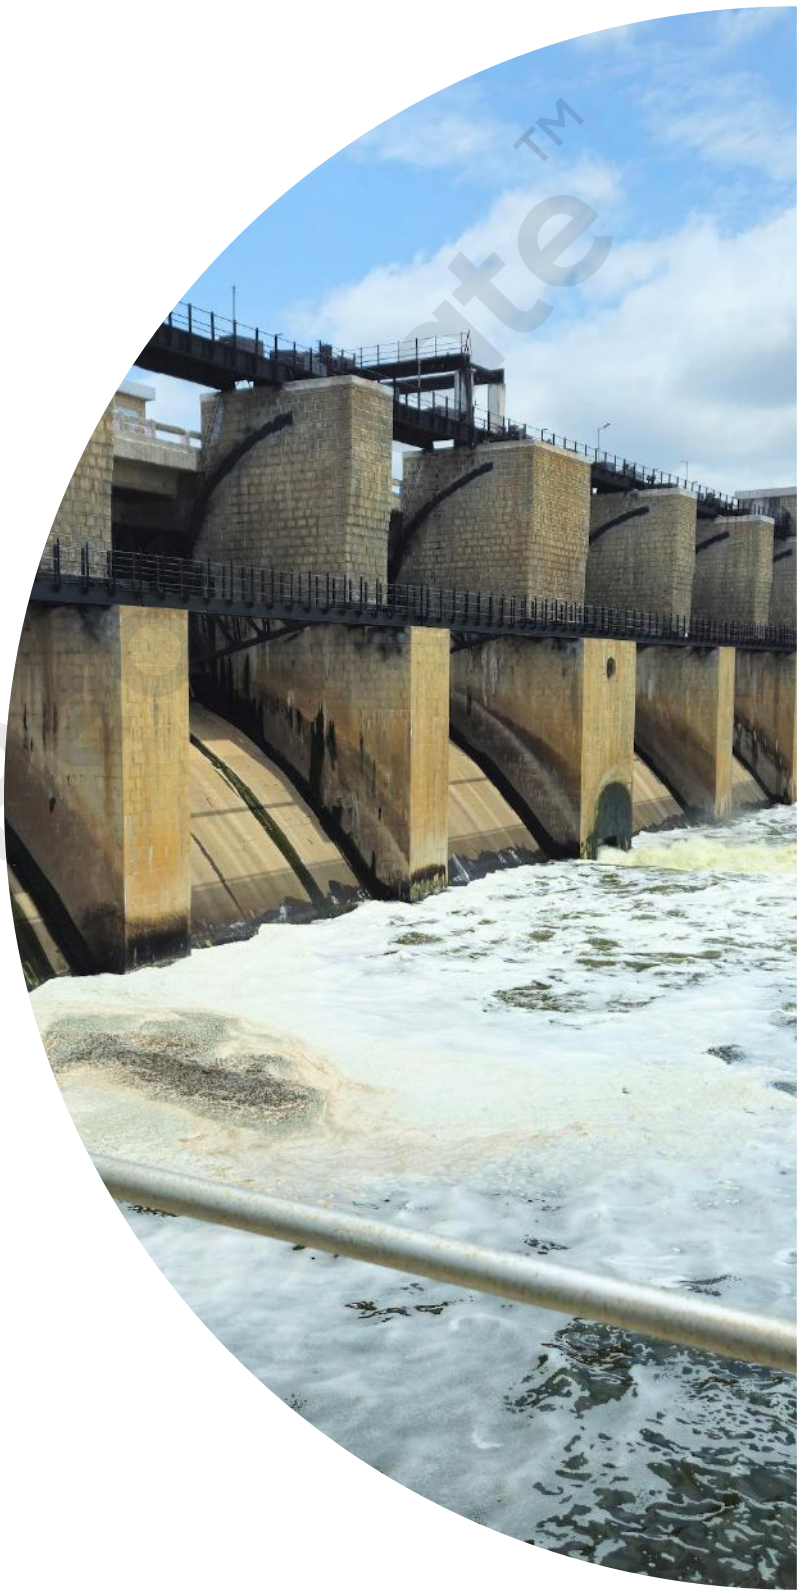

C. Conservation of ecosystem and bio diversity.

1.4.2 Objectives for 2046

The vision and goals will be achieved through the following objectives:

- Effective utilization of natural resources such as granite and rough stones, creating capital and infrastructures for floriculture business and improving the connectivity for boosting the economy.
- Providing housing for all sectors of society and creation of physical infrastructure facilities such as water, drainage and management of solid waste and creation of health and educational facilities.
- Setting apart land for development of industrial estates, availability of credit facilities and water supply.
- Reducing pollution in the realms of air, water, land and sound to appropriate measure through the increase of green belt, conservation of water bodies such as rivers, lakes and ponds, improving ground water recharge through rain water harvesting and measures for protection of wild life.

02

HOSUR DEVELOPMENT AREA PROFILE

Verified RealEstate™

2.1 Overview

Hosur town is located in the north western part of Krishnagiri district in Tamil Nadu. It stretches between Latitude 12°43' N and Longitude 77°49' E. The average elevation of Hosur town is 880m above mean sea level.

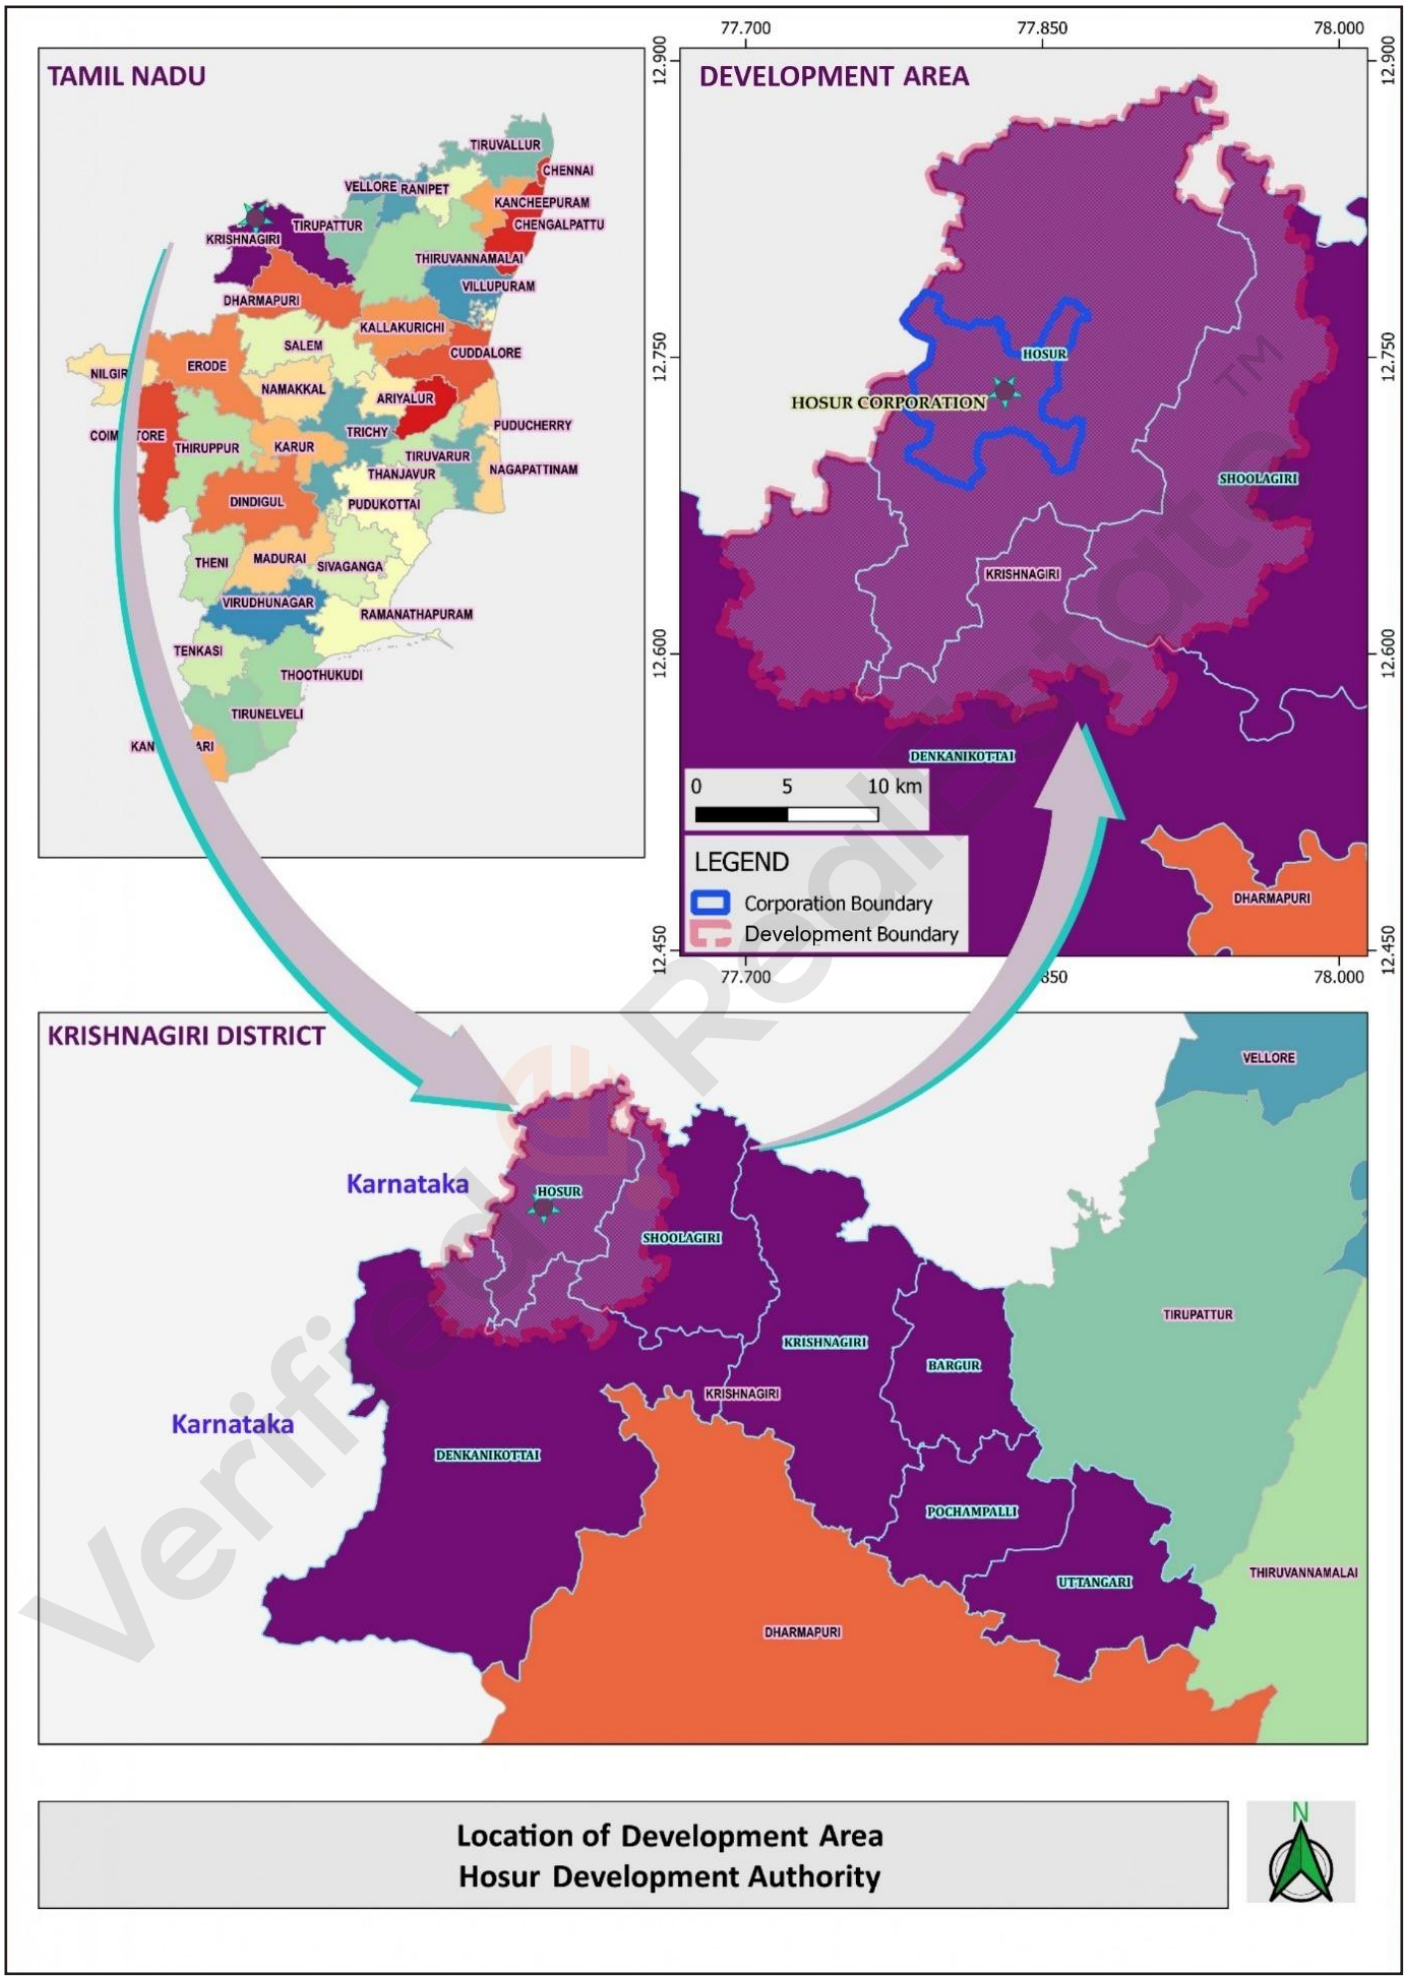

Hosur was under Hoysala's dynasty during 1200 AD. It was known as 'Chevidapadi' in the 10th century and Murasu Nadu during the Chola period in the 13th century. From 16th century onwards it came to be known as Hosur. The Chandrachoodeshwara Swamy Temple, an 11th-century temple, has inscriptions that highlight the contributions made by Hoysalas.

It is an industrial city which serves as a satellite town for the electronic city, Bengaluru and it is one of the 21 municipal corporations in Tamil Nadu. It is located on the bank of the river Ponnaiyar and bounded by Zuzuvadi and Avalapalli village on the north and northeast, Chennathur village on the East, Rangapanditta Agraharam on the South and Mathigiri and Mukondapalli on the southwest and west.

The population in Hosur town area has been increasing since 1991. It increased from 84,394 in 2001 to 1,16,821 in 2011 with growth rate of 38.42 percentage. The density of Hosur town is 11,521 people per sq.km. The sex ratio stands as 968.

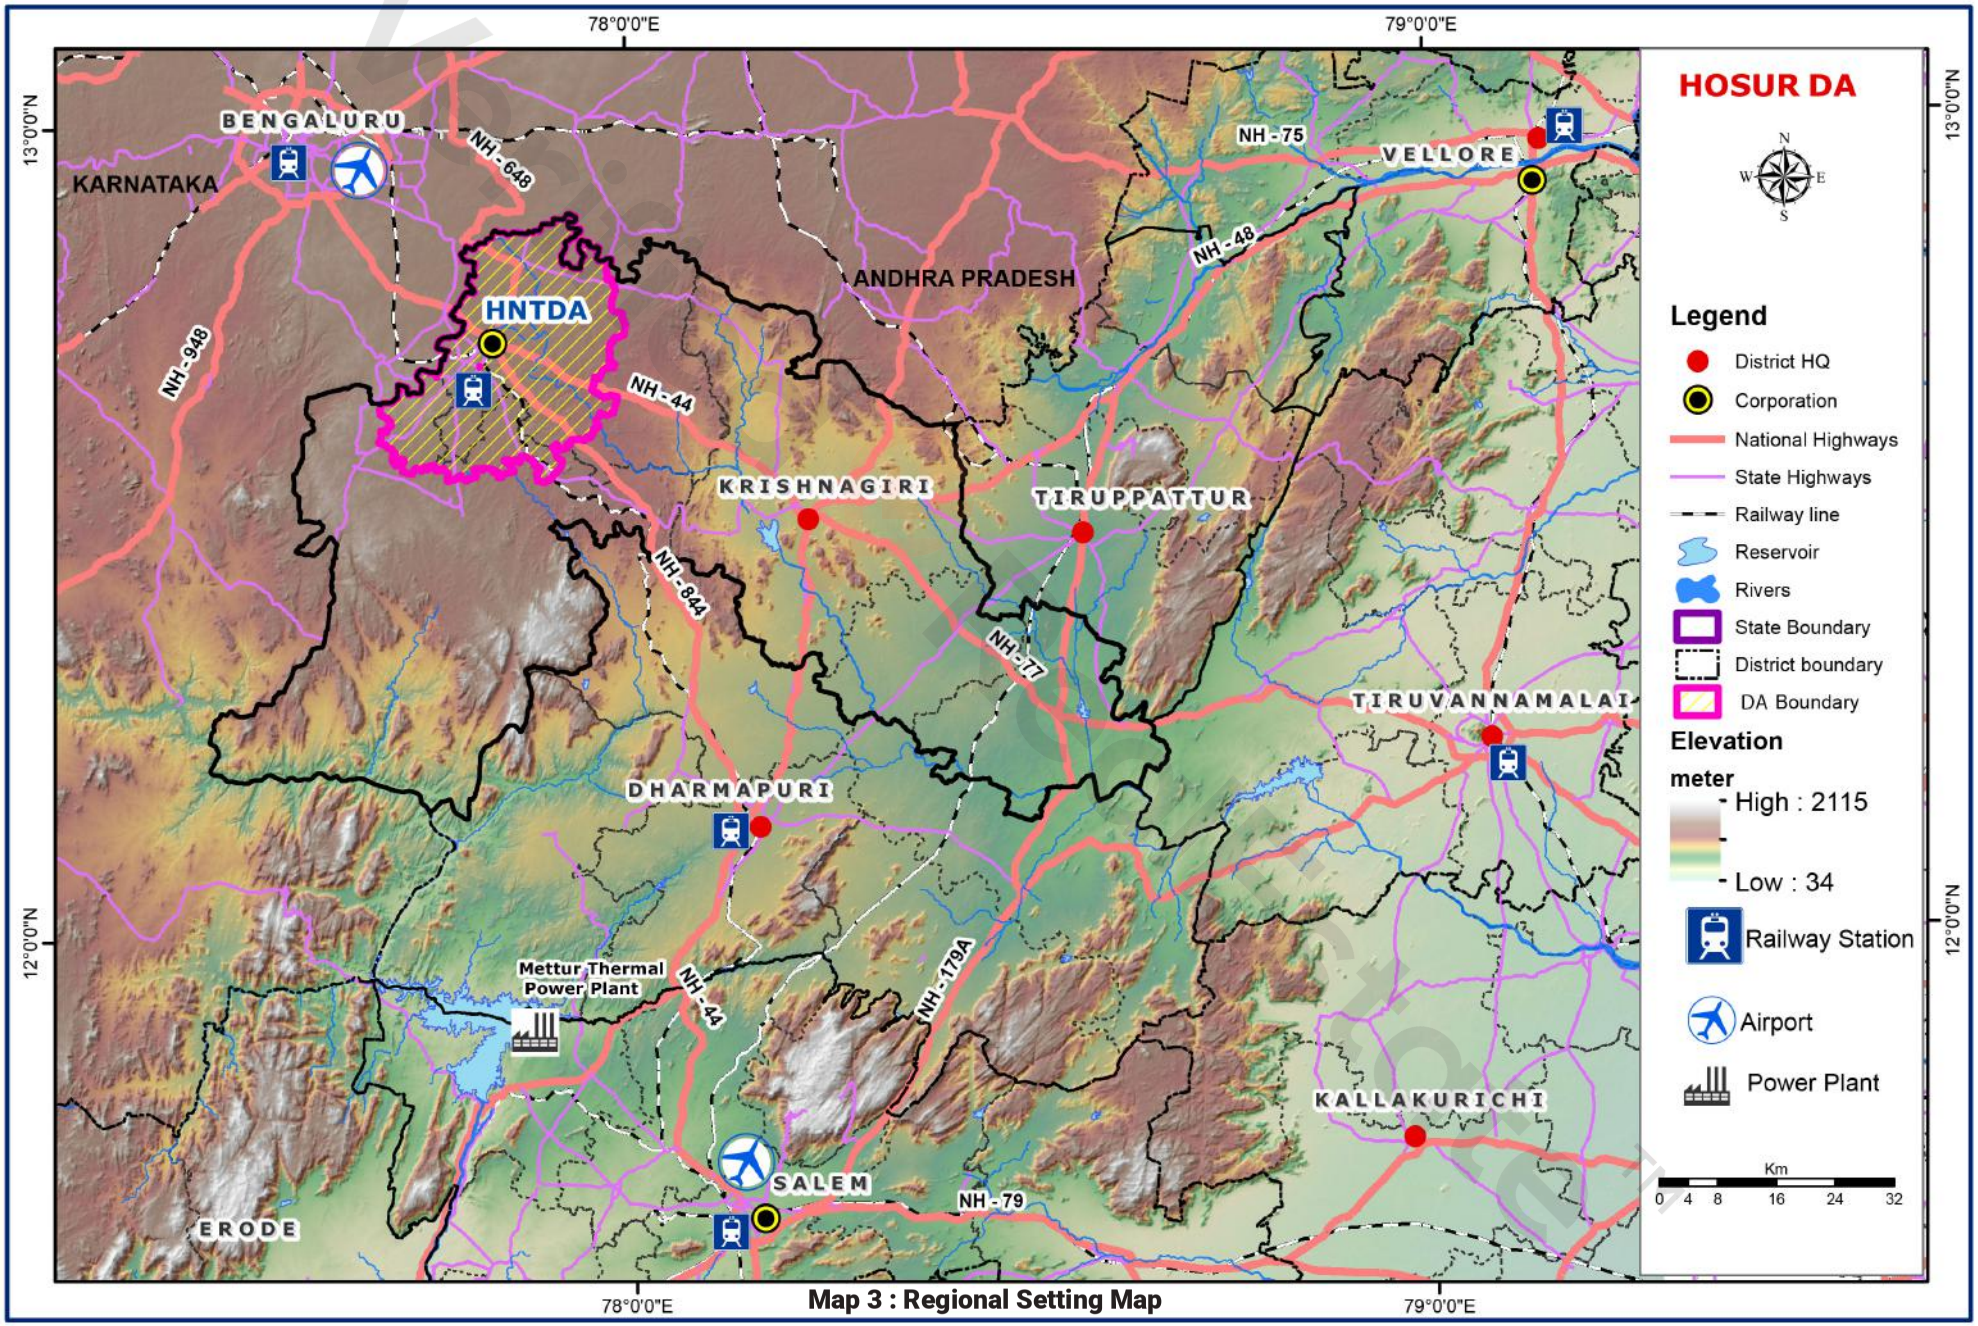

Hosur and its contiguous towns and villages witnessed increasing urbanization due to a spectrum of factors such as salubrious weather, good connectivity, availability of skilled and unskilled human resources, and growth of industries. In order to promote urban growth in a strategic direction, Hosur and its sphere of influence areas were brought under the concept of the Development Plan.

REGIONAL SETTING MAP

Map 3 : Regional Setting Map

2.2 Historical Background of Hosur

Hosur, a bustling industrial town in Tamil Nadu, boasts a rich history dating back centuries. Its journey unfolds through various rulers, architectural marvels, and a transformation into a modern industrial hub.

Pre-Colonial Era:

A. **3rd Century BC - 3rd Century AD:** The earliest inhabitants of the region were likely tribals associated with the megalithic culture, as evidenced by archaeological findings.

11th - 13th Century AD: The Cholas ruled the region, and Hosur was known as Muras Nadu.

13th - 14th Century AD: The Hoysalas established their dominance, leaving behind the magnificent Chandrachoodeshwara Swamy Temple as a legacy.

B. **Medieval Period:**

14th - 16th Century AD: The Vijayanagara Empire incorporated Hosur into its vast territories.

16th - 18th Century AD: The region witnessed the rise of the Nayaka chieftains, followed by the Kingdom of Mysore under Hyder Ali and Tipu Sultan.

C. **Colonial Era:**

1792: The Battle of Pollilur during the Third Anglo-Mysore War marked a turning point, with the British East India Company gaining control of Hosur.

1801: Hosur became part of the Madras Presidency under British rule.

19th Century: The town gained prominence as a military station and administrative center. Walton Iliett Lockardt, the Salem collector, played a crucial role in establishing Hosur as the district headquarters.

D. **Post-Independence and Industrialization:**

1947: India gained independence, and Hosur became part of the newly formed state of Madras (later Tamil Nadu).

1980s: The most dramatic transformation began with the establishment of SIPCOT (State Industries Promotion Corporation of Tamil Nadu) that marked a significant shift towards industrialization. Hosur's strategic location, infrastructure development, and supportive government policies attracted numerous automobiles and manufacturing companies, transforming it into a major industrial hub.

Verified © RealEstate™

2.3 Settlement Pattern

Hosur's journey as an industrial powerhouse began in 1972 with a pivotal decision by the Tamil Nadu government. Recognizing its strategic location and potential for growth, the government chose Hosur to become a hub for industries, aiming to infuse growth in the Krishnagiri district.

This decision marked a turning point for Hosur, which had historically been linked to floriculture and horticulture. With the influx of industries, the town began to transform, emerging as a centre for electronics and automobile manufacturing.

Strategic infrastructure played a crucial role in this transformation. Hosur's proximity to Bangalore and its location along NH 44 (connecting Chennai to Bangalore and Salem) provided excellent connectivity and accessibility. This, coupled with the development of NH 207 (connecting Krishnagiri to Dharmapuri), further fueled urban and industrial growth.

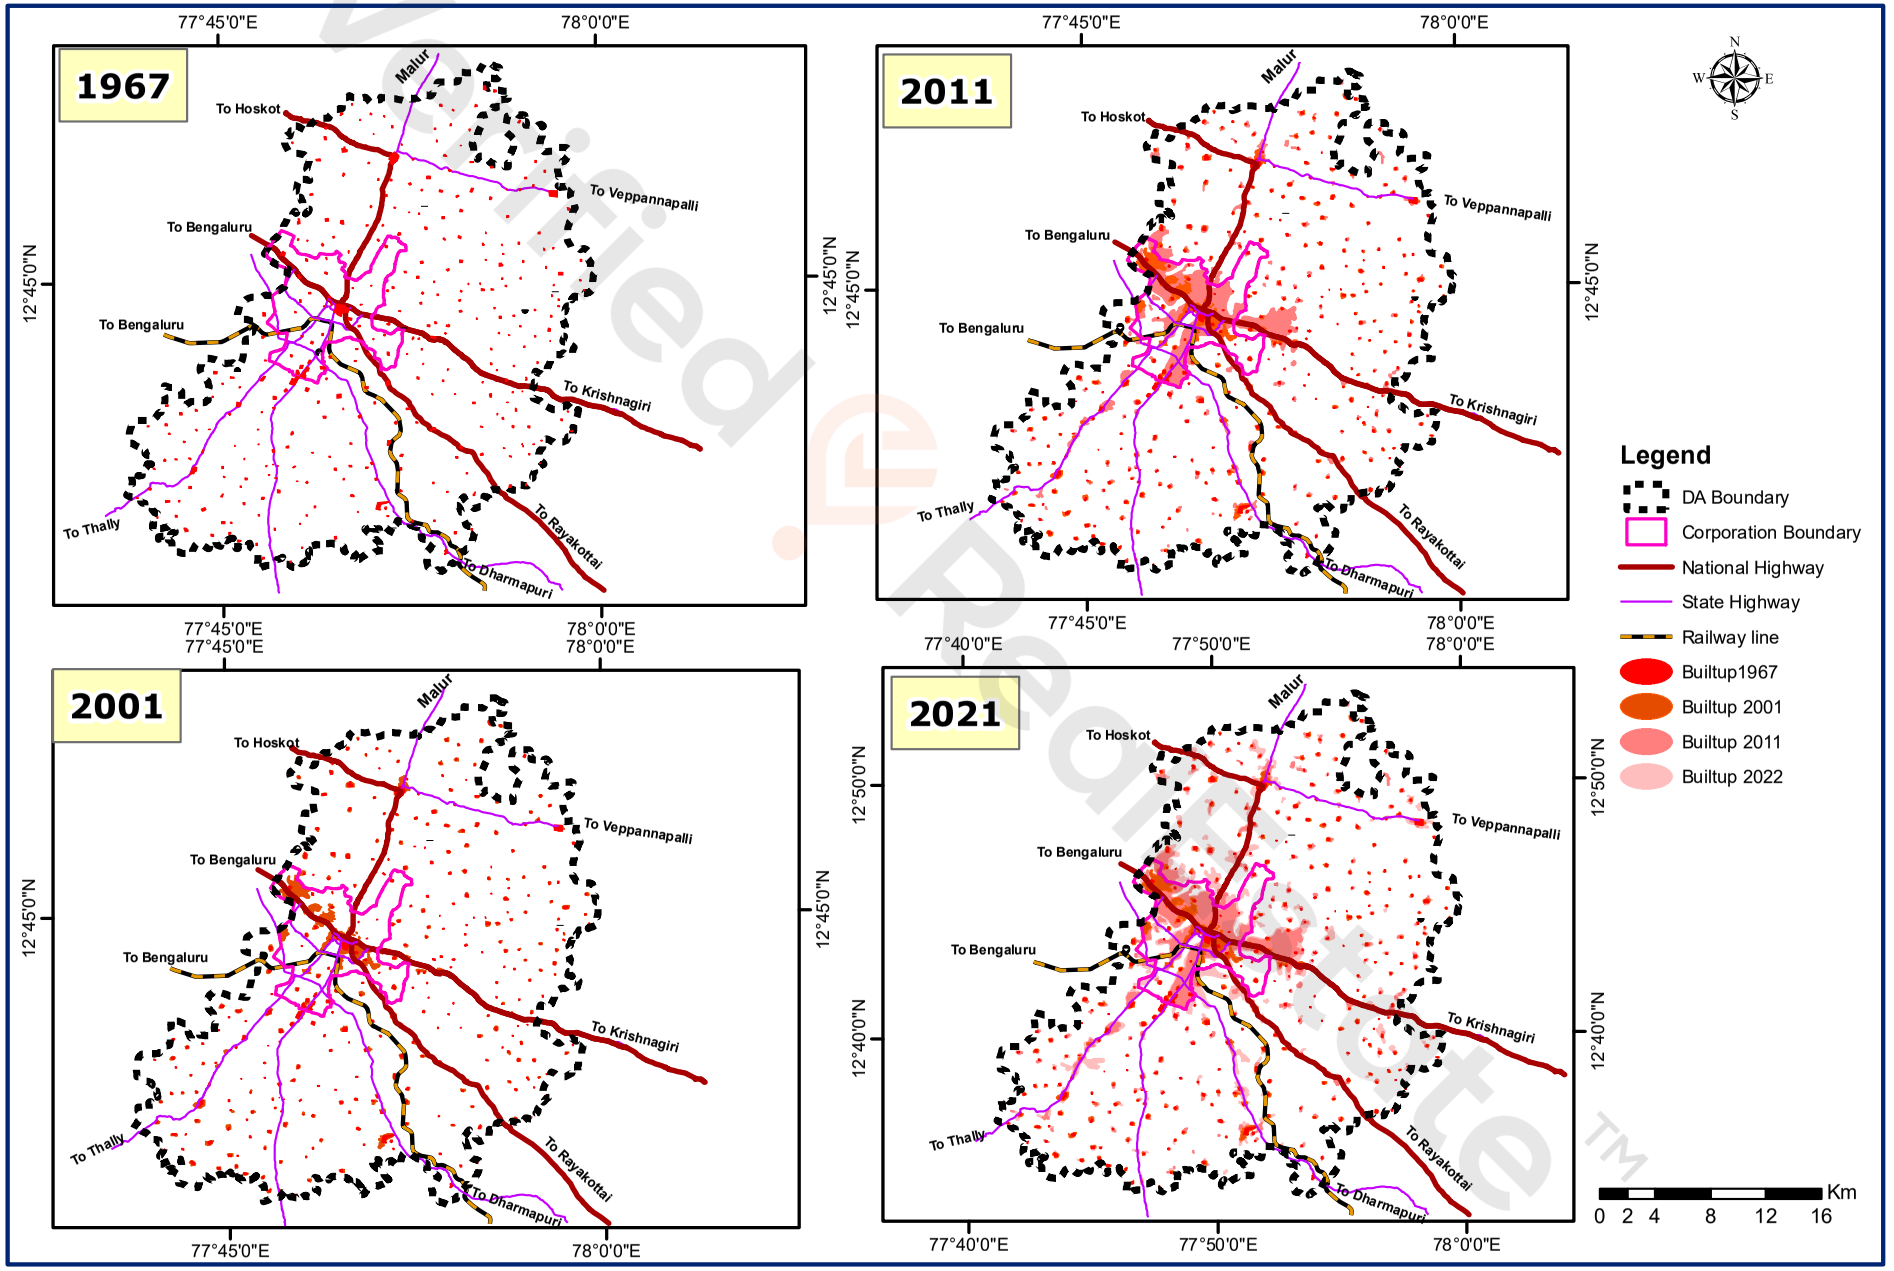

Initially, development expanded along NH 44, both towards Bangalore in the west and Krishnagiri in the east. However, sporadic development was also observed along other major road networks, indicating a decentralized growth pattern. The state border also witnessed significant growth, likely due to its proximity to neighbouring industrial areas.

In essence, Hosur's remarkable rise can be attributed to a combination of factors:

- **Government vision:** The deliberate decision to establish industries in Hosur laid the foundation for its transformation.
- **Strategic location**: Proximity to Bangalore and key national highways provided excellent connectivity and accessibility.
- **Infrastructure development**: The development of NH 44 and NH 207 played a vital role in facilitating industrial growth.

HOSUR NTDA - SETTLEMENT PATTERN MAP

Map 4 : Settlement Pattern – Hosur Development Area

2.4 Administrative Boundary

Hosur Development Area (here in after referred as the planning area) comprises Hosur corporation, Kelamangalam town panchayat and 120 revenue villages. Geologically, the terrain of the planning area comprises rocks 4,600 million years old. They are denuded and the terrain is mostly undulated. The geographical location of the planning area is shown in Map.

The planning area is bounded on the north and northwest by Karnataka, on the east by Shoolagiri taluk and on the south by Denkanikottai taluk. Hosur town and northern part of planning area are located in the elevated region. The gradient flows from NW-SE. The Thenpennai River and Chinnar River flows through the planning area. The Kelavarapalli dam blocks Thenpennai River water for recharge and it flows further to Krishnagiri reservoir dam. The planning area has huge parcels of reserved forest.

As per G.O.Ms.no.257 H&UDD (dated 6.12.2022), Hosur Urban Development Authority [UDA] has been constituted with a total area of 1071.79 Sq.Km with additional 39 villages in Denkanikotta taluk. The list of additional villages and administrative boundary map of UDA is given below.

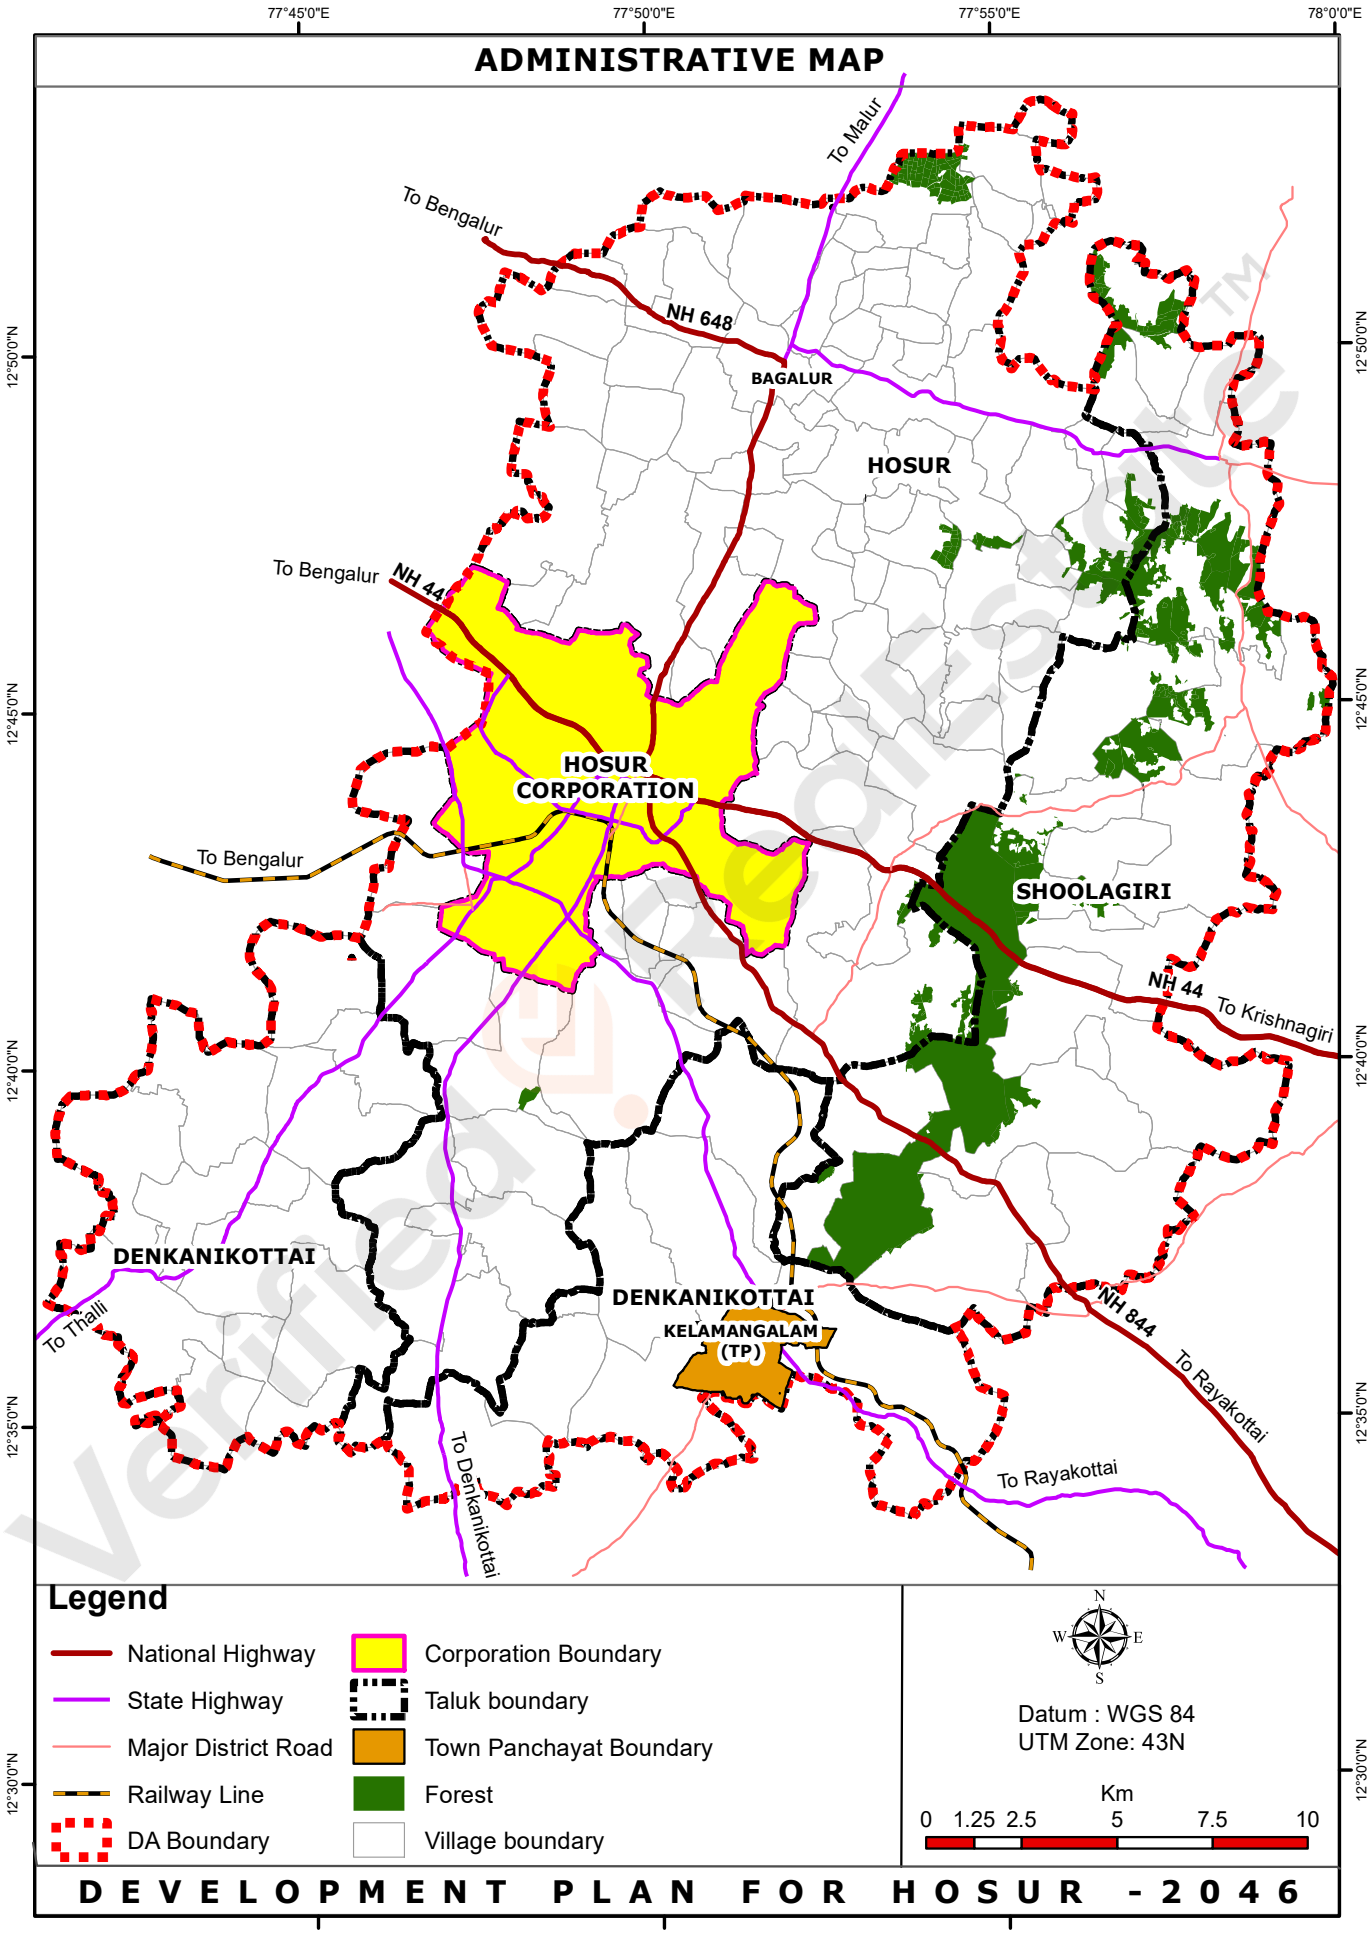

Industries ranging from small scale, medium and large scale are concentrated in the planning area. The area is known for quarrying of black and multicoloured granites. The polished granites are marketed in European countries, Australia and United States of America. Hosur town is located at the junction of Golden Quadrilateral Corridor and has an excellent connectivity with the neighbouring towns and cities as shown in the Map below.

2.5 Physical Features

2.5.1 Climate

Hosur experiences distinct wet and dry season of moderate climate throughout the year, with occasional heat waves. The summer heat is moderated by fairly frequent thunderstorms. The coolest month is January with an average low temperature of 17.1°C and the hottest month is May with an average high temperature of 33.6°C. The average humidity is 31%. The month with the highest relative humidity is October (77.17 %). The month with the lowest relative humidity is March (43.75 %).

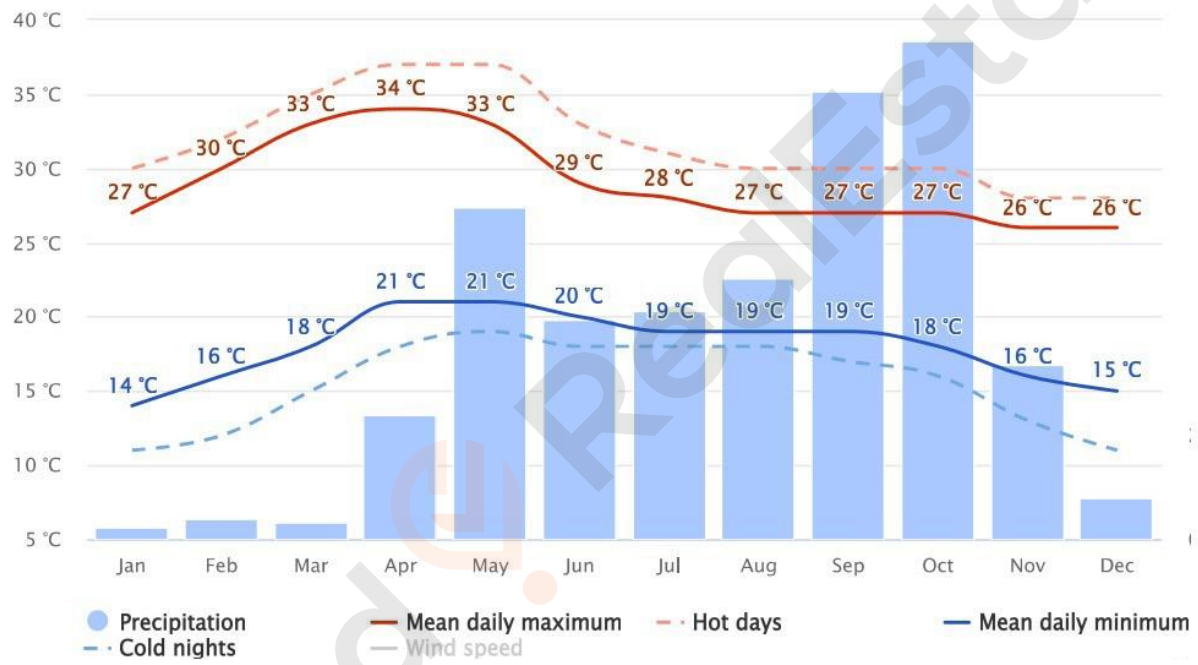

Figure 2 : Average Temperature & Precipitation - Planning Area

The “mean daily maximum” (solid red line) shows the maximum temperature of an average day for every month for Hosur. Likewise, “mean daily minimum” (solid blue line) shows the average minimum temperature. Hot days and cold nights (dashed red and blue lines) show the average of the hottest day and coldest night of each month.

Hosur and its hinterland receives maximum rainfall during the north east monsoon is from October to November. The total rainfall received during 2021 is 1130mm against the normal rainfall of 842mm

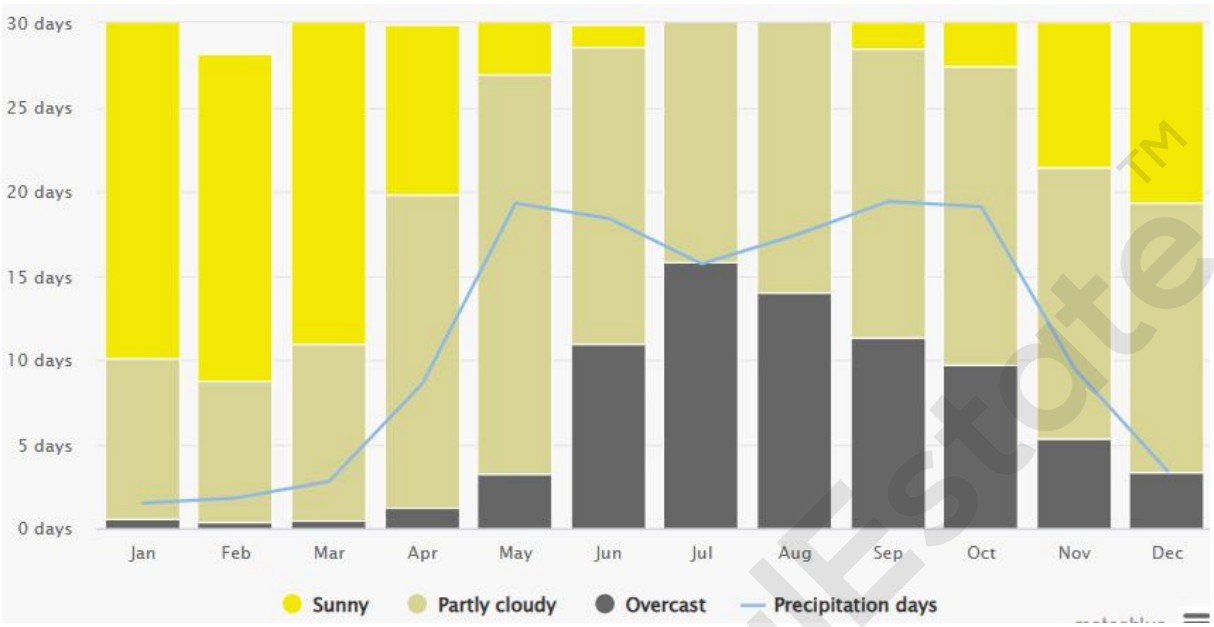

Figure 3 : Cloud, Sunny & Precipitation days - Planning Area

The graph shows the monthly number of sunny, partly cloudy, overcast and precipitation days. Days with less than 20% cloud cover are considered as sunny, with 20-80% cloud cover as partly cloudy and with more than 80% as overcast.

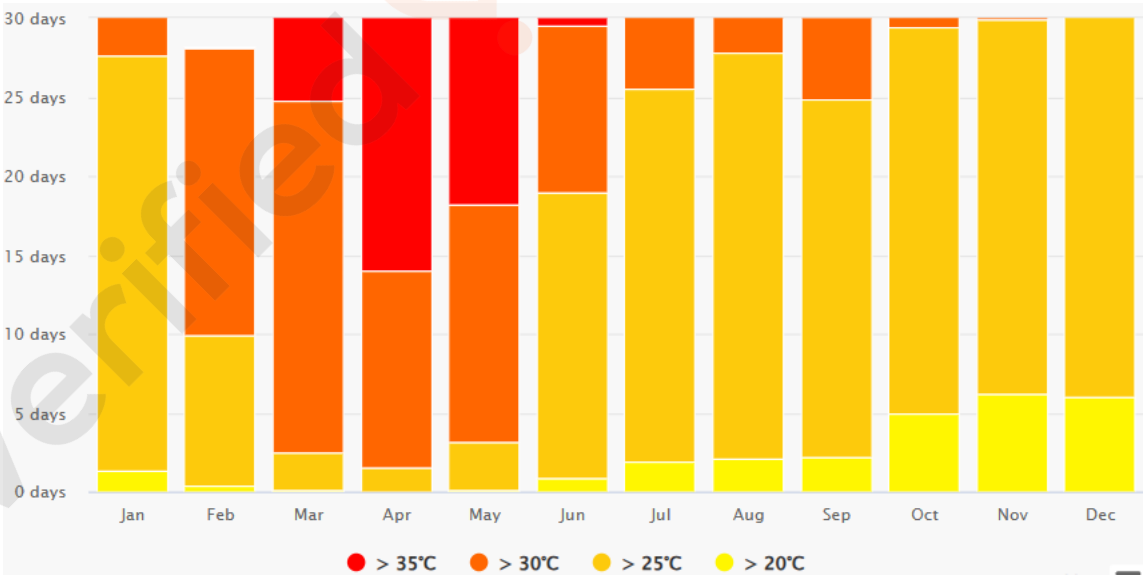

Figure 4 : Maximum Temperatures - Planning AreaThe graph shows

The maximum temperature diagram, shown above for Hosur, displays how many days per month reach certain temperatures. Months of April and May record the highest number of days with temperatures ranging from 30 degree Celsius and more.

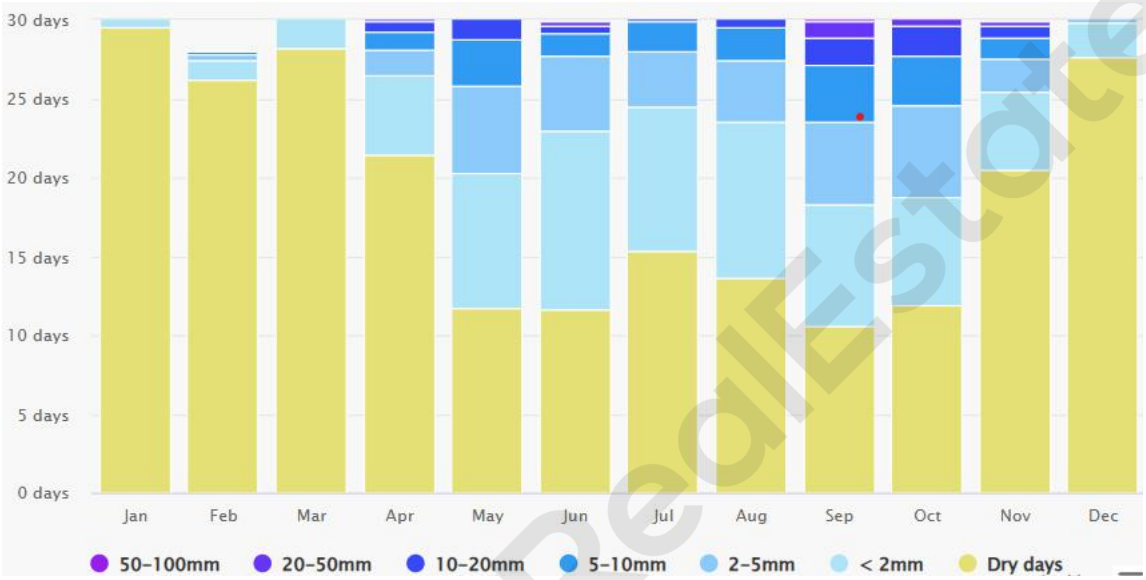

Figure 5 : Average precipitation for Planning Area - Month wise

The precipitation diagram for Hosur DA [above] shows on how many days per month, certain precipitation amounts are reached. It is observed that substantial precipitation is observed in the months of May & June as torrential showers and in September and October due to the N-E monsoon.

The diagram for Hosur DA shows the days per month, during which the wind reaches a certain speed. The wind rose for Hosur shows how many hours per year the wind blows from the indicated direction.

Planning area lies in an undulated terrain and located in elevated position on this district compared to other parts of district. The geomorphology of region is denudation like land form with buried pediments and slightly aged hills with wedge top. The gradient flows from northwest to southeast. The average elevation of this region is 880 m above mean sea level. It is shown in the Map.

2.5.2 Blue Assets

Water conservation is the most important strategy for water planning and management for the future decades. Planning water conservation can help reduce per capita demand. The success of conservation measures depends on public support and behaviour change. Public water conservation campaigns shall raise awareness in all levels of society about the importance of saving water to cope with its scarcity and ensure sustainability. The aim is to change citizen attitudes and behaviour to improve water use efficiency.

The rivers that flows across planning area is Thenpennai river for a length of 41.79 km and Chinnar river for a length of 13.70 km. Wells are the major source of irrigation, supplemented by tanks and canals. Kelavarapalli reservoir is situated near Hosur Corporation. Thenpennai River carries water to this reservoir.

THENPENNAI RIVER

Thenpennai River also known as South Pennar or DakshinaPinakini is an interstate River originating on the south eastern slopes of Chennakesava Hills, northwest of Nandidurg of Chikaballapur district in Karnataka State at an altitude of 1000m above mean sea level. It flows in the southern direction through Chikkaballapura, Bengaluru Rural and Bengaluru Urban districts in Karnataka state and descends to Tamilnadu near Hosur.

Thenpennai river basin is one of the largest in the state of Tamil Nadu. The river has supported many a civilization of peninsular India in supplying precious water for drinking, irrigation and industry to the people of the states of Karnataka, Tamil Nadu and Pondicherry. The total length of Ponnaiyar River is 432 km, of which 112 km lies in Karnataka state, 180 km in Dharmapuri and Krishnagiri, 34 km in Thiruvannamalai and 106 km in Cuddalore, Kallakurichi and Villupuram districts of Tamil Nadu before joining Bay of Bengal. En route, its tributaries are Chinnar, Markandeyanahi, Vaniar and Pamban rivers in Tamilnadu. With a total catchment of approximately 16,019 km², it is dry for the most part of the year but swells during the north east monsoon season with its drainage basin flowing in Karnataka & Tamilnadu.

Since Thenpennai river is the sole water source in Krishnagiri, Tiruvannamalai and Cuddalore districts, it is being extensively dammed. As it enters Tamilnadu, the water is stored in the Kelavarapalli dam reservoir near Hosur. The surplus amount reaches the Krishnagiri dam, which is situated 60 km downstream.

Verified © RealEstate

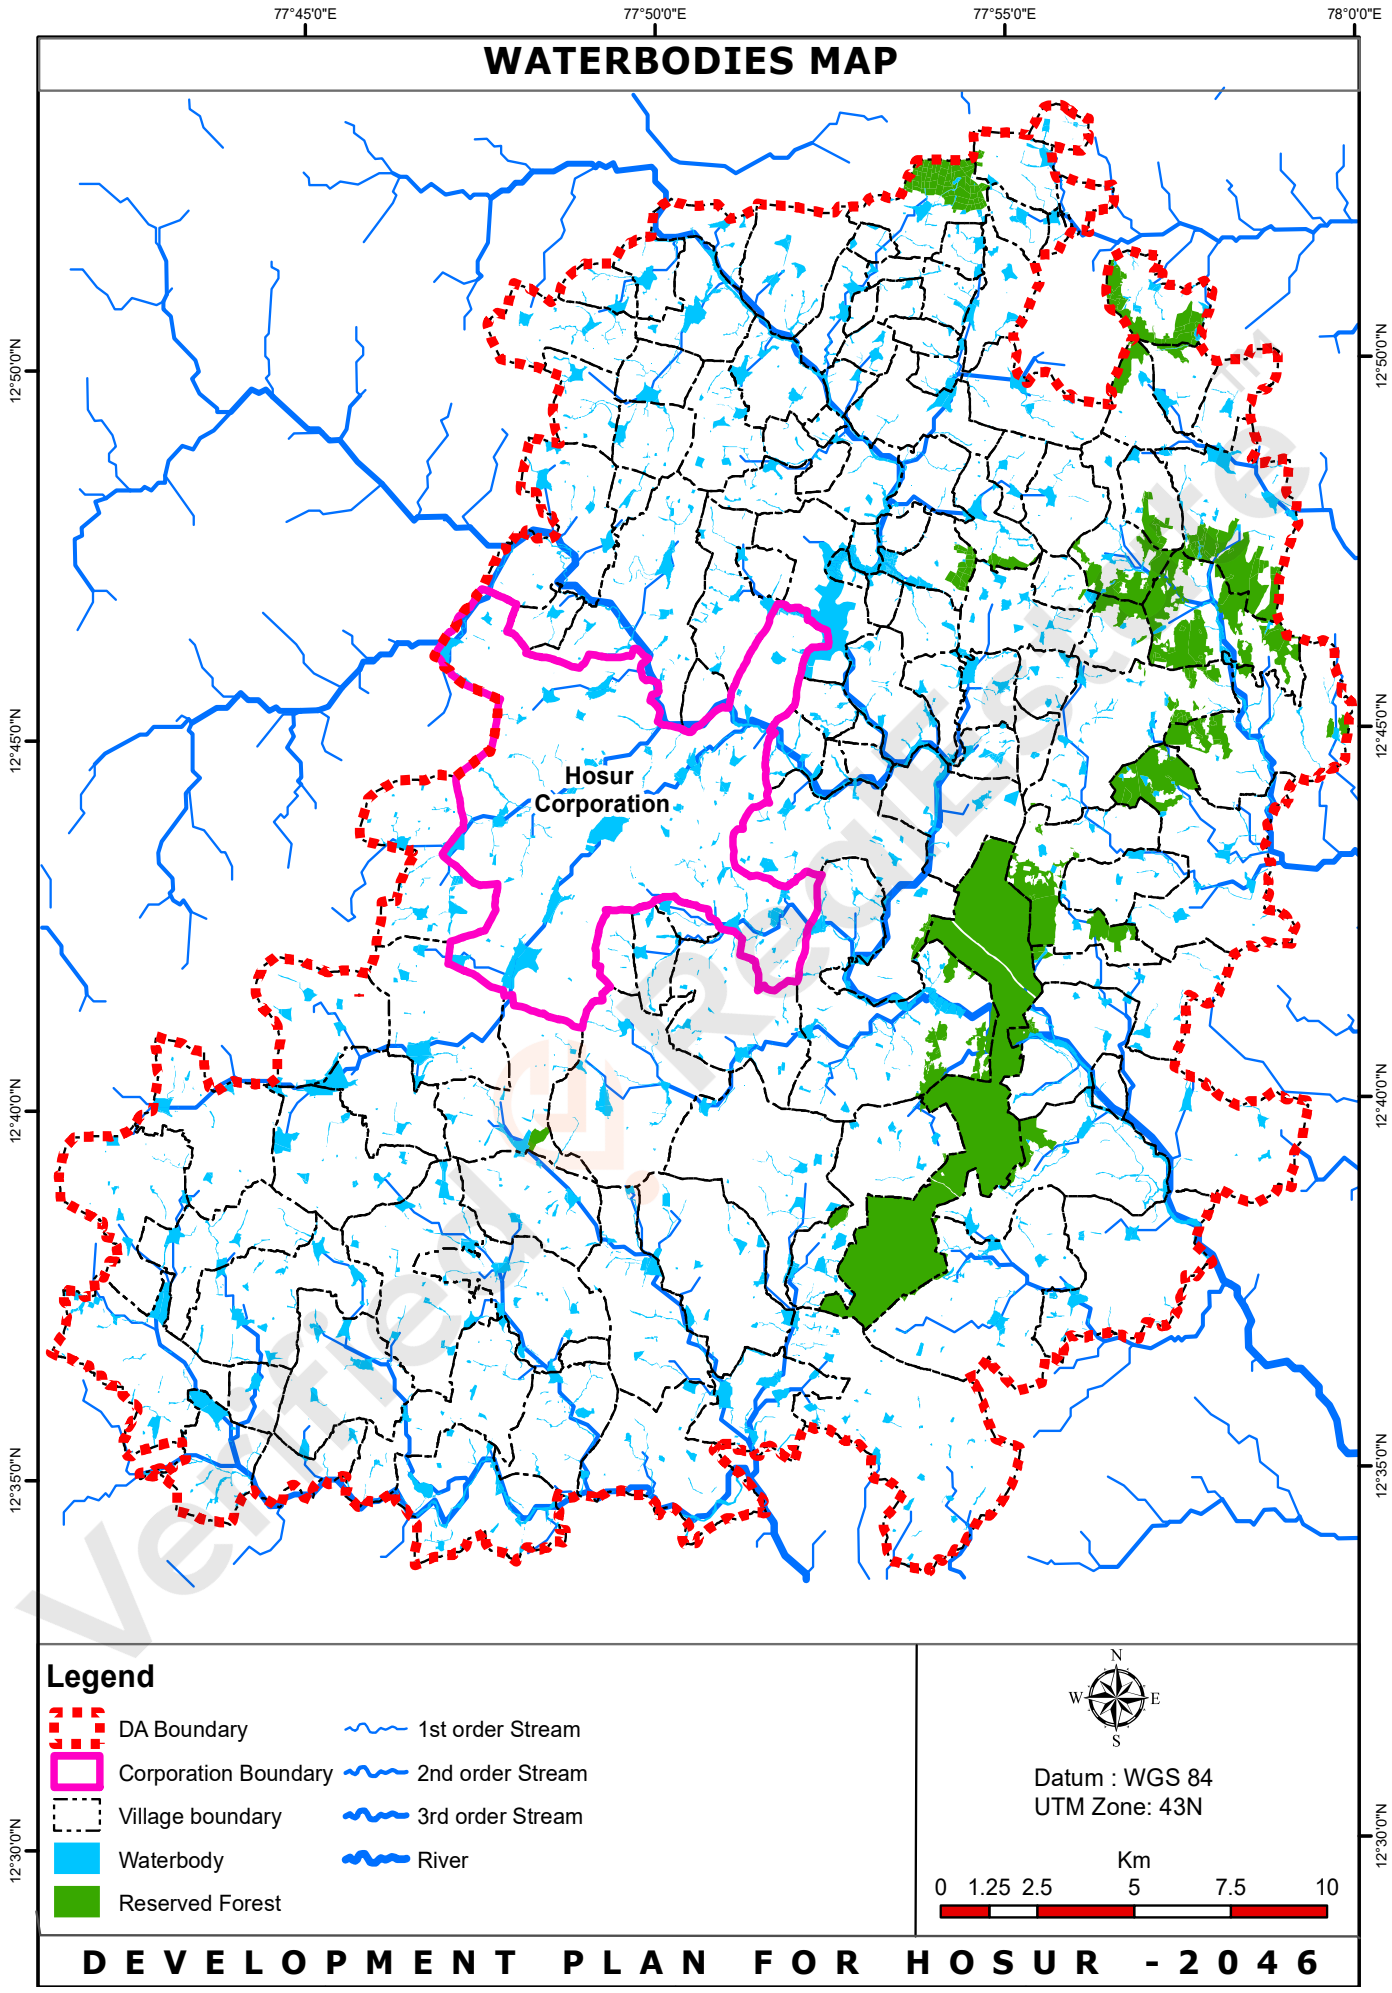

KELAVARAPALLI RESERVOIR

Kelavarapalli Reservoir Project wasbuilt in 1978-1995 atKrishnagiri district, Tamilnadu and the Reservoir or Dam is situated at a distance of 8 km from Karnataka and 10 km away from Hosur,tamilnadu across the River Thenpennai, which actually originates from the eastern slopes of Chennakesava Hills in karnataka. The dam further leads water to the districts of Dharmapuri, Tiruvannamalai, Kallakuruchi, Villupuram and Cuddalorebefore joining Bay of Bengal. The Kelavarapalli Reservoir is shown in Figure below.

The natural resources such as land, water, air and biological resources are impacted by the developments. industrialization and urbanization are polluting these natural resources. Forests, agriculture resources, mineral resources and water bodies in the planning area has to be conserved for future generation.

Verified RealEstate™

Map 11 : Existing Blue Green Infrastructure

2.5.4 Water Pollution

Thenpennai river flows across planning area for a length of 41.79 km. The river feeds Kelavarapalli dam which is contaminated mainly due to untreated and partially treated sewage from Bengaluru, solid waste dumping and mixing of domestic sewage into the river stretch flowing from Channasandra bridge to Bagalur bridge as shown in Figure. In the year 2020, Central Pollution Control Board (CPCB) declared the river as polluted. Thus, the important water source for the corporation is curtailed. CPCB has acted to mitigate water pollution by increasing Sewage Treatment Plant (STP) in Bengaluru by evicting dyeing industries along the Thenpennai River and proposed continuous effluent monitoring. During the field visit near Kodiyalam village, the frothing in water is observed. The water is dark grey in colour.

CPCB has to constantly monitor the industries and to ensure zero discharge from the industries located in the Planning area and ensure establishment of ETP (Effluent Treatment Plant) in the industries. The treated effluents are either recycled back to the process or discharged on their own land for green belt development after satisfying the standards.

Major sources of pollution to River Thenpennai appear to be from untreated/partial treated sewage from Bangalore as shown in Figure. Sewage generated from Bengaluru is the predominant reason for deterioration of lakes and water bodies in Bangalore, which is ultimately flowing into river Thenpennai. There are various reasons such as ageing of sewers, encroachment of sewers, damages in the sewerage system, crown corrosion of sewers etc. for direct discharges of a part of wastewater from housing colonies and such discharge is flowing through Storm Water Drains and enters lakes. Additionally, fertilisers used by farmers of Karnataka as well as Tamilnadu may add to the pollution of river thenpennai.

Figure 9 : Waste dumping – Bagalur bridge

Verified Draft Study

Figure 10: Pollution of Thenpennai River

2.5.5 Air Pollution

Air pollution is caused by emission from industries, vehicles and dust generated by mining of granites and rough stones. Various awareness campaigns, workshops, rallies are being conducted regularly to highlight importance of keeping the environment free from pollution. During festival seasons such as Deepavali and Bhogi, an awareness campaign is launched to reduce air and noise pollution.

Air quality shall be monitored by Tamil Nadu Pollution Control Board (TNPCB), Krishnagiri district through various measures including encouraging the use of electric vehicles.

2.5.6 Pollution due to Mining

The mining of granites, rough stone and polishing of granites are causing the air, water, land and noise pollution.

2.6 Heritage and Tourism

2.6.1 Chandrasoodeshwarar Temple

The Chandrasoodeshwarar temple was constructed during 1261 A.D during Hoysala dynasty regime which adds a historic value to this location. Lord Shiva is the main deity along with Goddess Parvati. During the Tamil Month 'Masi', temple car festival takes place for 15 days.

Figure 11 :Old View of Chandrasoodeshwarar Temple

TEMPLE HISTORY

Devotee Dharmadevan was in penance to get Lord Shiva's blessing near Thenpennai river. Lord Shiva appeared in front of him and gave him boon. He wished to be his vehicle and Lord Shiva turned him into bull. To spread the speciality of this place, he wished to create a hill in the shape of Rishaba (Bull). Lord Shiva accepted his request and acknowledged to stay for a while with Parvathi. To bring Parvathi to the hill, Lord Shiva transformed himself into iguana and made Parvathi to follow him. After sometime Parvathi and her friends became tired and thirsty. So, Parvathi requested Swamy Alaknanda to clear their thirst, so he created a tank (Pachai Kulam). Because of iguanas glittering appearance Parvathi became curious, continued to follow it and reached the hill. Two sages (Muthkalan and Uchchayanan) watching this, thought to help Parvathi and followed her. The iguana disappeared suddenly after it heard noise from two sages. Parvathi surprised

Verified e-state

and became angry and cursed those sages to be deaf and dumb. Sages requested to Goddess Parvathi to retract the curse. Parvathi considered their request and prayed to Lord Shiva.

Lord Shiva appeared in lingam form and said that as promised to Dharma Devan, to bring Parvathi to the hill, he took iguana incarnation. His curse will be revoked after you see me in iguana incarnation again said Lord Shiva and disappeared. Those sages in their rebirth were born as twins as deaf and dumb. While going for hunting those people reached the hill and happened to see Shiva in iguana avatar. Their curse revoked from there on, they can hear and speak.

The temple has its historic value to this town. The temple and surrounding hill area shall be conserved. Local holiday announced on 18th march 2022 for celebration of car festival of this temple. Huge number of pilgrims from all the parts of Tamil Nadu and from Bengaluru visit the temple during the festival times. As a result, lodging facilities for economical rates, drinking water facilities, transport, need to be strengthened.

Figure 12 : Present view of Chandrasoodeshwarar Temple

2.6.2 Multi-Lingual Culture

As Hosur is located in the state border, it is a multi-lingual culture area. Majority of the people speak Tamil, Telugu Kannada and Urdu. The percentage of population speaking these four languages are given in the Table below.

Verified Draft

2.6.3 Tourism - Potential

The major cultural tourist attraction in Hosur DA is the Chandra Choodeshwarar temple car festival. The festival usually happens for three days in the month of March coinciding with the Holi festival in North India. Nearly three lakh domestic tourists arrive from various parts of Hosur, Krishnagiri, Bangaluru, Mangaluru and other parts of Karnataka at this hill temple to worship Lord Shiva.

Tourist arrival statistics for attractions within DA and outside the planning area are shown below.

3
DEMOGRAPHY

Demography is the scientific study of human populations delving into the size, structure, and distribution and analysing how these characteristics change over time. Demography plays a vital role in informing government policies in areas like education, healthcare, social security and infrastructure development as population characteristics directly impact resource allocation and service needs.

It employs a wide range of statistical and analytical tools to understand the dynamics of population change, with data typically obtained from,

a. **Census**: National survey conducted periodically to count the population and gather detailed demographic information.

b. **Vital registration systems:** Records of births, deaths, marriages, and divorces.

c. **Surveys and sampling methods:** Gathering data from specific population segments.

Some of the key focus areas in Demography include,

a. **Population size and growth:** Analysing trends in population growth, which is influenced by births, deaths, and migration. The population size provides an indicator of the physical and environmental characteristics.

b. **Age structure:** Examining the distribution of individuals across different age groups, which can impact future growth patterns and workforce dynamics.

c. **Sex ratio:** Understanding the proportion of males and females in a population, and how this ratio changes over time.

d. **Fertility:** Studying factors affecting birth rates, including access to healthcare, family planning practices, and socio-economic factors.

e. **Mortality**: Analysing factors influencing death rates, including healthcare advancements, living conditions, and disease patterns.

f. **Migration:** Studying the movement of people between geographic locations, including reasons for migration [e.g., economic opportunities, political instability etc.,] and its impact on both sending and receiving areas.

3.1 Population Growth Trend – Tamil Nadu

Tamil Nadu stands out among India's major states, leading in urbanization and ranking third in total urban population. According to the 2011 census, nearly half (48.45%) of the state's population lives in urban areas, an estimated 34.9 million people. This significant urbanization trend in Tamil Nadu can be attributed to increased migration, rapid economic development, and growth in the service sector. Notably, Tamil Nadu's urbanization rate of 48.45% significantly exceeds the national average of 31%. Population of Tamil Nadu has steadily increased over the four decades, from 48.4 million in 1981 to 73 million in 2021, reflecting a total growth of about 24.6 million. The decadal growth rate, however, shows a slight decline over the years. It was highest in the 1981-1991 decade at 15.39%, followed by 11.72% in 2001-2011 and reaching 17.07% in 2011-2021.

Source: District Statistical Handbook

Krishnagiri's sex-ratio amounts to 963 females for every 1,000 males, much above the national average of 929. A total of 217,323 were under the age of six, constituting 112,832 males and 104,491 females. Scheduled Castes and Scheduled Tribes accounted for 14.22% and 1.19% of the total population respectively. The average literacy of the district was 63.2%, compared to the national average of 72.99%.

3.3 Demographic Shifts – Hosur Development Area

3.3.1 Temporal Population Trend – Hosur

In Hosur town, population has been increasing since 1951. In 1961, the population of Hosur town was 11,683. It then gradually increased to 16,591 in 1971 and rose to 27,129 in 1981. From 1991, Hosur town witnessed a steep growth in population. It was 41,739 in 1991 and attained a population of 84,394 in 2001. As per the census 2011, the population in Hosur town catapulted to 1,16,821 registering a growth rate of 38.42 percent compared to 2001as shown in figure below.

Verified RealEstate™

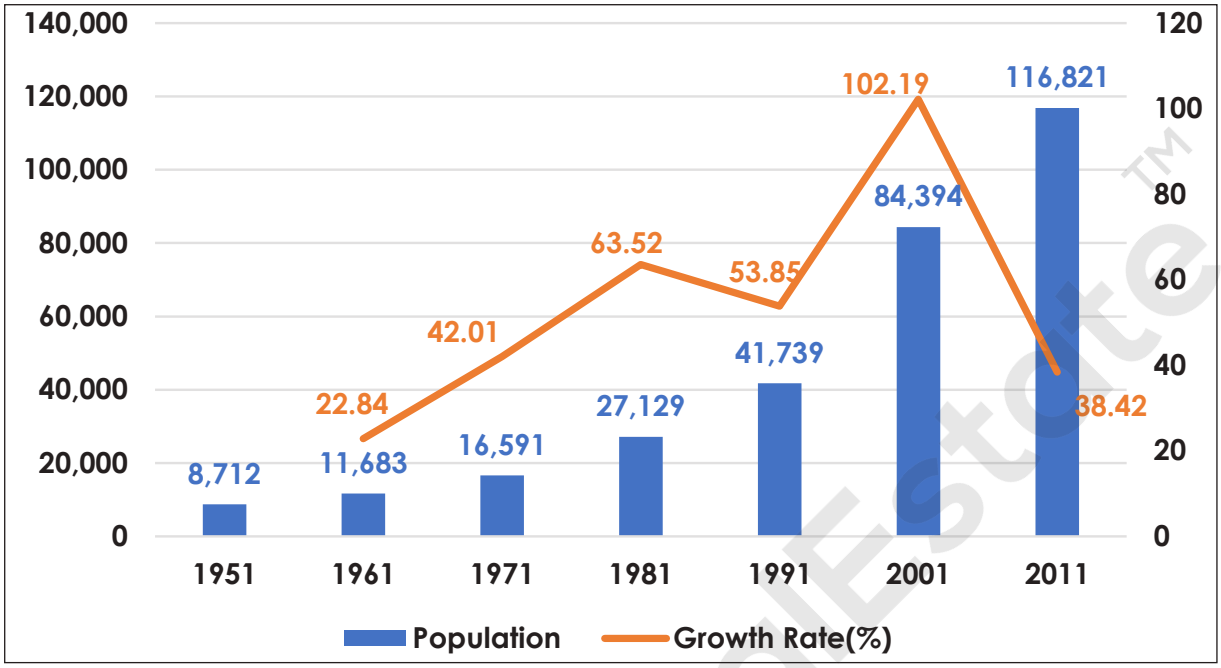

Figure 15: Population Growth Trend in Hosur Town

Hosur municipality was upgraded to municipal corporation as per G.O.Ms.No.40, Municipal Administration and Water Supply Department, dated.28.02.2019 covering an area of 60.86 Sq.km. Population growth of the corporation area is computed based on census data and provided below. It is observed that nearly 50% of the Development Area population is contributed by Hosur corporation.

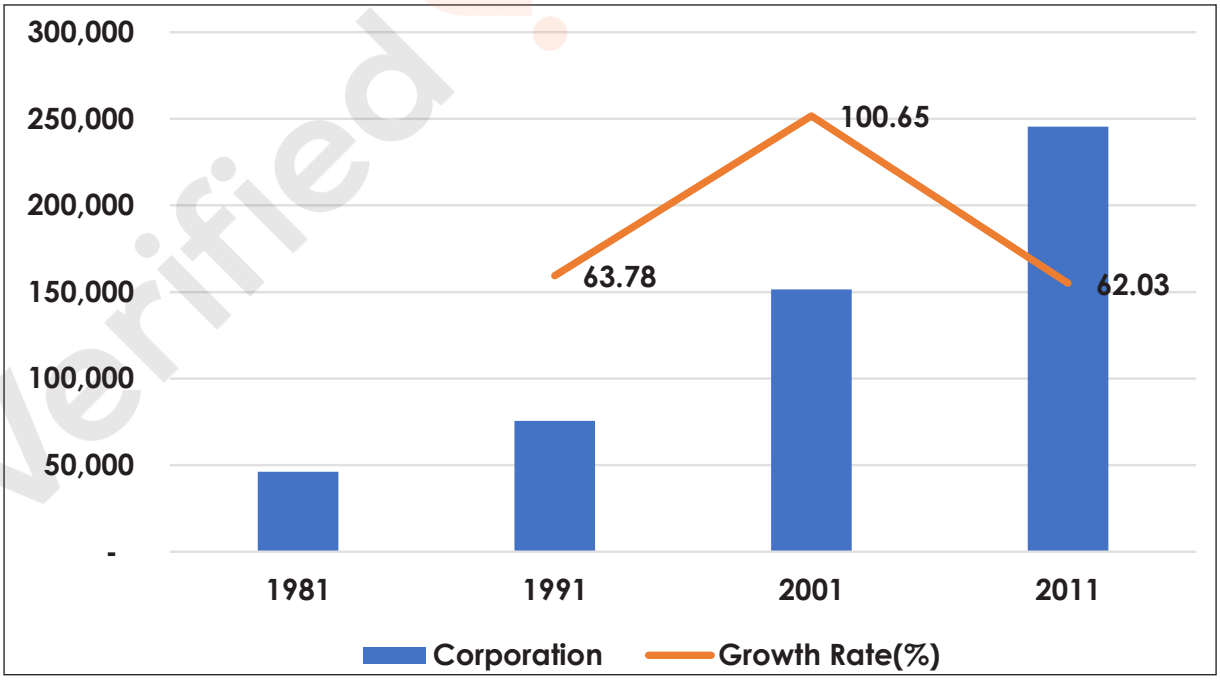

Figure 16 : Growth Trend Analysis - Corporation

3.3.2 Temporal Population Trend – Rest of Development Area

Population of kelamangalam Town Panchayat and the 120 revenue villages in Hosur, Shoolagiri and Denkanikotta taluks is observed to be 1,29,797 as per 1981 census with a significant increase in 2001 amounting to 2,05,168 and 2,56,255 in 2011.

The Hosur Development Area has a population of 1,75,875 in 1981. Due to increasing employment opportunities in the fields of secondary and tertiary sectors, the population in the area has increased to 5,01,609 as per 2011 census as shown in Annexure IV.

As per the census 2011, the distribution of population in the planning area is shown in the Map below.

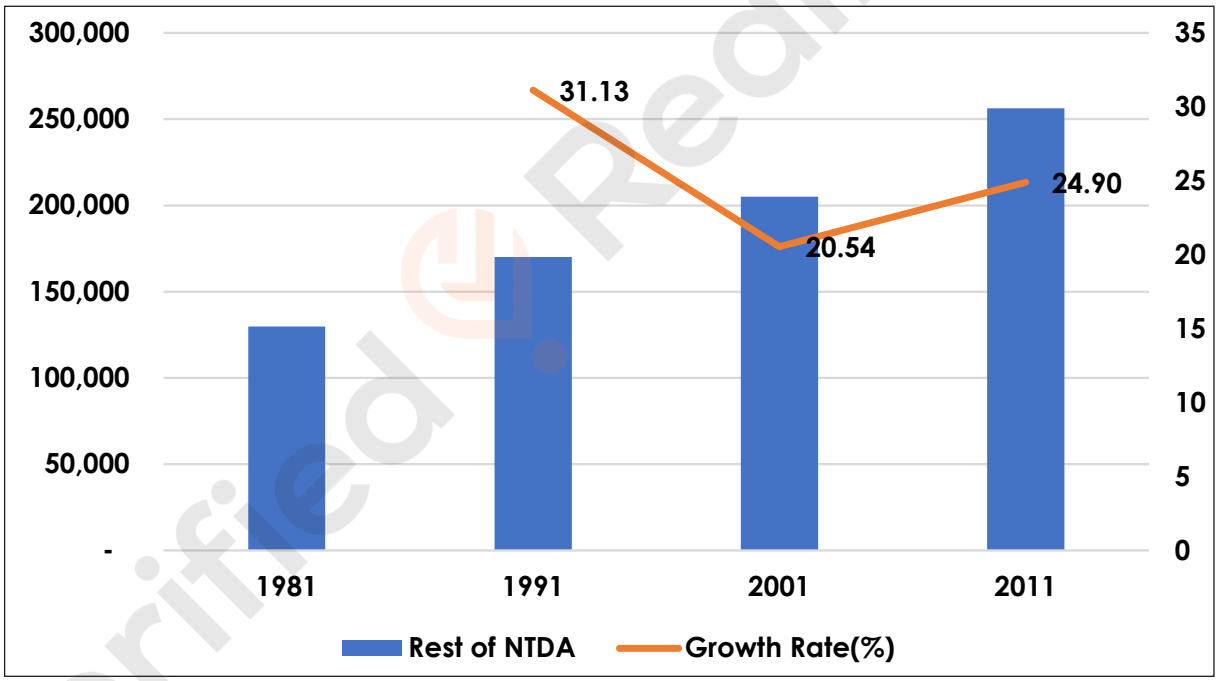

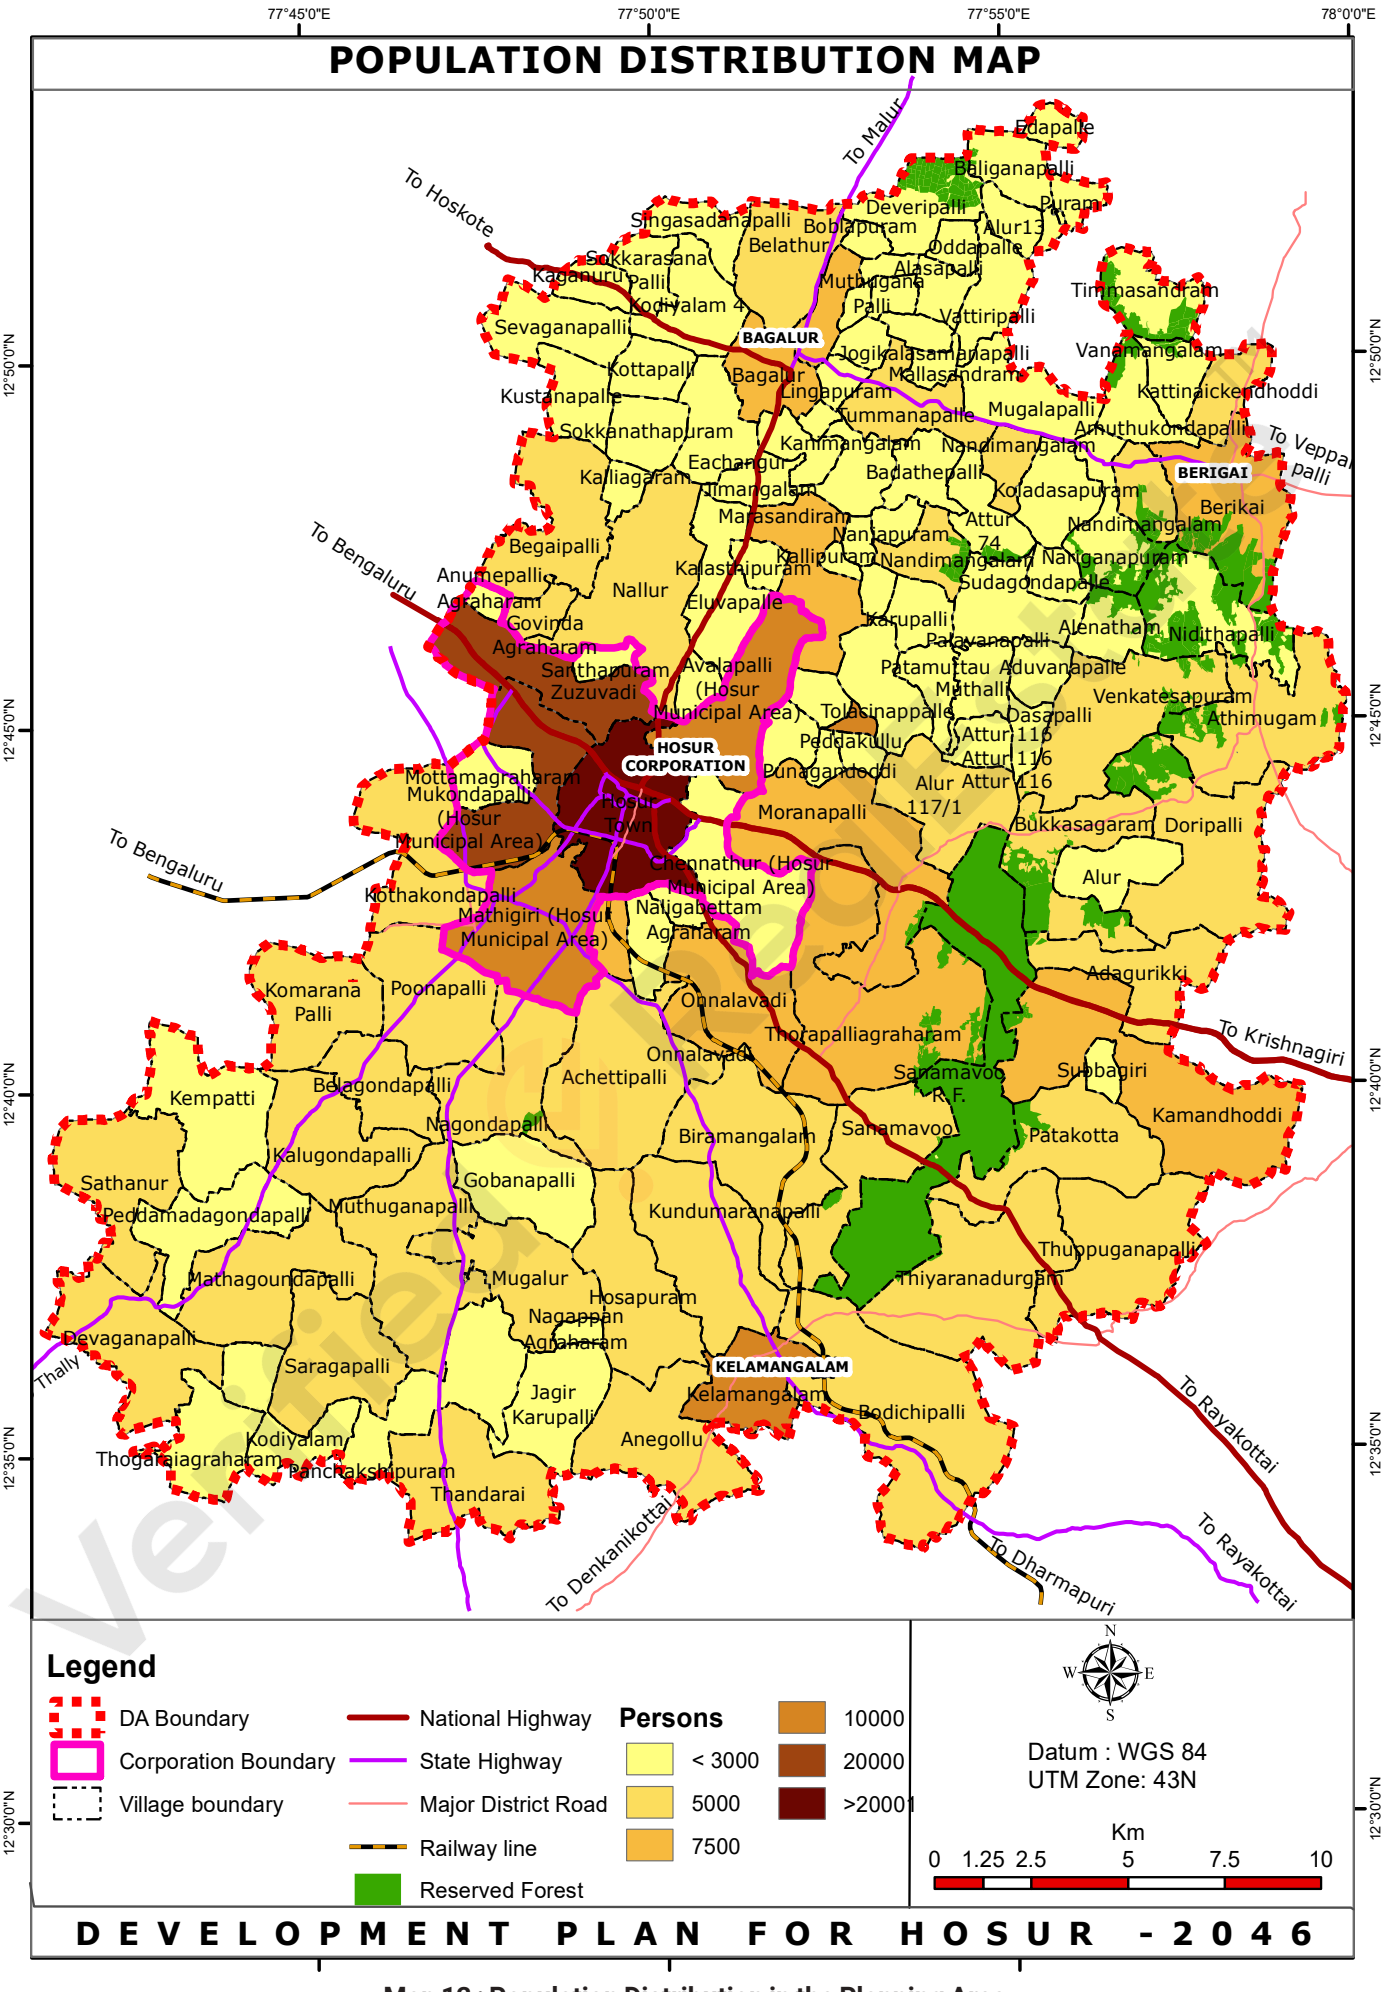

Figure 17 : Growth Trend Analysis - Rest of HDA

Verified RedEstate

Map 12 : Population Distribution in the Planning Area

3.4 Population Density

Density of population represents the number of persons in an area. Hosur town has a density of 11,521 persons per sq.km. It is higher than that of population in the cities of Krishnagiri (6203 persons per sq.km), lower than Vellore (15,949 persons per sq.km) and Chennai (26,553 persons per sq.km). It is also higher than the state average of 555 persons per sq.km. In the planning area, the density of population is observed to be high in the corporation, moderate in town panchayat and less in revenue villages. The details are given in Annexure-V.

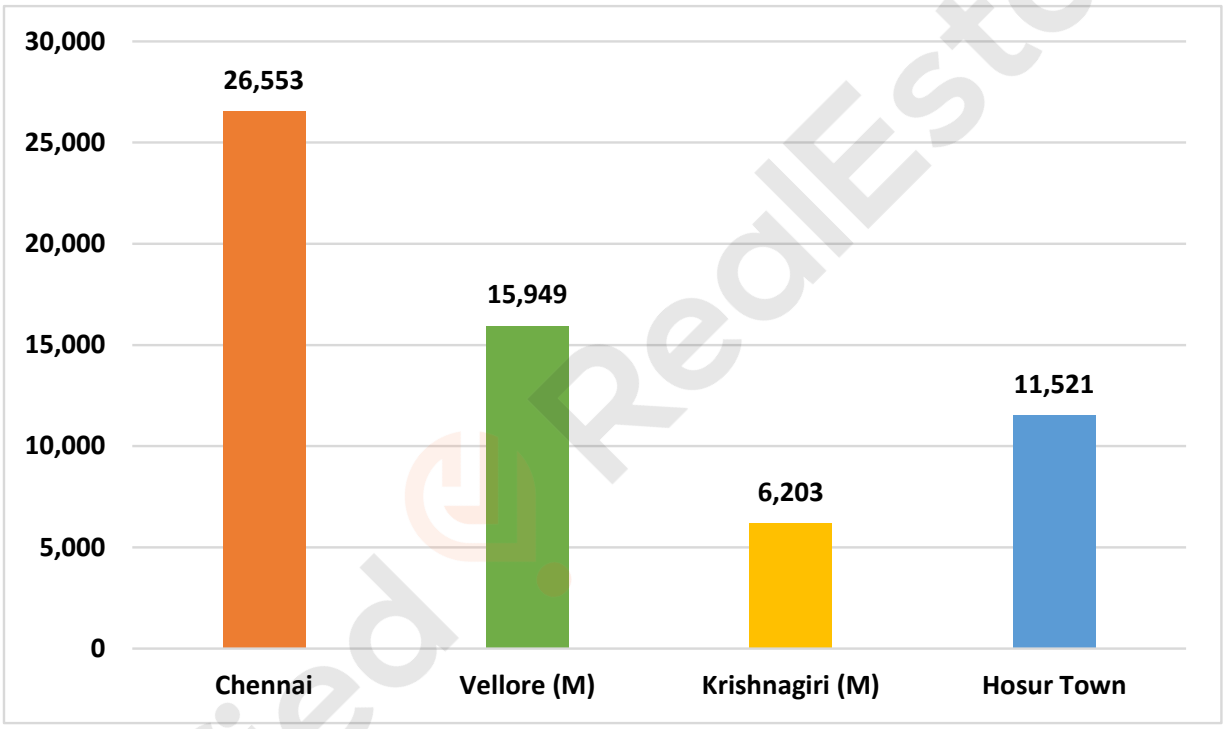

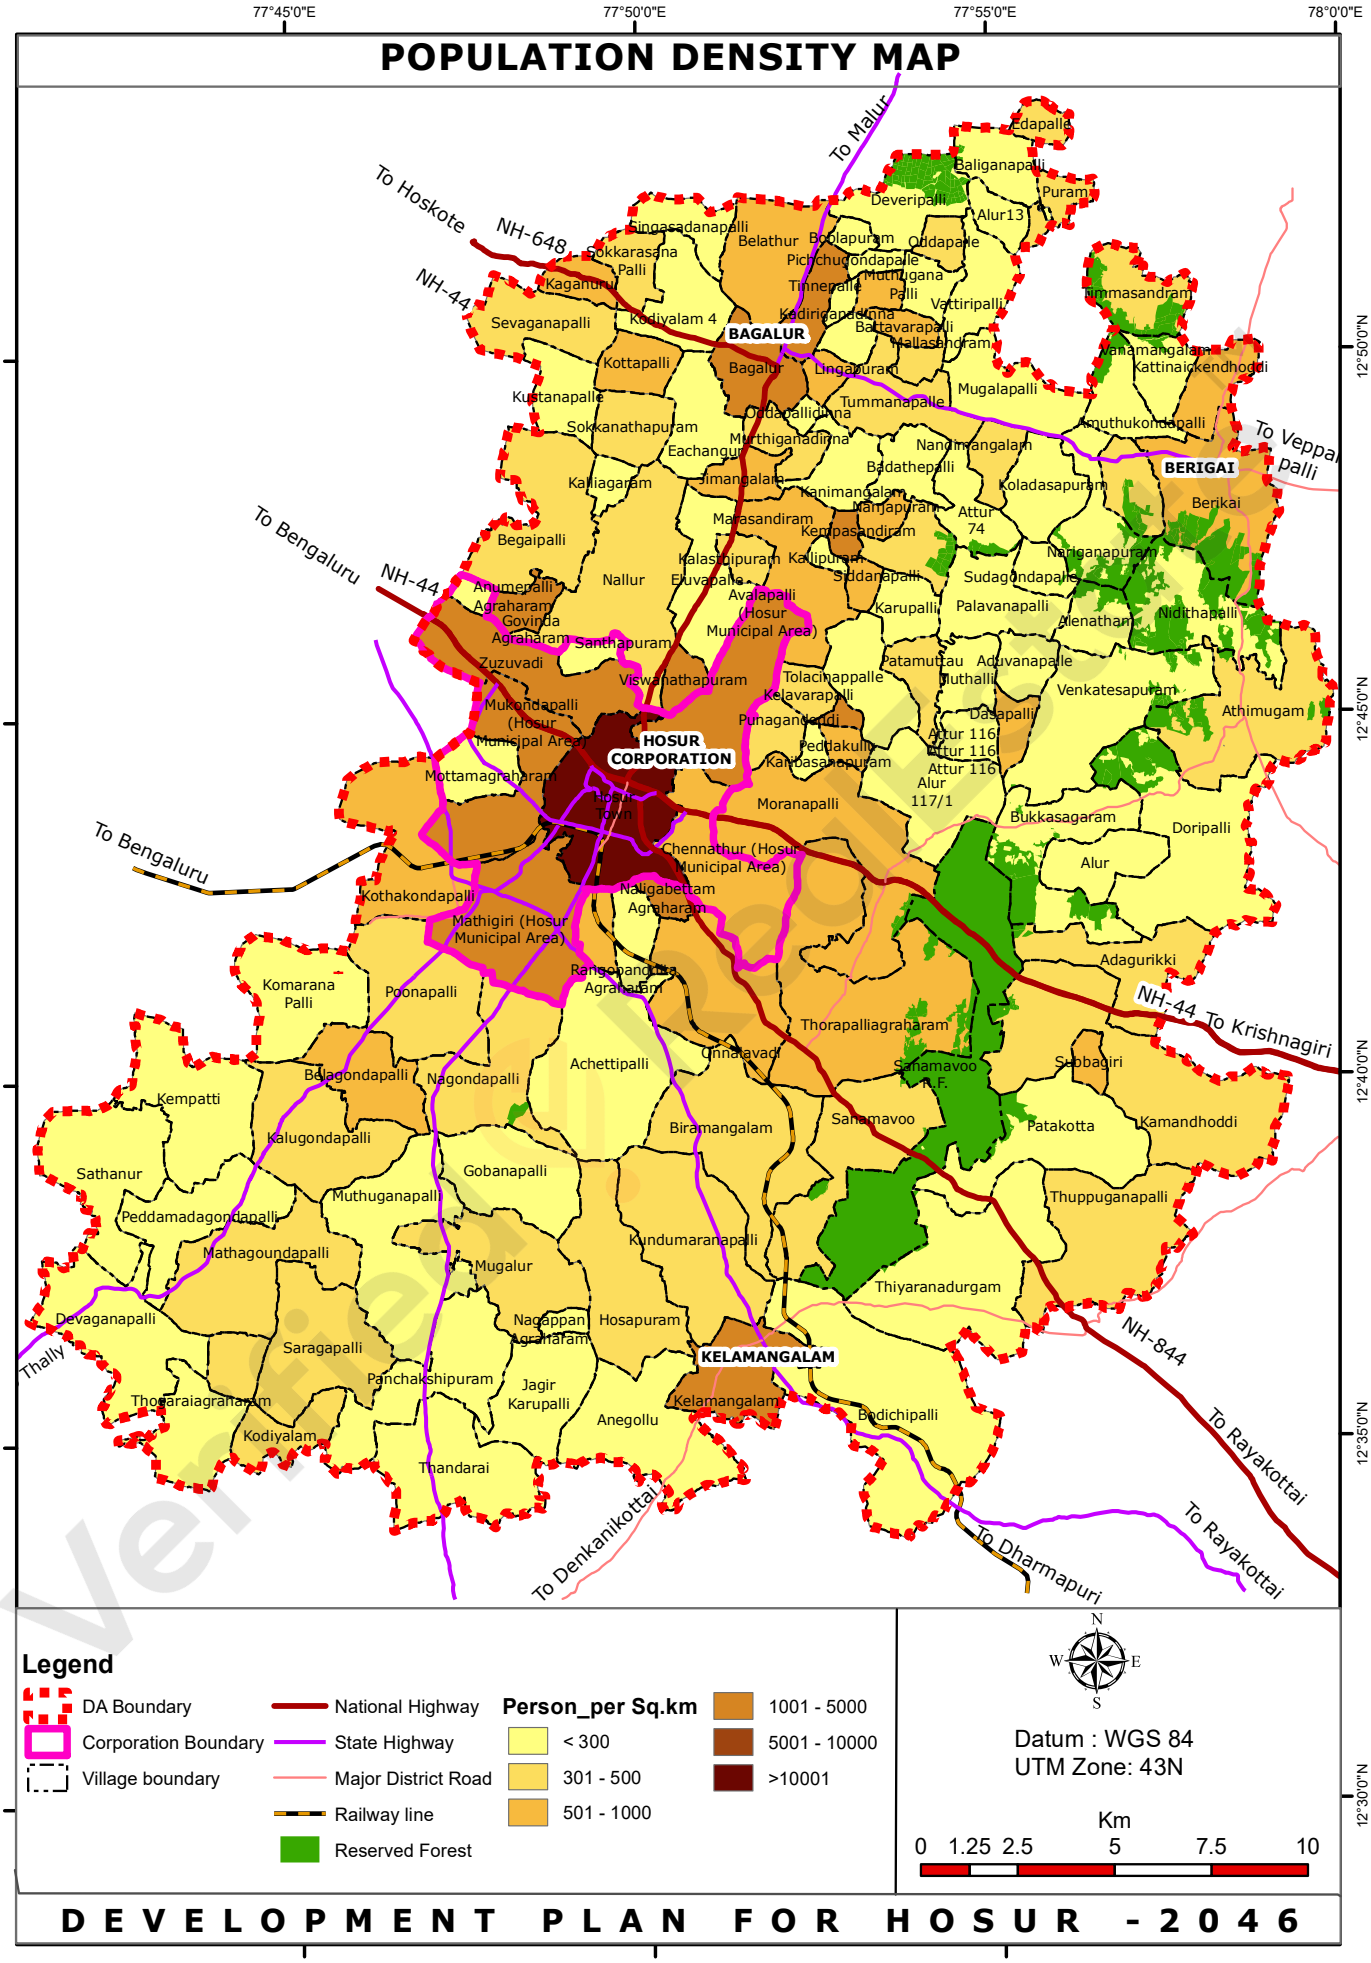

Figure 18 : Population Comparison

Verified © RealEstate

Map 13 : Population Density Map

3.5 Sex Ratio

Sex ratio is number of females per thousand males. Hosur town has sex ratio of 968. Which is higher than the sex ratio of Krishnagiri district (958) and lower than the state average (996) as per the census 2011. The low sex ratio in Hosur town is due to migration of male workers for employment leaving their families in native place. The town panchayats Mathigiri and Kelamangalam has sex ratio of 973 and 993 respectively. Among the revenue villages, Belathur village has highest sex ratio of 1302 and Sanamavoo R.F revenue village has lowest sex ratio of the 615. The sex ratio in town panchayats and revenue villages in the planning area is given in Annexure-V.

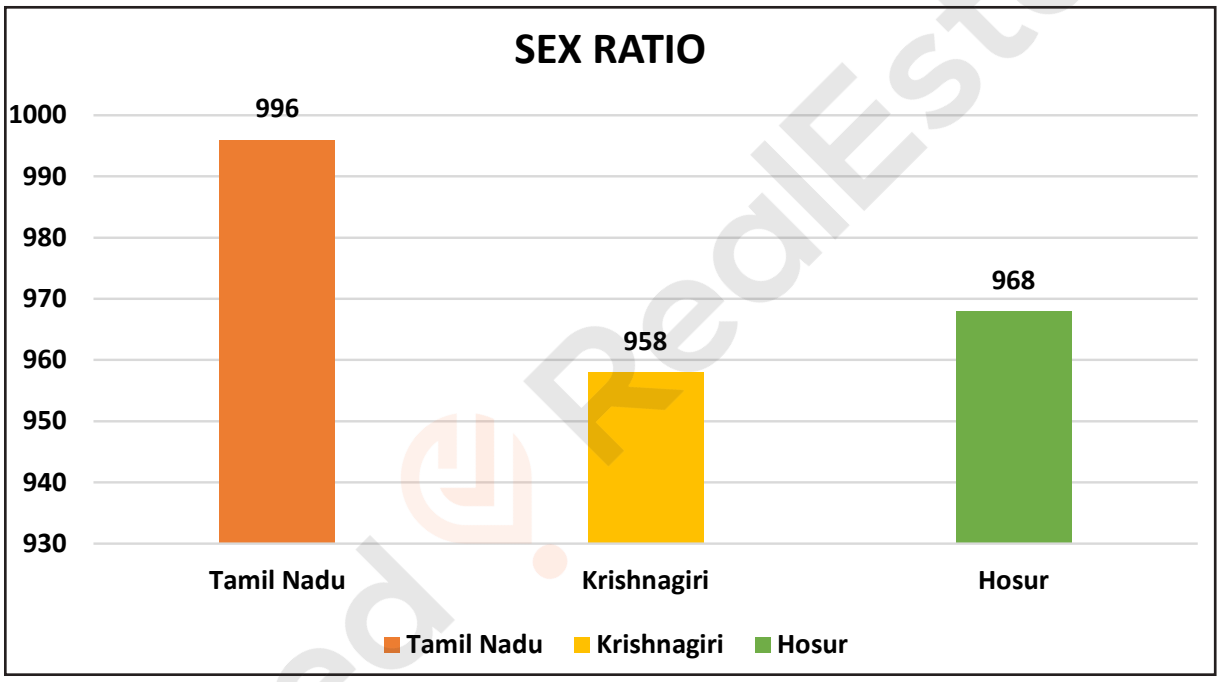

Figure 19 : Development Area Sex Ratio in Comparison with District and State Average

3.6 Literacy Rate

The literacy rate of Hosur town is 87.40 % which is higher compared to the state average literacy rate of 80.33% as per 2011 census. The male literacy rate is 90.92 % and whereas the female literacy rate is 83.74 %. The literacy rate in the town panchayats and revenue villages are given in Annexure-V.

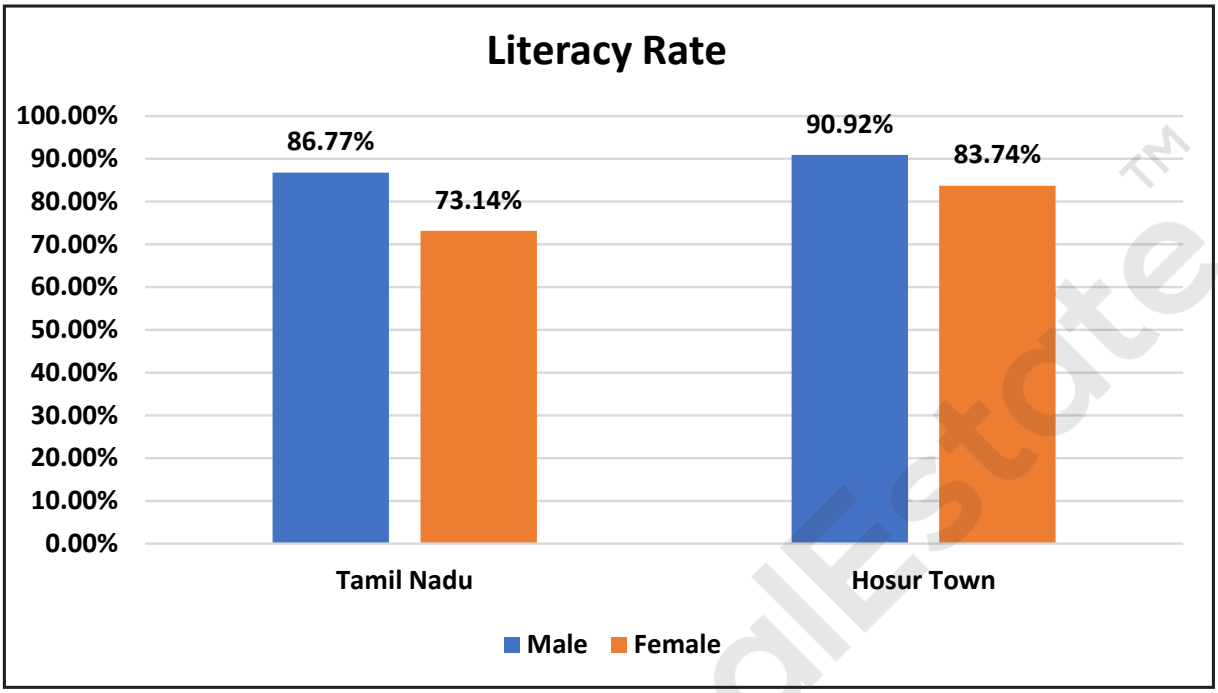

Figure 20 : Literacy rate of State and Hosur Town

3.7 Population Projection – Hosur Development Area for 2046

Population projection is the fundamental stage in the planning process. The method of population projection adopted will impact overall planning approach as it determines the magnitude of resources required. The population projection is carried out for all the settlements separately using three methods namely, arithmetic, geometric and incremental increase method.

The arithmetic method observes population changes in the past trend and continues to project for successive decades maintaining the trend. This method is more suitable for historical and developed town.

Geometric method looks at population changes in terms of percentage and projects based on growth rate trend. This method is more suitable to a city when a city is in initial stage of development.

Incremental increase method is projected considering the increase in increment of population from the past decades. This method is more suitable for town which has much scope for development.

For Hosur DA, to decipher the appropriate population projection method, the following methodology is being adopted. Projection methods viz., Arithmetic, Geometric and Incremental Increase methods are utilized to compute the populations for corporation, kelamangalam TP and rest of DA for the years 1991, 2001 and 2011. These values are cross-verified with the existing population data derived from census. Methodology that provides values closer to the existing population is adopted for computation of population projection.

Verified © RealEstate ™

3.7.1 Population Projection – Hosur Corporation

Population for Hosur corporation area is calculated using the three projection methods and the values are compared with the census data for the decades 1981, 1991, 2001 and 2011 as shown in the graph below. It is observed that, Incremental Increase method provides the closest value to the census 2011 data.

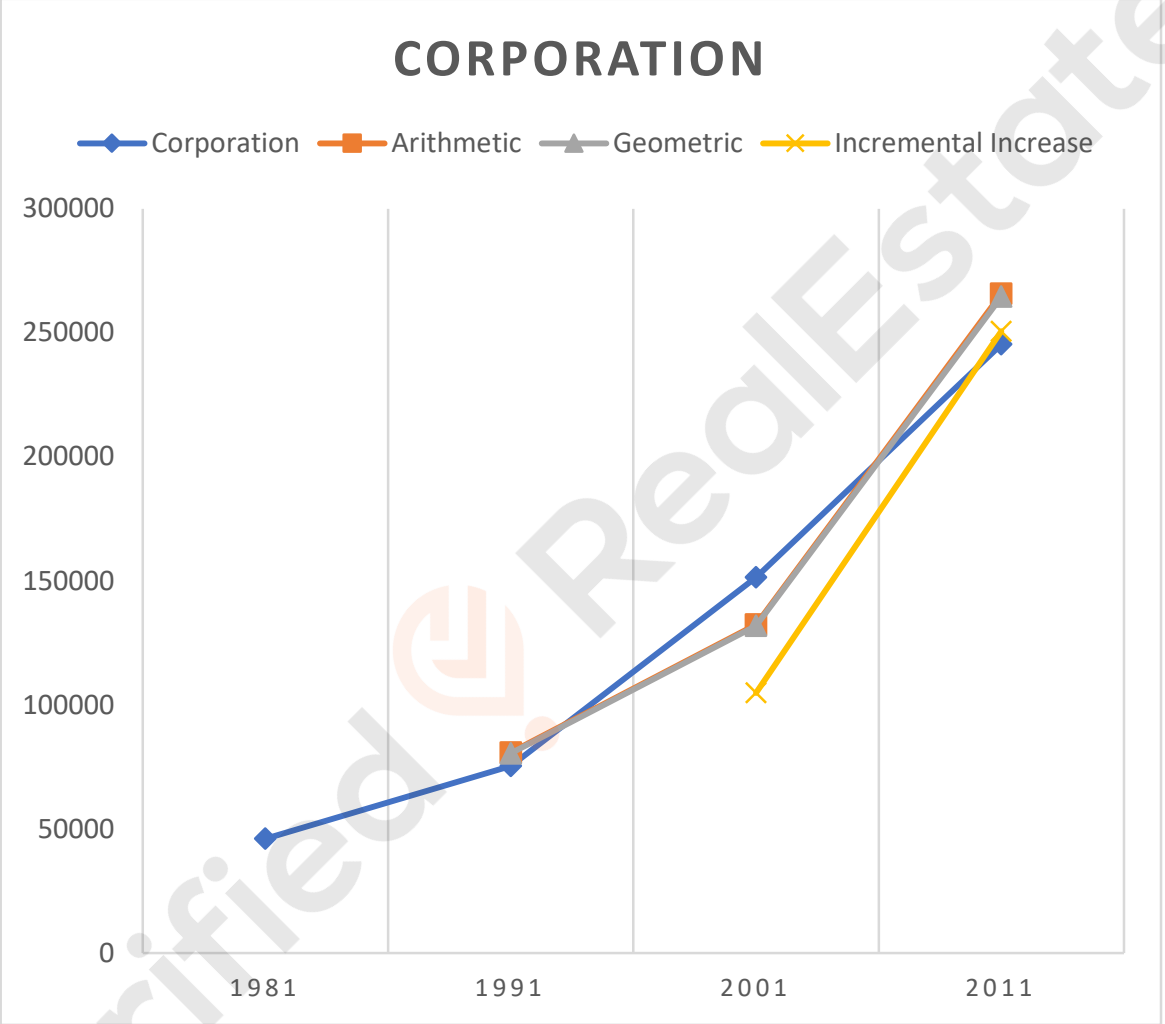

Figure 21: Population Comparision Using Census Data and Projection Method - Corporation

The population for the planning area has been worked out for the years 2021, 2031, 2041 and 2046 using the three methods and is plotted in the figure below. In line with the development trend, Incremental Increase method is adopted for population projection estimation for Hosur Corporation.

Projected population for Hosur Corporation for 2046 using Incremental Increase method amounts to 7,31,969.

Verified RealEstate

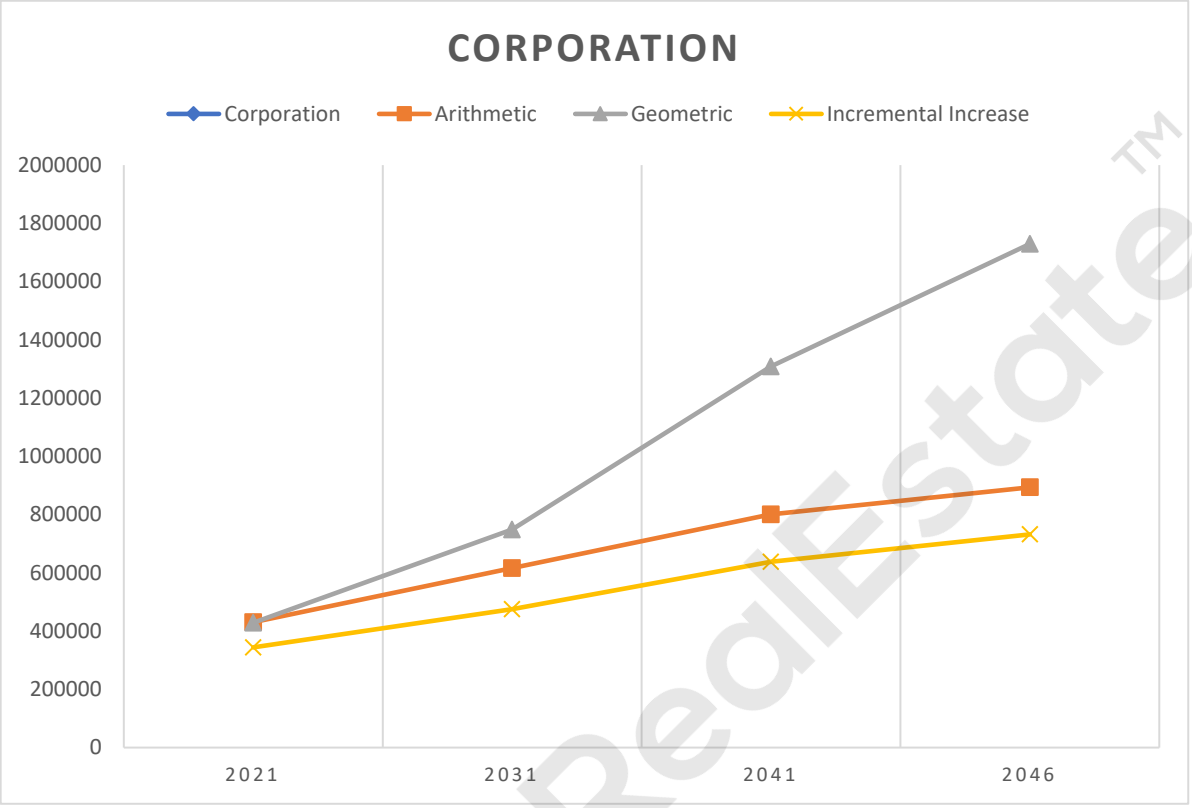

Figure 22: Population Projection – Corporation

3.7.2 Population Projection – Kelamnagalam Town Panchayat

Similarly, all three methods are adopted to compare the projected values and existing census data for decades from 1991 to 2011 as depicted in the graph below. On analysis, it is observed that, considering the developmental prospects, Incremental Increase method suits best for Kelamangalam TP for population projection.

Projected population for Kelamangalam TP for 2046 using Incremental Increase method amounts to 21,731.

Verified RealEstate™

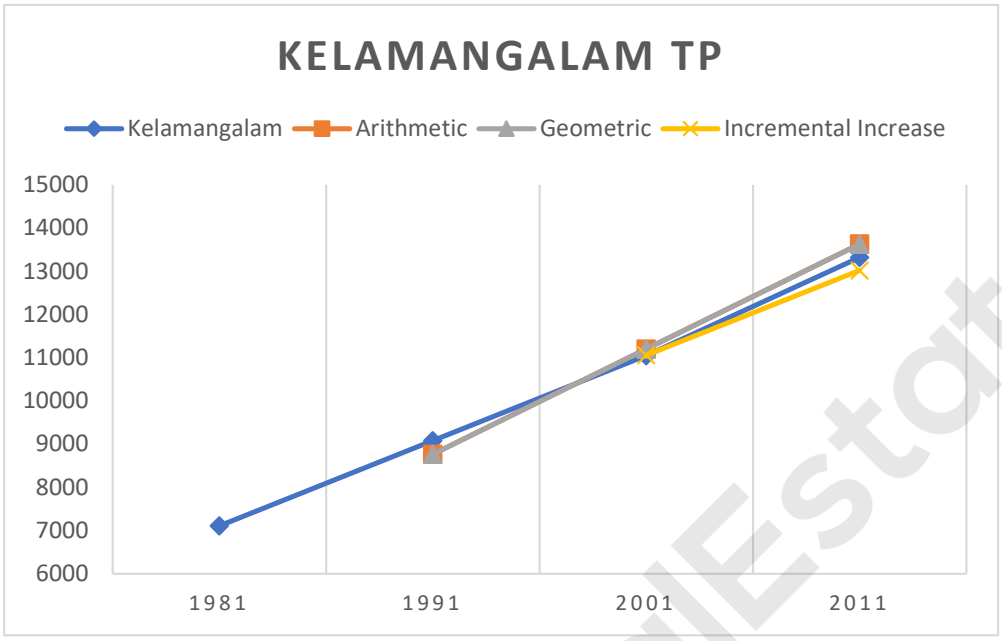

Figure 23 : Population Comparision Using Census Data and Projection Method – Kelamangalam TP

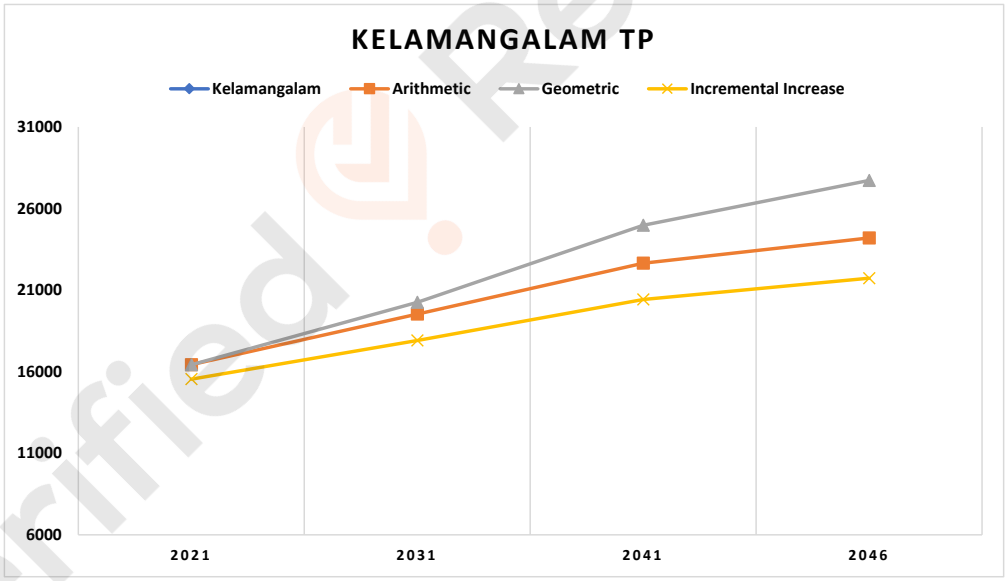

Figure 24: Population Projection - Kelamangalam TP

3.7.3 Population Projection – Rest of Development Area

Population computation for the decades 1991, 2001 and 2011 using Arithmetic, Geometric and Incremental Increase methods are compared with the census data for the 120 revenue villages forming a part of the Hosur DA. The values are depicted in the graph below,

Verified RealEstate™

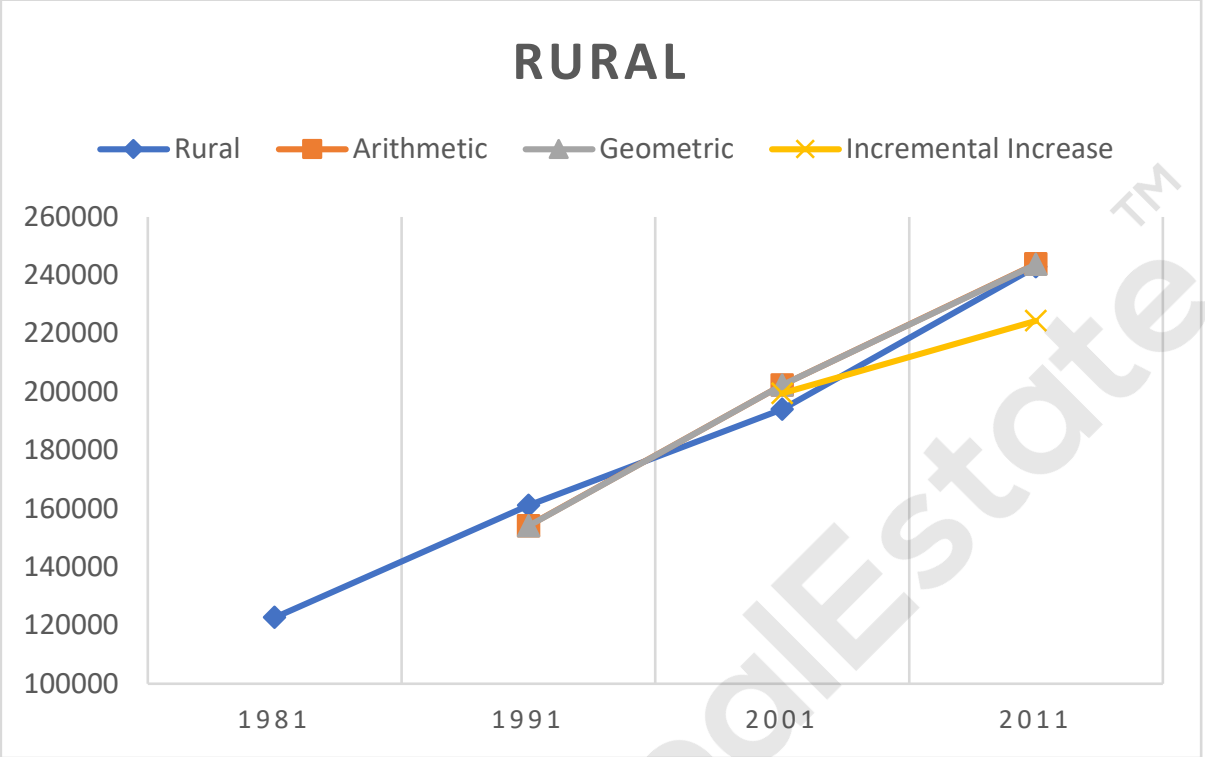

Figure 25 : Population Comparision Using Census Data and Projection Method Rest of Developmen Area

As these villages are next in line for development after Hosur Corporation and Kelamangalam TP, Geometric method is highly suitable for population projection. Also, values obtained for the previous decades using this method is very close to the census data.

Projected population for Kelamangalam TP for 2046 using Geometric method is 5,39,154.

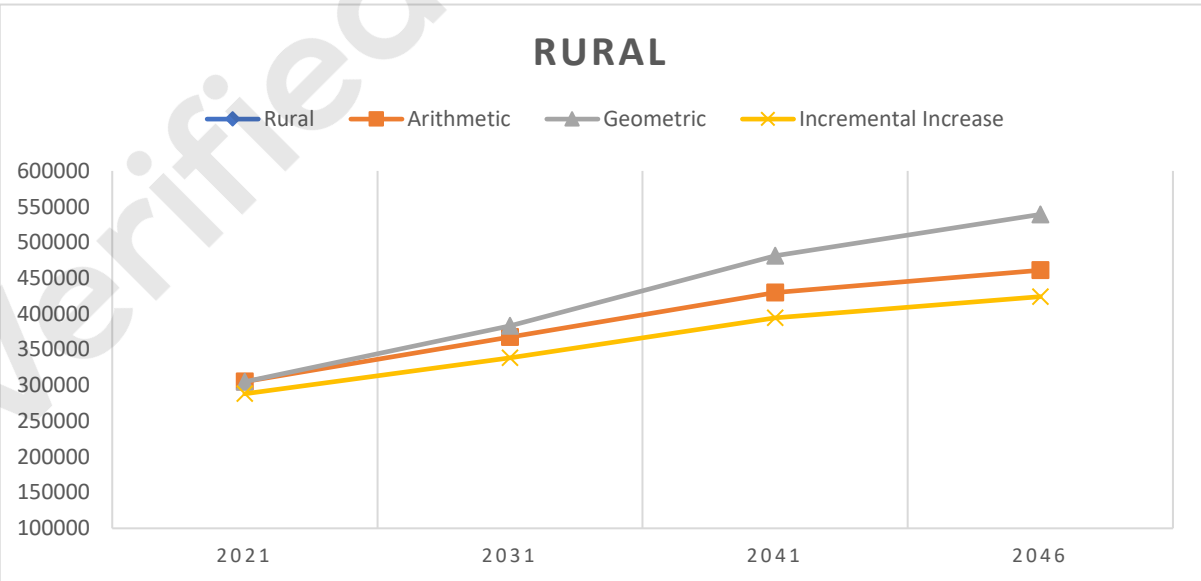

Figure 26 : Population Projection -Rest of Development Area

ECONOMY

Verified RealEstate™

4.1 Emerging Industrial Hub

Hosur has a strong and vibrant economy. Since Hosur town experiences salubrious weather, it suits cultivation of flowers such as Roses, Jasmine, Mullai, Crossandra, Chrysanthemum and Marigold, vegetables and fruits on a large scale. This agrarian advantage to cultivate these crops has given the town a cutting edge in agricultural sectors when compared to its neighbouring towns.

During 1950's, the industrial development attained much focus. The geographical factors such as regional positioning of Hosur, pleasant weather, passing of golden quadrilateral, proximity to electronic city of Bengaluru, passage of Salem-Bengaluru broad gauge line through Hosur town, International airport in Bengaluru, availability of both skilled and unskilled workers have led to the establishment of industries on large scale such as agro-based industries, stone processing industries, engineering manufacturing industries, (IT) industries, automobile industries, leather and paints, and electronic goods, etc. Presently, Hosur is also emerging as an Electric Vehicle (EV) manufacturing hub. This has created huge employment opportunities resulted in growth of urbanization in the planning area. Now, Hosur area is an industrial hub in the western part of Tamil Nadu and the floriculture hub in India.

4.2 Workforce Distribution

The total working population in Planning area of Hosur Corporation is 2,10,202. of which male workers population is 72.10% and female workers population is 27.9%. The number of male and female workers in planning area are given in the table below.

Table 12: Work force participation in HDA

Area	No. of Worker		
	Total	Male	Female
Hosur Corporation	94,411	73,780	20,631
Kelamangalam(TP)	5,522	3,833	1,689
120 revenue villages	1,10,269	73,934	36,335
Planning Area	2,10,202	1,51,547	58,655

Verified © RedFerns

4.3 Workforce Projection

As per the census 2011, the working population in the planning area is 2,10,202 which is 41.90 percent to the total population. This percent is used to estimate both urban and rural. The workforce projection is tabulated in Table.

Table 13: Projected Work force 2046

Year	Population	Projected Working population
2011	5,01,609	2,10,202
2021	6,64,666	2,78,495
2031	8,76,037	3,67,060
2041	11,39,787	4,77,571
2046	12,92,854	5,41,706

Economic Activities: Agro-business, flori-business, metal based and mineral based industries are the leading economic activities in the Planning area.

4.4 Primary Economy

4.4.1 Agriculture

Moderate weather, red soil with irrigation facilities provided by tank and wells suits cultivation of spectrum of agro crops, horticultural crops and flowers. The agricultural land including pastures land and grazing land in the planning area constitutes 42 percent of total area. Krishnagiri block shows the highest cropping intensity 175.29% in the state with Hosur at 113%. Cropping intensity of above 100% infers that more than one crop is raised in a year.

The major crops grown are Paddy, Ragi, Cholam, Red gram, Black gram, Horse Gram, Mango, Coconut, Cabbage, Banana, Tomato, Cauliflower etc., and the major cash crops are groundnut, flowers and cotton. The horticultural crops such as mango, banana, grapes, guava etc. Roses, Jasmine, Mullai, Crossandra, Chrysanthemum and Marigold are grown widely in the area.

Agro products are marketed through regulated markets, co-operative marketing societies, Uzhavar sandhai (Fruits and Vegetables), Wholesale markets and Local Shandies. Apart from these Weekly markets and daily markets also exists. Hosur is the major distribution centre for vegetable fruits and flowers to Chennai and Bengaluru.

Verified © RedEstate™

4.4.2 Floriculture and Horticulture

Hosur town is bestowed with ideal condition for commercial floriculture such as Spray Roses, Jasmine, Mullai, Crossandra, Loose Chrysanthemum, Marigold Dutch Roses, Gerbera and Carnation throughout the year. It has emerged as an important sub-sector of agriculture generating substantial income for small and marginal farmer. The annual production of flowers from Krishnagiri district is 39,383 MT.

The area under flower cultivation in Krishnagiri district is 3702 Ha. Flowers are exported to countries like Australia, Singapore, Malaysia, UK and UAE. Through the export of flowers substantial foreign exchange of Rs 150 to 200 crore is earned annually. Under National Horticulture Mission, financial assistance in the form of 50% subsidy is given to the farmer to take the cultivation of flowers for the benefit of farmers and boost the economy. Based on the demand for floriculture, International Flower Auction Centre is established at Moranapalli village in the planning area. The flowers are not only marketed in local markets but also in other districts, across states and all over India. Floriculture in Planning Area in Figure

Figure 29: Floriculture in Planning Area

Taj mahal, Avalanche, Sweet Avalanche, Peach Avalanche, Royal Circus, Gold Strike, Revival, Bon heur, Corvette and various varieties of roses are cultivated by TANFLORA which is located in Amudhakondapalli village in planning area. TANFLORA is India's first project in agricultural export zone scheme, a joint venture of Tamil Nadu Industrial Development Corporation Limited (TIDCO) and CCL flowers Private Limited, Bengaluru. It provides land and centralized infrastructure, state-of-the-art post-harvest logistics and marketing facilities to 25 growers. The revenue is shared between TANFLORA and growers in 25:75 ratio on FOB basis.

Flowers produced are marketed through integrated flower market complex in Hosur with 80 shops. Also, the flowers are auctioned both online and offline in the international flower auction centres in Moranapalli. It spreads over extent of 7.6 acres with farmers and

training centre, halls for sorting, distribution, auction and purchase, cold storage and other facilities. It can handle 5 lakh flower per day which can be expanded.

The flori-business is beset with lack of international linkage, lack of post harvesting facilities and lack of credit. To overcome the problems, it is recommended for establishment of an international airport in Hosur, which facilitates direct exports of cut flower to foreign countries. This ensures higher income to the actual flower growers.

Creation of post harvesting facilities and financial succour in form of credit to farmers would encourage more farmers to step into the flower business. An annual event showcasing the types of flowers produced for export would further boost of floriculture in Hosur area and also promotes tourism.

The list of crops yields in the three main Firkas are listed in Table below.

Table 14: List of Vegetables, Fruits and Flowers Yields

Map 15 : Major cultivation in HDA - Village wise

4.4.3 Demonstration farm

Hosur cattle farm in Mathigiri is a demonstration farm that cover an extent of 1,641.41 acres. The farm raises Red Sindhi cattle and Kangeyam cattle to encourage pure breeding and to preserve native breeds

4.4.4 Sericulture

Government Sericulture Training School was established in 1973. The objective is to impart training for persons in pursuit of sericulture. During the year 2005-06, it was registered under Tamil Nadu Societies Registration Act 1975 and named Tamil Nadu sericulture training institute. Sericulture is one of the auxiliary agricultural activities pursued by farmers for supplementing their income. The weather regimes in Hosur area amply supports the cultivation of mulberry and production of cocoon.

It is largely carried out in Thally, Shoolagiri, Hosur and Veppanapalli blocks. The mulberry cultivation also called Moriculture is an allied activity of sericulture. The details of cocoons produced in 4 blocks and the value of it are shown in the Table.

Table 15: Cocoon Production

Block	Area (Ha)	Production of Cocoons	Value (Rs. in lakh)

Infrastructure for increasing the shelf life of agriculture crop, horticulture crops and flowers need to be strengthened for augmenting income for the farmers and to the state economy. The existing whole sale market shall be permitted to undertake regeneration. This shall facilitate modernization and capacity enhancement for meeting the future requirements. Mandis, storage and cold storage facilities shall be permitted to develop within Hosur area. Conversion of industrial plots into warehouses shall be permitted within industrial uses. Vegetable market is proposed at Moranapalli survey number 915 with an extent of 3.5 hectares. The existing market facilities is shown in Map.

Verified RealEstate TM

Map 16 : Market Facilities in Hosur

4.5 Secondary Sector

4.5.1 Mining Activities

In Hosur, Denkanikottai belt, Bodichipalli in Denkanikottai taluk has rich deposits of Pass Paradiso and Red Multi colour granite. Hard and ancient rocks are capable of taking polish are called Granites. Kalugondapalli, Thogarai Agraharam and Devaganapalli in Denkanikottai and Addagurukki in Hosur are endowed with Black granites or Dolerite in geological parlance. Mining leases for colour granite and black granite have been granted in their patta lands over an extent of 9.53 Ha. TAMIN, a State-owned corporation has been mining Black granite in Devaganapalli.

Besides, rough stones are abundant in Hosur, Shoolagiri and Denkanikottai taluks. They are used to manufacture jelly stone/ coarse aggregate and M-sand. Leases have been granted to 64 private persons to quarry rough stones in their patta lands covering an extent of 172.21 Ha in the planning area. The granites are polished in a number of units located in Shoolagiri and Hosur areas. List of active rough stone and granite quarries and their locations are provided in Annexure X.

They are exported to United States of America, England, Australia and European countries and a major source of foreign exchange earner. Through seigniorage fees, imposed on production of granites, a substantial revenue is generated to Government.

The mineral potential in this belt is not fully realized. The mining and quarrying operations in Hosur area has been impacting 4 spheres of the Earth namely Lithosphere, Atmosphere, Hydrosphere and Biosphere. Mining and quarrying activities leaves huge pits, creating eyesores and these uncovered pits serve as death traps for humans and animals. Leasing out agricultural lands to mining activities cause reduction of area under the agriculture.

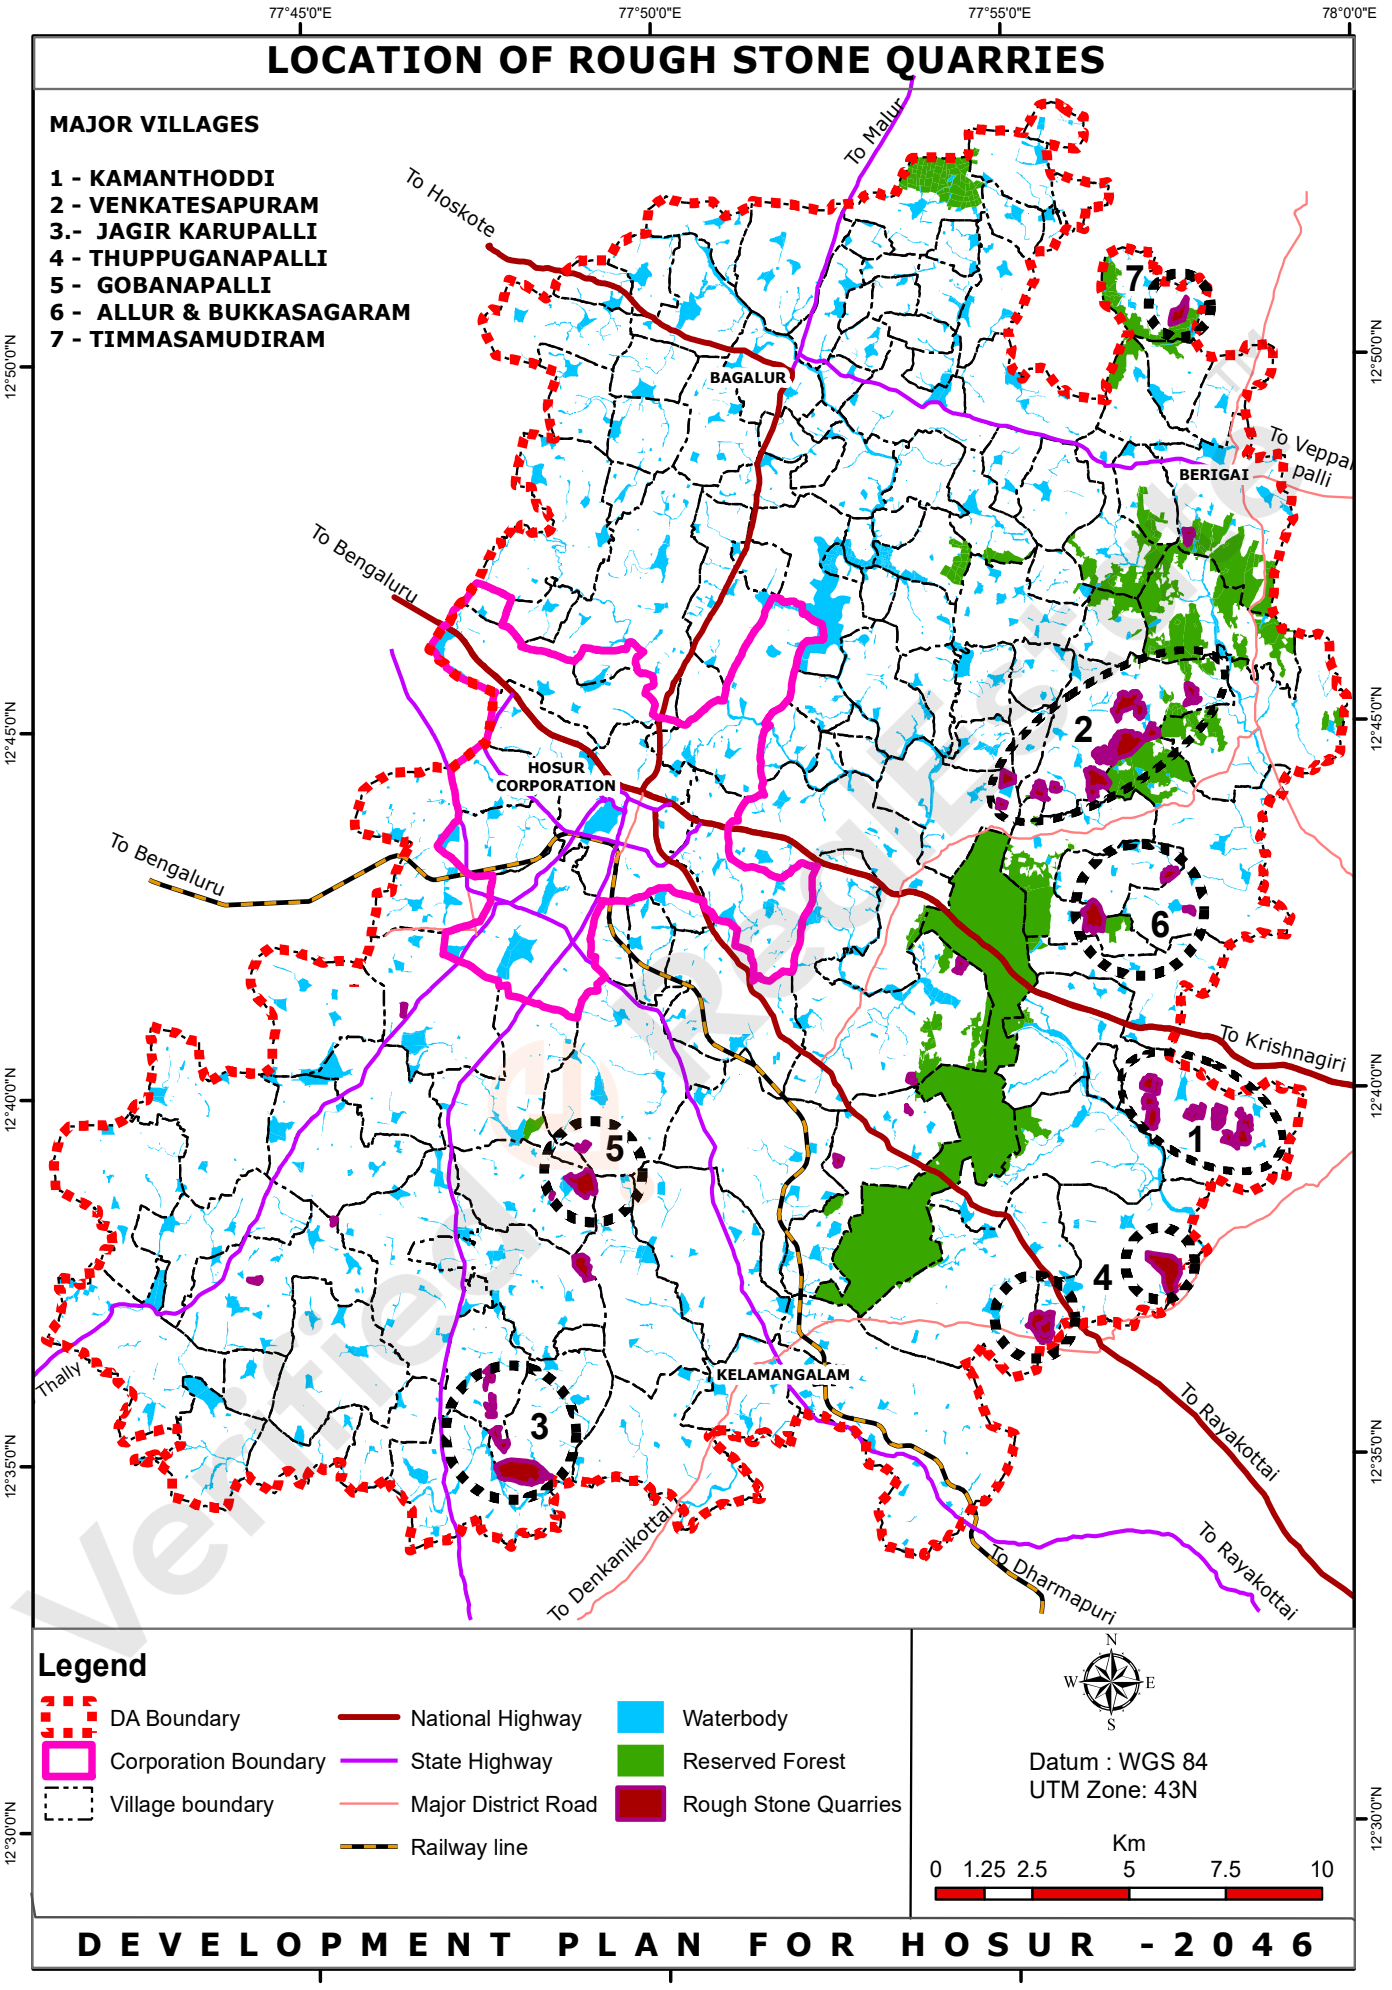

Excavation of granites, movement of HEMM such as excavators, tippers and transportation of granites generate huge debris. Those debris in size less than 10 microns are potential threats to human beings in causing respiratory diseases such as Bronchitis, Emphysema and Asthma. Air pollution is also caused by emission of sulphur-di-oxide, carbon-mono-oxide from diesel driven mining equipment, compressors, generators, etc. Huge tracts of vegetation are cleared for mining activities stressing the habitats of fauna and flora.

Geological investigation in this belt shall be carried out for identification of workable deposits, and revenue generated from mineral resources could be augmented. Systematic, sustainable and eco-friendly mining must be planned and executed to abate the environmental degradation. The strategies to reduce the environmental impacts, include frequent water sprinkling on the

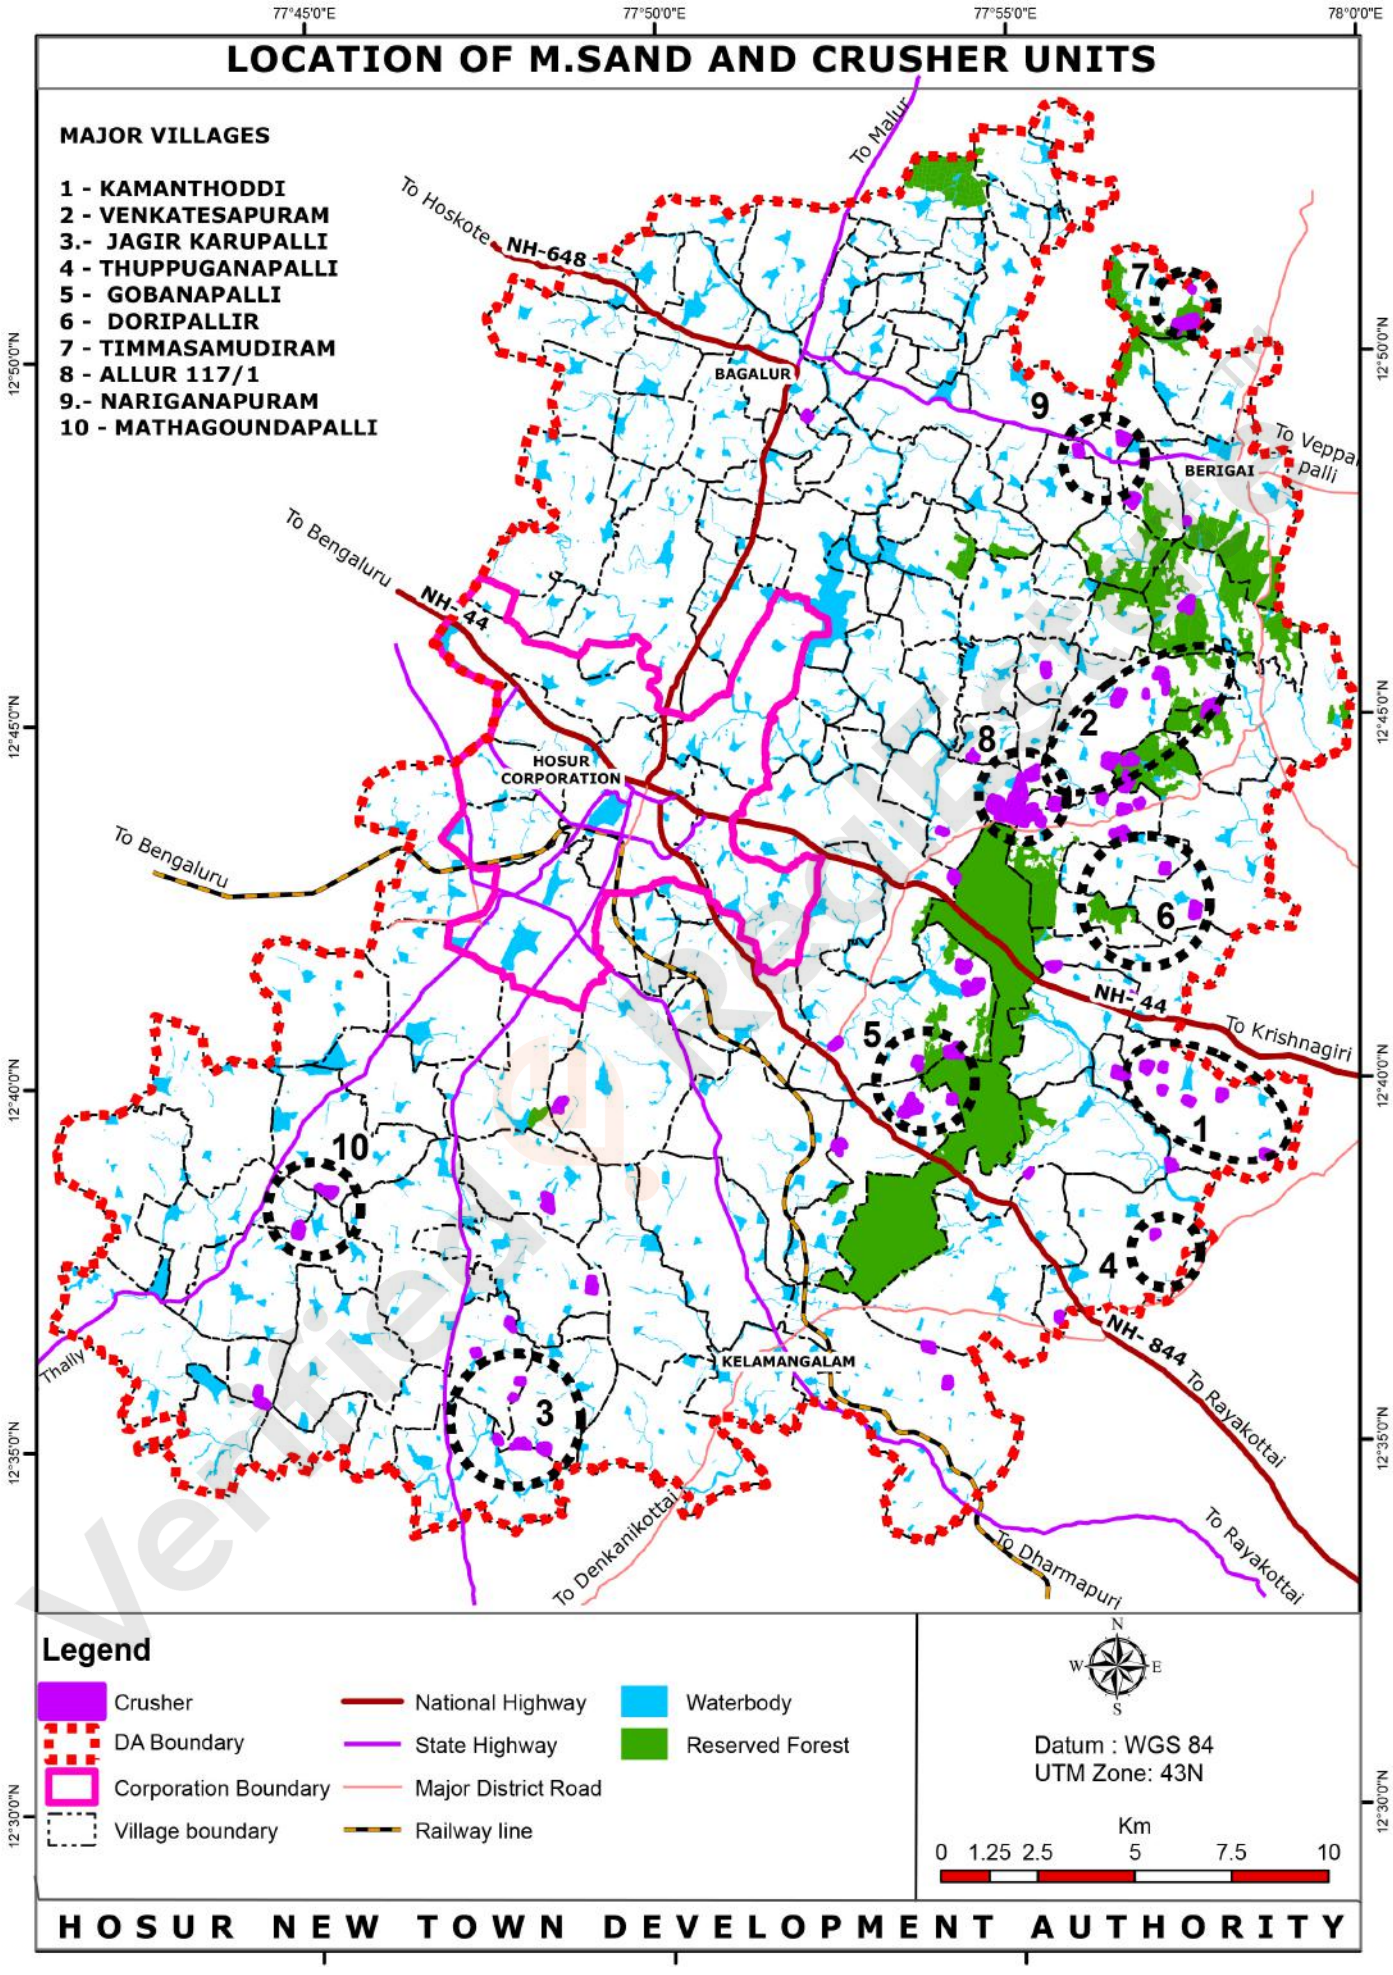

Verified © RealEstate™

roads transporting Granites and Rough Stones, black topping the transport routes from mines to the arterial roads, strict enforcement on covering the trucks with tarpaulin sheets and maintenance of HEMM to minimize the gaseous emissions are suggested to reduce air pollution. The defacement of land shall be restored by taking up land fill and vegetation. Green belt with native species such as neem and pungan trees must be developed around the mine site to reduce air and sound pollution, this will make the surrounding ecosystem more functional and stable.

4.5.2 SIPCOT Industrial Estate

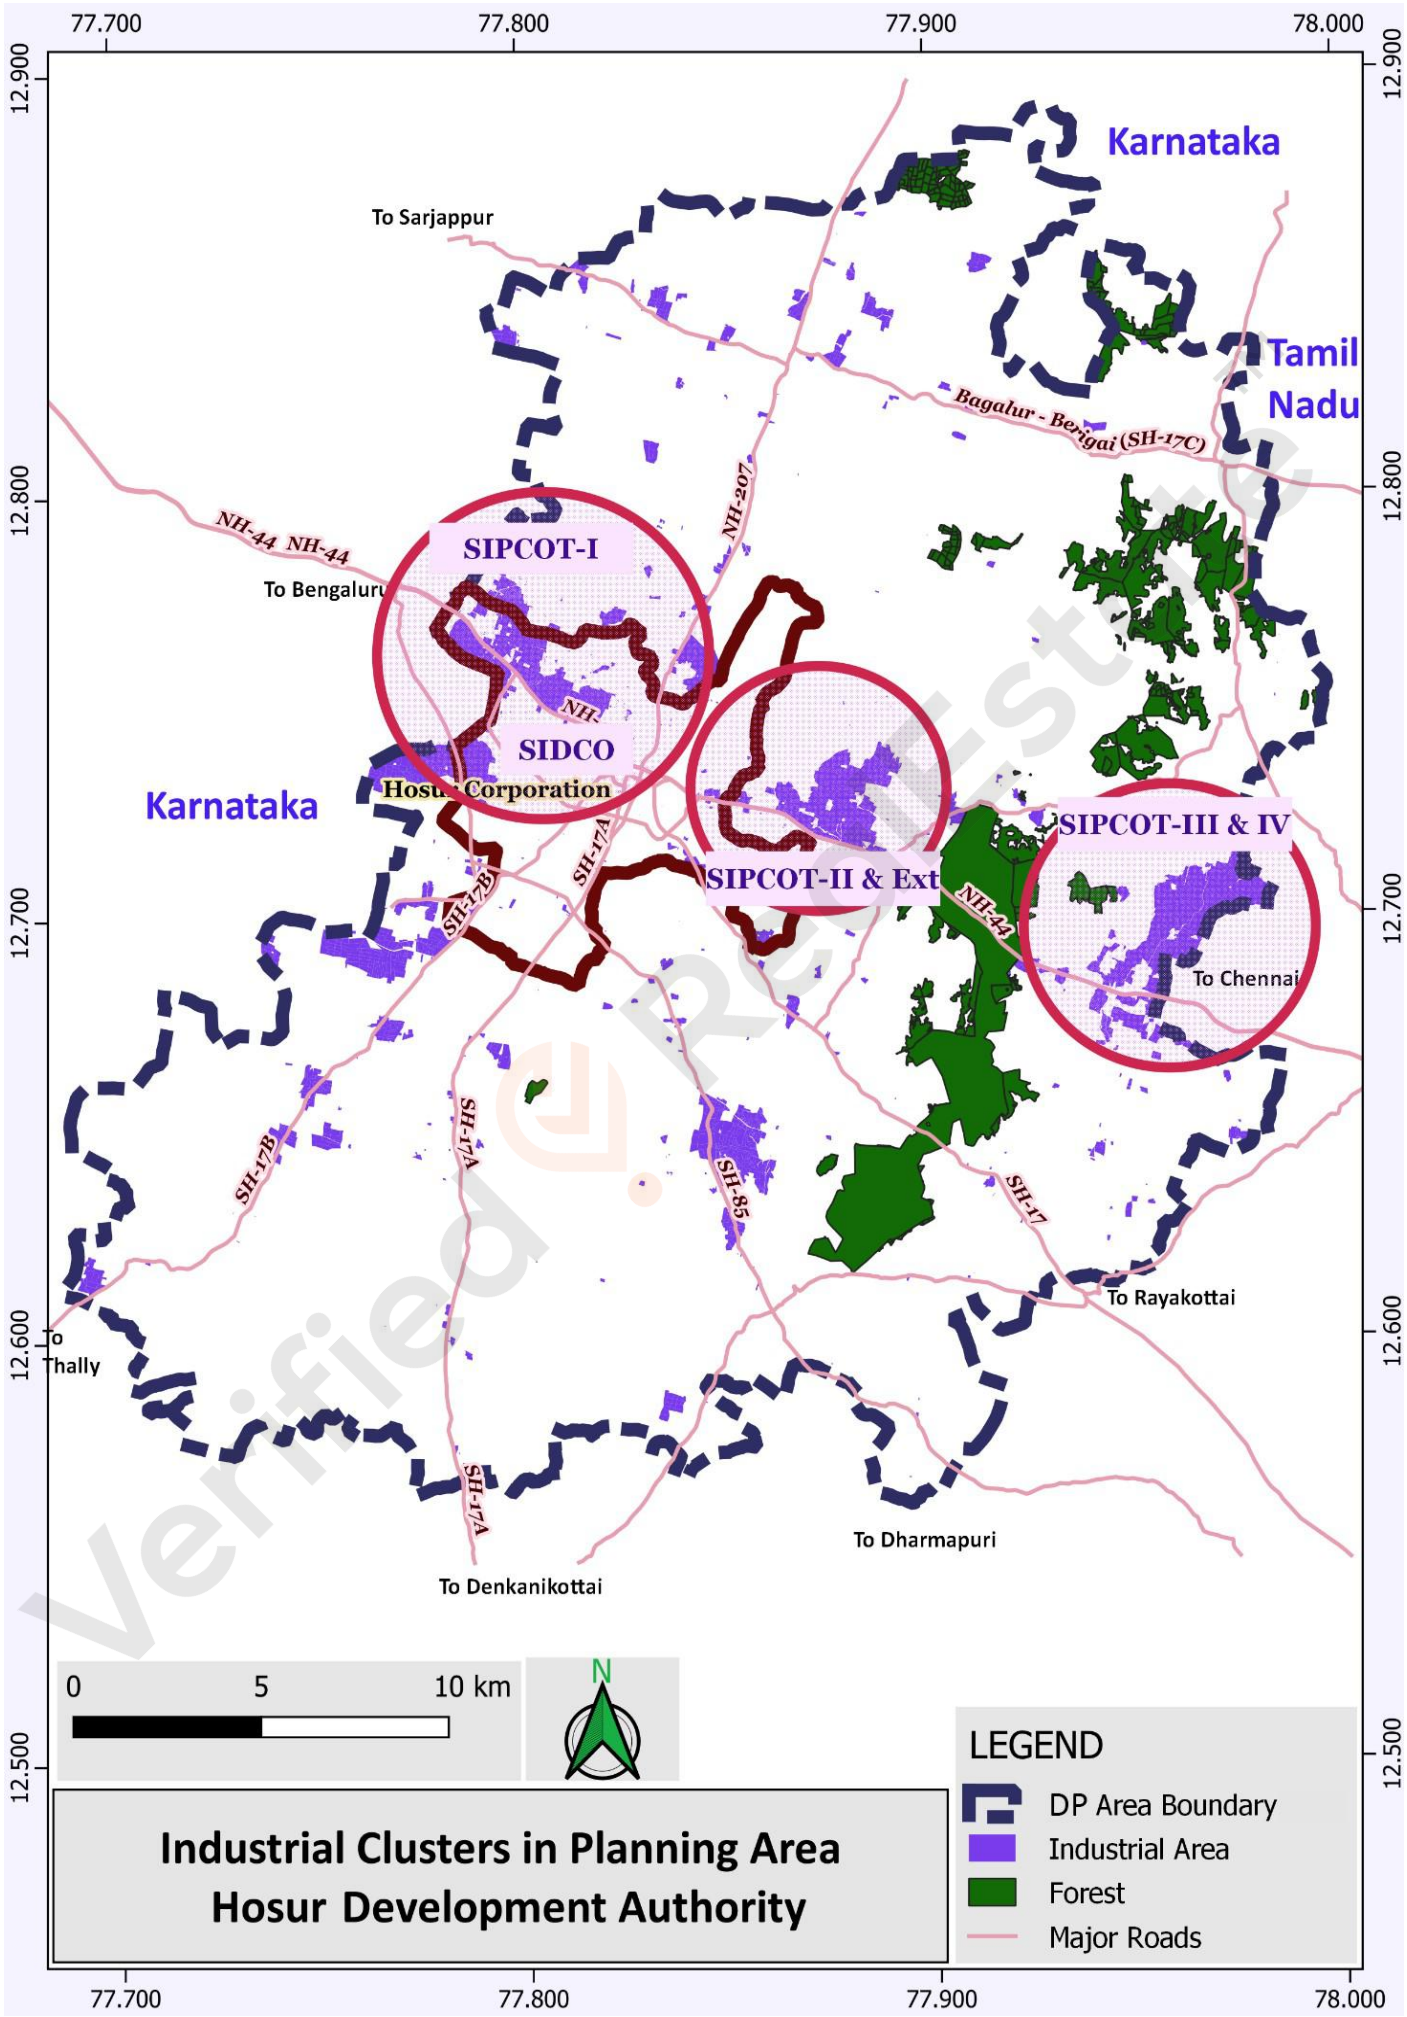

State Industries Promotion Corporation of Tamil Nadu Limited (SIPCOT) was set up in 1971 as part of State initiative to develop industrial growth. Initially, it was started in 16 locations across the state. Out of 16 areas, Hosur was selected for establishment of industrial complexes. Later, it is expanded in planning area. Thus, it became an industrial town housing more than 2000 general engineering enterprises.

Under Phase 1, Industrial Estate was established at Zuzuvadi was developed abutting NH-44 with an extent of 1235.86 acres. Large industries like Ashok Leyland, Titan, Tanishq, Lakshmi Automatic Looms, Hindustan Unilever limited, GRB Dairy Foods, TTK Prestige limited, GE India Ltd., Carborundum Universal Ltd. WENDT India Ltd. etc. were set up in this phase. About 239 industrial units were allotted space in the complex.

Under Phase 2 industrial estate was setup at Moranapalli and Thorapalli Agraharam, covering an extent of 456.88 acres. Later about 399.76 of land was added to provide additional industrial units as Phase II Expansion. About 124 industrial units were allotted space in the complex. Few of large industries set up were Ashok Leyland, Gabriel India Limited, Terex India Private limited, Marudhar Rocks International limited, Mylan Laboratories Ltd, First Steps Baby wear Pvt Ltd., Weg India Pvt Ltd., VeeBee Medicare Pvt Ltd.

In Adagurukki and Doripalli, industrial complexes is established under phase 3 and 4 by SIPCOT with extent 121.07 Ha and 389.585 Ha to meet the growing demand for industrial space in Hosur area. The SIPCOT industrial development shall increase the employment generation and make a vibrant economic activity in the region. The industrial clusters in the Planning Area is shown in Map.

Map 19 : Industrial Cluster in the Planning area

4.5.3 Special & Hazardous Industries

Major sectors of special and hazardous industries identified in Hosur Development area are,

- Automobile & Spare Parts Manufacturing
- Petro chemicals & Refineries
- Power & battery
- Metal Finishes
- Chemical Coatings and
- Surface Treatments

The details of Special and Hazardous industries located in the planning area is provided in the Annexure VIII and IX

1.Inside SIPCOT

Special and Hazardous industries encompassing a total area of 3.04 Sq. Km are located inside the SIPCOT industrial area.

a. Phase I: This phase of SIPCOT has the most special and hazardous industries in terms of area that is 1.175 sq km and the most general industries amounting to 3.826 sq km compared to other phases. The total area for SIPCOT Phase I is 5.001 sq km located in the villages of Zuzuvadi and Mukondapalli inside the Hosur Corporation Limits.

b. Phase II: This phase has a total area of 3.47 sq km falling in the villages of Moranapalli and Thorapalli Agraharam with 1.86 sq km of special and hazardous industries in Moranapalli and 1.607 sq km of general industries.

c. Phase III and IV: The Proposed SIPCOT phase III and IV are to be located in the villages of Adagurukki and Doripalli with a combined area of 5.13 Sq.km.

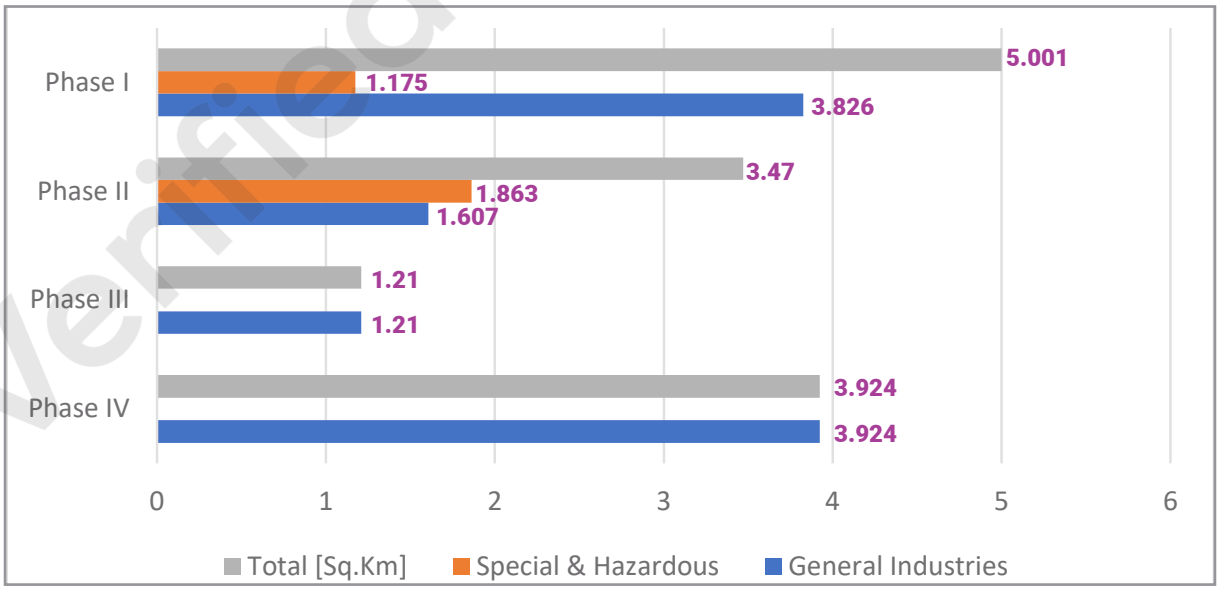

Figure 31 : SIPCOT – Industrial use categorization

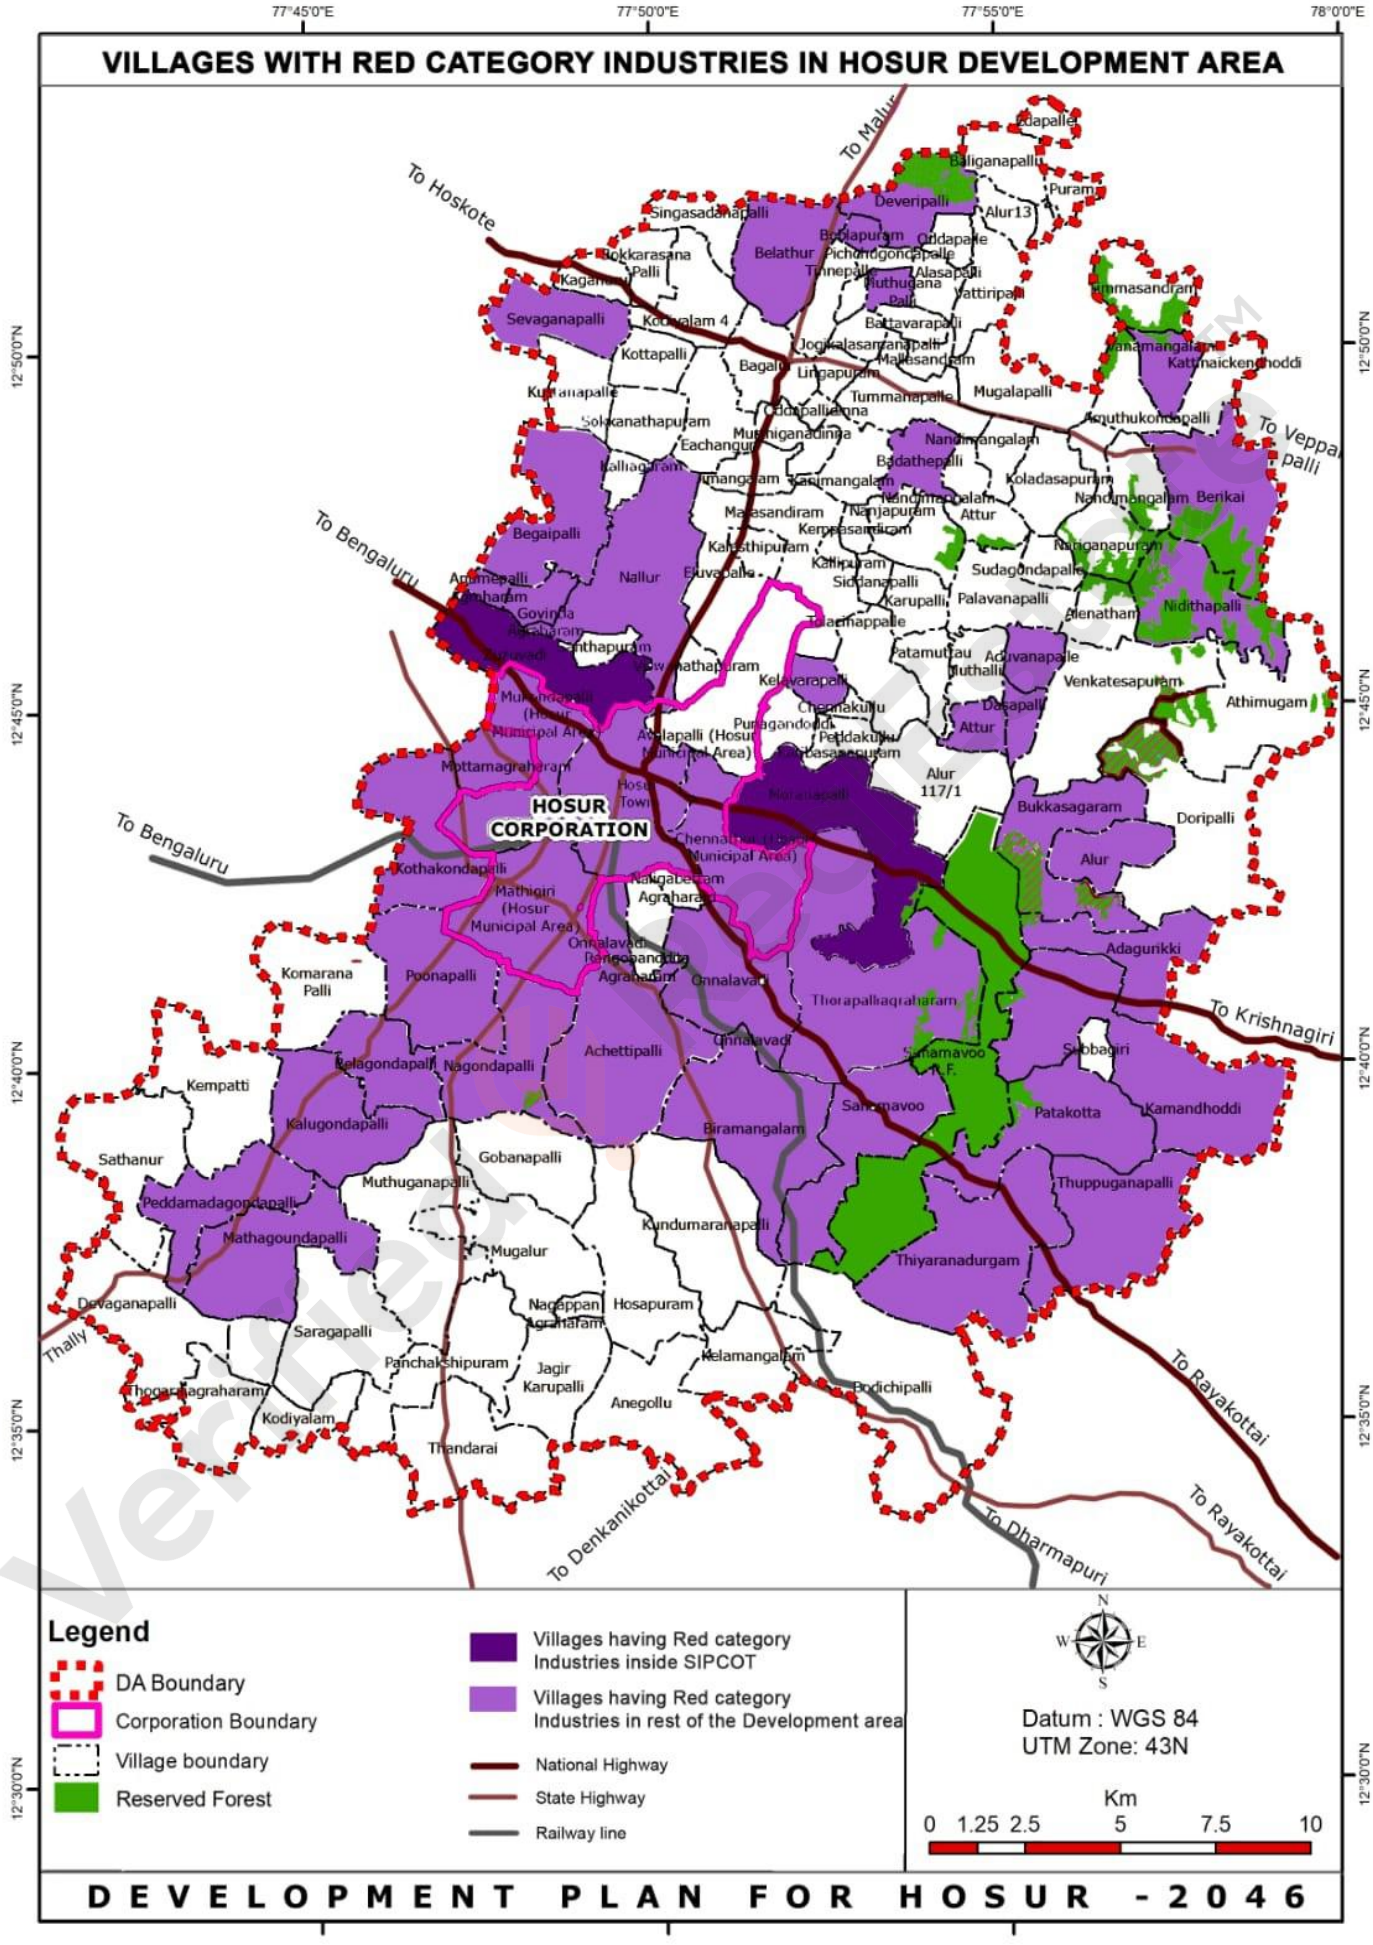

Table 17 : SIPCOT S&H Use Categories

Typology	Nos	Area[Sq.Km]
Large	22	2.85
Medium	5	0.05
Small	15	0.14
Total	42	3.04

2. Rest of Planning Area

Special and Hazardous industries encompassing a total area of 10.502 Sq.Km are located in rest of the planning area.

Verified RealEstate ™

Map 20 : Location of Special & Hazardous Industries - HDA

4.5.4 Hosur Industrial Scenario

As per Tamil Nadu Pollution Control Board, industries have been classified as Red, Orange and Green depending on the pollution levels and as Large. Medium and Small based on the Gross Fixed Assets [GFA].

The Pollution Index score is determined by considering the potential for air pollution (A), water pollution (W), and hazardous waste generation (H). Red Category or Highly Polluting Industries are those with a Pollution Index score of 60 and above. Orange Category/ Moderately Polluting Industries are those with a listed score between 41 and 59. Green Category or Less Polluting Industries are classified based on the scoring when it is between 21 and 40. If the Gross Fixed Asset [GFA] of a particular industry is more than 10 Crores it is classified as large and if GFA is within 5-10 Cr it is medium and less than 5Cr, it is classified as small industry.

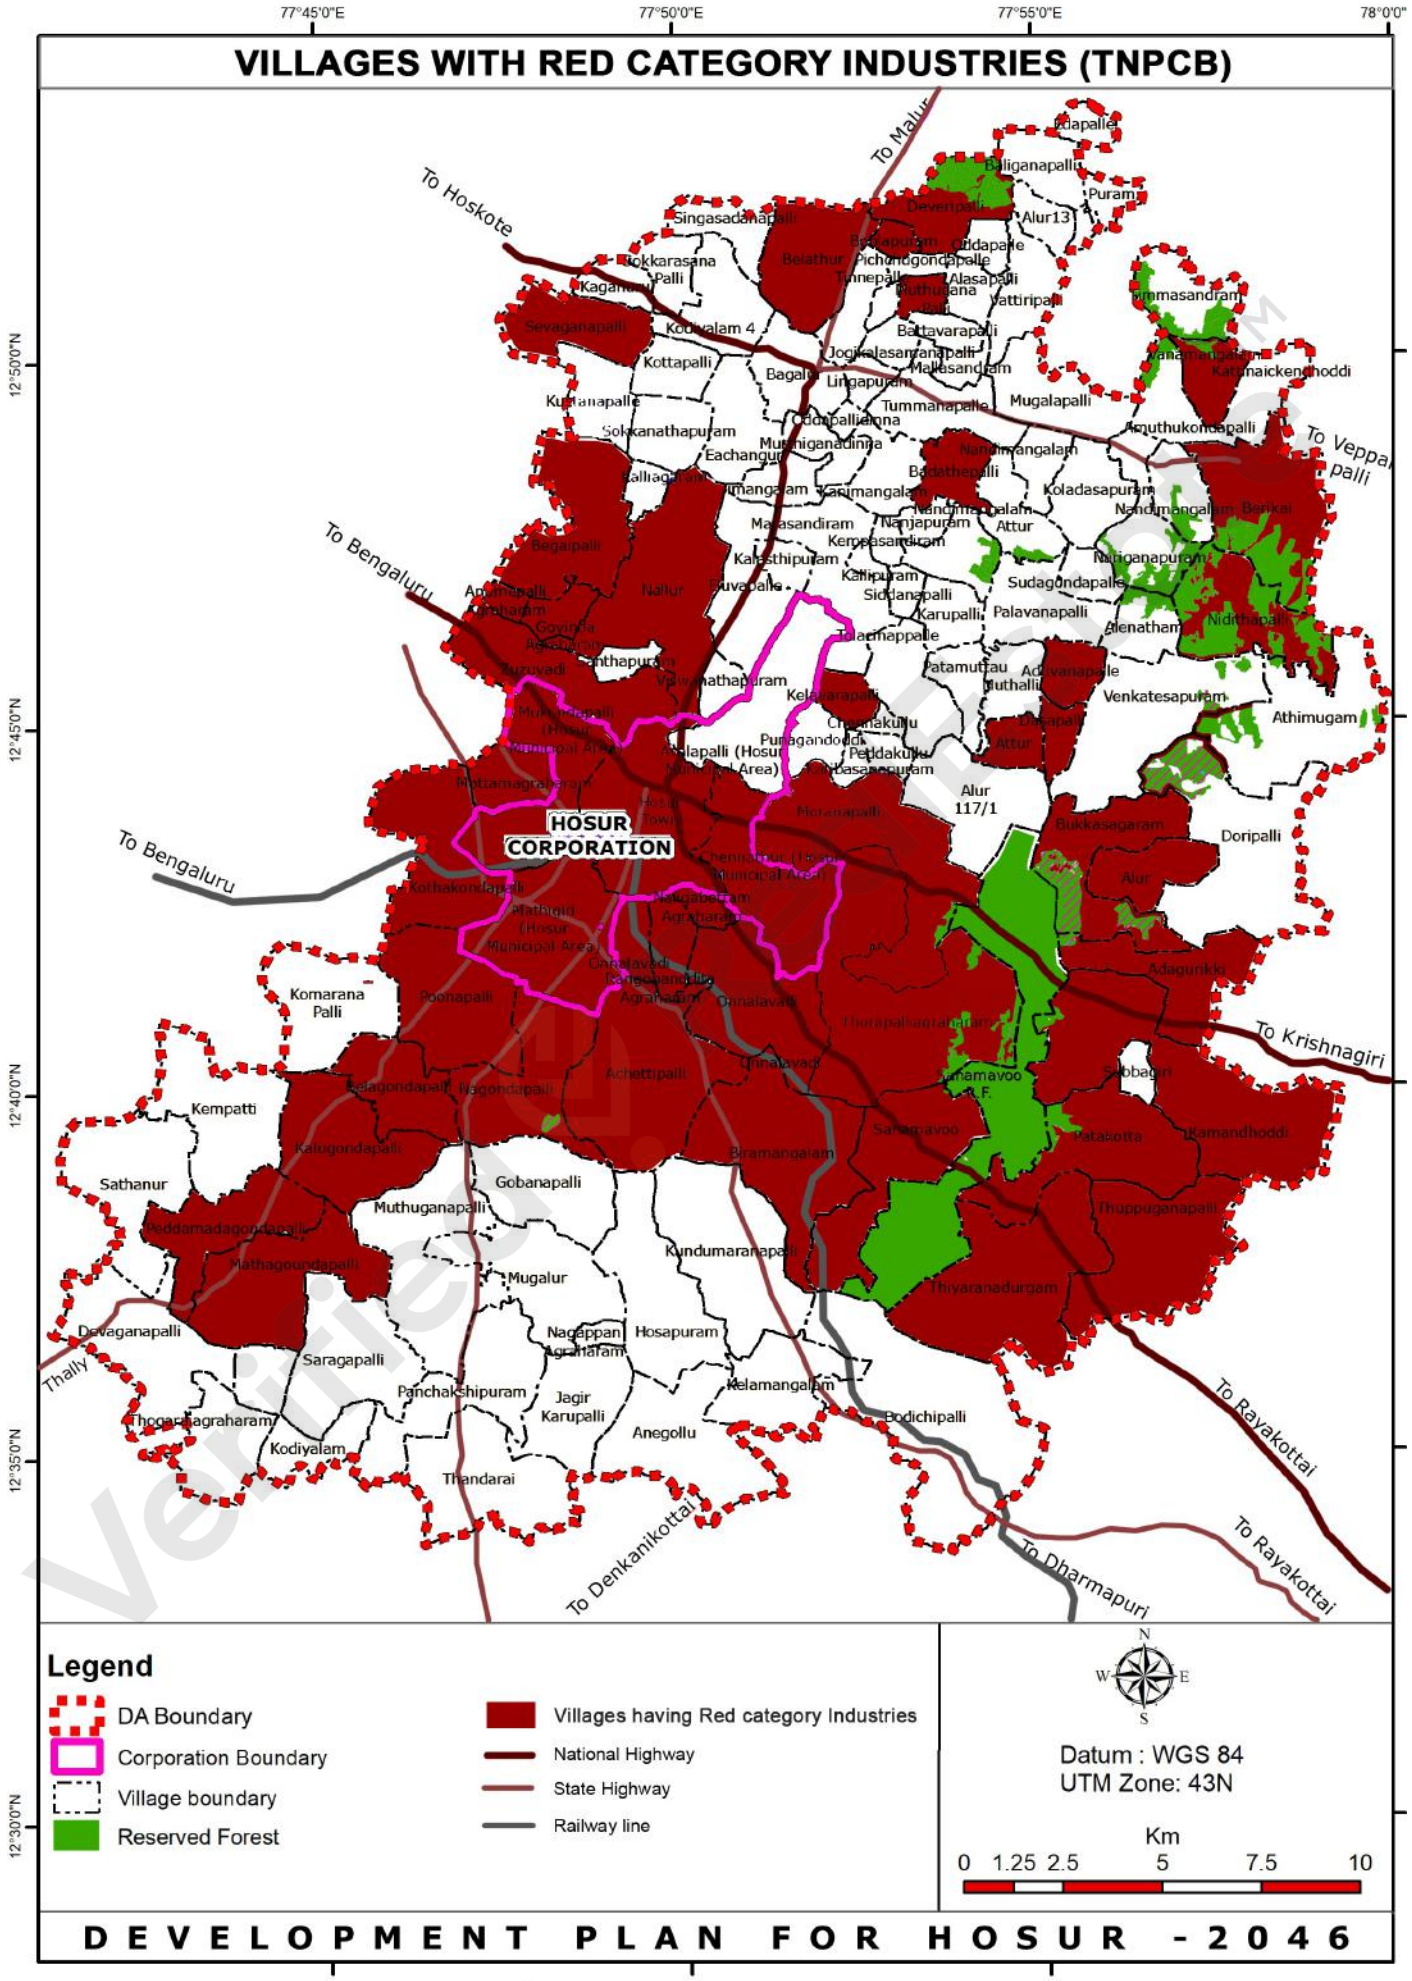

Table below depicts the industrial units in Hosur Development Area and its classification. Major red industries are in automobile, power and petro-chemical sector whereas the orange industries are mostly the production of construction materials such as Sand, Blue Metal, Silicates, Granite and Ceramics. Green industries have a mix of diary-based firms, plastics, stationery and printing sector.

Table 18 : TNPCB Industry Categorisation -HDA

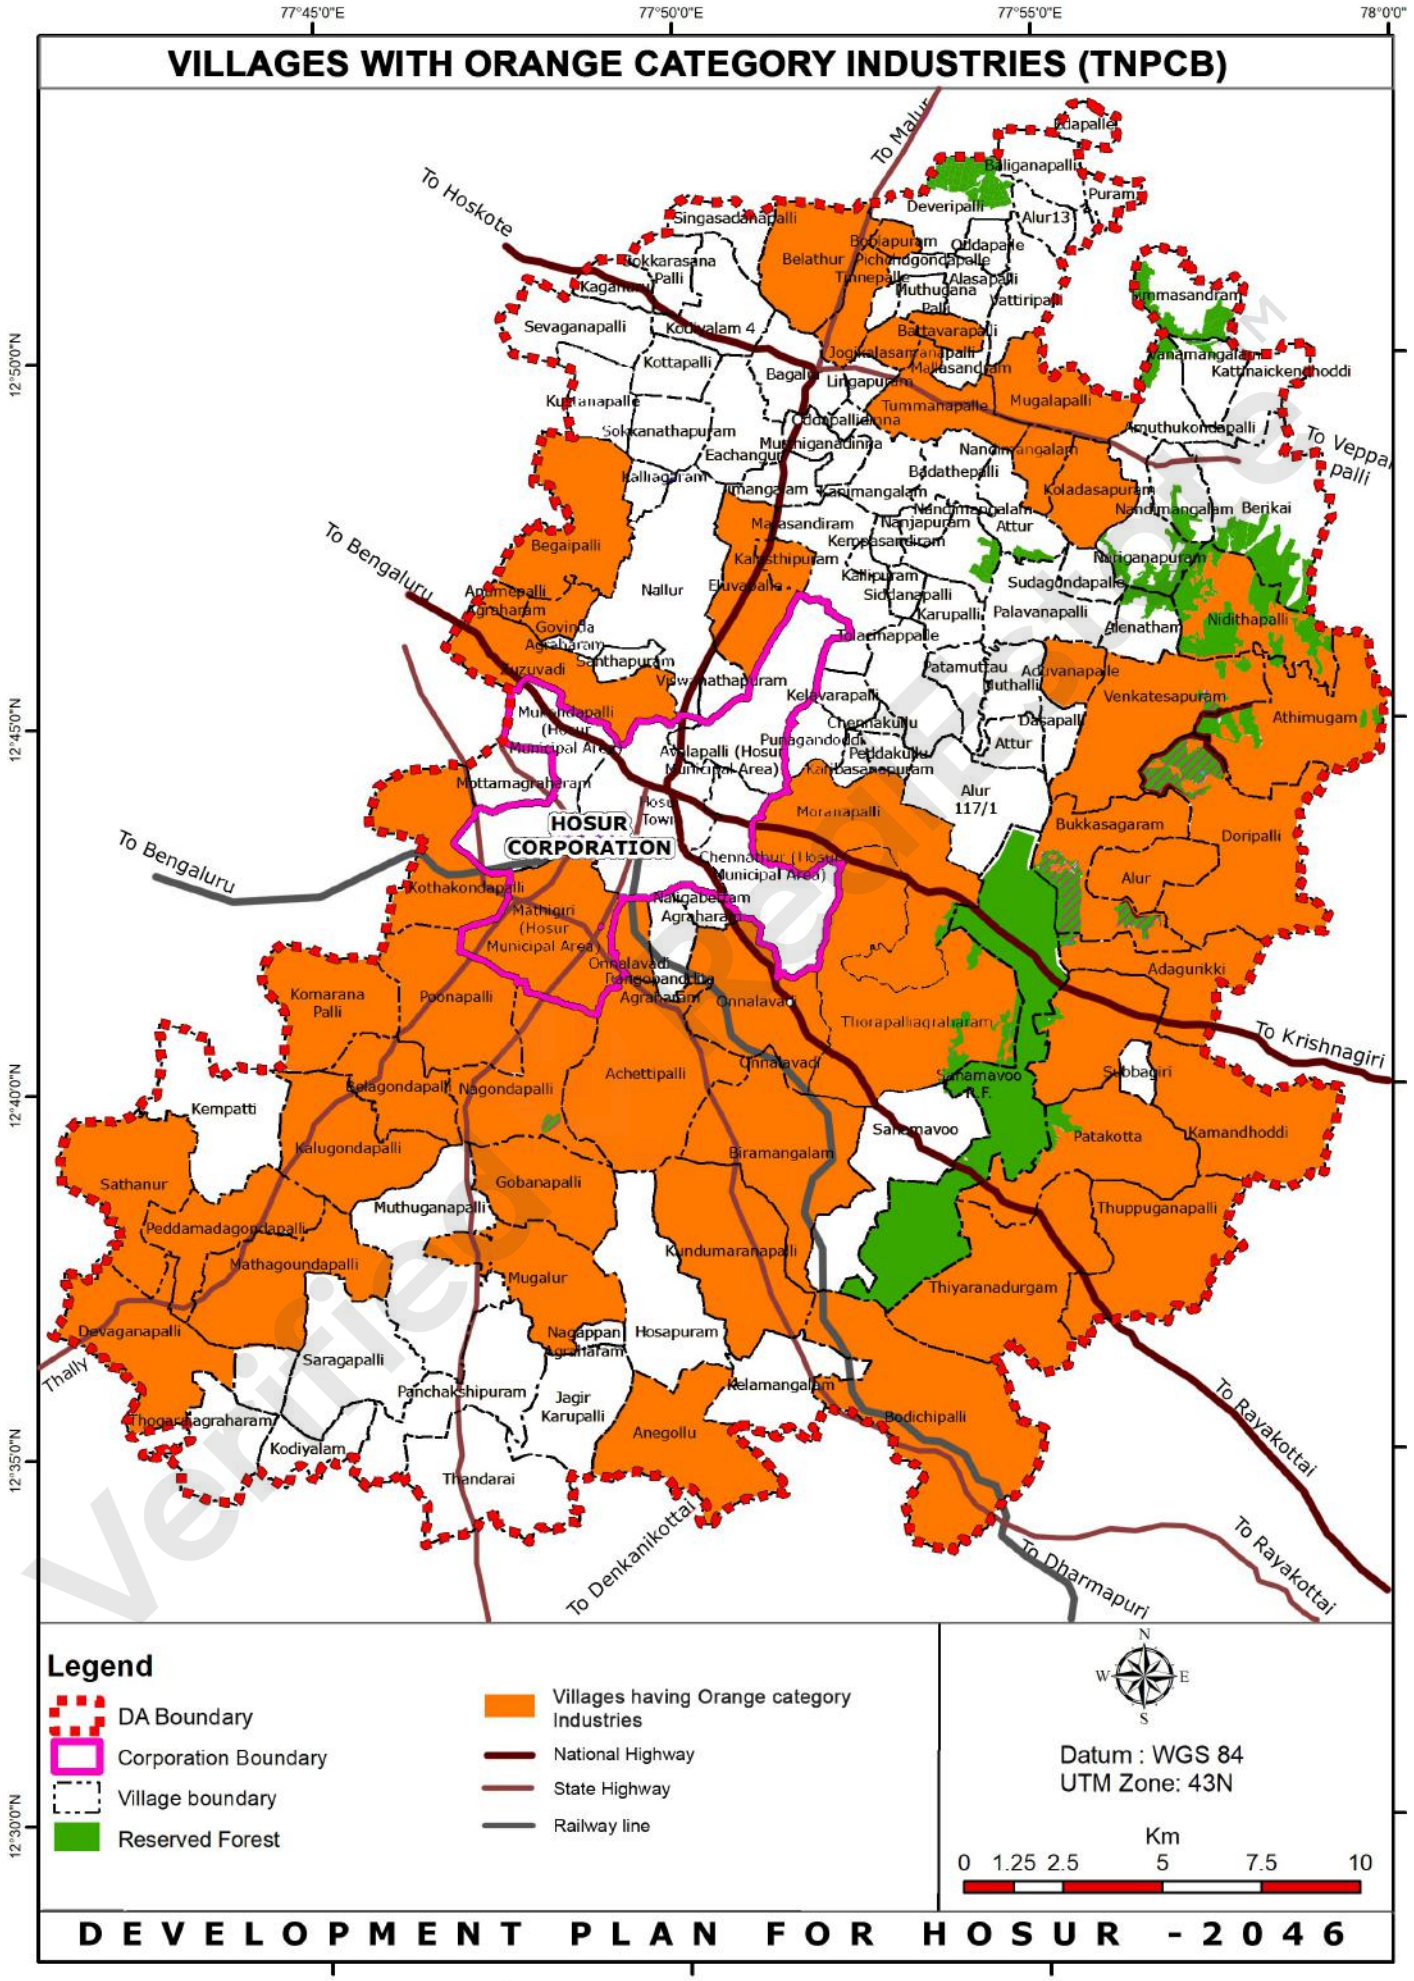

Colour	Red	Orange	Green	Total
Large Scale Industry	50	31	15	96
Medium Scale Industry	7	6	9	22
Small Scale Industry	169	88	79	336
Total	226	125	103	454

Maps below represent the villages with Red, Orange and Green industries and the potential trend for industrial development. The details of industries are attached in Annexure VIII.

4.5.5 MSME

As in other parts of India, Micro-Small and Medium Enterprises (MSME) sector play a major role in setting up of industries, generating employment and bringing socio-economic empowerment. The number of micro small and medium industries, total employees and investments are shown in the Table

Table 19: Details of MSME industries

No	Industries	Number of Industries	Total Employees	Investment (in Lakh)
1	Micro	8,452	47,178	53,219.00
2	Small	1,995	33,926	128,608.00
3	Medium	48	3,374	31,835.00
	TOTAL	10,495	84,478	213,662.00

Source: District Industries Centre, Krishnagiri

The State Government has been taking concerted efforts to decongest Chennai and its neighbouring districts by taking industries of every kind to Tier I and Tier II cities. By this, Hosur could be the biggest beneficiary and set to have large number of industries. Aerospace Engineers Private Limited which is an MSME unit based in Salem entered into a contract with Boeing, the World's largest commercial and defence aircraft manufacturer, to produce and supply critical civil aviation components and parts. Tamil Nadu State Government policy is to produce in Tamil Nadu for export to every part of the globe. Tata Electronics and Taiwan's Delta Electronics are building massive manufacturing units in and around Hosur and the presence of two companies will foster another major player in the sector to choose the industrial town. Hosur is also one of the nodes of the Defence Corridor as announced by the Government.

Verified OneRealEstate

4.6 Tertiary Sector

4.6.1 ELCOT IT Park

ELCOT IT park is situated on NH-207 at Viswanathapuram village opposite to Hosur Corporation office with an extent of 172.2 acres as shown in Figure below. It is featured with 16 IT park plots and ELCOT office building was constructed. This provides opportunity to develop Hosur also as an IT Hub.

For expanding the industrial activities in the area, it requires following measures

1. Feasibility of setting up an airport in Hosur for promoting the town as Industrial hub, IT hub and floriculture hub.
2. Bengaluru Metro can be extended to Tamil Nadu border for free movement between the two cities.
3. To promote policy on transforming Hosur into a hub for manufactures of electric scooters and their accessories.
4. Hosur is one of the nodes of the defence corridor, and hence infrastructure needs to be strengthened.

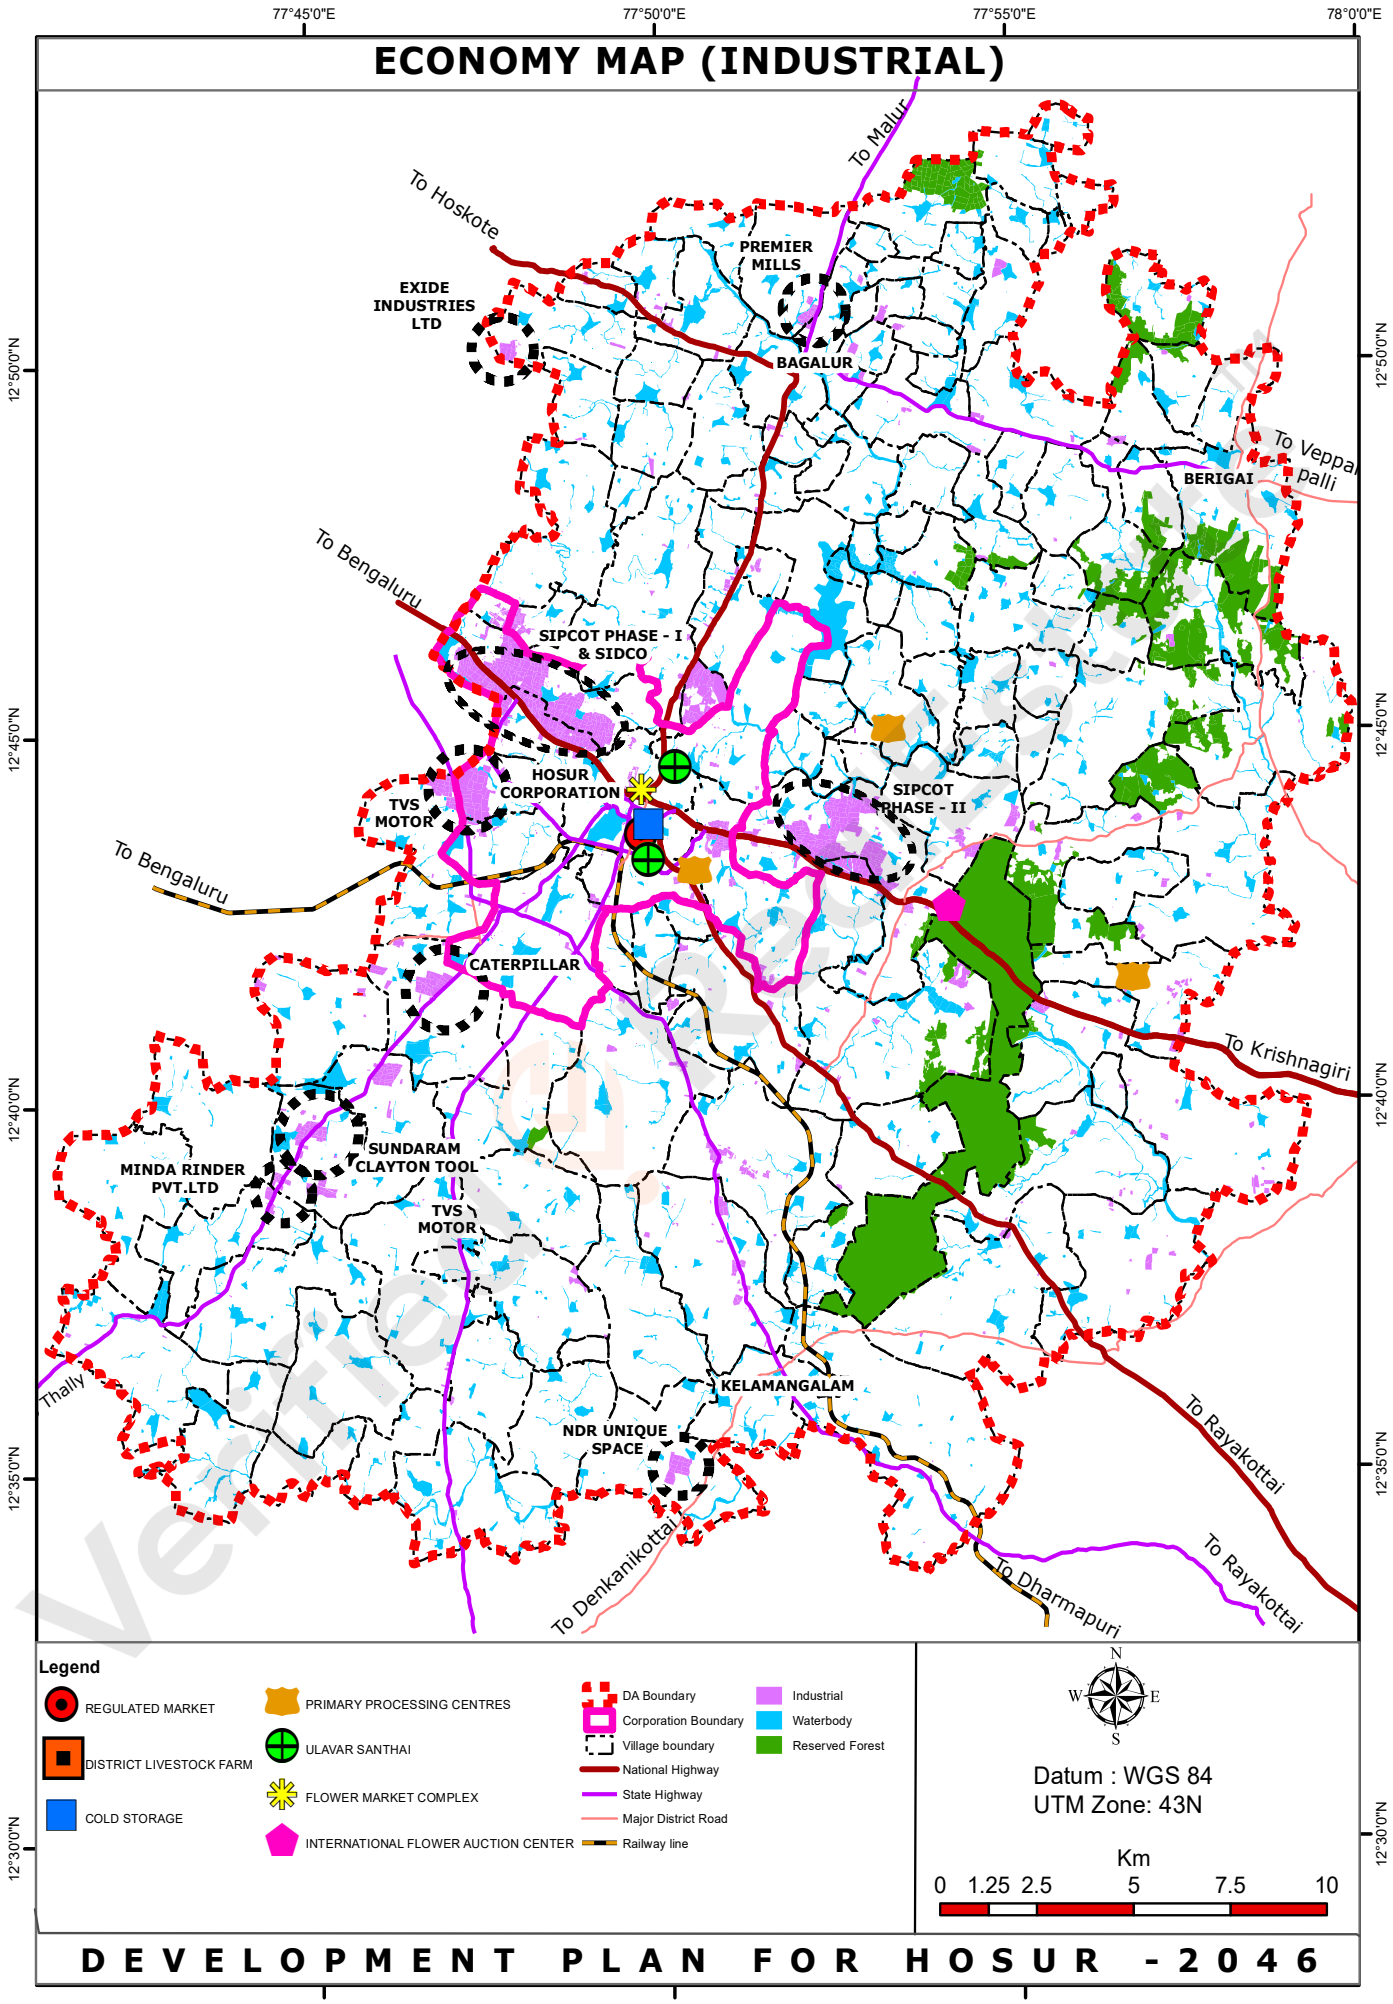

Figure 32: ELCOT IT PARK, Hosur

4.6.2 Hospitality

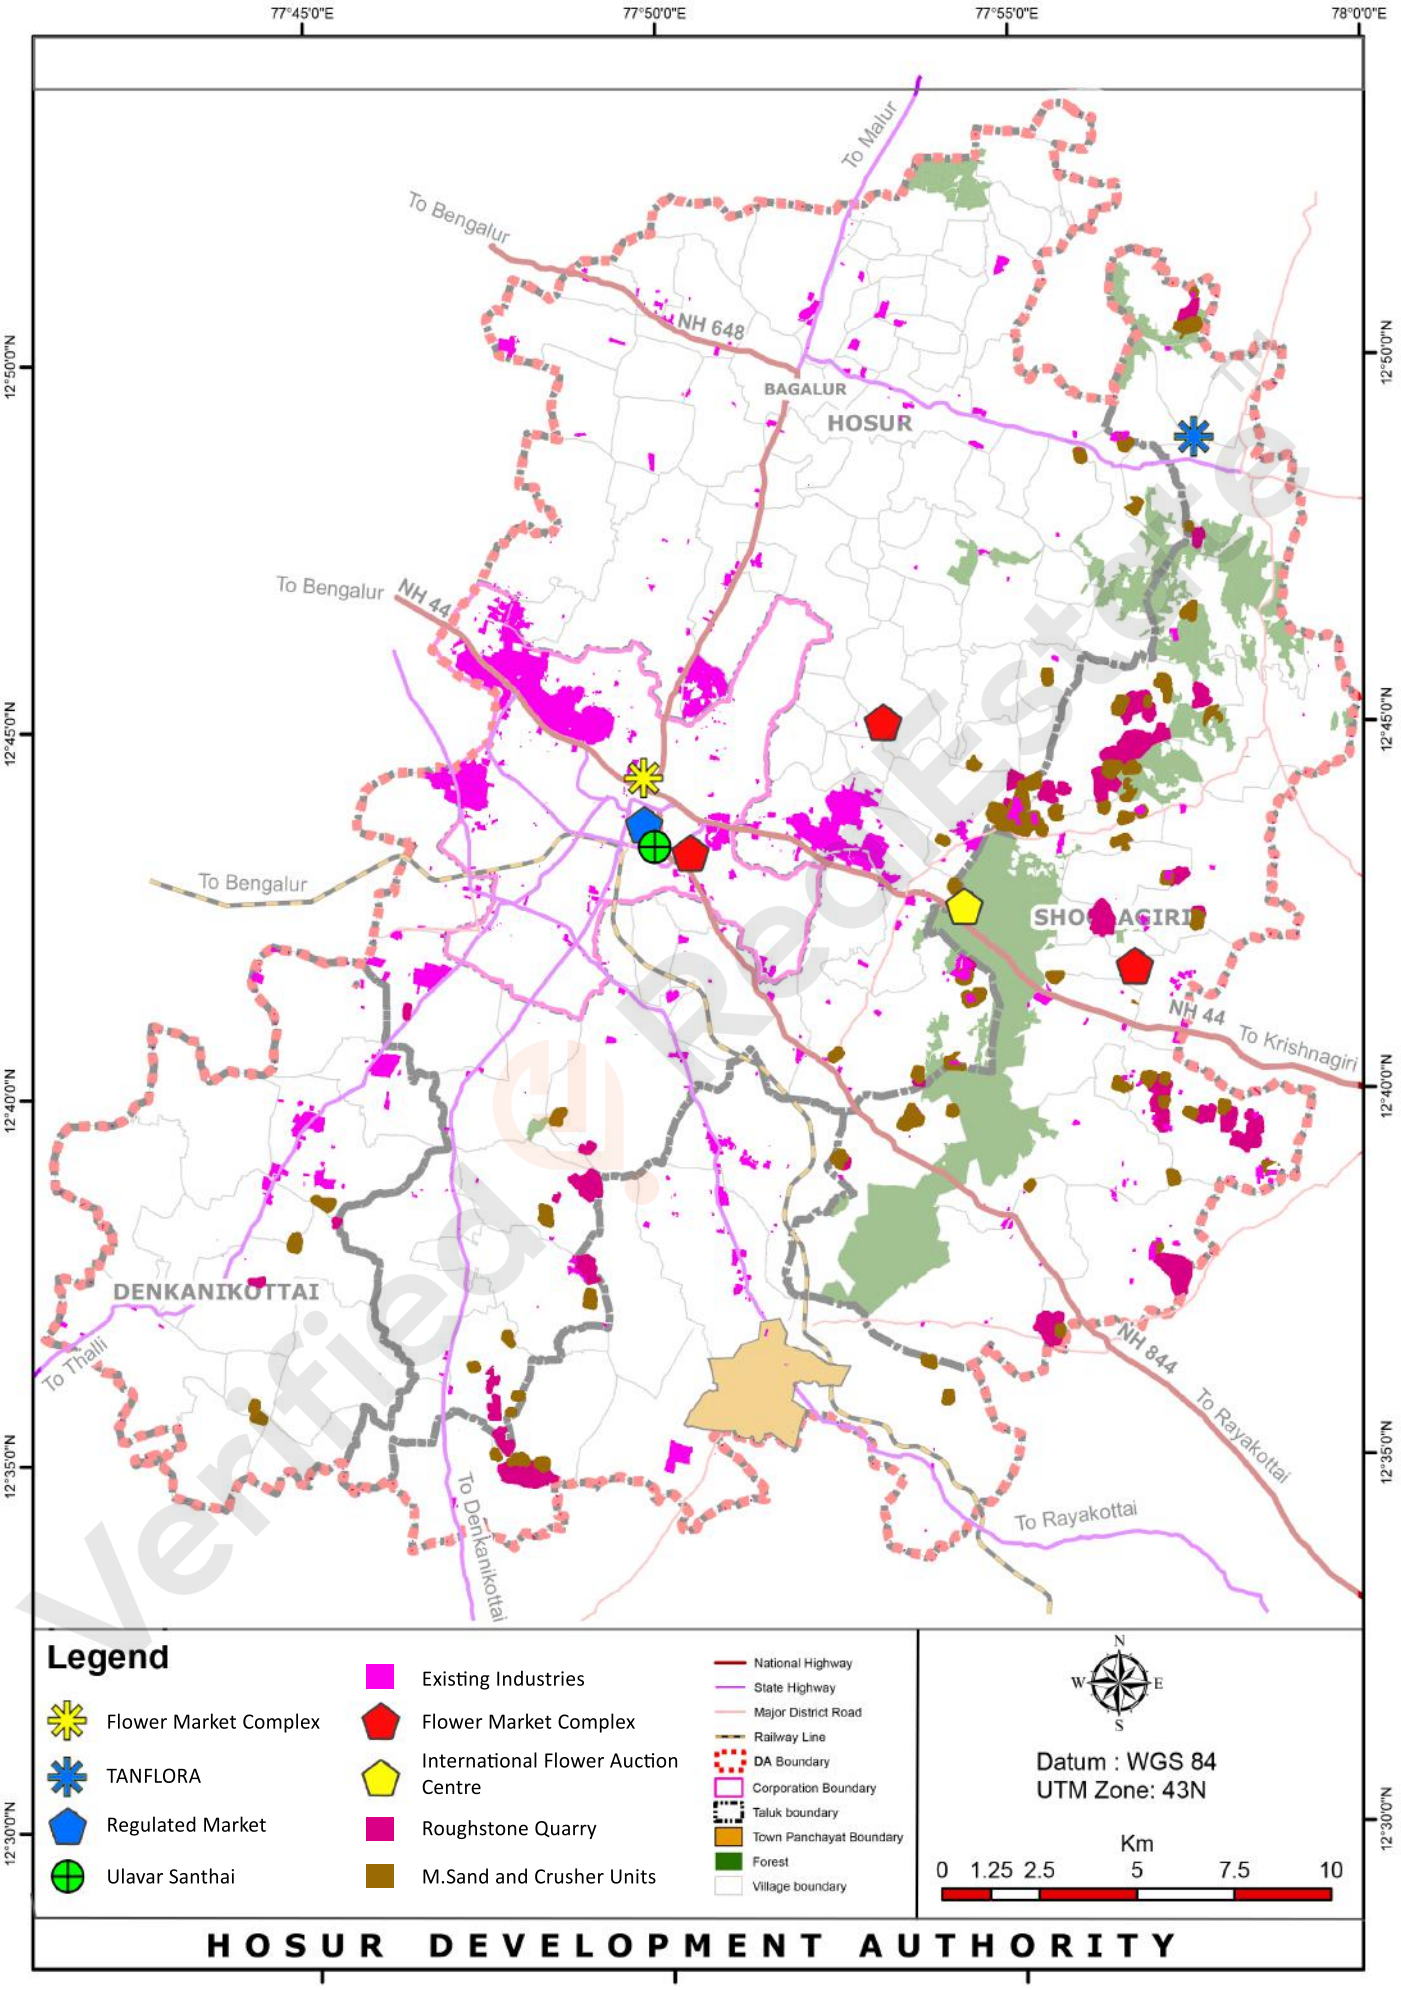

Hosur is fast emerging as an important industrial town in the western part of Tamil Nadu. This requires hotel facilities including budget hotels, guest houses, lodges, boarding houses and serviced apartments accommodating various economic groups. Services remain as tertiary sector with skills and jobs in retail and travel, hospitality, logistics, IT/ITES, banking and financial services and insurance.

Maps below represents the existing economic facilities and infrastructure in the New Town DA.

PHYSICAL & SOCIAL INFRASTRUCTURE

Verified RealEstate™

5.1 Physical Infrastructure

5.1.1 Water Supply

Water supply is an important parameter for a settlement's growth. The Development Plan assesses the existing status and plan for the projected population.

Existing Status: Water is supplied to the planning area by three sources namely wells, Hogenakkal combined water supply scheme maintained by TWAD and Perandapalli river source. The present rate of water supply to the Hosur Corporation is 27 MLD. Against the per capita requirement of 135 lpcd, Hosur corporation has been getting water at the rate of 110 lpcd. The frequency of water supply ranges from 2 to 5 days. In unserved areas, water is supplied through tanker service. The details of sources of water are shown in the Table below.

Table 20 : Source of Water Supply

No	Source of water supply	Design quantity in MLD	Realized quantity in MLD
Hosur Corporation			
1	Hoganekkal CWSS	14.64	6.00
2	Perandapalli River Source	6.50	2.00
3	Well Field Source Scheme	19.00	19.00
Well Field Source Scheme			
4	Hoganekkal CWSS	0.65	0.5
5	Local Well sources	0.521	0.521

Hosur corporation has been facing acute shortage of water supply. The water level in many bore wells has gone down and yield is also less. One of the important water sources Kelavarapalli Dam is stopped due to contamination. Thenpennai river upstream is polluted and it is declared unfit for consumption by Tamil Nadu Pollution Control Board (TNPCB). Based on the report of Joint committee on "Frothing of Chemical foam in River Thenpennai" published in November 2021, the cause for contamination is Untreated/Partial treated sewage from Bengaluru. This report further suggested that all the industries shall be closely monitored for discharge of treated effluent by Tamil Nadu Pollution Control Board.

5.1.2 Sewerage

Currently, the main mode of individual disposal in Hosur town is through septic tanks, soak pits and through public convenience. The road side drains carry storm water are mixed with sewage. According to Hosur underground sewerage DPR 2015, the drains are not functioning properly due to stagnation of sewage

Verified © PeriStruct™

and sullage. The water bodies are also polluted and unsanitary conditions are causing unhealthy and unhygienic conditions.

The proposed UGSS network of length 514 km by gravity and 29 km by pumping is planned to be constructed in two phases. There are five large lakes in the Corporation. The Ramanaicken Lake, Anthivadi Lake and Santhapuram Lake are fully dried up where as Darga Lake and Basti Lake are partly dried up and filled with sewage and sullage. To revive the lakes for the purpose of ground water recharge, recreation and park development, construction of STP's at the edge of lake bed, treating the sewage to pollution control norms, disinfecting and discharging the effluents in to the Lake to support sustainable development of lakes apart from preventing encroachment and unauthorized activities is considered as better option. Five STPs have been proposed at Punaganadoddi, at the boundary of Darga Lake, Santhapuram Lake and Ramanaicken Lake and Anthivadi.

5.1.3 Solid Waste Management

Solid Waste Management (SWM) involves management of various activities related in collection, storage, transportation, processing and disposal of solid waste in an environmentally compatible manner. Towns and cities have become the centres of population growth which accelerates the amount of corporation solid waste generation.

9.20 MT of solid waste and garbage are daily collected manually and transported through lorries and trucks. Hosur Corporation have introduced door-to-door collection of segregated waste using push carts in some of the developing areas covering a population of 100 percent. The corporation has five number of heavy vehicle and one light commercial vehicle for transportation of the waste to the compost yard. The details of solid waste generation and treatment are listed in the Table

Verified RealEstate

Table 21: Solid Waste Generation and Treatment

Description	Details	
Existing Waste Generation (MT)	72	
Per capita Waste (grams)	293	
Classification (MT)	Dry	35.5
	Wet	36
	e-waste	0.25
	Hazardous	0.25
Method of Collection	Door-to-Door	
Method of Composting	Aerobic, Bio-Methanation, Bio-Mining	
Composting Facilities	Micro-compost Centres (MCC)– 11	
Capacity of MCC (MT)	55	
Compost yard at Dasepalli Village	10 MT capacity (Area – 9.23 acres)	

Source: Hosur Corporation

Figure 33: Compost Yard at Dasepalli Village

The waste collected and transported through Lorries is dumped in the compost yard at Dasepalli village, which is located 16 km away from the city. The existing dump yard is located away from residential area. Kelamangalam town panchayat daily waste generation is 0.5 tons and has a compost facility with 3 acres in Jakkeri which is located out of planning area.

Rural area has basic infrastructural facilities like segregation sheds, compost pits, street garbage bins, tricycles / pushcarts, e-carts, implements, etc. 'Thooimai Kaavalars' are engaged in door-to-door collection and segregation of waste into biodegradable and non-biodegradable to dispose the waste or convert the waste into manure.

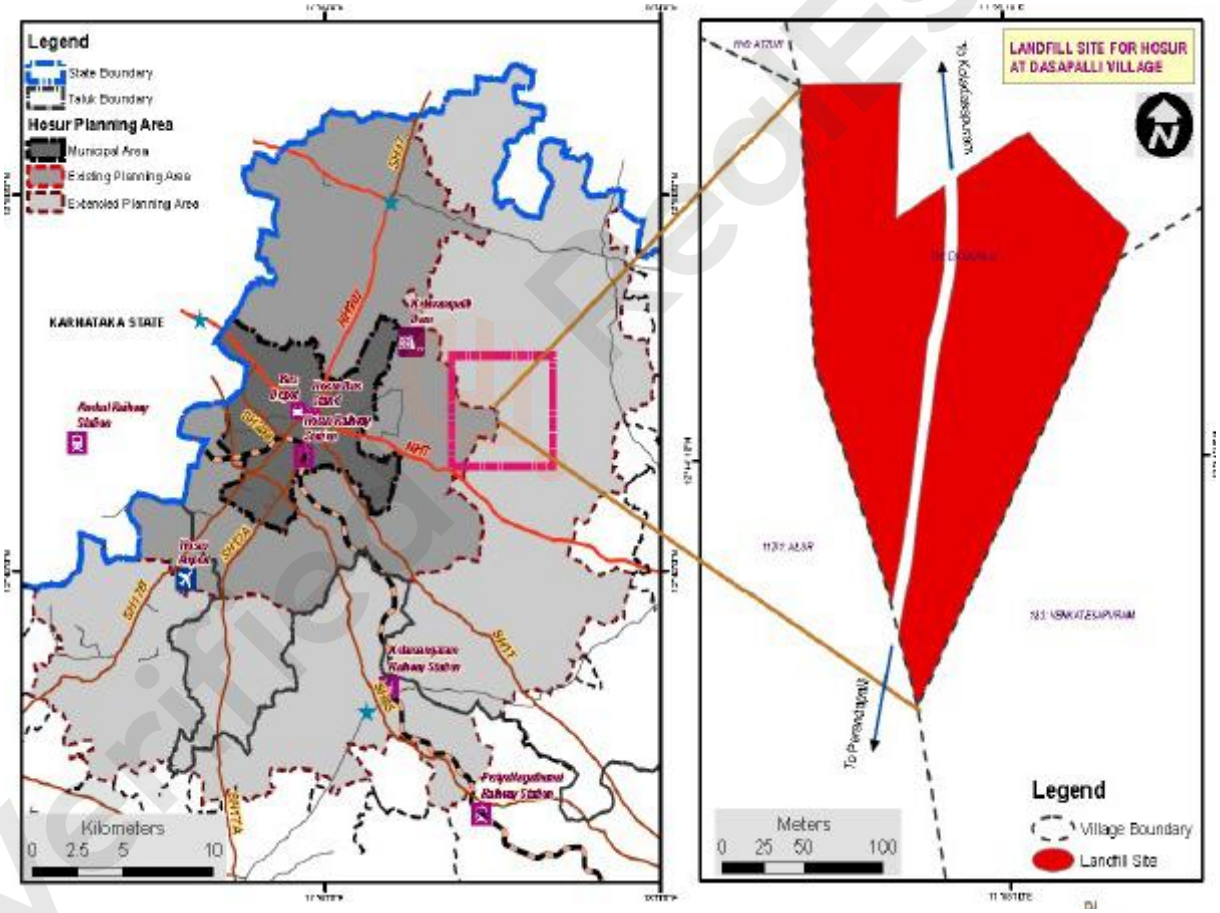

Figure 34: Location of Compost Yard

To process the waste generation, various systems are in place including bio-mining, bio-methanation Micro-Compost Centre (MCC). An additional Dry Incineration facility plant is under construction with capacity of 10 tons per day (TPD). MCC with 55MT capacity can be increased as the city is set to expand its area. Bio-Mining facility with 1,02,968 cum quantity of waste processing facility is under construction. All these solid waste management systems can cater to the increasing waste generation. However, waste segregation and disposal can be done better at source. An awareness at household and street level can assist in managing waste processing at city level.

5.1.4 Storm Water Management

Storm water drainage aids in regulating the urban floods and rainwater run-off in a planned manner. This shall assist in enhancing the ground water and surface water recharge. The area lies at an altitude of 880 metres above mean sea level. The undulated terrain both helps and hinders the rainwater run-offs. If planned properly based on the terrain, the rainwater and storm water can be regulated in a planned manner. The covered and uncovered drain length of corporation is 127.42 km and 139.26 km respectively. Total drain length is 266.68 km.

Table 22: Existing Storm Water Drain in Hosur Corporation

Description	Length in km
Drains	266.68
Road	635.25
% of Roads with Drain	41.98

Certain low-lying area that are vulnerable to flooding occurs. The Disaster Management Plan 2020 prepared by Krishnagiri district clearly defines the flooding zones as Medium vulnerable zones which is further discussed in Environment chapter below.

The existing storm water drainage system parameters benchmarked against the normative/standard requirements or service levels as prescribed by reference guidelines/standards such as CPHEEO guidelines, prevalent level of services in similar cities with functional (good) urban infrastructure is furnished in the Table.

Verified by PeriStats

Table 23: Normative Standards Prescribed for Storm Water Drain

No.	Service Indicator	Normative Standard (%)
1.	Road length covered with storm water drainage	130
2.	Pucca Drains (Open & Closed)	100

For rural areas proper drains are constructed to discharge storm water drained in all streets to the nearby water bodies.

5.1.5 Electricity

Electricity is fundamental necessity to every household. To sustain the industrial and commercial activities power infrastructure is inevitable to the planning area. Power supply is produced from renewable and non-renewable sources and distributed to industries and households by Tamil Nadu Generation and Distribution Corporation (TANGEDCO). The existing substation capacities are assessed and compared with the future requirements of the planning area. Planning area has 16 existing Grid substations with capacity of 913KV.

Table 24: Details of TNEB Substations

The total power requirement for the projected population 11,37,516 is estimated as 834KV based on URDPFI guidelines, one substation for every 15,000 population with 11KV capacity.

5.2 Social Infrastructure

5.2.1 Housing

Housing is one of the basic needs in the civilized human existence. The growth in population and increase in land value makes affordable housing dream for a huge section of the population. This also leads to formation of slums, poor living conditions and lack of infrastructure. To address the issue of providing affordable housing for all, Government of India announced Nation Urban Housing and Habitat Policy in 2007. Housing has been provided under the Government schemes such as Atal Mission for Rejuvenation and Urban Transformation (AMRUT), Valmiki Ambedkar Awas Yojana (VAMBAY), 2 million housing programmes, Jawaharlal Nehru National Urban Renewal Mission (JNNURM), Interest Subsidy Scheme for Housing the Urban Poor (ISHUP).

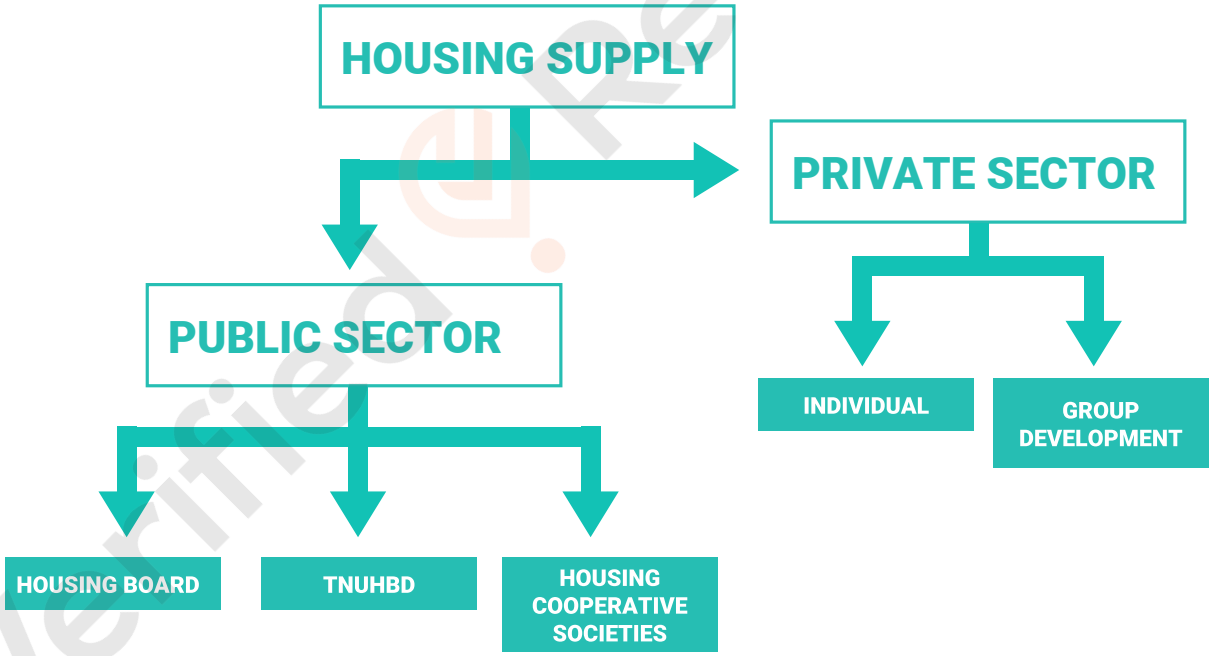

Figure 35: Housing Sector

Verified by RealEstate.com ™

The mismatch between housing supply and the demand results in the rise in land price and rent which affects the affordability. The housing demand has been calculated by considering factors such as housing backlog, new

demand generated due to increase in population, homeless population level of congestion in the existing dwelling units that would need replacement and the availability of the vacant housing stock in the city.

Government has provided various policies and fiscal incentives to promote housing on both, the demand and supply sides mainly to cater for poorer segments of the society.

The housing supply is provided by both public and private sectors in India. Most of the housing supply comes from private sector in India. In the planning area, the public sector plays an active role in planning and implementing the housing projects. Tamil Nadu Housing Board has various projects within planning area at various locations like Avalapalli HUDCO, Eluvapalli village for HIG, MIG and LIG. The other participants in housing supply in public sector are TNUHDB and housing co-operative societies. Presently, Tamil Nadu Housing Board has been implementing housing projects near ELCOT IT Park with 40-HIG and 30-MIG flats. Bagalur HUDCO, Tamil Nadu Housing Board has been constructing 20-MIG flats

Figure 36: Locations of TNHB projects

Tamil Nadu Urban Habitat and Development Board (TNUHDB), has a vision to achieve slums free cities by 2023. It has implemented various Housing, slum Development and Rehabilitation and Resettlement programmes to improve the living conditions of the slum families in Tamil Nadu.

The total slum population in Hosur corporation is 19,514 with total number of 5,819 household (Census, 2011). Hosur corporation has 26 non-notified slums.

These slums population constitutes about 7.95 % of total population in the Hosur corporation. Such slum areas suffer from poor quality of built stock, inadequate services, lack of amenities and open spaces, and lack of proper access even for disaster mitigation putting them at high risk. The houseless population in the corporation is 151 as per census 2011. The number of households is estimated to 68.

TNUHDB has implemented rehabilitation projects in Ezhil nagar with 696 units in two phases and another project in Punagandoddi village with 336 units is under construction.

The proposed residential land use is spatially distributed along the growth centres. This spatial distribution enables the development to initiate along the growth nodes and radiate to the internal regions in the later stages. The household requirement for the projected population is estimated based on the average household size of previous decades.

The number of households in Hosur corporation in 2011 is 62,170. The household size in corporation and planning area is 3.9 and 4.1 respectively.

Table 25: Household Size

No.	Area	Population	No. of HH	Average HH Size
1	Tamil Nadu	7,21,47,030	1,85,24,982	3.9

5.2.3 Health Facilities

Planning for health sector is the important part of social infrastructure planning. Health status is an indicator of human well-being. Investments in health sector have direct relationship with longevity and improvements in physical and mental development of people.

EXISTING STATUS

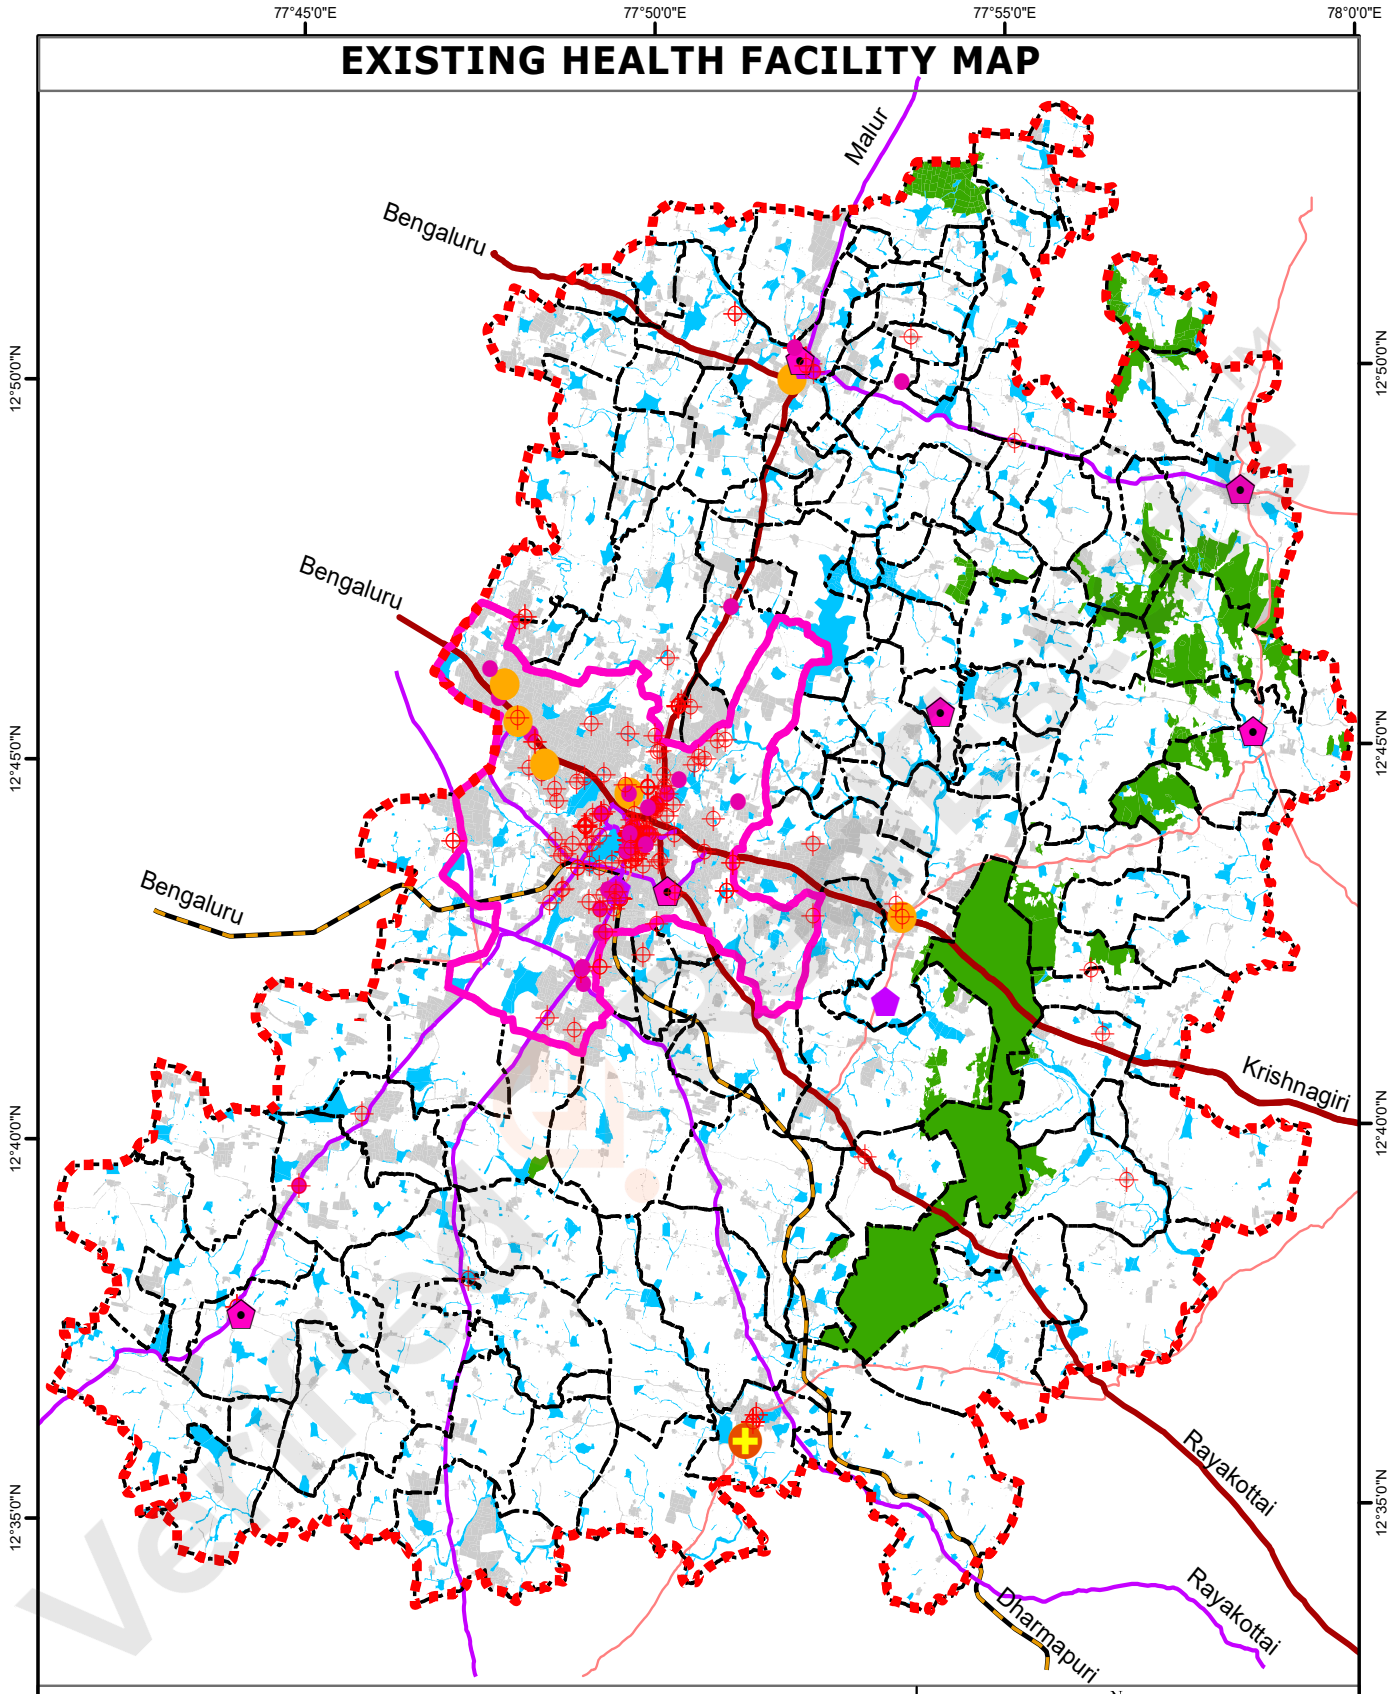

There are 6 primary health centres. Also, there are 57 subcentres in the planning area. There are two Government Hospitals namely one E.S.I Hospital with 35 beds at Mukondapalli and one Hosur Taluk hospital with 140 beds. Total number of hospitals in Hosur including Government and private are 26. The below table shows the existing health facilites.

DEVELOPMENT PLAN FOR HOSUR - 2046

Map 27 : Existing Health Facility Map

5.2.4 Open Spaces

Parks, playgrounds and open spaces are 'lung' of the city. These public spaces provide better relaxation and quality of urban environment. Hosur corporation has total park area of 6,63,719.25 Sq.m. Notable parks are Ramanaicken lake park with walking path, Nethaji park, Brindhavan Nagar part etc. Available park space per head stands as 2.71 sq.m - as per census 2011, which is very low when compared to standard per head requirement which is 10-12 Sq.m area per person recommended by URDPFI (Urban and Regional Development Plans formulation and Implementation) guidelines. List of parks and open spaces in corporation is provided in Annexure VII.

5.2.5 Fire Station

Fire and rescue service station is located in the SIPCOT industrial complex. According to the URDPFI Guidelines on location of fire station, it is recommended to have a fire station for every 2-lakh population with a radius of 5-7 km. With the increase in population density, it is recommended to provide a fire station.

Table 30: Standards for Fire Station

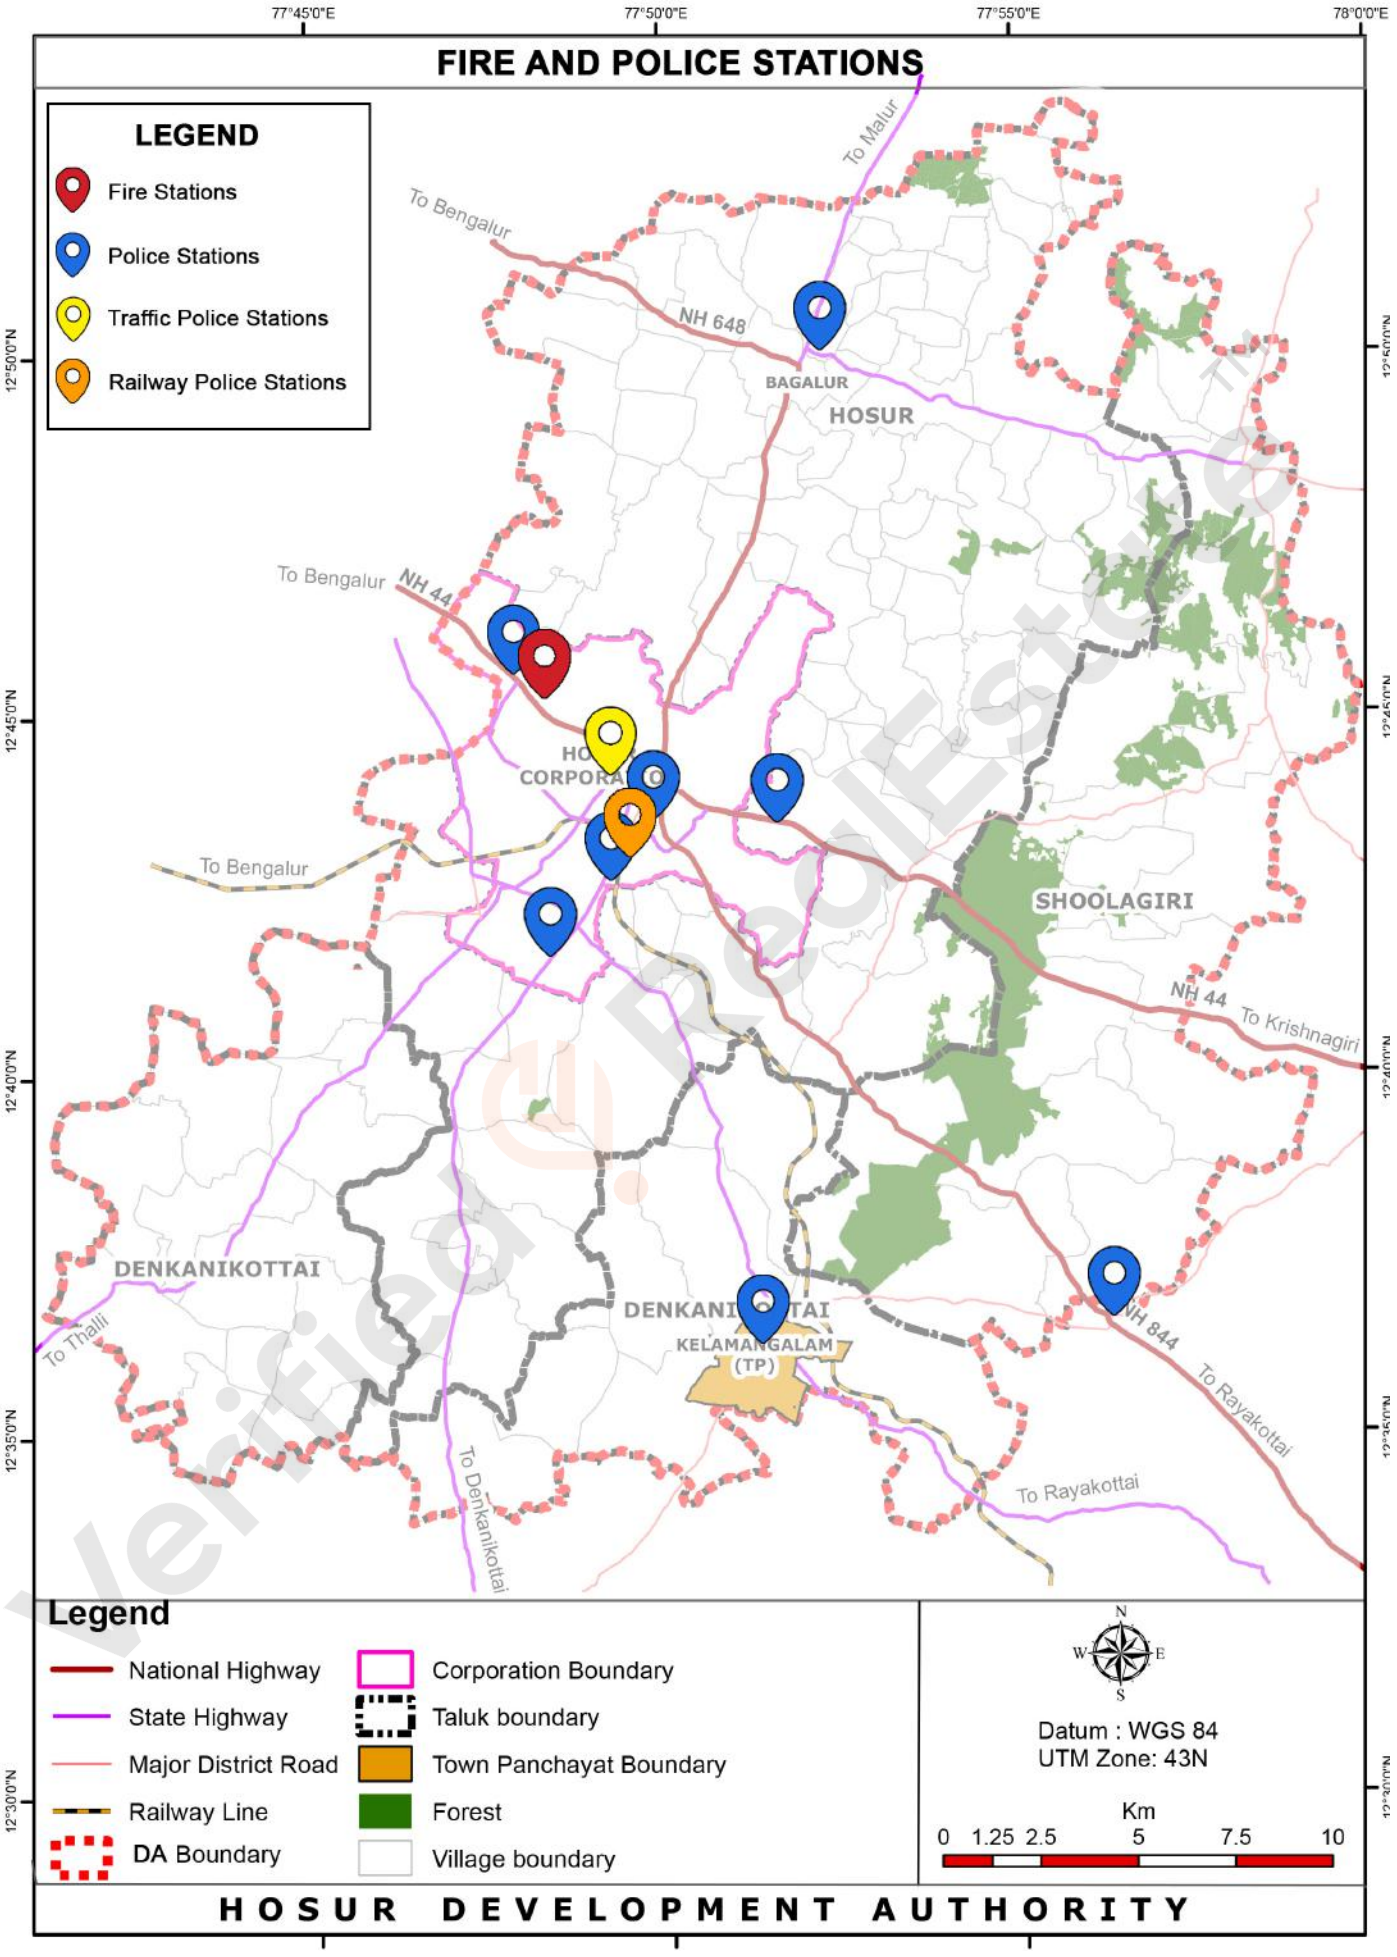

No.	Description	Standard	Area (Ha)

TRANSPORTATION

Verified RealEstate™

6.1 Mobility

Transportation is one of the main infrastructures to development of a city. Burgeoning industrial development in Hosur area leads to large scale people and goods movement on daily basis stressing the existing transport infrastructure. The number of commercial vehicles registered in the Regional Transport Office, Hosur in 2021 is 525 compared to 347 commercial vehicles in 2020. It has registered an increase of 51.29%. The number of non-commercial vehicles registered in the Regional Transport Office, Hosur in 2021 is 18,478 compared to 18,857 non-commercial vehicles in 2020 which has decreased 2%. These commercial and non-commercial vehicles along with vehicles of other district and states that passes through Golden Quadrilateral strain the traffic infrastructure in the area.

At present, Hosur have two modes of transport roadways and railways. Roadways are dominant transport in this area. The plan has studied the existing transport facilities recommended strategies for expansion of roadways, railways to keep pace with urbanization, industrializations and road safety.

6.2 Road Network

The planning area is well connected by road network. The classification of roads and its length are given in below table and the details of road classified as national highways, state highways, major district road and another district road are provided in the table below. The major road networks are shown in the map below

Table 31: Classification of Roads

6.3 Bus connectivity

Hosur bus terminus, constructed under IUDP scheme with 52 bus bays is located on the NH-44. The buses are plying to all over Tamil Nadu and parts of Karnataka. The number of bus fleets departing every day is 2978 comprising 1004 local and 1974 mofussil buses. The bus terminus is inadequate for the increased fleet strength of buses.

Bus connectivity to Bengaluru city is abundant from Hosur bus terminus. Since Hosur is in border of state, all inter and intra-state passes through Hosur bus terminus. Due to this, mofussil departure is higher than the local departure. On average, this bus terminus operates 124 local and mofussil buses per hour. Local buses need more halt time than the mofussil buses, therefore this

Verified RealEstate™

bus terminus cannot handle the demand. There are no sufficient parking facilities available for two and four wheelers.

Corporation roads around bus terminus are narrow and on-road parking leads to traffic congestion. Railway station road, Taluk Office Road, MG and Nethaji roads are more congested due to presence of more commercial activities. Hosur corporation has maintained road networks based on surface material as shown in the table below.

Total	**319**	**14355**

6.4 Railway Network

Rail network connects Bengaluru and other parts of Tamil Nadu from Hosur. Daily trains are running between Bengaluru and Salem via Hosur. The distance between bus terminus and station is 1.8 km. The connectivity between railway station and bus terminus can be easily connected through modal split like para-transit, public transport (mini bus) or any other non-motorized transit.The railway line is a very circuitous route to Bengaluru taking 70 Kilometre from Hosur instead of 40 kilometres by bus route through National Highway. Hence, preference to bus mode is more rather than train to reach Bengaluru or Salem. However, the goods train service scheduled to run 4 times in the morning and 4 trips in the evening.

The new railway line proposal from Hosur to Jolarpettai via Thirupattur, Bargur, Krishnagiri is proposed by Southern Railways. The planning area is a hub of industrial and agricultural products. Hosur is also developing as an electrical vehicle manufacturing hub. Railway mode of transportation is sustainable mode over roadways and airways. Therefore, Hosur to Jolarpettai connectivity will play more role in the industrial development of this region.

Figure 40: Hosur Railway Station

Verified Open Estate™

6.5 Airports

Taneja Aerospace and Aviation Private limited are present in the Belagondapalli village of the planning area. Currently, this airport is serving as a Training academy, Chartered Trips services and industrial activities. It is not functioning for domestic purpose.

Under Ministry of Civil Aviation, Regional Connectivity Scheme-Ude Desk ka Aam Naagrik (UDAN), this airport has been selected to operate flight for domestic purpose to Chennai in the first phase. The ministry has signed a deal with Tamil Nadu Government on 8th June 2017 for the project funding as 80 and 20 percent as Central and State contribution for the scheme implementation. As per this scheme, flights shall fly from Hosur to Chennai and Vice Versa. Later, it may expand to other parts of India based on the demand. This airport's impact shall be more from the southern region of the Bengaluru. It will take two hours to reach Bengaluru International Airport from southern side of Bengaluru. For the people from electronic city and southern side of Bengaluru city, this airport reduces their travelling time by half.

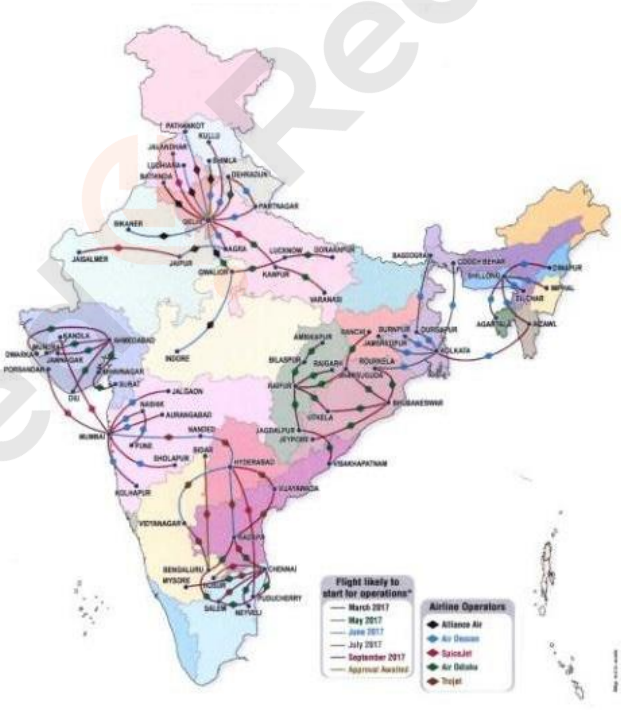

Figure 41: India Map showing UDAN Scheme - Air Connectivity

Verified RedEstate™

6.6 Traffic Analysis

Generally, road networks are good resemblance of a well-planned area. The hierarchical connectivity of the roads, junction design, ease of parking in and out and lack of cul-de-sac are the good indicators of planned urban road network and urban area.

Hosur town is developed mainly along NH-44, NH-207 and SH-17A runs as the main arterial road of the town. Heavy traffic is observed on 6 stretches of roads,

A. SIPCOT entrance

B. Bagalur junction

C. Nethaji road

D. Old Bengaluru Road (M.G Road)

E. Taluk office road

F. Inner ring road (SH-208) entrance

Figure 42: Hosur-Bagalur Road Junction

Surveys conducted on the Major Road Networks [traffic volume was recorded for 24 hours for seven days] provide the peak hour volume of the traffic from which the Volume/Capacity ratio and the level of Service can be deduced.

VOLUME-CAPACITY RATIO

Based on the analysis, peak hours for each road network have been deduced and their respective PCUs are considered for Volume-Capacity Ratio calculation.

The analysis is depicted below,

Verified RealEstate™

Table 37 : Peak Hour Volume and LOS - Major Networks

Road Network	Peak Hour Time	Peak Hour Volume	V/C	LOS
SH17B	10:00:00 AM	725	0.604	C
	6:00:00 PM	535	0.446	B
SH17A	11:00:00 AM	1,542	1.285	F
	6:00:00 PM	1,463	1.219	F

SHU19	3:00:00 PM	649	0.541	B
	8:00:00 PM	627	0.523	B

SOURCE: Highways Department, Krishnagiri District

MODAL SHARE

Based on the survey, the share of vehicles has been calculated as represented in the figure below. It is observed that private mode of transportation like cars take up the majority of the modal share. Since Hosur is an industrial town, goods carrying vehicles ae also increasingly observed taking up to 30.67% of the share.

Verified RealEstate™

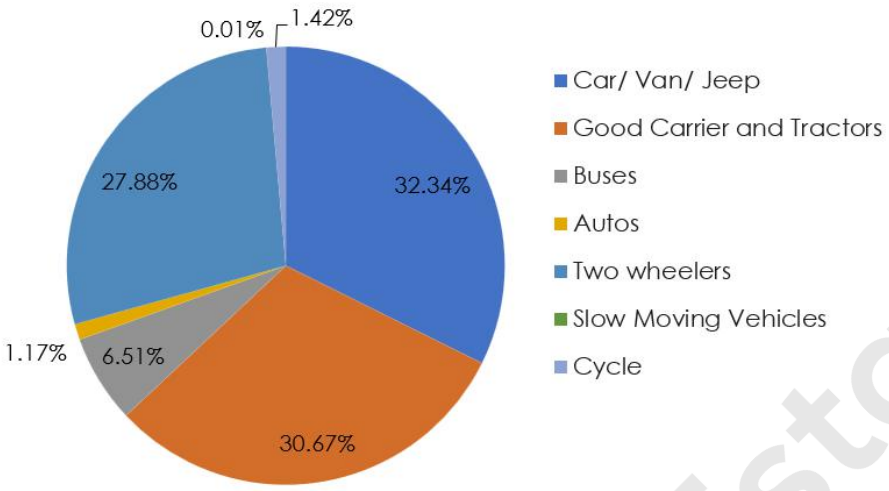

Figure 43 : Modal Share – HDA

SOURCE: Highway Department, Krishnagiri District

The analysis of road network reveals that some of the area is having more dead ends or cul-de-sac as shown in the map below

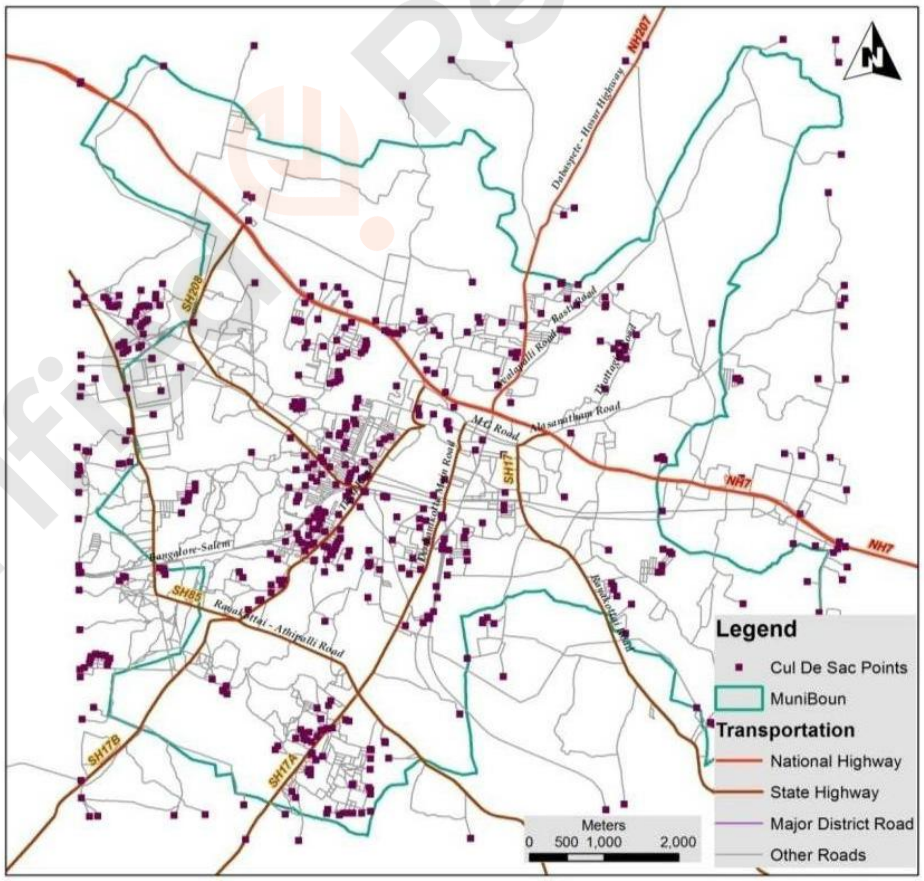

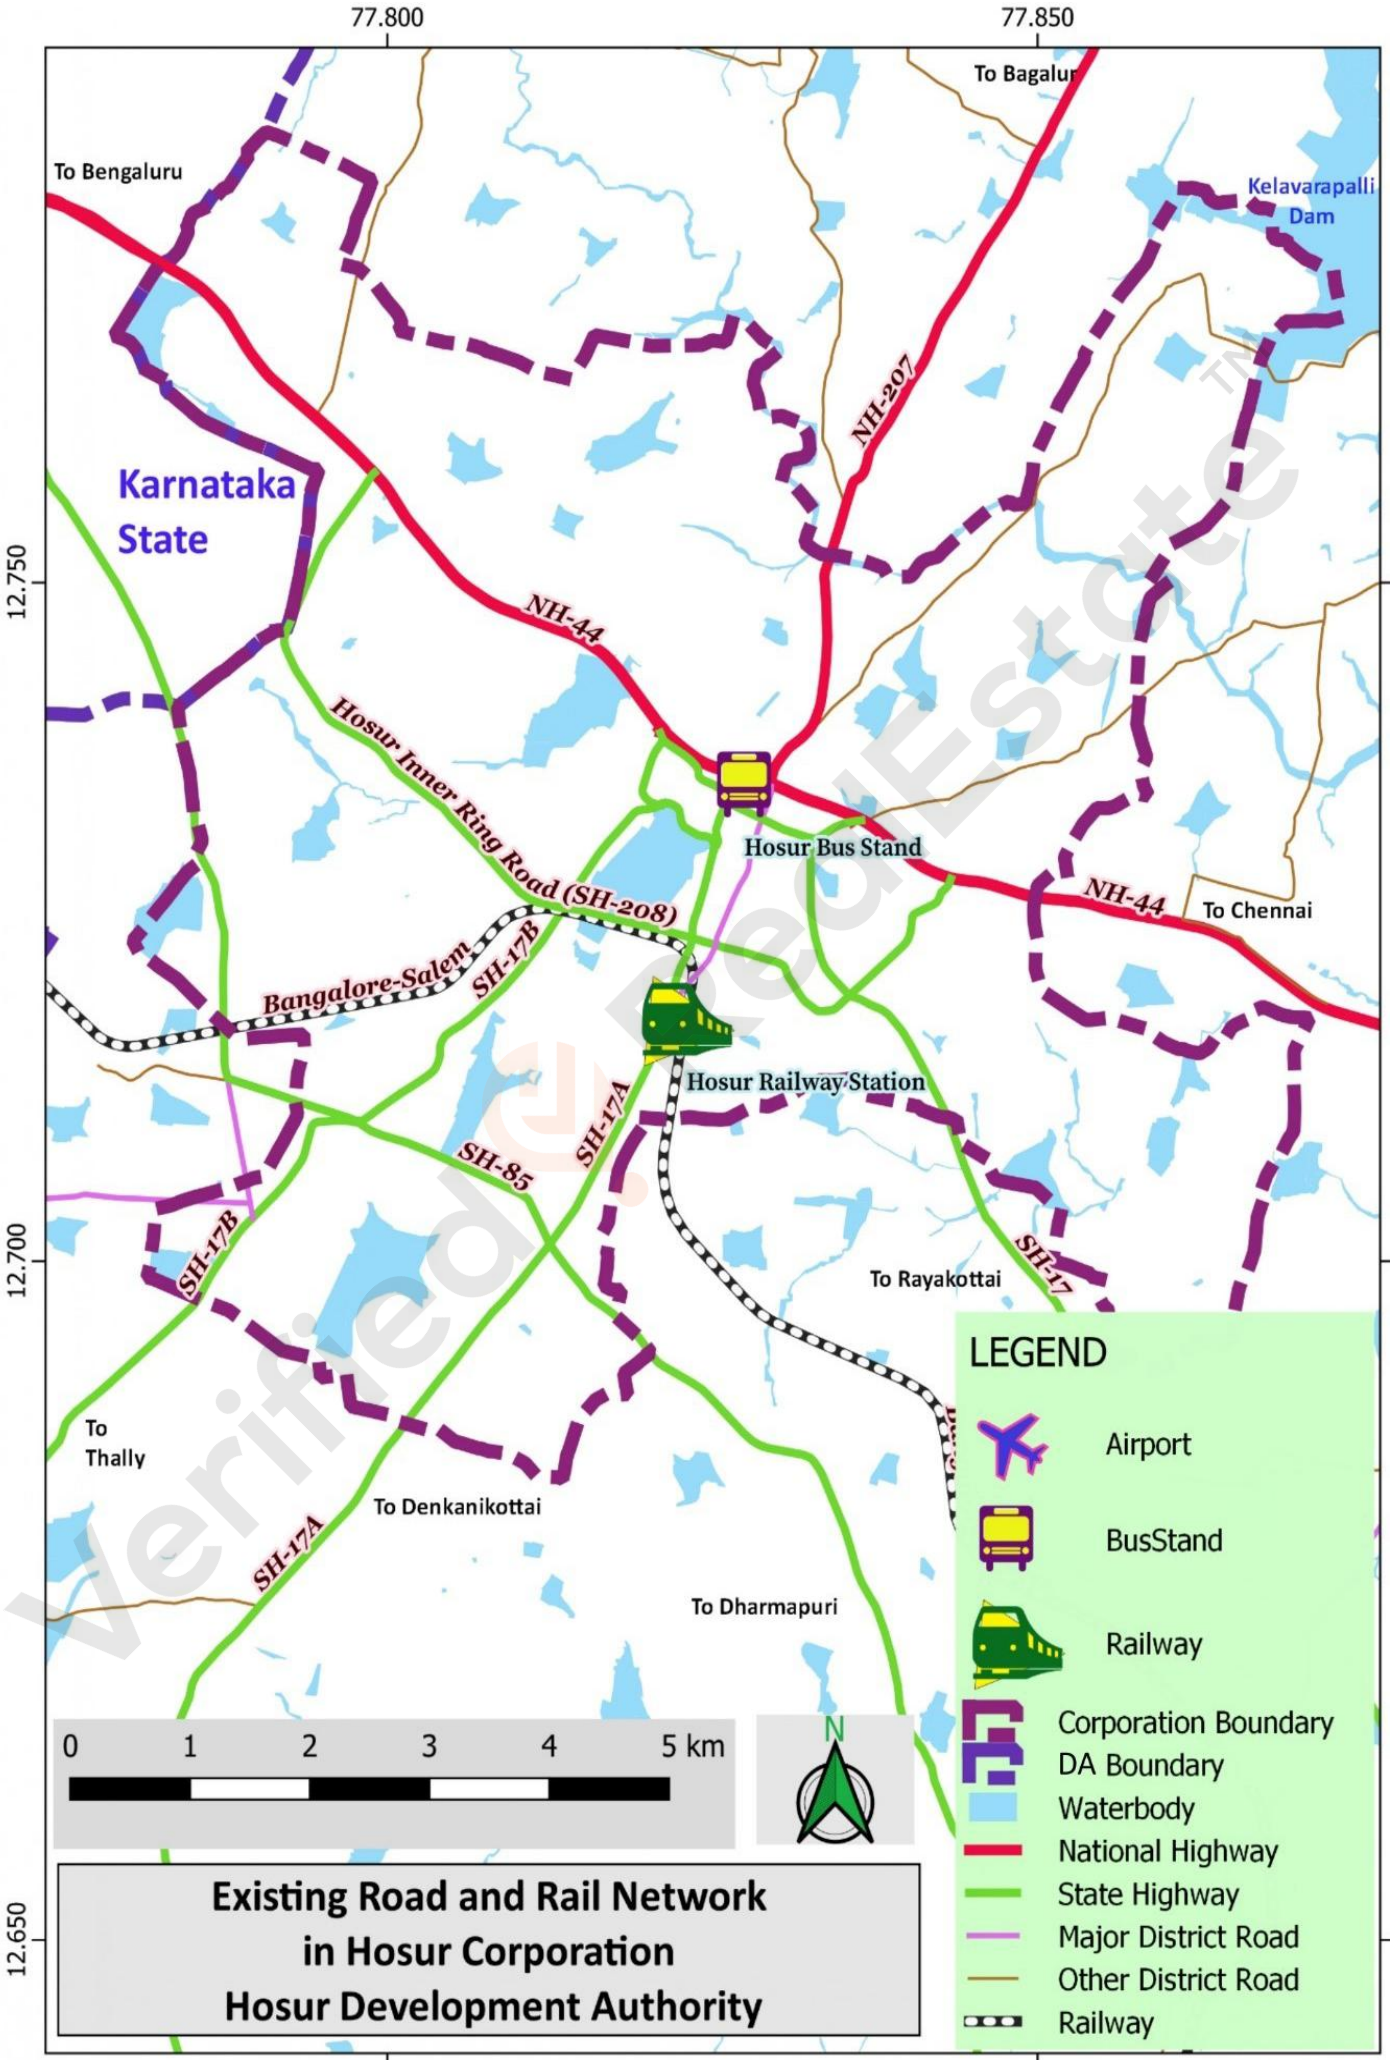

Figure 44: Cul-de-sac in Hosur Corporation

6.7 Road Pattern

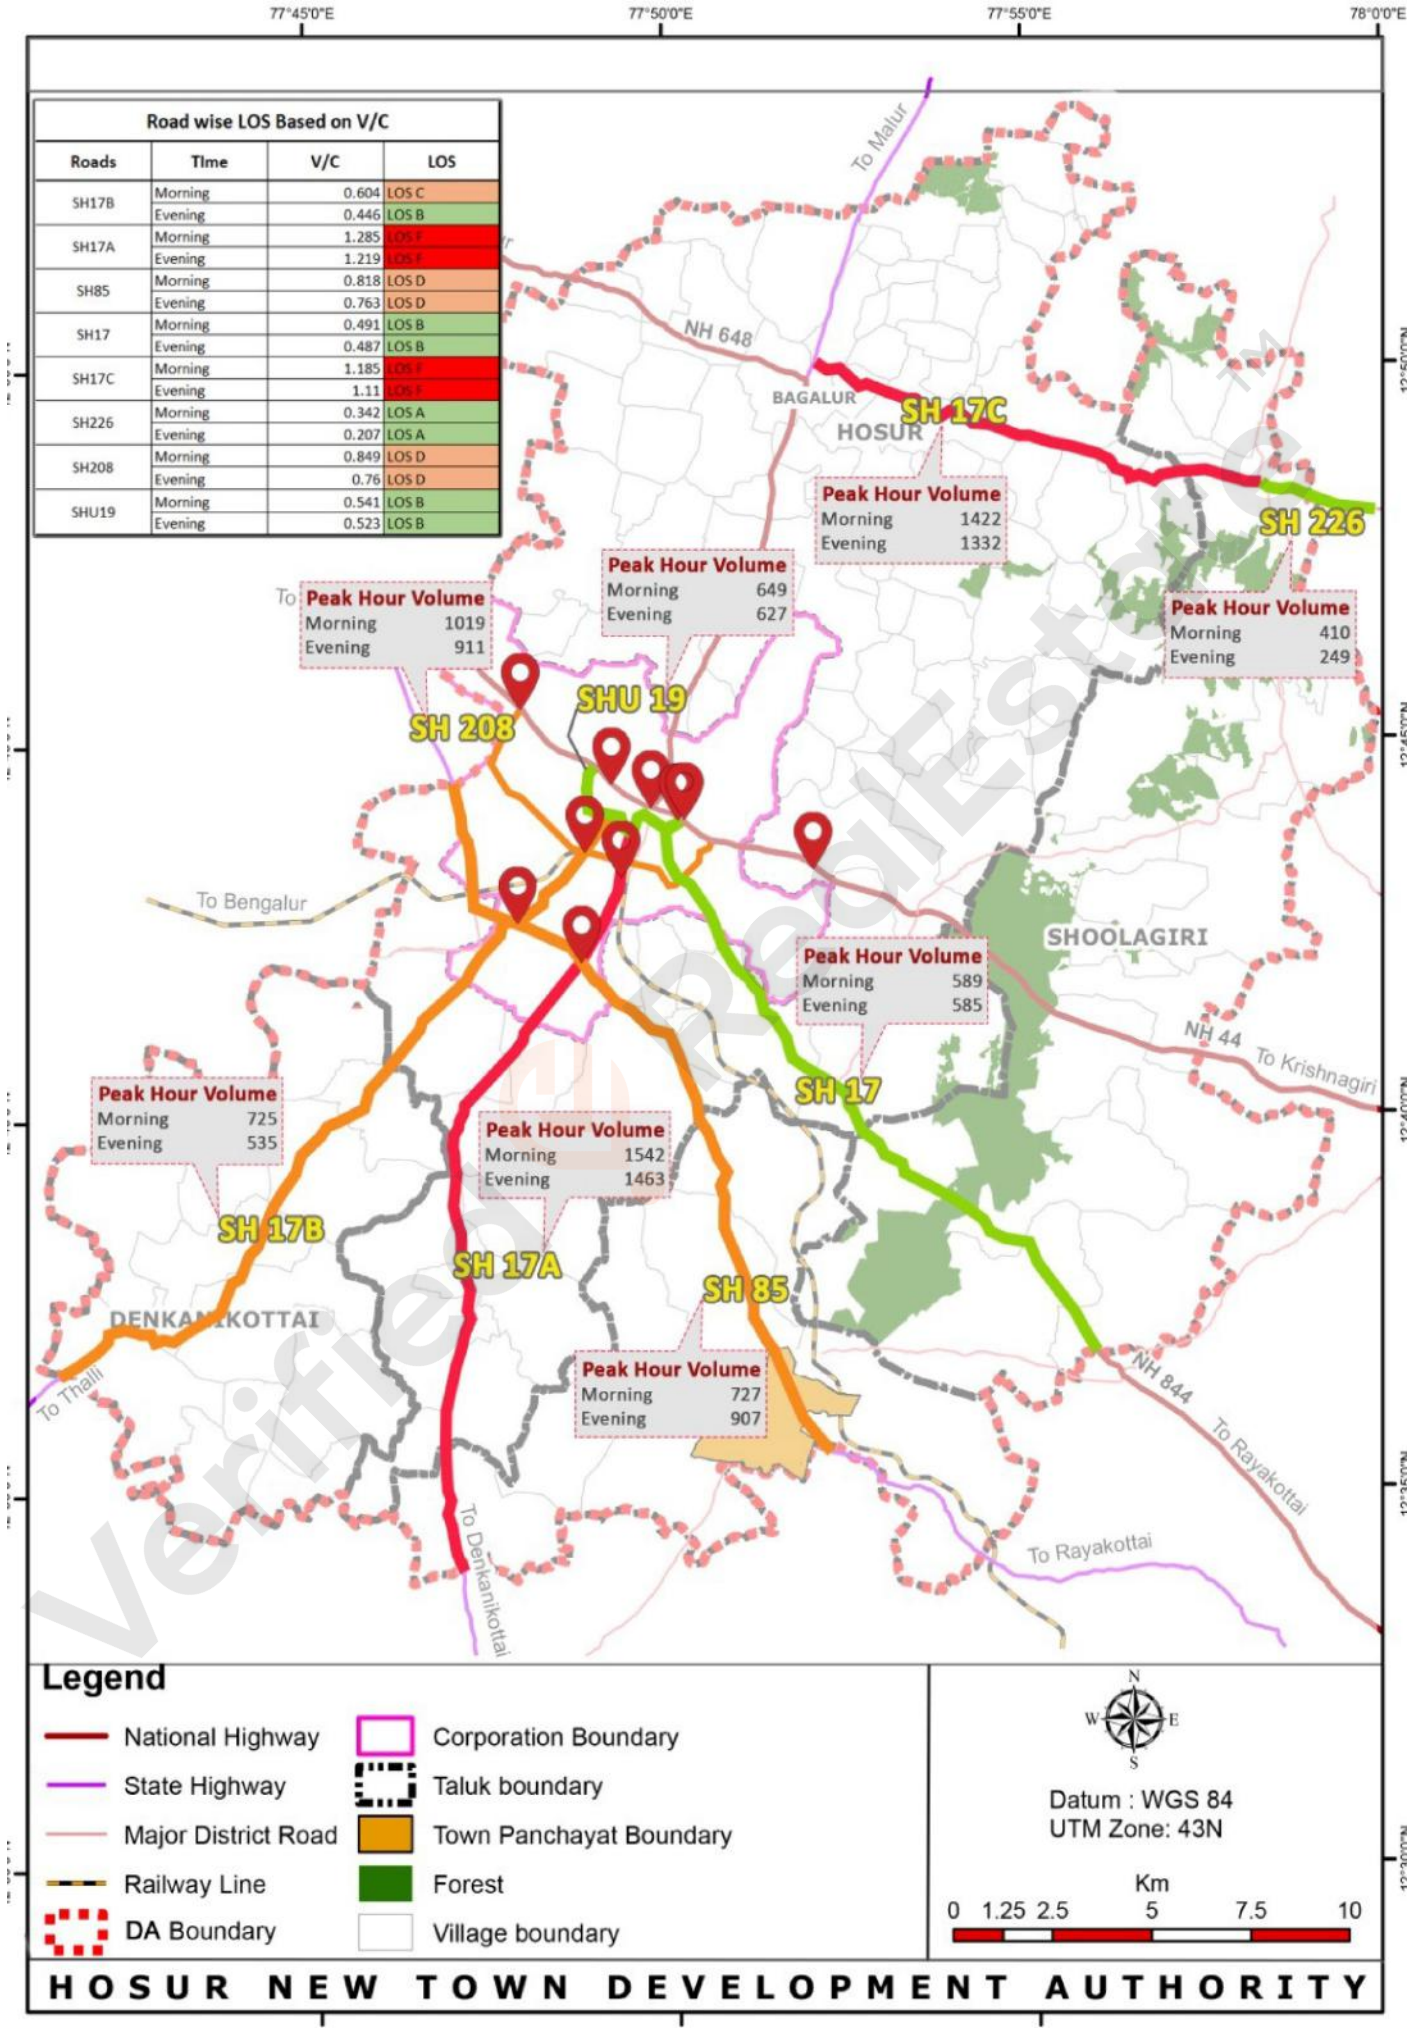

The road pattern closely resembles radial road networks with bus terminal as the centre. The radiating roads from the centre are NH-207 towards the north, Alasanatham Road towards northeast and SH-17, SH-17A and SH-17B towards southeast, south and southwest respectively. The state highway (SH-208) is the inner ring road on the south of NH-44. It is radially connecting the SH17, SH-17A and SH-17B.

The NH-44 divides the town into north and south. Further, NH-207 runs in the north zone dividing it further into two quadrants of upper part. This can be interpreted from the Figure. In order to understand the vehicular growth, Hosur commercial and non-commercial vehicles are tabulated and compared with district and state.

SWOT ANALYSIS

Verified RealEstate™

7.1 SWOT

An analysis has been conducted in the planning area to assess the Strength, Weakness, Opportunity and Threat with a view to capitalize the strengths and opportunities and to overcome the weaknesses and threats for advancing the development of the planning area on sustainable basis. These are shown below:

STRENGTH

- Strategic Location.
- Diversified agriculture activity (Floriculture, Moriculture)
- Presence of large forest area and various flora and fauna activities creating a balance in the environmental impacts.
- Salubrious weather
- Well connected by roadways and railways
- Concentration of metal based and agro-based industries

WEAKNESS

- Undulated terrain
- Economical potential has to be shared with Kamataka
- Inadequate Intrastructure
- Lack of sustainable water source for the region.
- Human animal conflict in the planning area.

OPPORTUNITIES

- Large tracts of land for development
- Proposed Industrial estates
- Natural Resources and climate
- Avaliability of skilled and unskilled human resources
- Early stage of urbanisation.
- Recent decadal trend in population and development shows potential for exponential Increase in development.

THREAT

- Shrinkage of agriculture lands due to conversion and other purpose
- Depletion of ground water resource
- Land, air, water pollution caused by Industries and mining activities

Hosur has emerged as a preferred destination for investors due to a potent combination of factors. A skilled workforce pool minimizes recruitment challenges, while competitive land prices offer significant cost advantages. Furthermore, the city boasts a vibrant network of over 3,000 diverse small and medium enterprises, fostering a supportive environment for new businesses. Its strategic

location next to Bangalore, a major economic powerhouse, further enhances its appeal. This growth trajectory began in 1974 when the Tamil Nadu government envisioned Hosur as a key industrial hub for the Krishnagiri district. The establishment of a dedicated industrial estate by the State Industries Promotion Corporation of Tamil Nadu (SIPCOT) proved instrumental in attracting manufacturers from across the state.

Hosur's strategic location on a major highway attracts investments exceeding Rs 21,424 crore since 2017, particularly in electronics and electric vehicles. However, rapid growth has led to traffic congestion, highlighting the need for improved infrastructure in this city projected to be among the world's fastest-growing. By addressing infrastructure challenges, Hosur can harness its potential as a major economic hub.

Investors find Hosur practically irresistible, due to the following key factors,

I. Expertise in various sectors (automobiles, electronics, tooling, etc.) allowing MSMEs to even create dummy spare parts for bigger players in the manufacturing industry.

II. Cool climate, excellent road connectivity, cheaper real estate and proximity to Bengaluru

Hosur currently ranks second to Chennai in attracting investments across sectors, with its proximity to Bengaluru and its air and train connectivity being major advantages. The proposed airport is further cheered by businesses, expecting a boost in both passenger and freight traffic.

Big names like Tata, Delta, Ola Mobility, Ather, and Simple Energy have chosen Hosur for their EV ventures, along with TVS investing Rs 1,100 crore in its own EV facility. This easy accessibility even attracted three Bengaluru-based firms to invest in Hosur's EV scene.

While rapid industrialization has made Hosur a magnet for investors, particularly in electronics, EVs, and automobiles, it presents a challenge to traditional sectors like floriculture and horticulture. The unique soil quality that once nurtured vibrant flower farms and vegetable patches is now threatened by encroaching industrial zones. This shift comes at a cost, jeopardizing the livelihoods of many farmers and risking the loss of Hosur's historical identity.

However, the picture isn't entirely bleak. The government's push for diversification, including positioning Hosur as an aerospace hub, offers new opportunities. The presence of major players like Air Works and Boeing creates potential for skilled jobs and economic growth.

Furthermore, Hosur's affordability compared to neighbouring Bengaluru continues to attract residents, especially those working in Electronic City. This population influx necessitates addressing water scarcity, an issue acknowledged by the Hosur Corporation. The upcoming phase-II of the Hogenakkal Water Supply project aims to mitigate this concern.

GAP IDENTIFICATION & POTENTIAL DEVELOPMENT TREND

VerifiedRealEstate™

8.1 Projected Demand – Physical Infrastructure

The spatial development of the core area is analysed based on various factors. These factors in turn reveal the potential of the land for different uses. This chapter shall elaborate the factors and its impact on future development potential. Additionally, existing Development Plan of Hosur is studied in detail and the findings are included in the development of conceptual plan.

8.1.1 Water Supply

The current water supply is below 135 lpcd. Corporation wards receive water at a frequency of 2 to 5 days once as the major water source Kelavarapalli reservoir is contaminated.

The percentage of household connection is 58.47 percent and this has to increase to 100 percent. 24X7 water supply is one of the indicators of better level of service.

CPHEEO guidelines on water supply to towns & municipalities is provided below,

Table 38: CPHEEO guidelines on water supply

No.	ULB	Water Supply (lpcd)
1	Towns provided with piped water supply but without sewerage system	70
2	Towns provided with piped water supply with sewerage system & Towns adjoining the boundary of Corporation	90
3	Municipalities provided with piped water supply without sewerage system	90
4	Municipalities provided with piped water supply with sewerage system	135

For the projected population, the water demand is calculated based on the norms recommended by (TWAD) Board. The water demand for Hosur corporation during the ultimate design year 2046 is estimated to be 80.93 MLD. The demand for Kelamangalam town panchayat and rural for 2046 is estimated as 1.53 and 28.39 MLD respectively. Thus, the total water demand of the planning area is 110.85 MLD.

Table 39: Projected Water Supply Demand for Hosur Corporation

Year	Projected Population	Demand Criteria (lpcd)	Available from all sources (MLD)	Total Demand (MLD)	Deficit (MLD)
2021	3,44,049	135	40.14	47.26	7.12
2031	4,75,015	135	40.14	65.25	25.11
2041	6,38,250	135	40.14	87.67	47.53
2046	7,31,969	135	40.14	100.54	60.40

Verified RealEstate

Table 40: Projected Water Supply Demand for Kelamangalam

Year	Projected Population	Demand Criteria (lpcd)	Available from all sources (MLD)	Total Demand (MLD)	Deficit (MLD)
2021	15,540	70	1.021	1.11	0.089
2031	17,906	70	1.021	1.28	0.259
2041	20,419	70	1.021	1.46	0.439
2046	21,731	70	1.021	1.56	0.539

Table 41: Projected Water Supply Demand for Rural areas

Year	Projected Population	Demand Criteria (lpcd)	Available from all sources (MLD)	Total Demand (MLD)	Deficit (MLD)
2021	3,05,077	40	17.47	12.51	-
2031	3,83,116	40	17.47	15.865	-
2041	4,81,18	40	17.47	19.92	2.45
2046	5,39,154	40	17.47	22.37	4.86

8.1.2 Sewerage

Generally, 80% of water supply is assumed as generated sewage. Therefore, sewers are proposed to be designed for a minimum waste water flow of 110 litres per capita per day throughout the design period. As the water table is below 10 meters and the sewers are not likely to be laid below 10 meters, only 2 litres per capita is considered for infiltration. Based on the above considerations, sewerage designed flow is considered as 112 litres per capita per day.

Table 42: Projected sewage generation – Hosur Corporation

Year	Projected Population	Demand criteria (lpcd)	Total Generation (MLD)
2021	3,44,049	110	37.85
2031	4,75,015	110	52.25
2041	6,38,250	110	70.21
2046	7,31,969	110	80.52

8.1.3 Solid Waste Management

Upon calculating the waste generation at an assumed rate of 300 gm per person for the design period 2046 is 179.84 tons for corporation.

Verified CMDA RealEstate™

Table 43: Projected Waste Generation – Hosur Corporation

Year	Population	Demand criteria (gms)	MSW generation (MT)	Waste Collection in %	Processing capacity in %	Landfill area in Ha
2021	3,44,049	300	103.96	100	100	3.74
2031	4,75,015	300	134.31	100	100	-
2041	6,38,250	300	164.66	100	100	-
2046	7,31,969	300	179.84	100	100	-

8.2 Projected Demand – Social Infrastructure

Social infrastructure is the key element in urban development. It includes a wide range of built facilities, services and networks of organizations. These community facilities consist of schools, hospitals, police/fire/ambulance stations. Work in this area will draw on the findings of previous local Government open space and recreation studies.

8.2.1 Education

URDPFI guidelines has stipulated various recommendations on the educational facilities for the population. Norms to maintain grades in school facilities as listed in the table below,

Table 44: URDPFI guidelines on educational facilities

No.	Grade	Norms	Area Requirement (Ha)
1	Primary School (I-V)	1 per 5000 population	0.4
2	Higher Secondary School (VI-XII)	1 per 7500 population	1.8

Upon analysis of existing number of schools to the recommended number, at present the planning area has adequate educational institutions. The projected requirement of educational facilities is given below,

Table 45: Projected Education Infrastructure - Hosur Development Area

Year	Population	Primary schools (Required population: 5000)	Middle and Secondary schools (Required population:7500)
Existing	5,01,609	210	92
2021	6,64,666	133	89
2031	8,76,037	175	117
2041	11,39,787	228	152
2046	12,92,854	258	185

Verified RealEstate™

8.2.2 Health

URDPFI guidelines and IPHS standards recommends one health sub-centre for every 5000 population. Likewise, primary health centres in urban and rural areas shall cater to a population of 50,000 and 30,000 respectively. For every 2,50,000 population, one hospital with more than 100 beds needs to be planned.

For 2046, there shall be a no requirement of hospitals in urban area and in rural area as there are sufficient health care facilities. The details of projected health facilities are listed below.

Table 46: Projected Health Facilities - Hosur Development Area

Year	Population [Urban]	Population [Rural]	Hospitals	PHC (Urban)	PHC (Rural)	Sub- Centre
Existing	2,45,354	2,56,255	26	2	12	57
2021	3,44,049	3,20,617	3	7	11	64
2031	4,75,015	4,01,022	3	9	13	79
2041	6,38,250	5,01,537	4	11	16	94
2046	7,31,969	5,60,885	5	12	17	103

8.2.3 Housing

The following table shows the projected number of households in the planning area based on the projected population and household size.

Table 47: Projected Housing Requirements

Year	Household Size	Population	Household
2021	4.1	6,64,666	60,001
2031		8,76,037	1,17,147
2041		11,39,787	1,88,398
2046		12,92,854	2,29,691

8.2.4 Open Spaces & Recreational

Parks, playgrounds and open spaces are 'lung' of the city. These public spaces provide better relaxation and quality of urban environment. Hosur corporation has total park area of 6,63,719.25 Sq.m. Notable parks are Ramanaicken lake park with walking path, Nethaji park, Brindhavan Nagar part etc. Available Park space per head stands as 2.71 sq.m - as per census 2011, which is very low when compared to standard per head requirement which is 10-12 Sq.m area per person recommended by URDPFI (Urban and Regional Development Plans formulation and Implementation)

Verified by RedEstate

guidelines. Assuming 12 sq.m per person, Corporation Park space required for the projected period 2046 is 7.19 Sq.km

Entertainment and shopping centres are the main recreational activities in Hosur town. These activities attract population from all part of Krishnagiri district. The projected open space requirement of planning area is shown below,

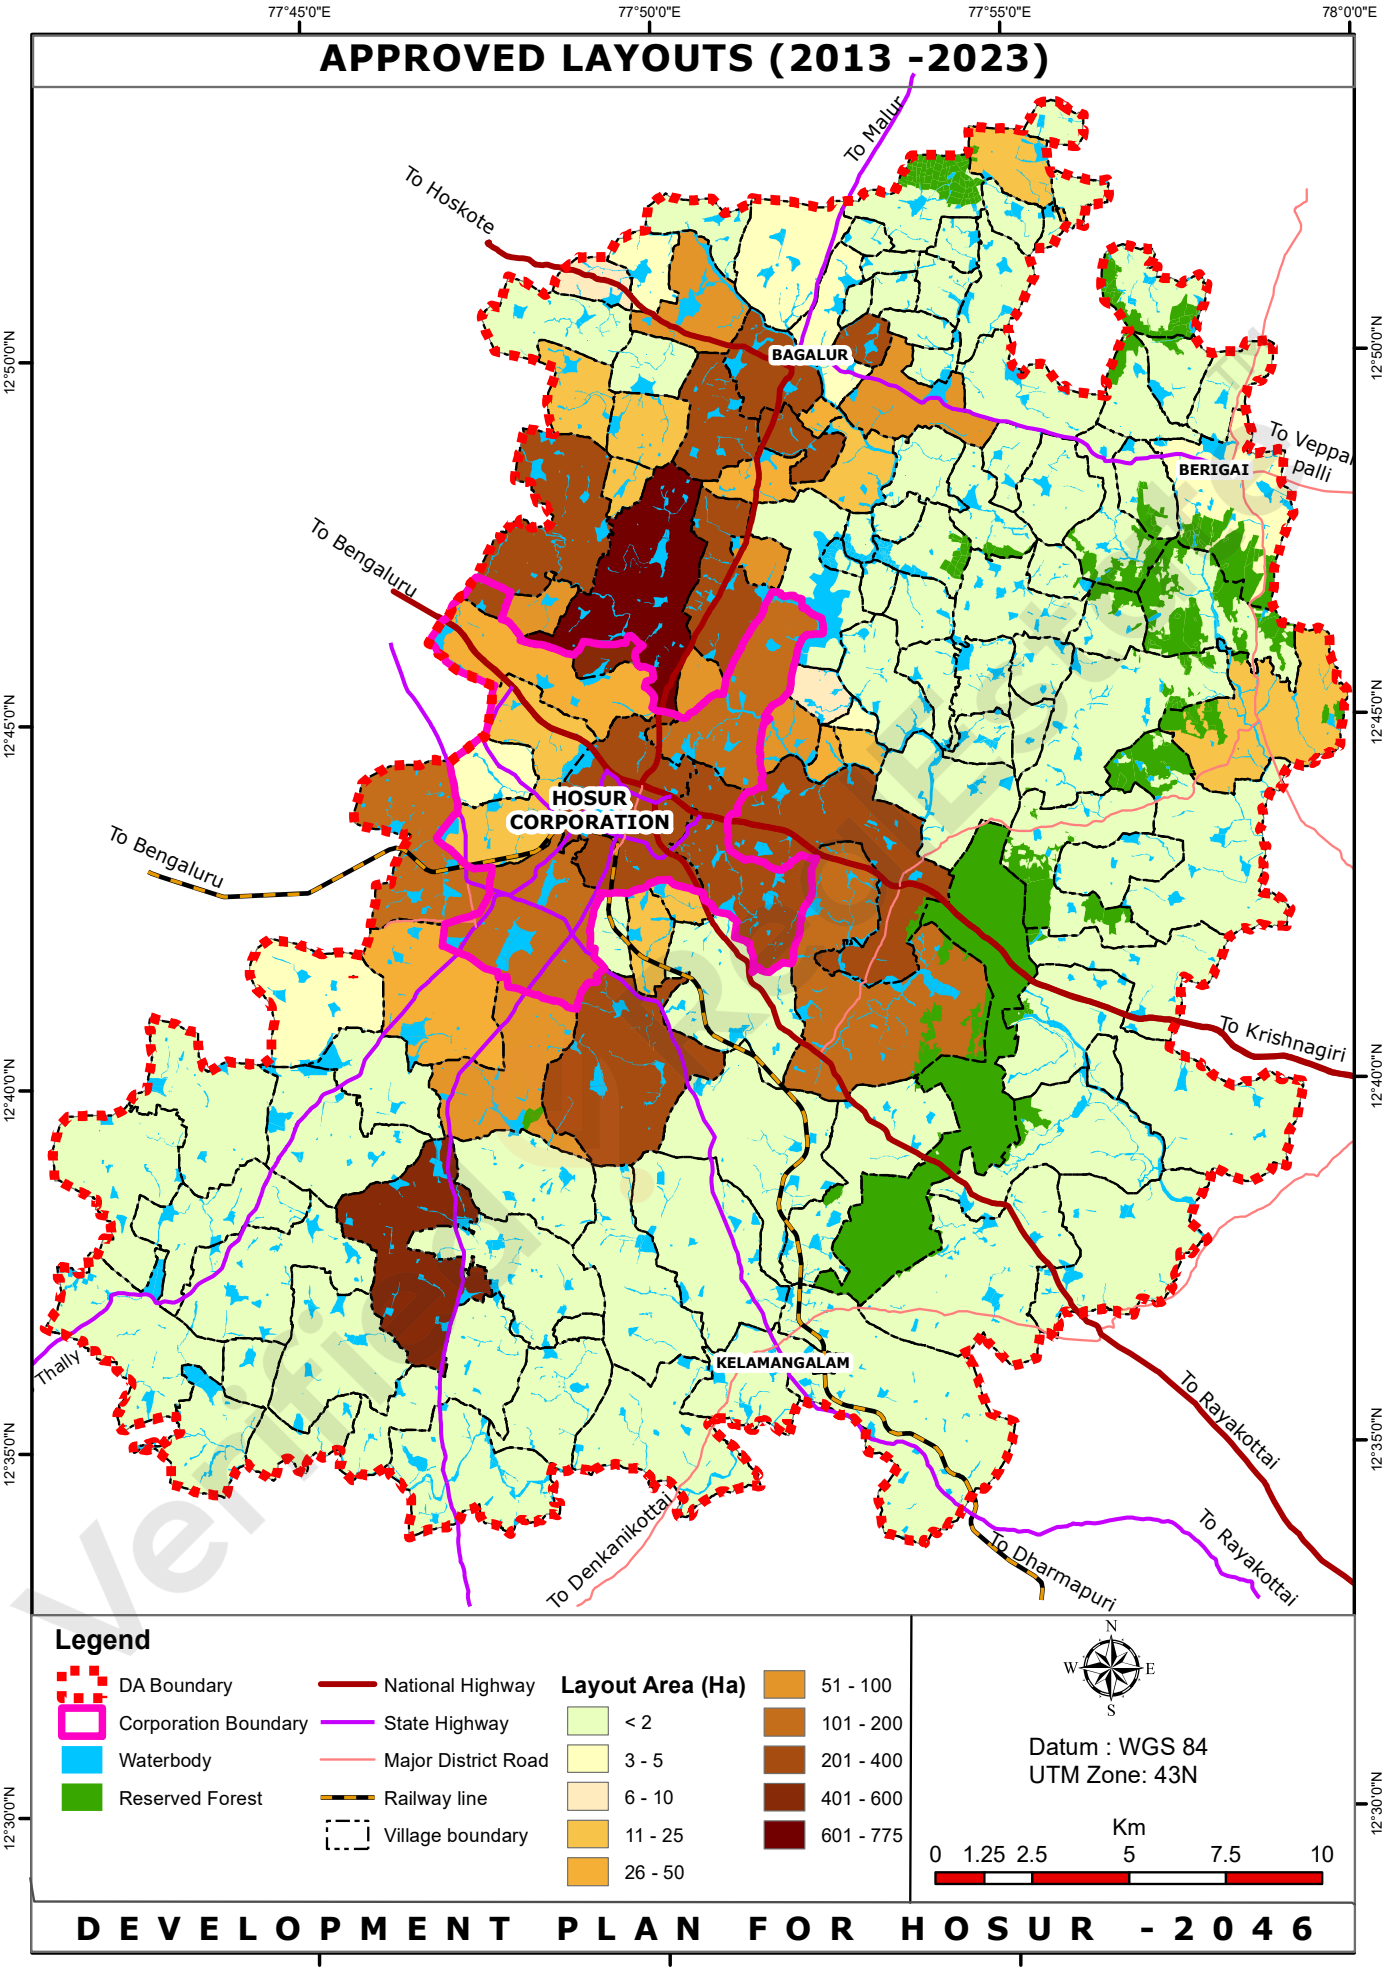

Table 48: Projected Open Space Requirement – Hosur Development Area

Year	Hosur Corporation		Planning Area	
	Population	Open Space requirement (Sq. km)	Population	Open space requirement (Sq. km)
2021	3,44,049	4.16	6,64,666	8.16
2031	4,75,015	5.37	8,76,037	10.31
2041	6,38,250	6.59	11,39,787	12.46
2046	7,31,969	7.19	12,92,854	13.65

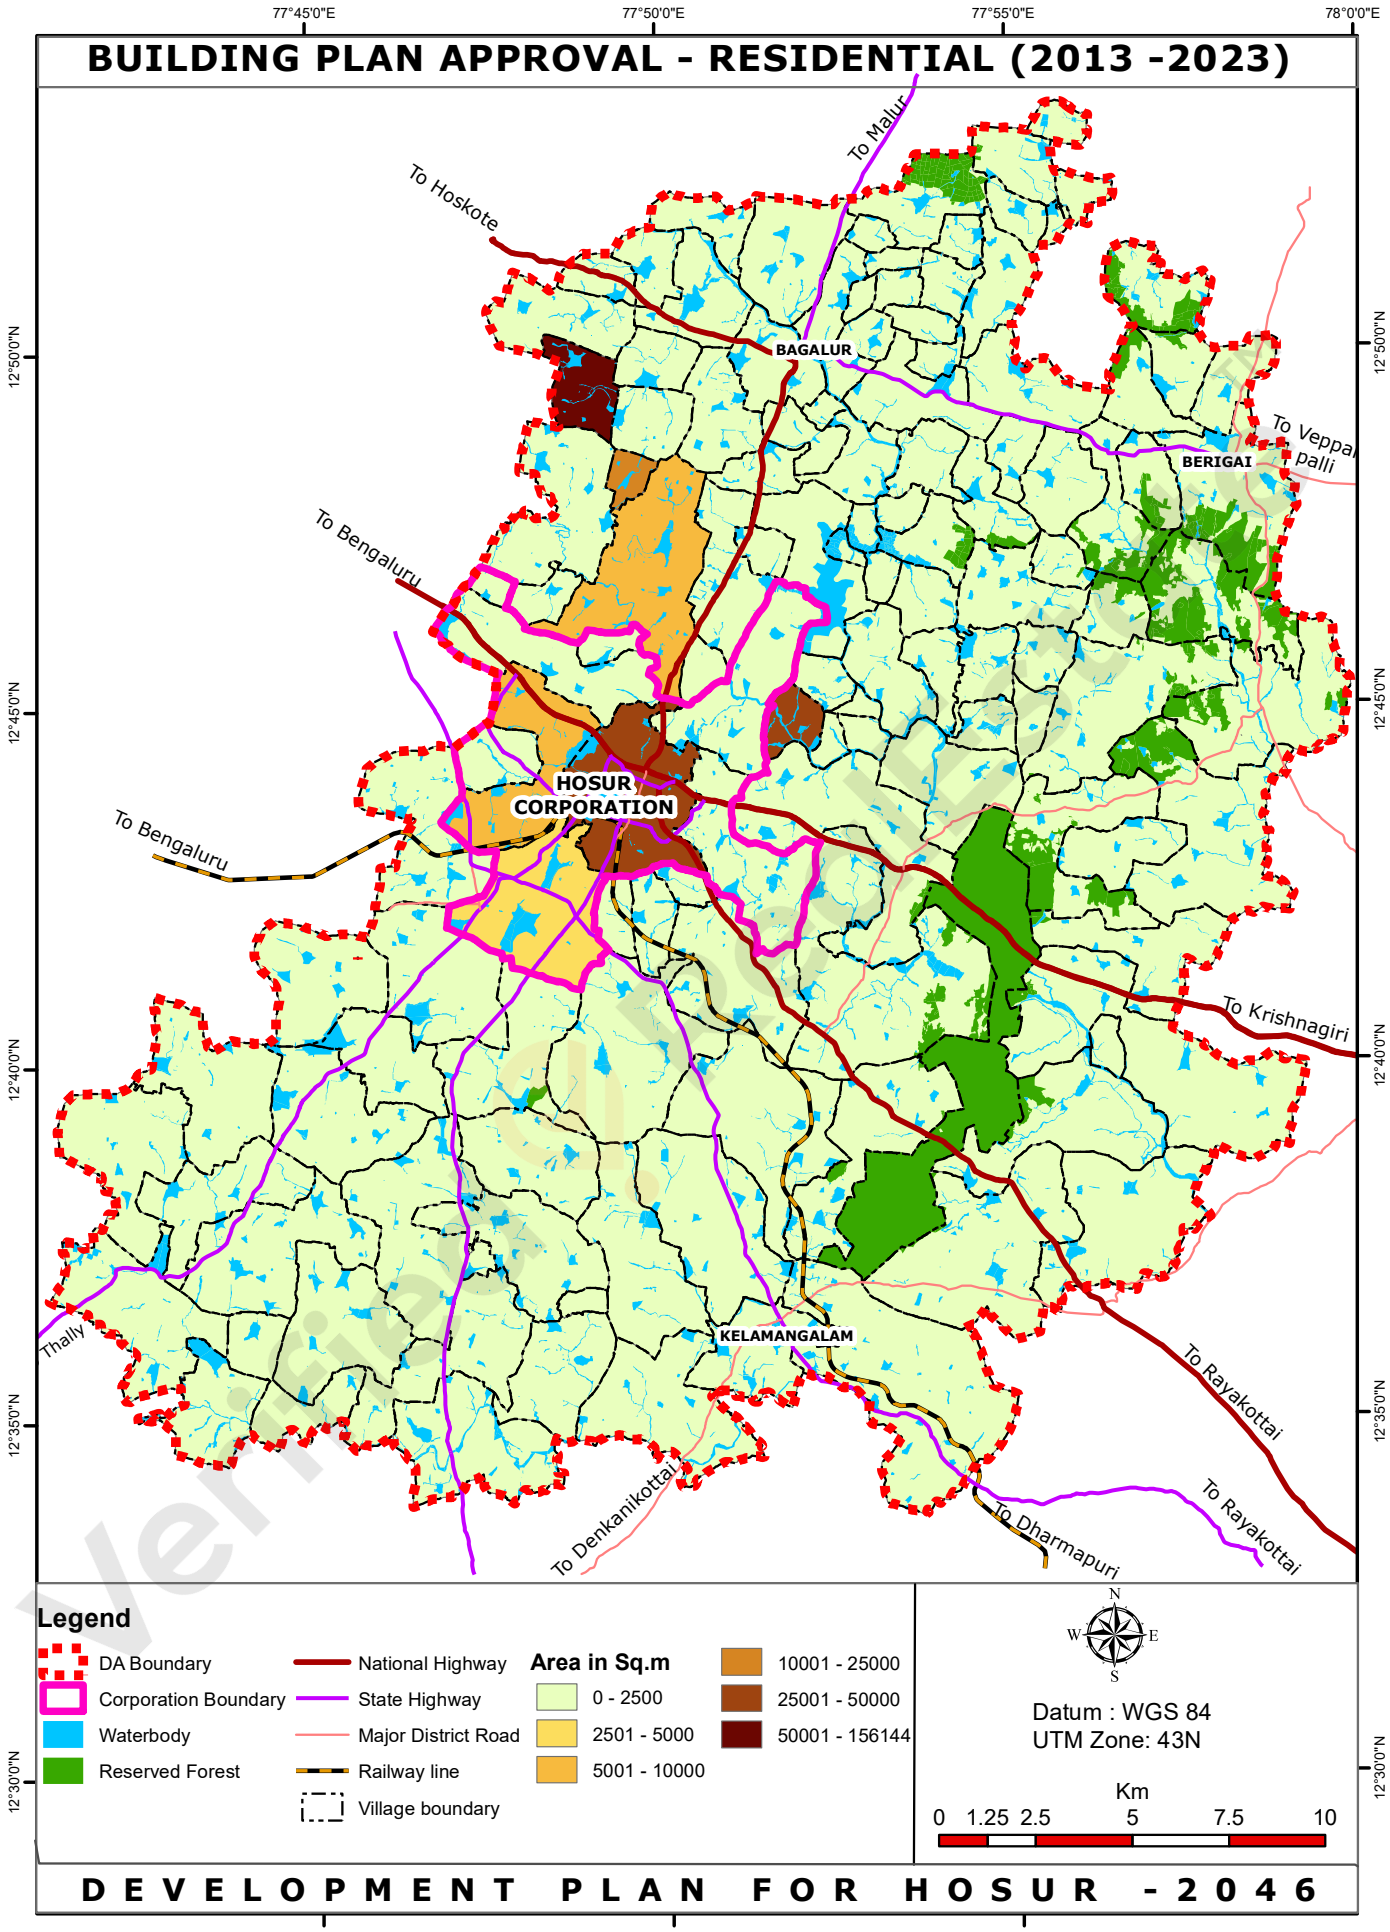

8.3 Land Development Trend

Decadal development trends for the period 2013 to 2023 have been analyzed for residential layouts, residential development, commercial, institutional and industrial development in the Hosur Development Area. Villages with the maximum number of approvals have been mapped accodingly as shown in Maps below. This analysis will aid in the landuse zoning for the development area.

SPATIAL STUDIES

Verified @RealEstate™

9.1 Review of Existing New Town Development Plan

The spatial development of the core area is analysed based on various factors. These factors in turn reveal the potential of the land for different uses. This chapter shall elaborate the factors and its impact on future development potential. Additionally, existing Development Plan of Hosur is studied in detail and the findings are included in the development of conceptual plan.

The review of second New Town Development Plan (2001-2021) comprising Hosur town and 56 villages covering an area of 292.01 sq.km was consented by Government on 17.12.2002. The spatial growth direction and extent of proposed land use from the 2nd New Town Development Plan2021 as shown in Figure is studied. The proposed land use of the consented second New Town Development Plan is given in table. The realised (actual) development versus the proposed for the same area of 292.01 sq.km is given in the table below

Table 49: Proposed Land Use as per Development Plan Consented in 2002

No.	Proposed Land use	Area in Sq. km	% to developed area	% to total area
1	Residential	86.99	63.34	29.77
2	Commercial	6.38	4.64	2.18
3	Industrial	29.75	21.66	10.18
4	Educational	6.55	4.78	2.24
5	Public and Semi-Public	7.66	5.58	2.62

Verified © RealEstate™

7	Water Bodies	22.17	10.06	7.59
	Total Undeveloped area (B)	220.47		
	Total Area	292.09		

- Development Plan was planned for Hosur town and 56 villages covering an area of 292.01 sq.km. Whereas the current Development Plan is for 734.07 sq.km.
- From 2nd New Town Development Plan, development was predicted along the NH-44 and southern part of Hosur. In current Development Plan, due to industrial development, the growth is distributed in the southern part of corporation and in north towards Bagalur, which can be attributed to the industrial development in Sarjapur.
- From 2nd New Town Development Plan the developed area shares 47 percent. The realised developed area of the previous New Town Development Plan is 24.52 percent to the total planning area of 292.01 sq.km
- The 2nd New Town Development Plan developed area shares only 13.04 percent to the total planning area. This is mainly due to increase in overall planning area from 292.01 sq.km to 734.07 sq.km.
- The residential area proposed from 2nd New Town Development Plan for the plan period 2001 to 2021 was 8699.15 ha with 63.34 percent to the total developed area. The realised residential area is 51.84 percent to the total developed area of the second New Town Development Plan. In the realised land use-2021, residential use shares with 4975.19 ha extent with 51.96 percent to the total developed area.
- The proposed density of the 2nd New Town Development Plan is 34.49 persons per hectare to the residential area and 21.84 persons per hectare to the total developed area. Realised density to the residential use is 100 persons per hectare, whereas 53 persons per hectare to the total developed area. Increase in density shows the population growth of the planning area.
- Commercial use of 638.00 ha was proposed in the 2nd New Town Development Plan with 4.64 percent to the total developed area. The realised commercial use shares 5.69 percent to the developed area. The commercial use of present land use 2021 is 448.93 Ha with 4.69 percent to the total developed area. Commercial developments are observed all along the major roads NH-44, Bagalur road (NH-207) Thally road, Rayakottai road. In the 2nd New Town Development Plan, proposed industrial area was 2975.18 ha with percentage of 21.66 to the total developed area. The realised industrial use shares

Verified G RealEstate™

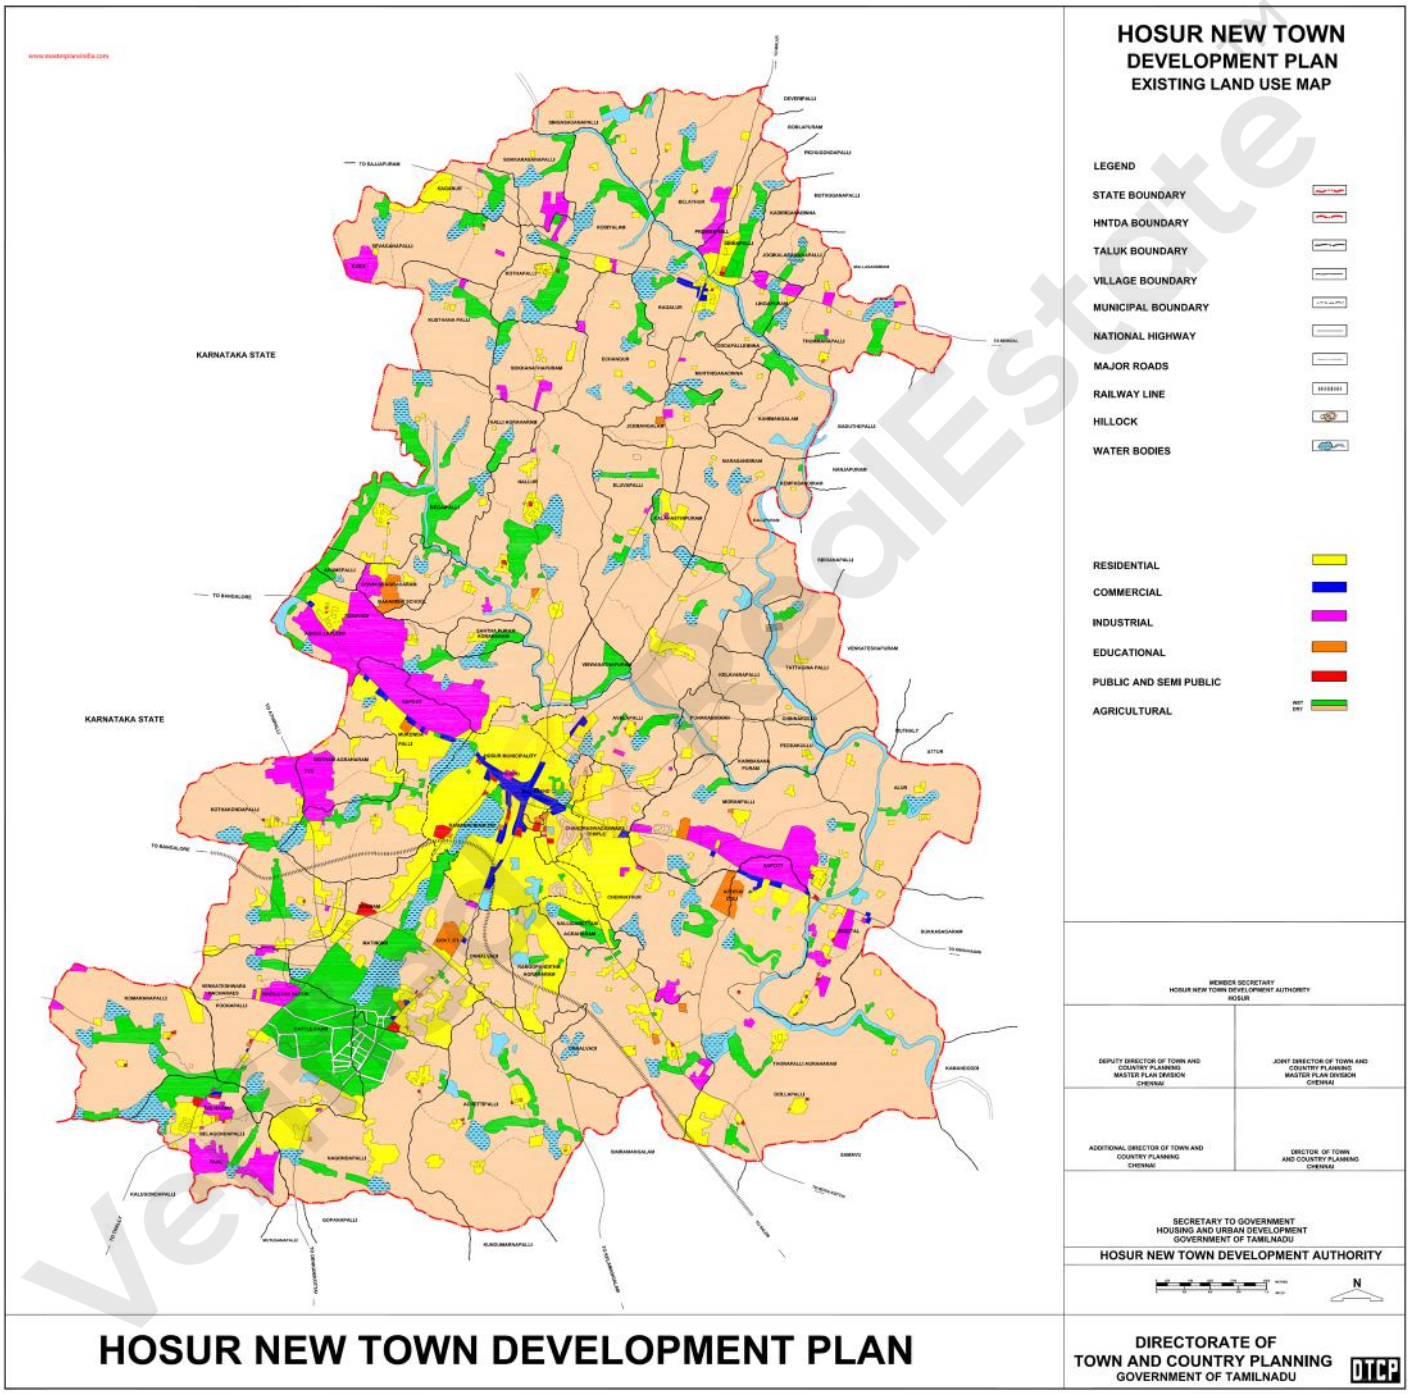

21.11 percent to the developed area. Industrial developments are almost achieved as proposed from the 2nd Development Plan. The present Industrial area – 2021 is 1830.20 Ha with a percentage of 19.11 percent to the developed area.

- The Public and Semi-public and Educational use were dealt separately in the 2nd Development Plan (2001-21). In the current Development Plan (2021-46) based on TNCDBR 2019, both uses brought under institutional use. In the 2nd Development Plan, Education and Public and Semi-Public use together shares 10.36 percent to the total developed area. The realised institutional use shares 10.38 percent to the developed area. The present Institutional use shares 9.47 percent to the total developed area to the extended planning area.

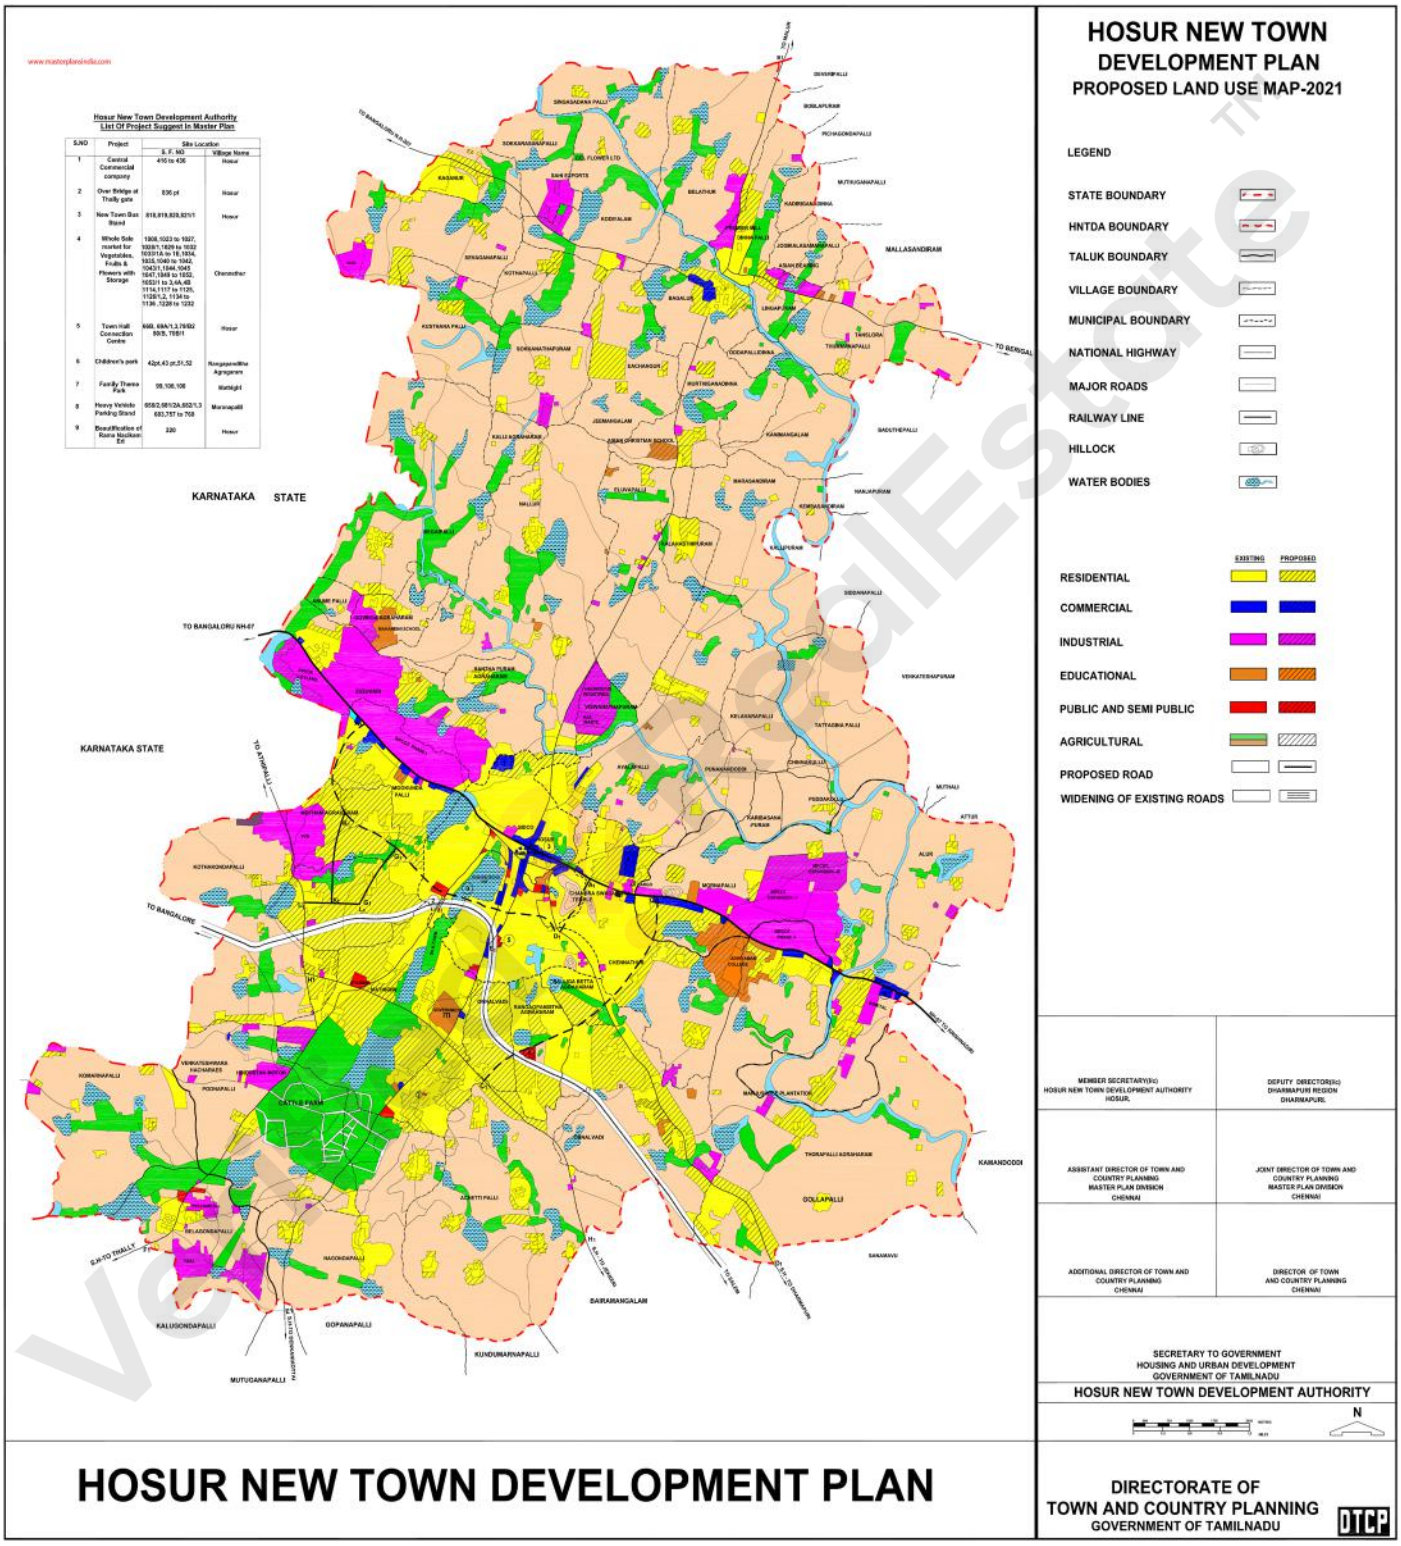

The actual developed area to the proposed land use from 2nd New Town Development Plan with 292.01 sq.km extent is shown in the table. The present land use achieved from the 2nd New Town Development Plan is can be compared. Proposed area of residential was 8,699.15 ha from the 2nd New Town Development Plan (2001-2021). Whereas the actual developed area is 3,784.47 ha. Commercial area was proposed 638 ha is actually developed 407.85 ha. Industrial was proposed as 2975.18 ha is developed 1,512.06 ha. SIPCOT phase 1 and SIDCO were present out of Hosur town. Commercials were concentrated in the NH44 and 207 junction and along NH-44 near Hosur town. Due to the increase in spatial development and land value industries started to take place beyond the erstwhile planning area i.e., 292.01 sq.km. Hence, the municipality and planning area is expanded further.

Table 51: Analysis of Existing Land Use Usage

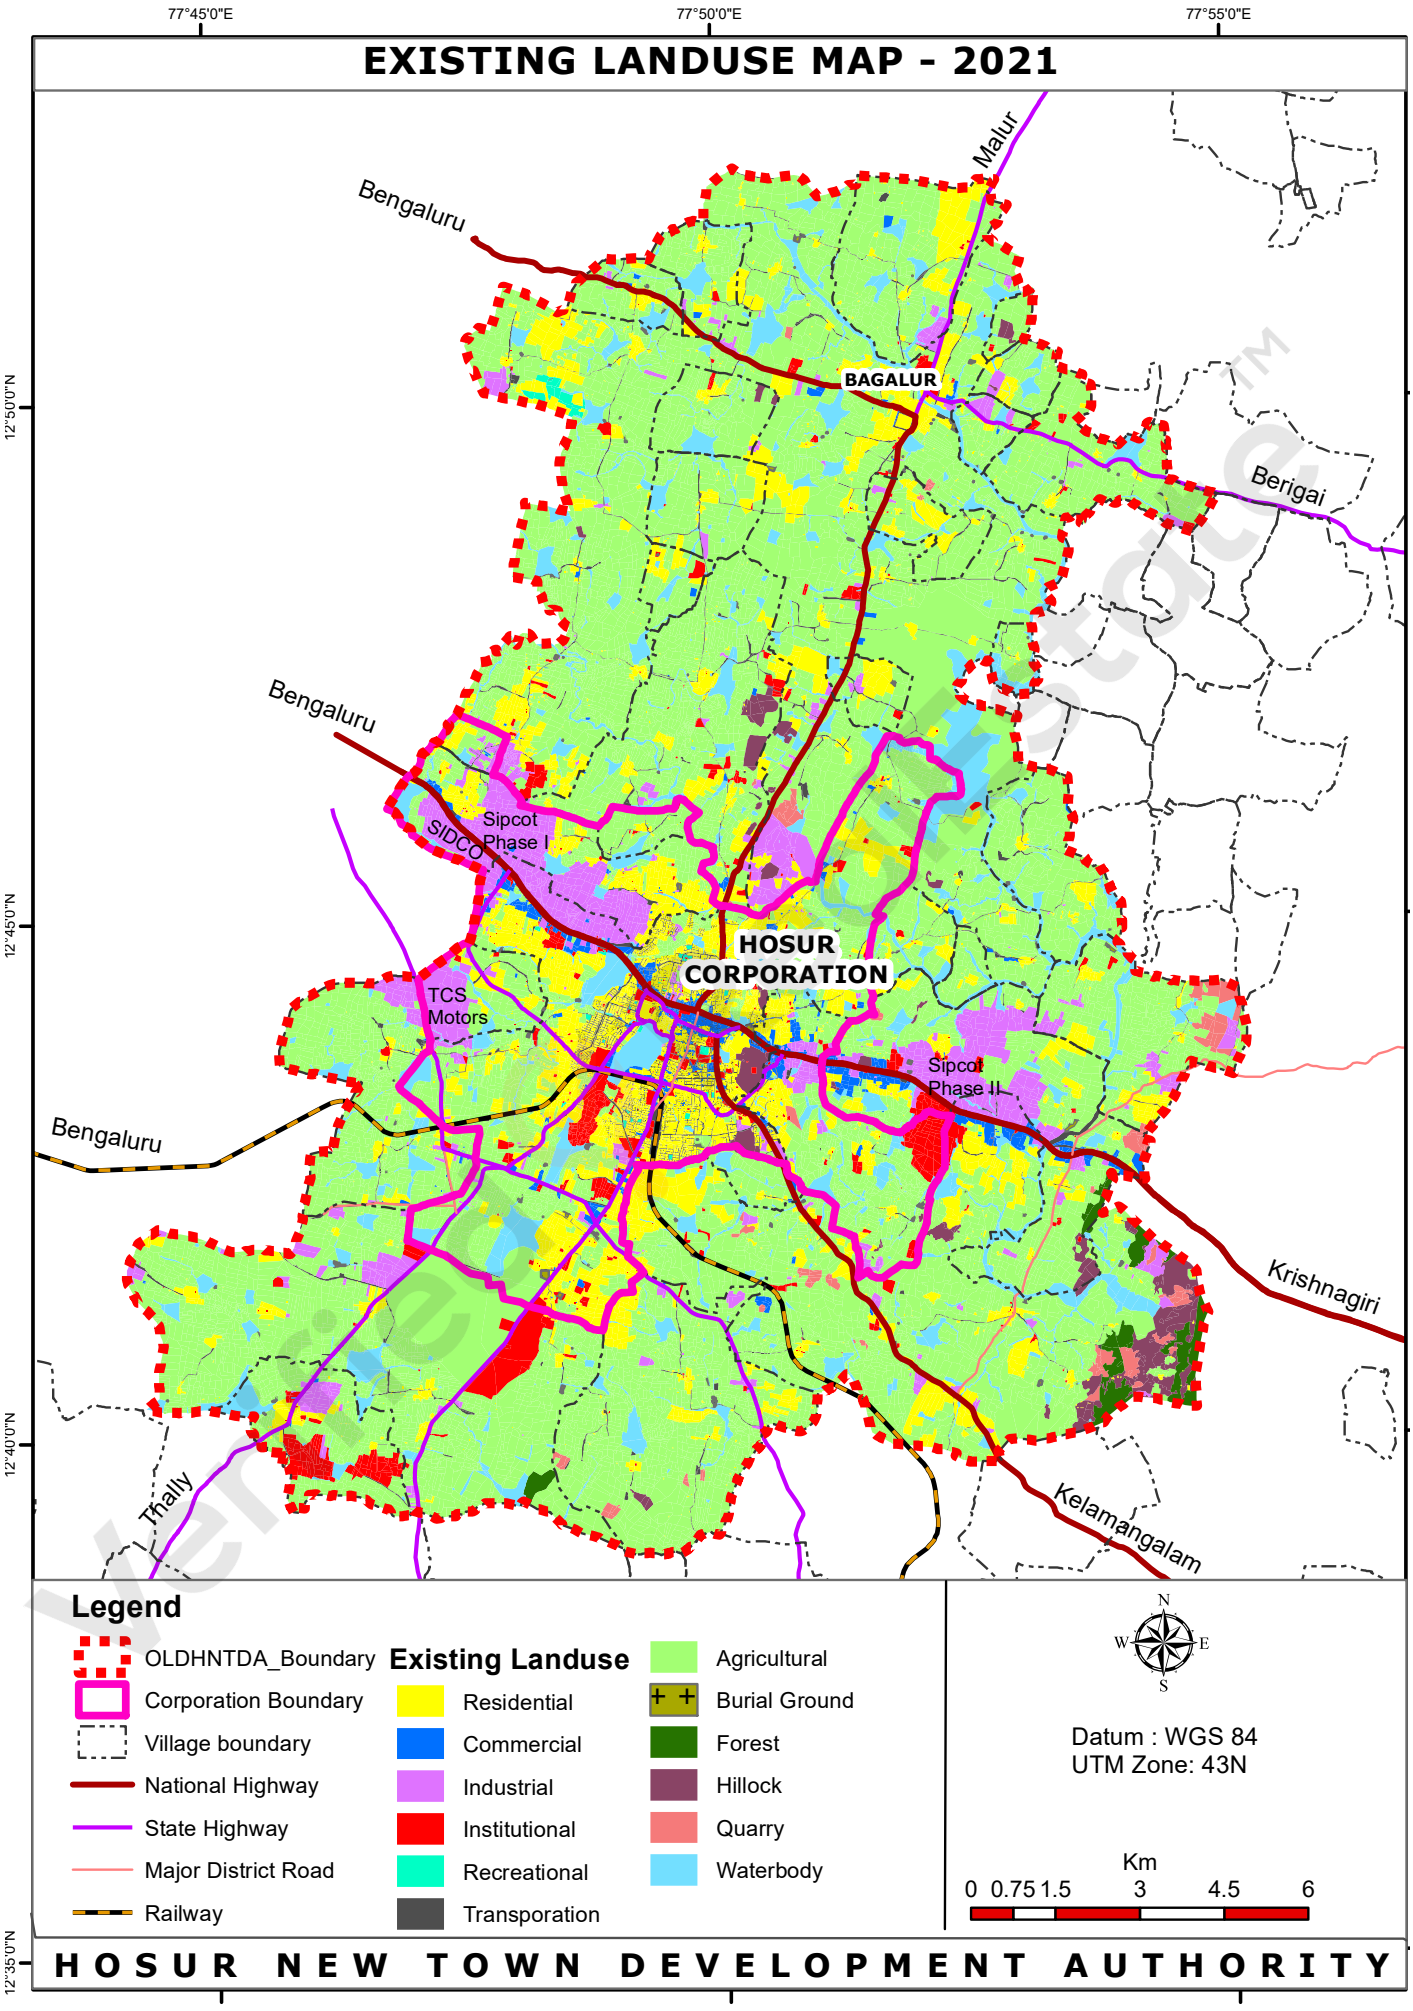

No.	Land use Classification	Proposed Land use 2021(as per 2nd MP) Sq.km	Realised Land use as of 2021 Sq.km	Difference in Proposed and Realised Land Use
1	Residential	86.99	44.98	-42.01
2	Commercial	6.38	4.08	-2.3
3	Industrial	29.75	15.12	-14.63
4	Institutional	14.21	7.43	-6.78
5	Traffic and Transportation	Included in Residential		
	Total Developed area (A)	137.33	71.62	-65.71
6	Agriculture & Others	132.97	198.30	65.33
7	Land Under Water	21.89	22.17	0.28
	Total Undeveloped area (B)	154.86	220.47	65.61
	Total (A+B)	292.01	292.01

Map 37 : Proposed Land Use Plan (2001 – 2021)

Map 38 : Realized Land Use as of 2021

Table 52 : Proposal Status - HNTDP (2001 - 2021)

Major Proposals	Status
Urbanisable Landuse	Out of 47% proposed landuse, realised is 24.52%
Andivadi Stadium	Implemented
Wholesale market for fruits and vegetables & commercial complex	Implemented
IT Park	Implemented [ELCOT IT Park @ Vishwanathapuram]
Additional Water Supply System	Hogenakkal WS Scheme Phase – I has been implemented [9 MLD]
New Town Bus Stand	New Town Bus Stand
Parking space for light vehicles	Not Yet Implemented
ROB on Thally Road	Not Yet Implemented
Formation of Inner Ring Road	Implemented
Road connecting Kelamangalam TP and inner ring road [G1 – G1]	Not Yet Implemented
Road connecting G1-G1 Athipalli road [L1-L1]	Not Yet Implemented
Road connecting inner ring road and L1-L1	Not Yet Implemented

9.2 Spatial Analysis using Satellite Imagery

The growth pattern and direction of the planning area is assessed by comparing two satellite images. The satellite images used are 23m resolution LISS-3 (2008) and 10m resolution Sentinel (2017) images. This aids in assessing the direction of development over the past decades. Normally, the development on the ground can be differentiated more than 5 years of difference. Therefore, a decade gap aids in assessing the development pattern.

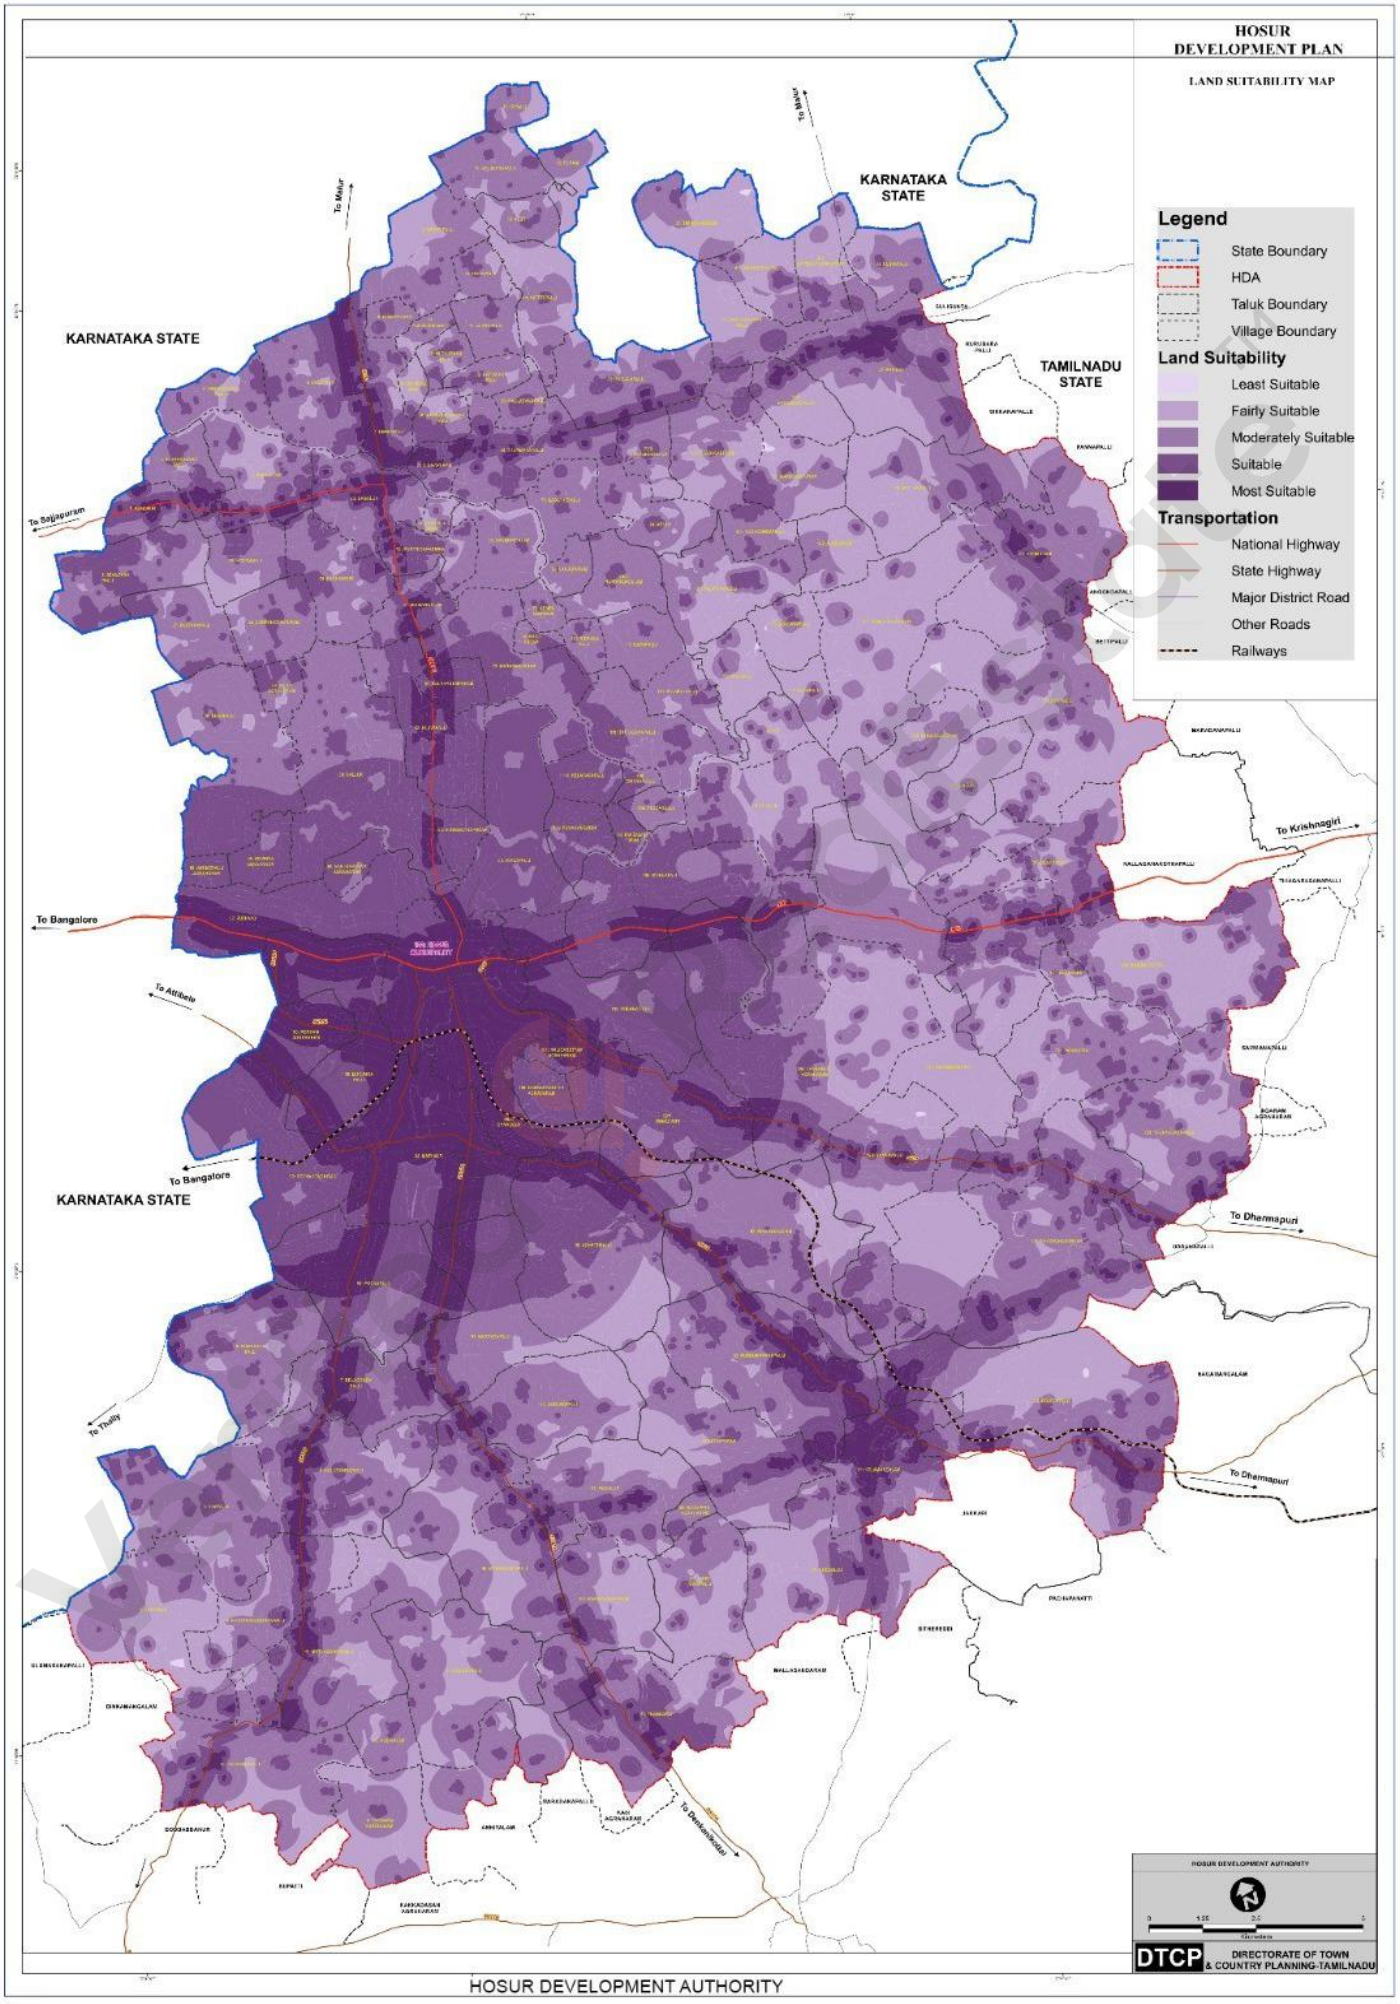

The land development is differentiated using LISS-3 and Sentinel – 2 satellite imagery by False Colour Composite (FCC). In this FCC method, the red colour represents the agriculture area. While comparing the LISS-3 images of 2008 and 2017, the area under agriculture has significantly reduced. This patently shows the conversion of agricultural land to other developed area.

On analysis, it is observed that the corporation is grown more towards Bagalur, Belagondapalli, and Mathigiri compared to other directions.

9.3 Weighted Overlay Analysis

The weighted overlay analysis is carried to find potential zones for development, considering factors that stimulates growth like road, railways, soil and settlement are given higher weightage. Similarly, the land to be conserved like forest, water bodies, fertile soil etc. are assigned low weightage. The result shows that the development is towards Bagalur on northern and southern side, and eastwards that are prompt zone for development. Dark colour shows most suitable for development and the light colour shows least suitable for development.

Verified © RedEstate™

Map 39 : Land Suitability Analysis – Hosur Development Area

9.4 Growth Nodes

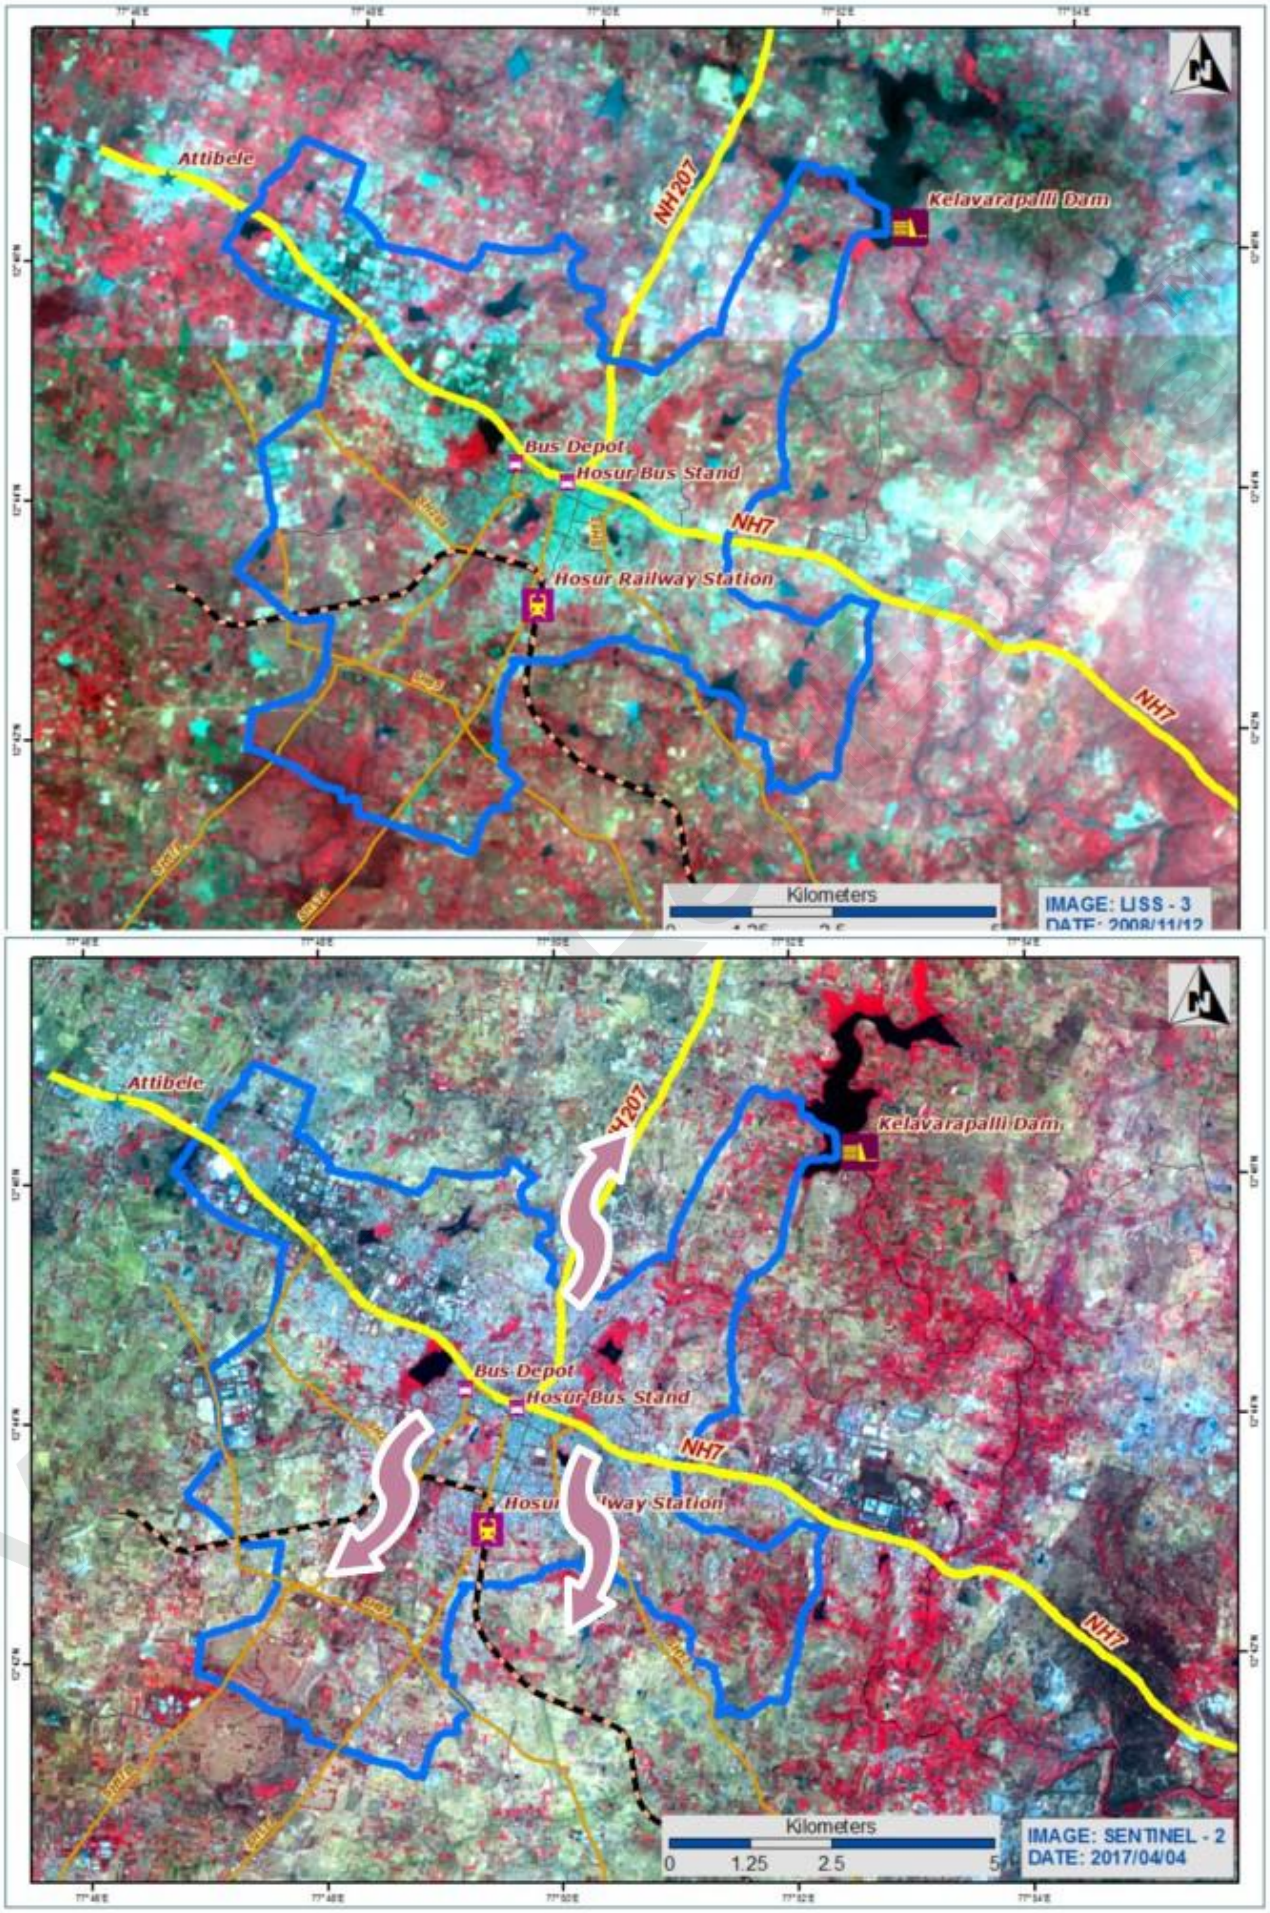

A growth node is a potential centralised hub for development where there is an activity and the infrastructure to support it with commercial activities alongside the public transport modes. The structures of these nodes are polycentric and not defined by administrative borders. Instead, they are functional areas including the hinterland of a city and the peri-urban areas with flexible borders depending on local and regional developments. Any transport infrastructure, enterprise, manpower and administrative level therein are part of the node.

Hosur is destined as Growth Centre of this planning area. Higher order services such as bus terminus, railway station, and facilities like sewerage, water supply, are available from this centre to all over planning area. To reduce the stress on this growth centre, nodes has been identified for the planning region based on proximity to growth centre (Hosur Corporation), types of services and accessibility to higher order facilities, potential zone analysis. The growth nodes are further classified into primary and secondary nodes of the planning area on the basis of proximity.

Table 53: Potential Growth Node Analysis

Factors	Bagalur	Belagondapalli	Kelamangalam	Berikai
Proximity to Highway	NH-207	SH-17B	SH-85	
Rail Connectivity			Kelamangalam Railway Station	
Population Growth Rate (2001 – 2011 Census)	19.52	20.14	20.53	25.02
Proximity to Growth Centre	12 km	12 km	20 km	23 km
Potential Zone Analysis	Suitable	Suitable	Suitable	Moderately suitable
Proposals		Training Airport to Domestic Airport Upgradation		

Verified © RealEstate

Map 40: Decadal Satellite imagery Analysis (2008, 2017)

The primary nodes of the planning area are Bagalur and Belagondapalli. Immediate developments until 2030 focused on this nodal region. The reason for immediate development can be attributed to their proximity to the corporation. In the future, it also has the potential to be merged within corporation area. Hosur planning region has agro-based economy, so to retain most of the agriculture-based activity, the primary nodes are focused for the development.

Kelamangalam and Berikai are identified as secondary nodes of the planning region to be focused for the horizon period 2046. Though it is farther from corporation area, it has influence from neighbouring settlements. In case of Berikai, presence of TANFLORA and its connectivity to Shoolagiri is a huge advantage for development. The strategic location of Berikai on the road connecting Shoolagiri and Malur adds an edge for growth.

Kelamangalam is located on the State Highway 85. The upcoming developments like GMR investments can enhance the potential of the urbanisation in the area. As these nodes are near to forest area, most of the areas are under agricultural activities.

9.5 Planning Strategies

The spatial strategy for development is analysed for the planning area, based on the connectivity, agriculture sustainability, retaining green cover and industrial economy.

Connectivity: The well-connected roads ensure the steady growth of a planning area. The Primary and Secondary nodes are well connected in the planning region. The southern part of the corporation has two ring roads. In order to de-congest, traffic ring road is proposed in the northern region by NHAI. The widening roads and linking the missing roads are linked for the development of the planning region.

Sustaining Agriculture: Primary nodes shall be focused for diversified development. Land beyond primary nodes must be retained for agricultural purposes.

Green Barrier: Land beyond primary nodes shall be retained for agricultural purposes. From Kelamangalam to Berikai, the area acts as green barrier. Developments near forest is not encouraged in this region to reduce human animal conflict.

Industrial Economy: Industrial activities are encouraged along NH-44 and near primary nodes to keep the growth in steady pace.

Verified @ RealEstate

9.6 Conceptual Plan

Hosur Corporation is located on the western part of the planning area. The major industrial zones are located abutting the highway on the peripheral area of the Corporation. The commercial activities pertaining to day-to-day life, health care and inter and intra-regional connectivity are centrally located. The residential zones are distributed in closer to work place. Thus, the residential zone covers mostly the central, northern and western parts of Corporation. Therefore, entire planning area has scattered residential settlements with industrial and agricultural activities in close proximity. In regard to the planning area, the faster development observed in the north and south. The reserved forest stretches from north-south on the eastern zone of planning area.

The vision is to create a sustainable Industrial hub and floricultural hub. Inducing the economic activities as well as the preservation of the natural resources is a key determinant. The areas under hill, forest, agriculture fields and quarry are maintained with minimum interventions in that area. The proposed development shall complement the produces from the agricultural fields and the quarries within the area. The water bodies within the planning area have to be maintained. The conceptual plan of the planning area is shown in map below.

The primary focus is to create regional connectivity through ring roads. Subsequently, street alignment is proposed for effective traffic flow within the planning area. As development happens, Hosur may get stressed. However, the growth nodes shall assist in decentralizing the development. The growth nodes and villages around these centres are delineated for further development in future decades. The hierarchy of infrastructure will be distributed along these nodes.

The villages around Bagalur are Echangur, Kodiyalam, Belathur, Dinnapalli, Lingapuram, Oddapalli Dinna and Murthiganadinna. The villages Kalugondapalli is in close proximity to Belagondapalli. These two centres have greater potential for development in the following decades. The facilities cater to higher order in these nodes. Belagondapalli is closer to the corporation, so most of the people in the vicinity approach Hosur Corporation for higher order facility.

The villages around Berigai are Nandimangalam and Kattinaickandhoddi. Kelamangalam and Bodichipalli are far from the corporation. Kelamangalam is a town in the periphery of planning area. The growth nodes along with its influential villages are shown in the map. In next few decades, it has a far greater potential to function as an urban centre with all necessary infrastructure. Hence, this Development Plan proposes to build required infrastructure for the growing population in the nodes.

Verified © Kapristan

9.7 Industrial Use Analysis

Since Hosur is an Industrial Town, special attention in terms of allocating land for industrial usage is required. Hence, an elaborate industrial zoning analysis has been carried out considering the following criteria,

A. Existing industrial landuse

This refers to the current use of land for industrial purposes. Areas with existing industrial zones may be preferable for future industrial development because of the existing infrastructure, such as transportation networks and utilities.

B. Industrial landuse development trend & growth node analysis

Analysing trends in industrial development and identifying areas with high growth potential aids in scientific allocation of land for future industrial zones.

C. Potentials

- Existing & Proposed Road and Rail Connectivity: Industrial zones typically require good transportation links to move goods and materials efficiently. This may include highways, railways, etc.
- Proximity to established industrial use: Locating new industries near existing industrial areas can benefit from existing infrastructure and a pool of skilled labour.
- Topography - Preferably flat terrains: Flat land is typically cheaper to develop and easier to build on than hilly or mountainous terrain.

D. Constraints

- Water Bodies: Industrial development can pollute water bodies. Local authorities may restrict development near water bodies to protect water quality.
- Forests/Hillocks/ Quarries and crusher units: Development may be restricted in environmentally sensitive areas or areas with valuable resources.
- Proximity to Residential zones: Industrial zones can generate noise, pollution, and truck traffic. Local authorities may create buffer zones between industrial zones and residential areas to protect residents' health and quality of life
- Intensive Agriculture Zones: Highly preferred to avoid converting productive agricultural land to industrial use.

E. Development policies

Development policies are the rules and regulations [eg., TNPCB guidelines, Forest department regulation etc.,] set by the local government to guide industrial zoning. These policies may consider factors such as the type of industry allowed, environmental impact, and infrastructure development.

Verified © RealEstate™

9.7.1 Industrial Use Zoning

As the next step, the aforementioned factors, and the potential development trend that has been overlaid to identify potential zones for landuse development. The zoning map has been attached below. The identified nodes have been hierarchised from node I being the most potential zone considered for immediate allocation of industrial landuse and node VI being the least potential zone that can be considered in the future for industrial use after exhausting the higher ranked nodes. The identified nodes are listed below,

- **NODE I – BELAGONDAPALLI ZONE**

Consists of Komaranapalli, Poonapalli, Belagondapalli, Nagondapalli and Kalugondapalli villages

- **NODE II – ALLUR – BUKKASAGARAM ZONE**

Consists of Alur [117/1], Bukkasagaram, venkatesapuram and Attur villages

- **NODE III – KUNDUMARANAPALLI ZONE**

Consists of Kundumaranapalli, Achetipalli, Hosapuram and Bairamangalam villages

- **NODE IV – DEVAGANAPALLI ZONE**

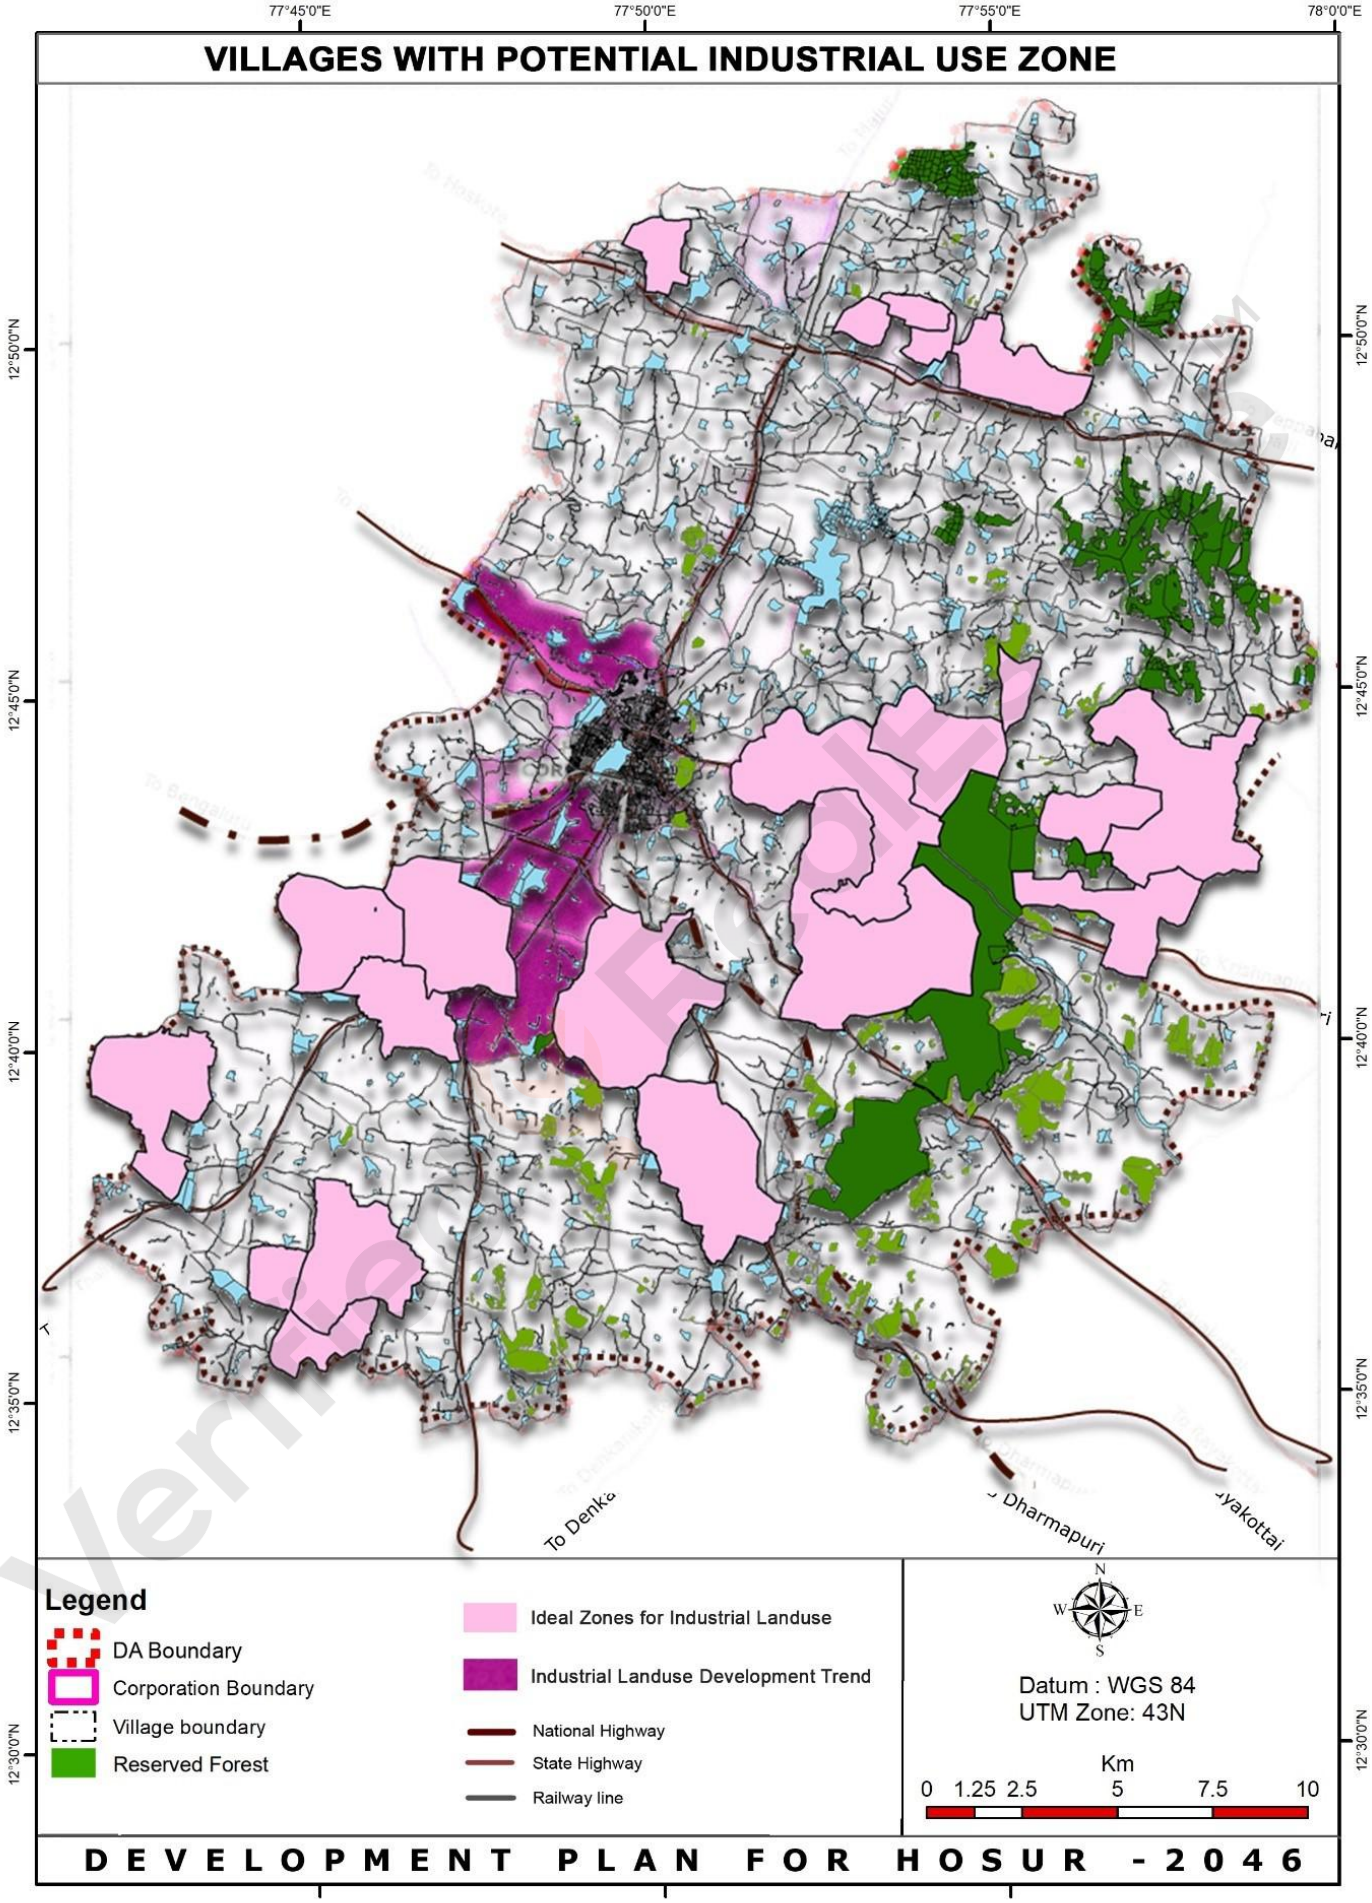

Consists of Devaganapalli and Peddamadagondapalli villages

- **NODE V – BODICHIPALLI**
- **NODE VI – BAGALUR ZONE**

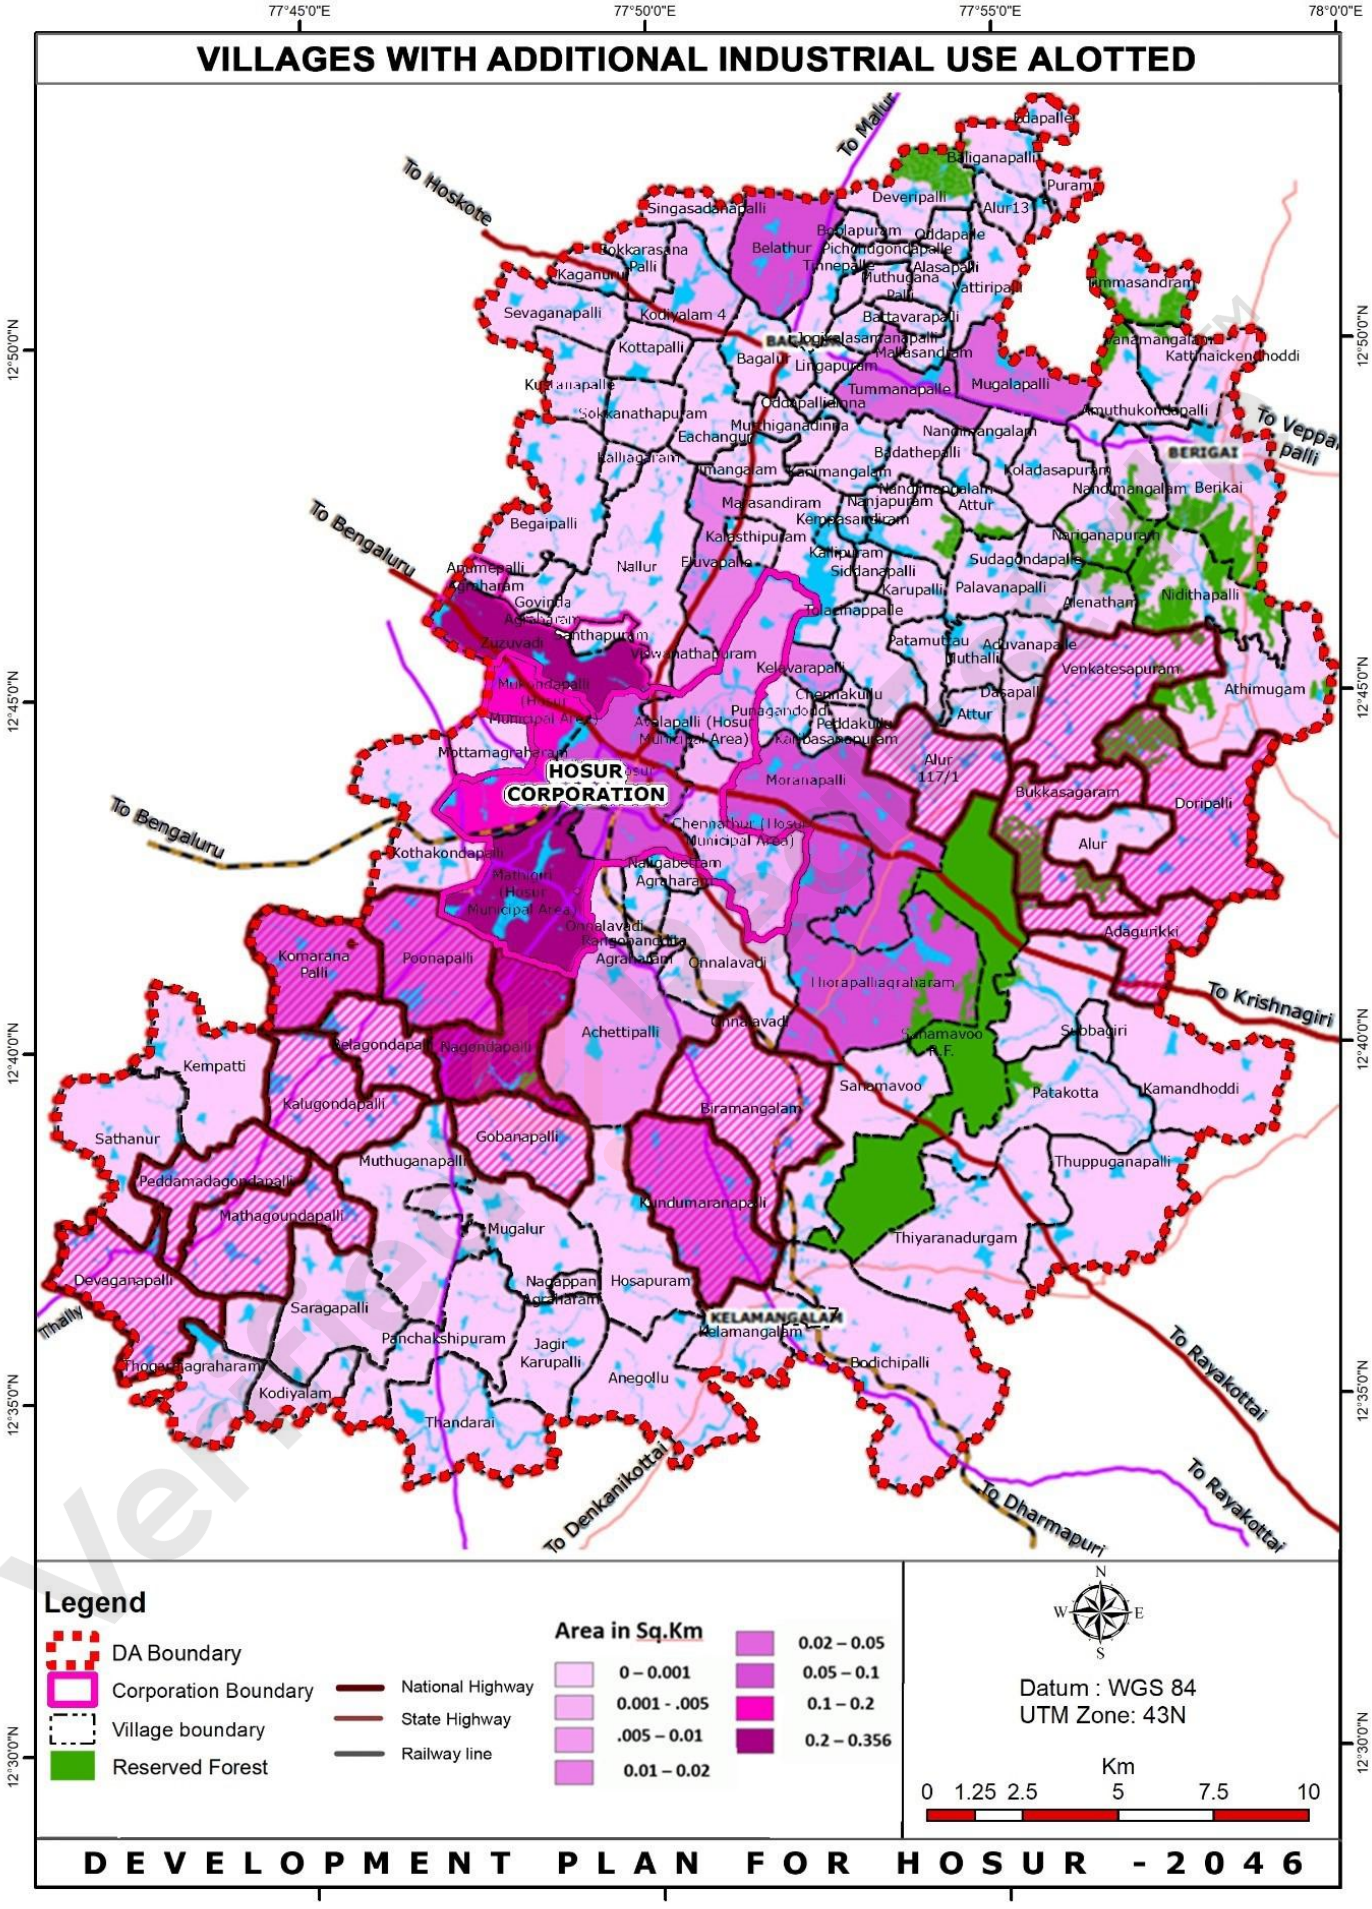

Consists of Sokkarasanapalli, Kodiyalam, Lingapuram, Tummanapalle and Jogikalasanamanapalli villages

As the next stage, based on the zoning analysis, industrial use is proposed predominantly along the eastern part of the HDA along NH44 and along the southern part following the development trend pattern. Map depicting the villages considered for proposed industrial use is depicted below.

PROPOSALS

Verified RealEstate™

10 PROPOSALS

Based on detailed analysis of the ground conditions and through careful considerations of the potential of the DA, the following proposals and landuse plan have been arrived.

10.1 Green Infrastructure

Blue-green infrastructure is a nature-based approach to managing water, improving air quality, and creating more liveable cities. It integrates green spaces, such as parks, gardens with blue spaces, like rivers, lakes, and wetlands. Related proposals envisioned for Hosur Development Area are detailed below,

10.1.1 Urban Forestry

Urban forestry, a practice that transforms concrete jungles into thriving ecosystems, enriching the lives of both humans and nature. It's the care and management of trees and forests within urban environments. It goes beyond simply planting trees; it involves meticulous planning, selection of the right species for specific sites, proper planting and maintenance, and ongoing assessment of their health and impact.

Trees in cities are more than just ornamental decorations. They are essential infrastructure, providing a multitude of benefits.

a. Environmental:

I. **Air and water purification:** Trees absorb pollutants, dust, and harmful gases, while their leaves capture rainwater and filter it before it enters the ground, improving air and water quality.

II. **Climate change mitigation:** Trees absorb and store carbon dioxide, a major greenhouse gas, contributing to the fight against climate change.

III. **Urban heat island effect reduction:** Trees provide shade and evapotranspiration, lowering temperatures in cities that tend to be warmer than surrounding areas.

b. Social and economic:

I. **Improved well-being:** Studies have shown that access to green spaces can reduce stress, improve mental health, and encourage physical activity.

II. **Increased property values:** Homes and businesses near trees tend to have higher property values.

III. **Community building:** Urban forests provide shared spaces for recreation, social interaction and environmental education, fostering a sense of belongingness within the community.

Verified © Realistate™

Figure 45 : Ref images of the proposed urban forests

Use of technological Innovations like tree selection software and sensor-based monitoring systems can aid in setting up and efficient management and monitoring of the urban forests. Planting of indigenous species such as peepal, jamun, neem, magizham and pungai that are native to hosur's climate and soil conditions are recommended as they purify air and reduce pollution and additionally add visual colour and character to the public space.

Urban Forests have been proposed in the following locations in the DA,

I. Corporation has taken initiative to increase green cover through the development of Miyawaki forest near Ramanaicken Lake and creation of riparian buffers around the lake to tackle adverse micro-climatic conditions.

II. 14.41acres of land in Viswanathapuram village allocated for Open Space Reservation in ELCOT IT park has been proposed to be developed as urban forests with indigenous species. Site has been cleared off shrubs and vegetations and tree samplings that have been identified after careful consideration of Hosur's soil and climatic conditions have been planted [Refer Image below].

Figure 46: Site clearance & inception of Tree Plantation at Viswanathapuram

III. 4.15 acres of govt. land have been identified to be proposed as Urban Forest in Moranapalli village. The site strategically falls between the congested CBD and SIPCOT on the east and Moranapalli lake on the west. This will act like a path forest sending in cool winds and clear air into the CBD while absorbing the polluted air and also reducing the microclimatic temperature

Verified © RadEsrte

Figure 47: Identified government site for Urban Forest at Moranapalli

10.1.2 Green Belt Development

Greenbelt in India refers to a buffer zone created beyond which industrial activity may not be carried on. This concept has developed through a long line of cases and today, greenbelts are present not only for the purpose of protecting sensitive areas to maintain ecological balance but are also be found in urban areas so as to act as a sink for the harmful gases released by vehicles and industries operating in the city area. In this regard, comprehensive Guidelines for Developing Greenbelts have been compiled by the Central Pollution Control Board (CPCB).

As per the stipulations of MoEF, greenbelt is to be provided all along the boundary by planting tall, evergreen trees and the total green area including landscaping area will be 1/3rd (about 33%) of the industrial area. Depending on the size, activity and environmental impacts of the industry; extent of land available, agro-climatic conditions, at least 5 m wide greenbelt of two rows of tall and evergreen plants shall be grown at the rate of 600 per acre (1500 per Ha). Central Pollution Control Board suggests indigenous plantation with recommended spacing in order to protect the environment. It also mandates industries in SIPCOT to plant trees with suggested species, numbers and spacing, to reduce the environment degradation by reducing the air pollution.

Existence of forest and animal activities in the planning region make the area as environmental sensitive. To conserve the forest, concept of Green Barrier is proposed in the forest area.

A buffer of 50 m green belt is provided from the boundary. Development proposals around those zones shall be avoided.

10.1.3 Pollution Abatement

Mineral resources can be worked out for improving the economy by taking the following measures for reducing the impact of mining on environment.

- The emission of contaminants to the atmosphere by proper planning and zoning of quarrying areas.
- Water sprinkling on road that transport minerals from mines
- Black topping of the main transportation roads to the possible extent.
- Avoiding crowding of trucks by properly spacing them to avoid the concentration of dust emission at any time
- Covering the trucks by tarpaulin sheets during ore transportation
- Proper maintenance of HEMM (Heavy Earth Moving Machinery) to minimize gaseous emission
- Imparting sufficient training to operators on safety and environmental parameters
- Development of green belt / plantation around mine, along the roads, backfilled area in various undisturbed areas within the mine lease areas etc.

Verified & Registered

- Industrial effluent treatment systems shall be introduced wherever necessary and maintained properly.
- Safety barriers shall be provided for all water bodies and no mining activities shall be carried out in the safety barrier area.
- Mitigate measures like construction of garland drains formation of earth bunds shall be followed in the waste dumping areas to avoid wash off.
- Domestic effluents shall be treated in scientific manner
- Required statutory clearances shall be obtained and all precautionary measures to be adopted wherever pumping of ground water is involved.
- Recycling of water used in crusher units and prevention measures of polluted water into water bodies by proper storage within the unit so as to avoid water contamination
- Planting rows of native trees around mine, along the roads, other noise generating centres act as acoustic barriers.
- Sound proof operator's cabin for equipment may lead to less noise generation.
- Proper and regular maintenance of equipment may lead to less noise generation
- Air silencers of suitable type that can modulate the noise of the engines of machinery shall be utilized and shall be maintained effectively.
- Providing in-built mechanism for reducing sound emissions.
- Providing ear muffs to workers exposed to higher noise level and to those persons operating or working close to any machine.
- Conducting regular health check-up of workers including Audiometric test for the workers engaged in noise prone area.
- The quarrying areas in the district are mostly of dry areas, hence, afforestation to be carried out.
- Necessary pollution alleviating measures like dust suppression, proper maintenance of equipment, black topping of roads etc., to be carried out to prevent dust generation & any further impact on the vegetation.
- Conservation plan for schedule –I species if any to be prepared in consultation with the forest department and the proposals given in the conservation plan to be strictly implemented.
- Scientific reclamation measures shall be adopted to reduce the impact of land environment due to mining. Quarrying of Granite and Rough stone pits after back filling may be used for land reclamation and the unfilled quarry pits may be used for ground water recharge and as fishery ponds.

Verified RealEstate™

10.2 Protection of Endangered species

The elephant habitat of Mysuru-Nilgiri landscape supports one of the largest elephant population in the country. The Sanamavoo reserved forest occupies an area of 16.55sq.km in the planning area. The national highway (NH-44) runs across Sanamavoo reserved forest which is an abode for myriad wildlife encompassing the Asian Elephants that are under endangered species category. Elephant movement is observed in the planning area causing frequent human-animal conflicts resulting in causalities. Map representing elephant activity in the Development Area is provided below.

At present, information signages on elephant crossing has been kept along the NH-44 to alert the travellers. It is additionally recommended to construct an elevated passage for elephants to cross NH-44 near Sanamavoo reserved forest which can be identified after detailed reconnaissance visit with the forest department. It shall also be declared as ecologically fragile area to limit developmental activities and human intervention.

Figure 48: Reference Images for animal Cross-Way over transit corridors

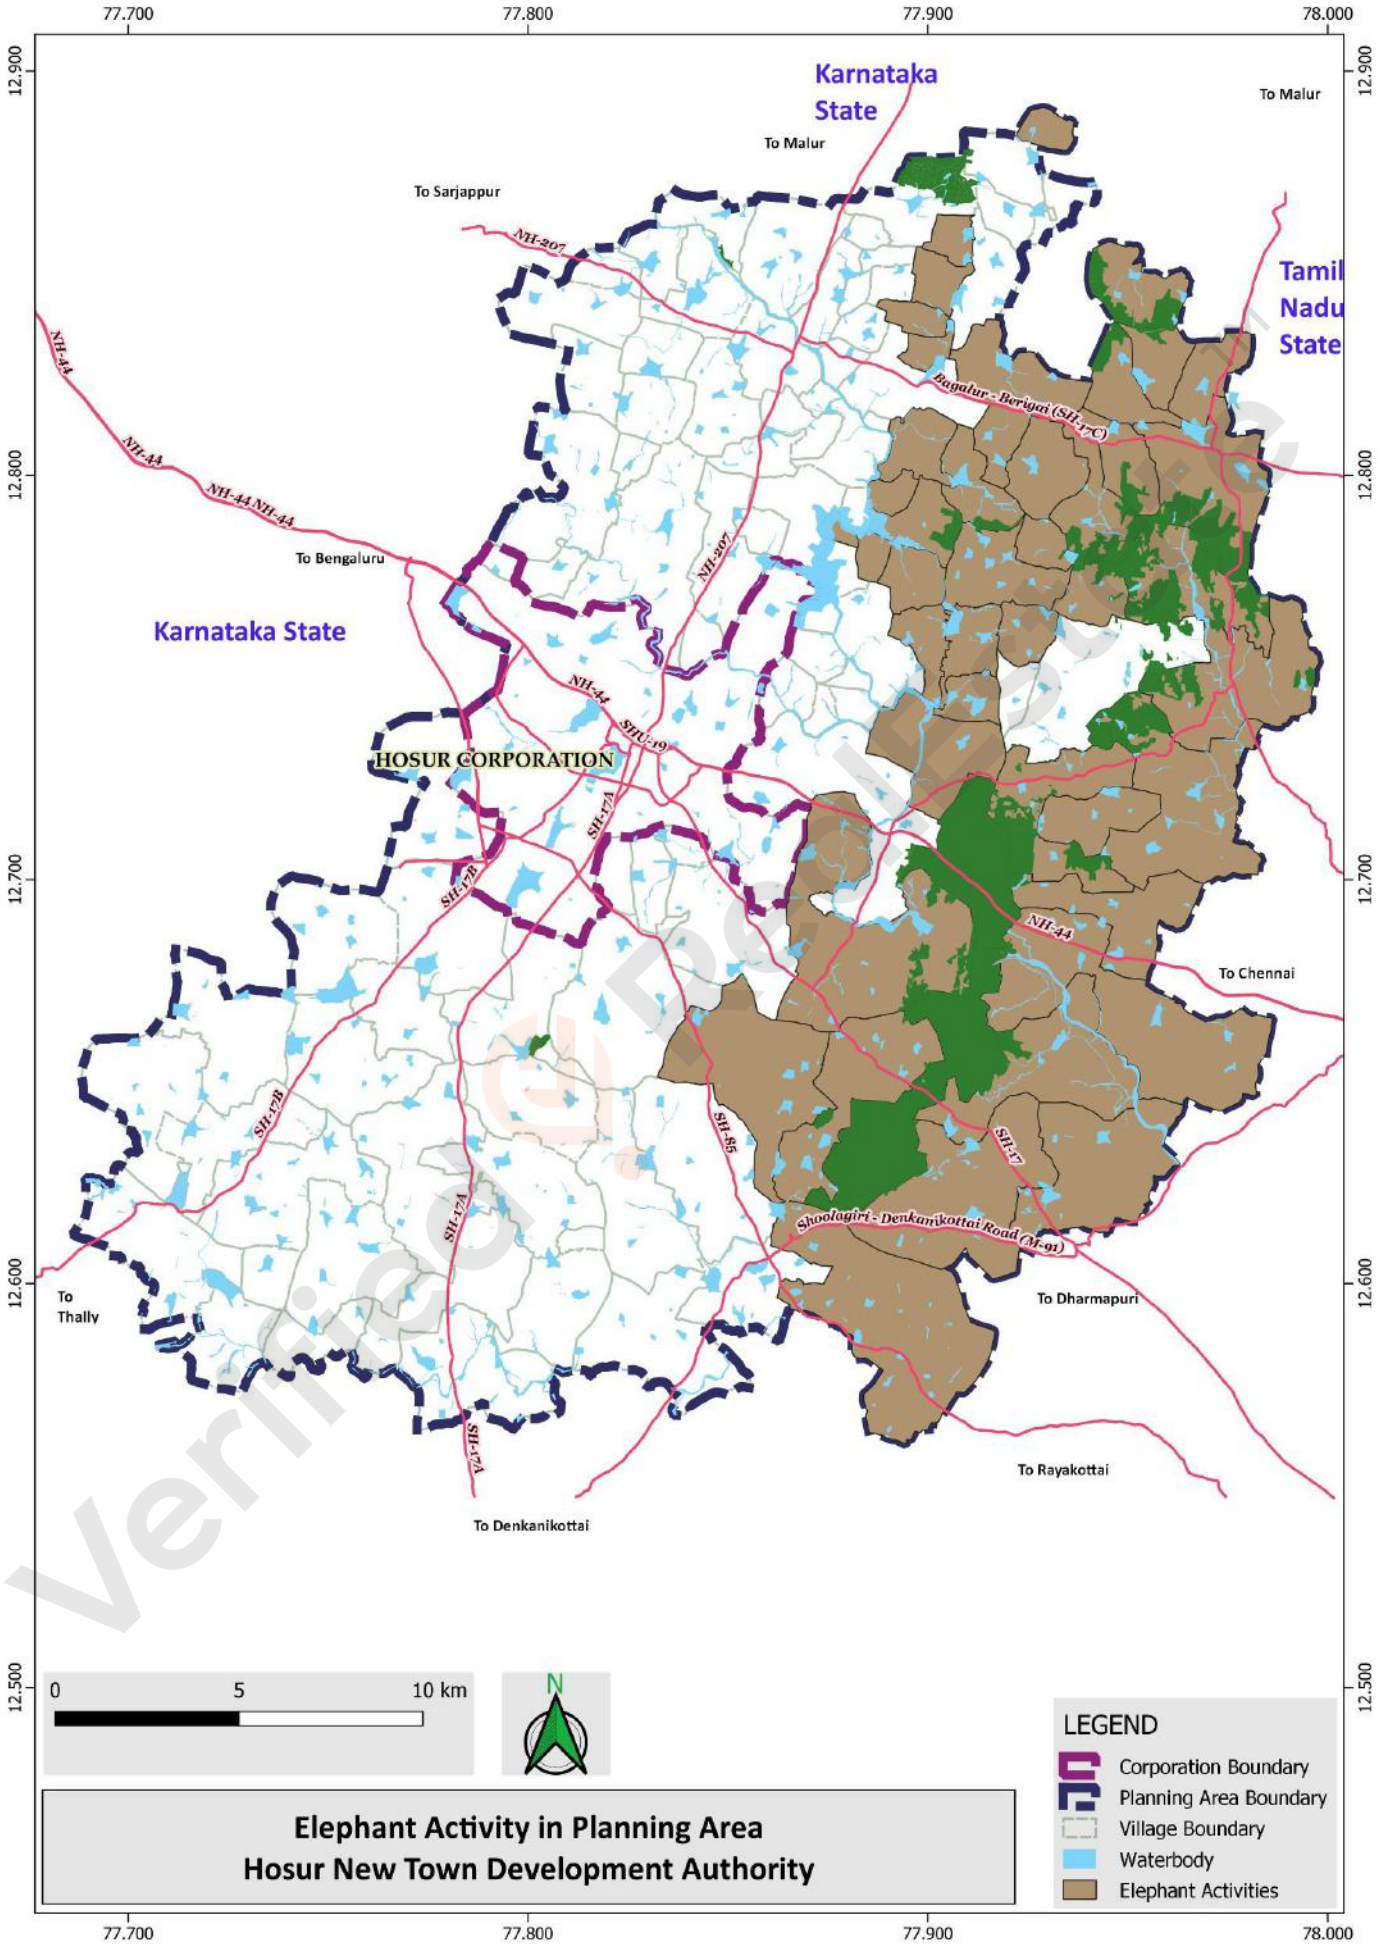

Verified © RealEstate

10.2.1 Artificial Intelligence (AI) and Machine Learning-enabled surveillance system

TN Forest department has launched an AI based surveillance system to monitor the elephant movement and prevent deaths on railway tracks. This system is implemented in Coimbatore division in the madukkarai range where elephants cross the railway tracks. In Coimbatore Forest Division, it is noted that elephants have strayed about 9,000 times in the past three years, from 2021 to 2023. This system has efficiently prevented animal death on tracks.

To safeguard both wildlife and rail passengers, a sophisticated AI system has been implemented along vulnerable stretches of railway tracks in the Bolampatti Block–I forests. Twelve strategically placed towers, equipped with thermal and normal cameras, scan the area 500 meters apart, providing a 150-meter buffer zone on either side of the tracks.

Verified RealEstate

Map 45: Elephant Activity in Planning Area

This real-time surveillance system detects animal movement instantly and transmits data to a dedicated control room. Here, forest department staff and technicians work round-the-clock to monitor wildlife activity and alert train drivers via calls, SMS, and trackside alerts. Additionally, audible hooters and digital displays signal potential hazards on the tracks.

This collaborative effort between forest and railway officials, driven by AI-generated data, not only prevents accidents but also offers valuable insights into elephant behaviour. The system gathers data on individual elephant movement patterns, enabling informed decision-making for future conservation efforts.

Similar system can be adopted for the planning area after identification of critical stretches and overhead Variable Message Signages [VMS] can be put up to prevent human-animal conflict along the highway.

Verified RealEstate™

10.3 Waterfront Development

Waterbodies are arteries that nourish landscapes, supporting diverse ecosystems, and providing invaluable resources for people. However, due to various factors like pollution, neglect, and unsustainable practices, many waterbodies have become degraded, losing their ecological and socio-economic value. The "Eyes on the Water" approach offers a holistic and community-driven strategy for their rejuvenation. This method enables in putting the waterbody, be it rivers or lakes on the frontline with adequate public access and utilities such as walking trails and vending zones thus transforming to leisure activity zones.

10.3.1 Model City Scheme – Linkages of Waterbodies

Under Tamil Nadu Sustainable Urban Development Programme, Hosur Corporation has undertaken Model City scheme for Urban Design Improvements. The major works under this scheme [Proposed Fund Allocation: 33.98 Crores] are included below,

I. Restoration of upstream water bodies,

II. Rejuvenation of Kalkeri, Karnoor and Anthivadi Lake

III. Redevelopment of Ramanaicken Lake

The development activities will include the creation of riparian buffers with avenue trees on either side of the canals with barbed wire fencing.

10.3.2 Conservation Zones

The proposed buffer for the waterbodies can be efficiently planned and transformed as picturesque promenades, activity zones and watch towers at specific locations along with vegetation cover. It can be proposed to include drought-tolerant plants, natural lighting, permeable paving etc., for an eco-friendly design. This will aid in maintaining the buffer preventing encroachment and non-compliant activities. Some of the proposals that can be considered are,

I. Riparian Buffer Zones: Create diverse plant communities with native trees, shrubs, and grasses along the riverbank. This stabilizes the soil, filters pollutants, and provides habitat for wildlife.

II. Walkways and Trails: Develop scenic paths along the river, incorporating board walks, bridges, and overlooks for stunning views.

III. Pocket Parks and Green Spaces: Design small, inviting parks with seating, shade, and gardens for relaxation and picnicking.

IV. Bird and Wildlife Watching: Create observation areas and educational programs to attract and appreciate local fauna.

Verified © RealEstate

V. Fishing and Boating: Lakes and large tanks can be identified to encourage family friendly activities.

VI. Cultural Events and Festivals: Organize outdoor concerts, art shows, and festivals to celebrate the river's significance and promote community engagement.

Table below shows the recommended setbacks for waterbodies,

Table 54: The recommended setbacks for waterbodies

No	Water Body - Typology	Buffer (in metres)
01	Rivers	15
02	Lakes	3
03	Major Canal more than 1m width	3
04	Field Channel of width less than 1m width	1

10.3.3 Policy Level Interventions

In the recent years, Hosur has been benefitted from hi-tech agricultural and horticultural practices driven by small and marginal and first-generation farmers. This remarkable growth in modern farming practices should be aided with adequate water supply and irrigation systems. To achieve this, waterbodies of Hosur are to be rejuvenated and conserved so as to abate encroachment and pollution.

In addition to the proposals on revitalization and linkages of waterbodies, and regulations by TNPCB, policy level interventions will prove effective in preventing unauthorized usage of the waterbodies. The River Centric Urban Planning Guidelines (RCUPG) by the Town and Country Planning Organisation (TCPO) of India offers a comprehensive framework for incorporating rivers into urban development strategies. Some of the salient features that can be incorporated in the Hosur New Town Development Proposal are,

a. River Regulation Zones (RRZs): These zones aim to balance development needs with river protection by delineating specific areas around the river where activities are restricted or prohibited based on their proximity and potential impact. These zones categorize areas around the rivers into three zones based on proximity and permissible activities: Prohibited Zone (closest to the river), Restricted Activities Zone, and Regulated Activities Zone. RRZs act as a shield against haphazard development along riverbanks, protecting floodplains and ecosystems.

Verified © RealEstate ™

b. River Basin Approach: Recognizing the interconnectedness of river systems, considering upstream and downstream impacts.

c. Biodiversity Conservation: The guidelines highlight the importance of protecting and restoring riparian ecosystems, including wetlands and native vegetation, to sustain diverse habitats and improve water quality.

d. Pollution Abatement: Strategies like effluent treatment plants, stormwater management, and industrial waste control mechanisms are emphasized to maintain water quality and prevent pollution.

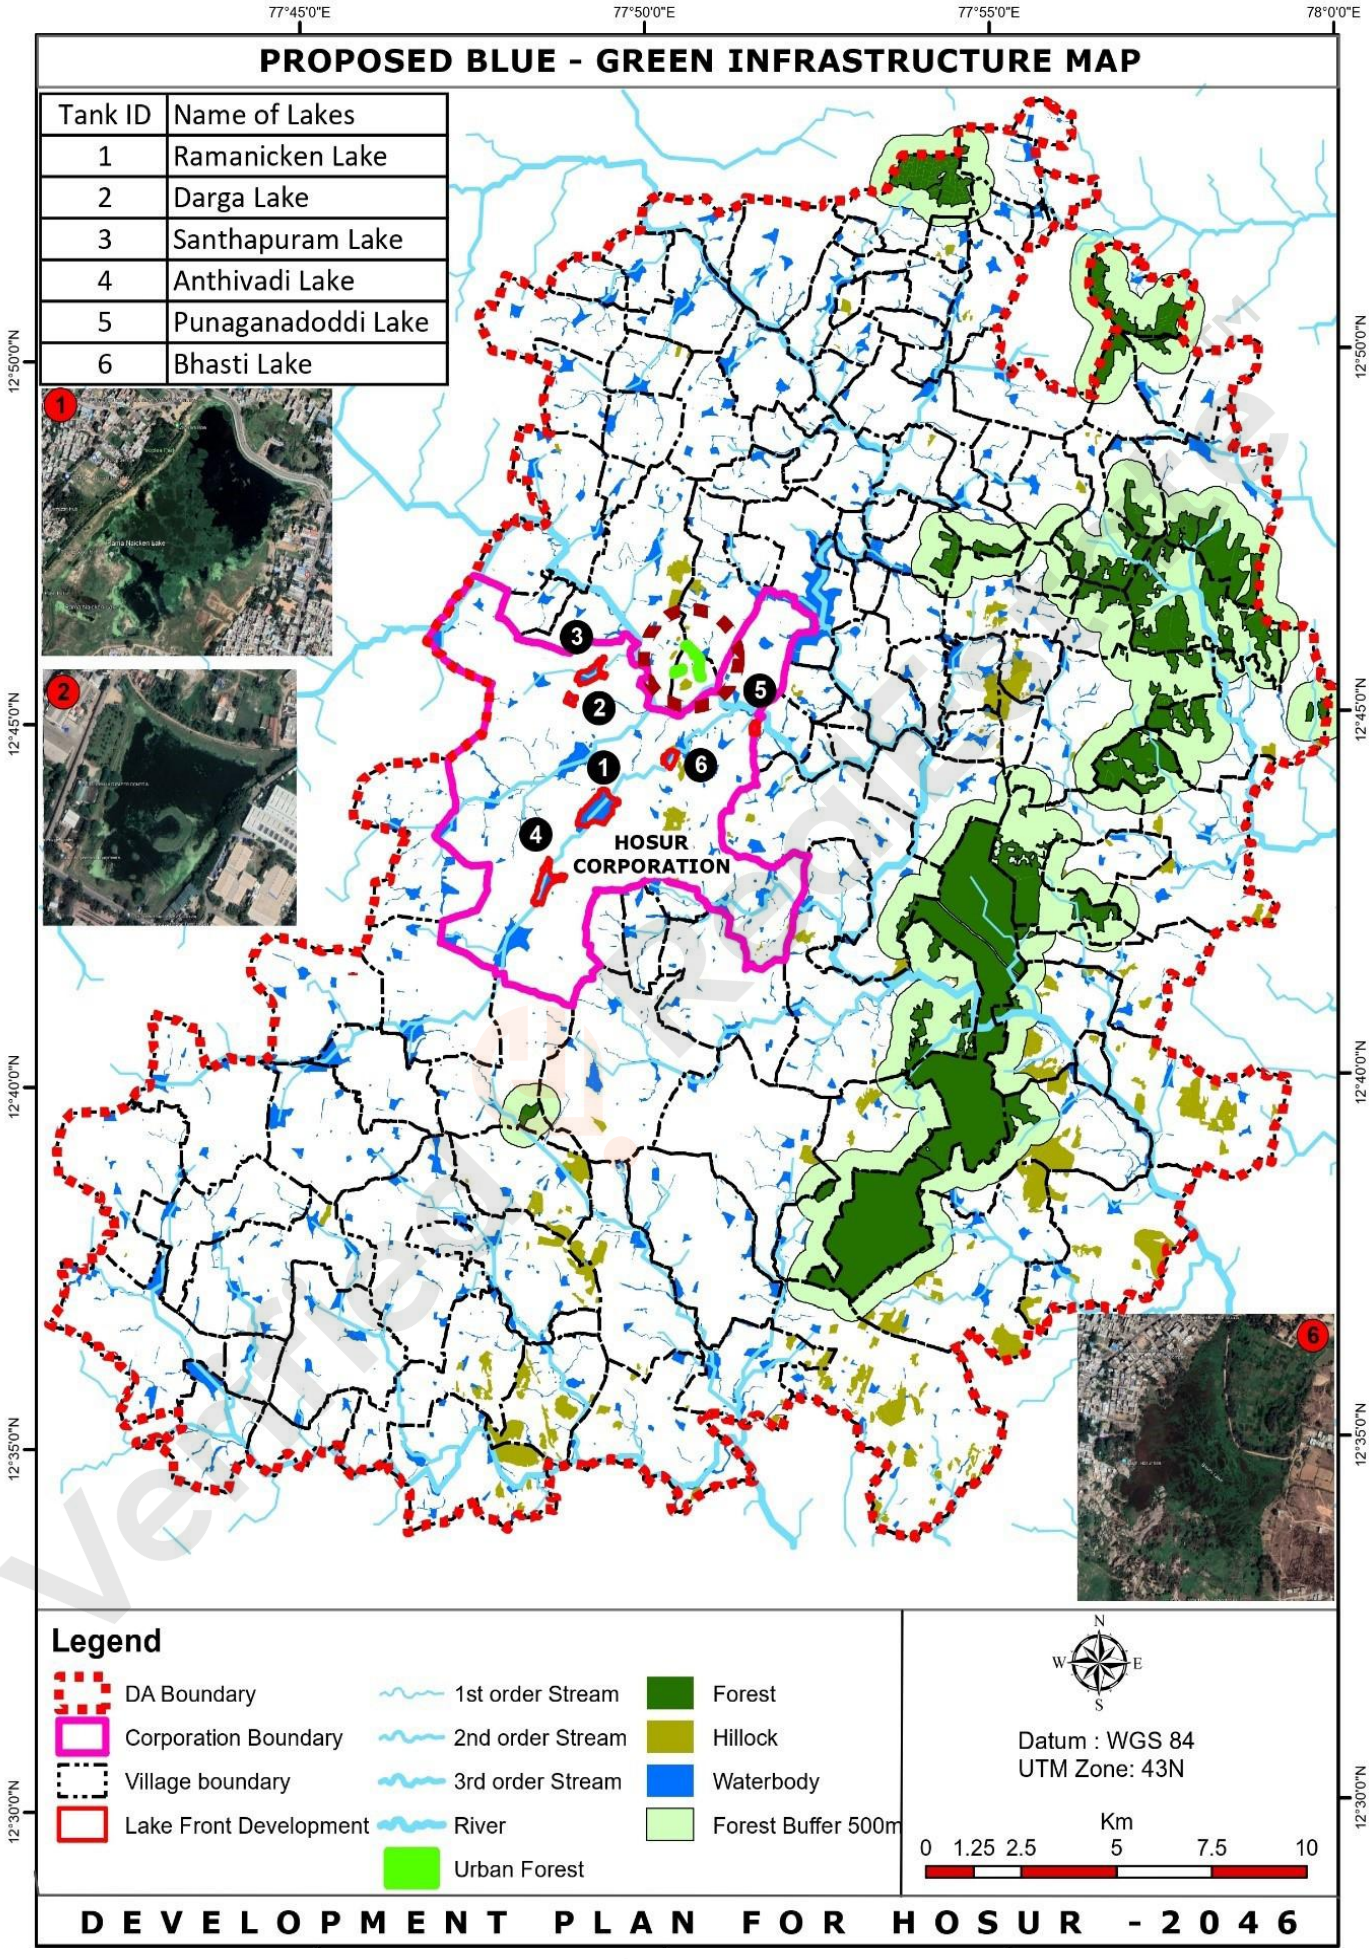

e. Floodplain Management: The guidelines advocate for respecting natural floodplains and implementing non-structural measures like green infrastructure to minimize flood risks and enhance resilience.

f. Universal Access: Creating barrier-free riverfront promenades, parks, and public spaces ensures everyone can enjoy the river, promoting social inclusion and well-being.

g. Cultural Heritage Preservation: Integrating cultural and historical aspects of the river into the urban fabric fosters community identity and sense of place.

h. Livelihoods and Informal Sector: To acknowledge the dependence of informal communities on rivers and advocate for inclusive planning that supports their livelihoods while ensuring sustainable river use.

Verified by PeriStudio

Map 46 : Proposed Blue - Green Infrastructure Map

10.4 Restoration of Defunct Quarries

Hosur Planning Area is known for its abundance in rough stone and granite quarries. As the planning area is known for its significant granite quarrying activities some of the quarries are abandoned after complete exploitation of resources. Of the total 50 quarries encompassing an area of 1.45 Sq.Kms, 21 quarries have been abandoned which amount to a total area of 0.444 Sq.Kms. These abandoned quarries are primarily located in the villages of Venkatesapuram, Bukkasagaram, Alur, Moranapalli and Thorapalli Agraharam. Of these abandoned quarries 22.93 Ha fall under Poromboke land and 22.05 Ha fall under Patta Land.

Quarries can be transformed into beautiful and functional spaces after they've been depleted of their resources.

10.4.1 Rainwater Harvesting Structures

This is a great way to conserve water, especially in areas that experience droughts. As the ground water table is already exposed due to the mining activity, it can be recharged effectively by converting abandoned quarries into rainwater catchment basins. Replenished groundwater tables benefit local water supply systems and surrounding ecosystems resulting in reduced dependence on surface water sources thereby improving the water security for the region.

Water stored in these abandoned quarries located within active quarries can be used to reduce air pollution through water sprinkler system. Afforestation with indigenous species around these structures will also aid in pollution abatement as well as creating a self-sustaining ecosystem.

The proposal involves the following steps,

- Design and implement measures to prevent water loss through evaporation or seepage. This could involve lining the quarry floor with clay or other impermeable materials.
- Develop a collection system to channel rainwater runoff from surrounding areas into the quarry basin. This could involve gutters, drains, or swales.
- Implement filtration systems to remove any impurities from the collected rainwater before it enters the groundwater table.
- Monitor water quality and volume throughout the year to ensure the sustainability and effectiveness.

Verified @ RedEstate

Figure 49 : Abandoned Quarry as Rain Water Harvesting Structure - Reference image

Abandoned quarries in the villages of Venkatesapuram, Bukkasagaram and Allur are proposed to be transformed as rainwater harvesting structures.

10.4.2 Recreational Facilities

Abandoned quarries located in Moranapalli and Thorapalli Agraharam are in close proximity to the corporation limits with intensive residential settlements. These quarries are proposed to be geo-scaped as recreational facilities, with support from public and private entities with the following facilities.

- Integrating landscaping and native plant species to create a visually appealing and ecologically-friendly environment.
- The environment can be further upgraded with pavilions, picnic spots, children play area and walking trails.
- Additionally, Fishing platforms or designated fishing zones can be created within the abandoned quarries.
- To cater to the public needs, restrooms, changing rooms, concession stands, and parking spaces.
- These quarries can also be transformed as educational centres or interpretive signages to highlight the history of the quarry and the importance of ecological restoration.

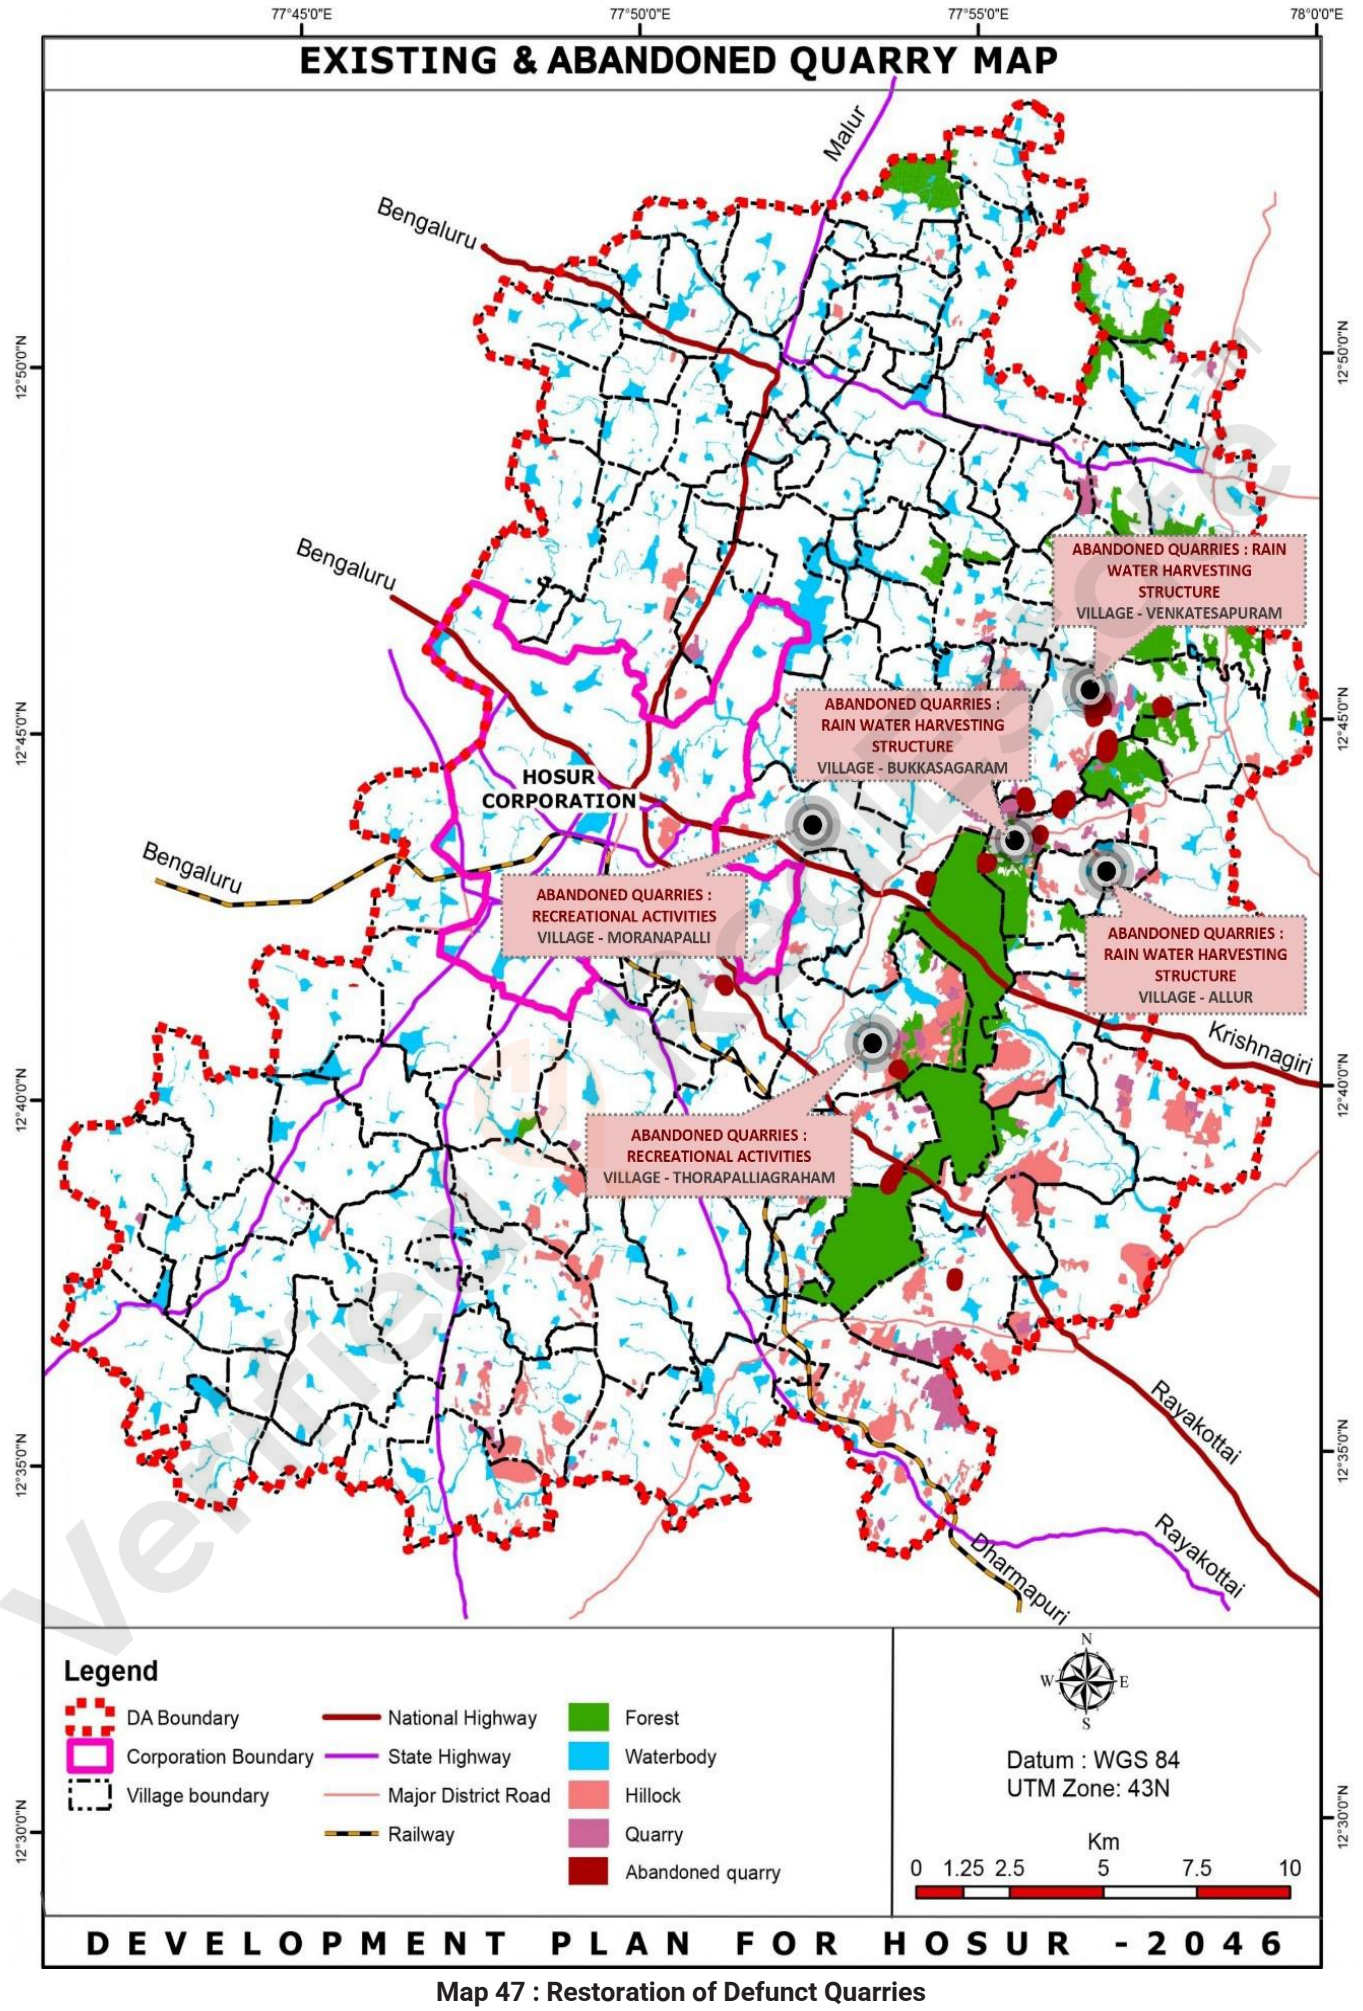

In time, these recreational facilities will improve quality of life and well-being of the community as these green spaces promote physical activity and mental health with a potential for increased tourism and economic development providing an opportunity for environmental education and community engagement.

Map 47 : Restoration of Defunct Quarries

10.5 Economy

Over the course of time, Hosur has evolved from a quaint historic town into a bustling industrial city that's now emerging as a prime investment destination and as a hub for industrial and automotive giants. This influx of development has not only fuelled regional economic growth but has also led to infrastructural development. Hosur is benefited from its strategic location along the Bengaluru-Chennai Industrial Corridor attracting major players such as TVS Motors, Ashok Leyland, and Titan, who have established manufacturing units.

For expanding the industrial activities in the area, it requires following measures,

a. Feasibility of setting up an airport in Hosur for enhancing the towns' identity as Industrial hub, IT hub and floriculture hub.

b. Bengaluru Metro can be extended to Tamil Nadu border for hassle free inter-state movement.

c. Policy formulation to transform Hosur into a EV hub for manufactures of Electric Vehicles and its accessories.

d. As Hosur is one of the nodes of the defence corridor, additional infrastructure strengthening is proposed.

On the other hand, agro climatic condition of Hosur and adjoining blocks are highly suitable for variety of Agriculture and Horticulture crops. Under Agriculture in Hosur block nearly 5000 ha Ragi and 1000 ha Redgram and 1000 ha of Horsegram is being cultivated annually. Besides this Paddy, Groundnut, Gingerly, Castor crops are also cultivated annually. Under Horticulture, Vegetable crops like Tomato, Brinjal, Capsicum, Cabbage, Cauliflower, Cucumber, Chow Chow, Carrot, Beans,Green Beetroot ,Chillies are grown extensively and flower crops like Chrysanthemum Marigold ,Button Rose other Rose varieties cutflowers etc., are grown for local market and for export. Production of Food crops, vegetables crop and flowers throughout the year have contributed to the development of small traders, wholesale traders. and exporters of farm produce in Hosur area.

Due to the introduction of Schemes like Drip Irrigation and polyhouse, production and productivity of Agriculture and Horticulture crops has increased manifold. In about 10 villages around Hosur the crops are irrigated using canal water from Kelavarapalli dam and crops like Paddy, Ragi, Groundnut and Vegetables are cultivated in this area. Farmers raise double crop in this area using the canal water.

Verified CReal Estate

Various schemes sponsored by Government of India and Government of Tamilnadu are implemented in Hosur area.

- Kalaignar all village Integrated Agriculture Development Project (KAVIADP)
- Micro Irrigation (PMKSY- MI)
- PMKISAN
- Chief Minister Mission on Sustainable Dry land development (CMDDM)
- Tamilnadu Mission on Sustainable Dry land Development
- National Mission on Sustainable Agriculture (NMSA - RAD-IFS)
- Food and Nutrition security -Nutricerals pulses, oilseeds, tree Borne oilseed

The year 2023 has been announced as the international year of Millets. Moreover, the Govt of Tamilnadu has announced Krishnagiri as one of the districts for millet zone and Redgram zone with an aim to increase the area and production in Millets and Redgram

Source: Department of Agriculture, Hosur

Due to the implementation of above schemes farmers are benefitted and their standard living has also improved. The intensive and commercial cultivation of various crops has increased the income of farmers and increased the employment opportunity to the farm labourers throughout the year. Production of Food crops, vegetables crop and flowers throughout the year have contributed to the development of small traders, wholesale traders. and exporters of farm produce in Hosur area. This agricultural transformation has been made possible by generous subsidies for poly greenhouses, shade net structures, and micro-irrigation systems. These incentives, along with technical support, have fuelled the adoption of hi-tech farming. Farmers are also investing in rainwater-harvesting structures as part of this modern approach. Subsidies, portable farming techniques, and advanced technology have propelled the agricultural scenario of Hosur to the next level.

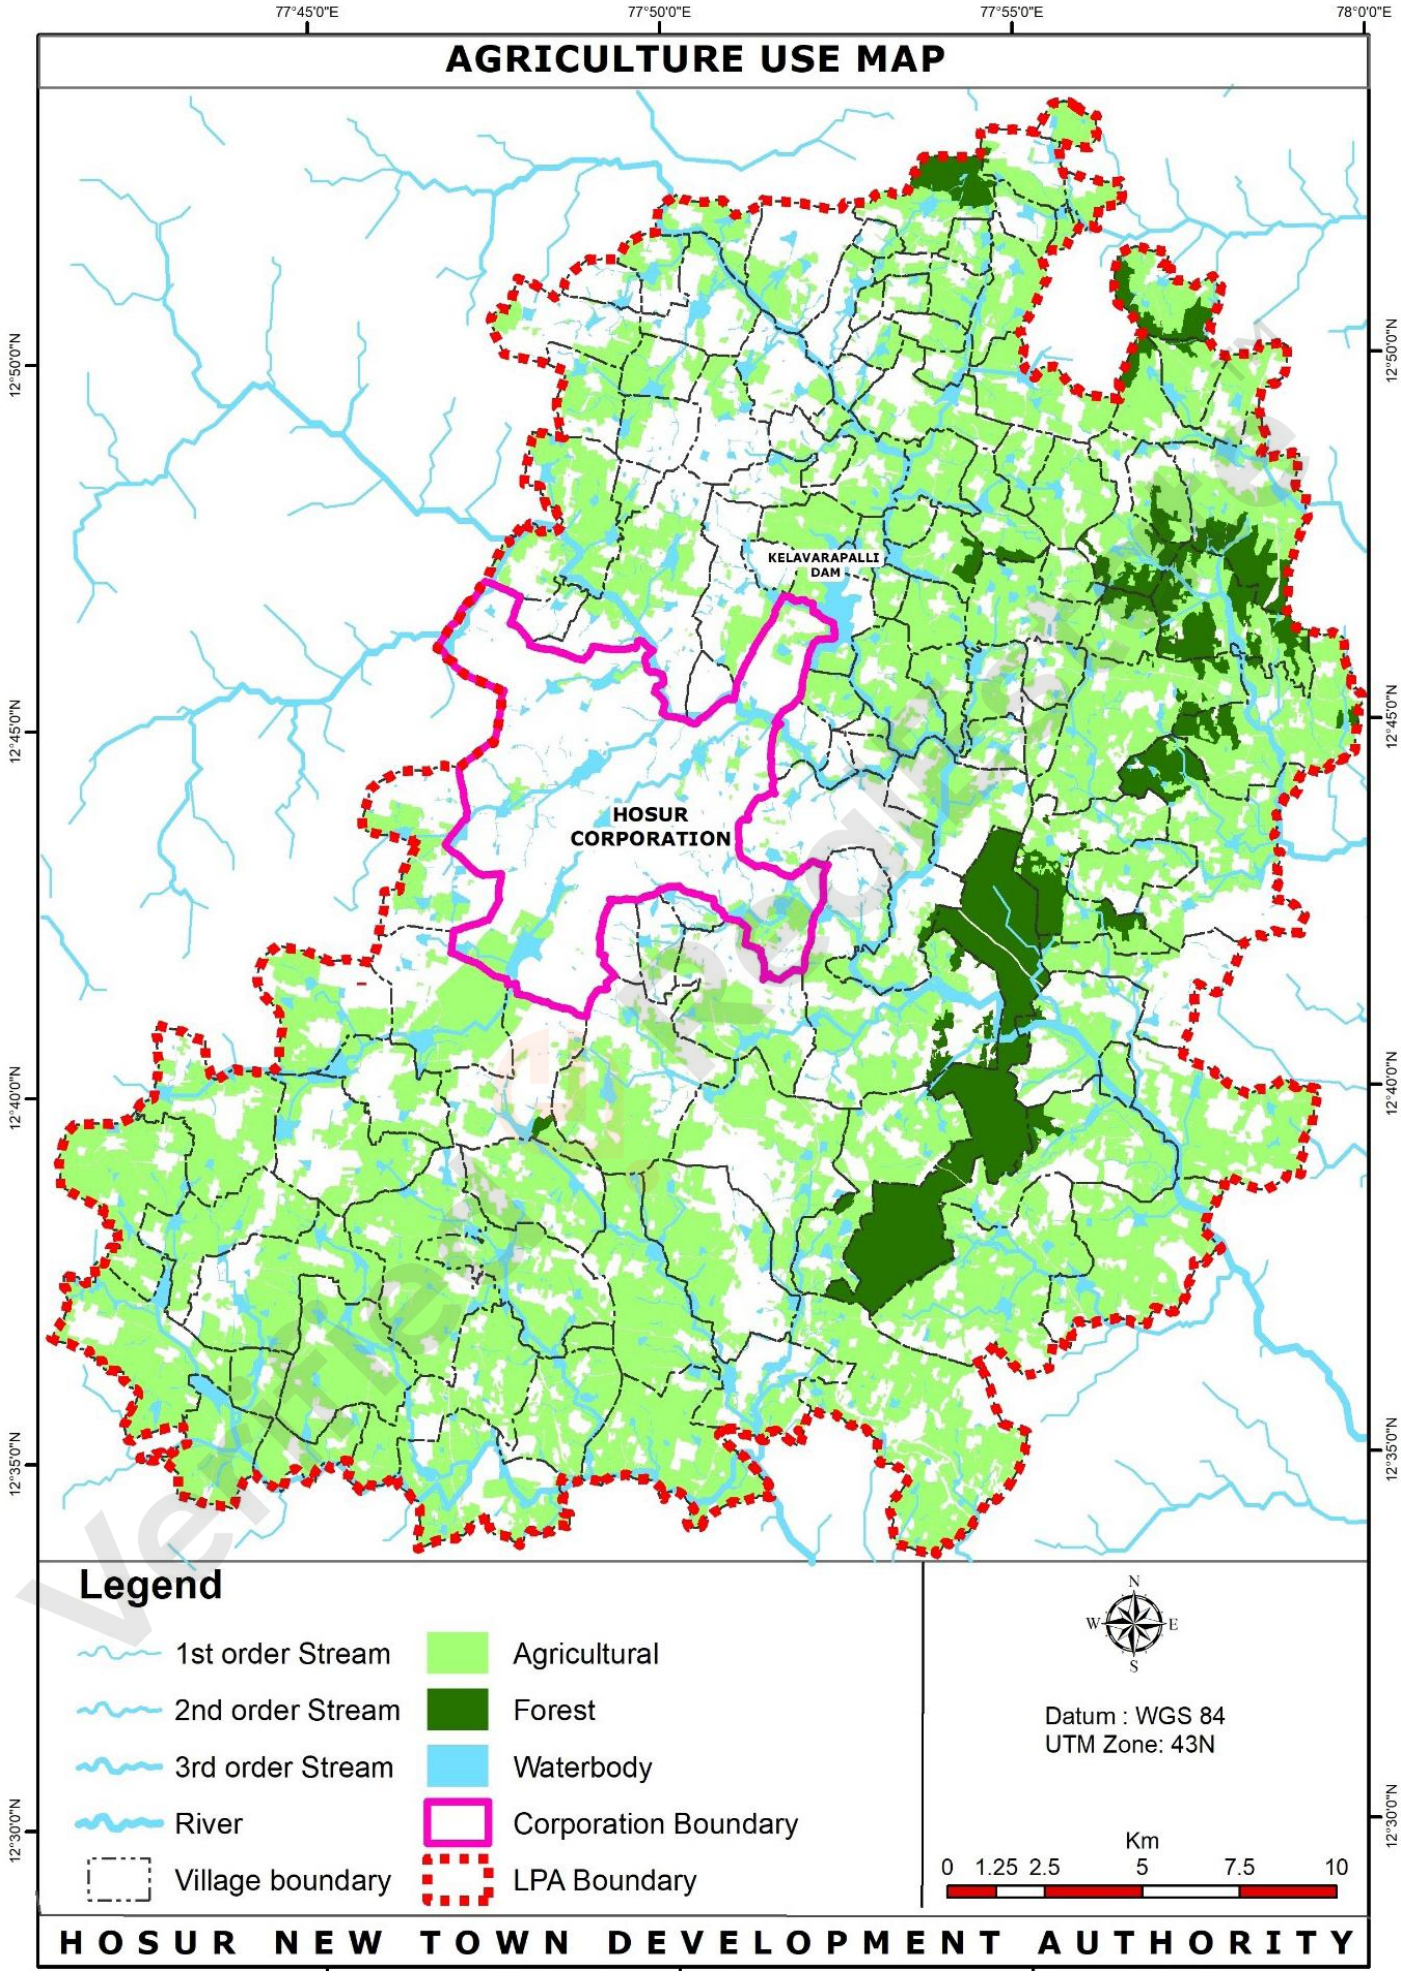

To further vitalize the agro-industries in the DA the following are proposed,

a. Villages having intensive cultivation of crops may be demarcated and provided with special allowance and also limiting the urban development activities.

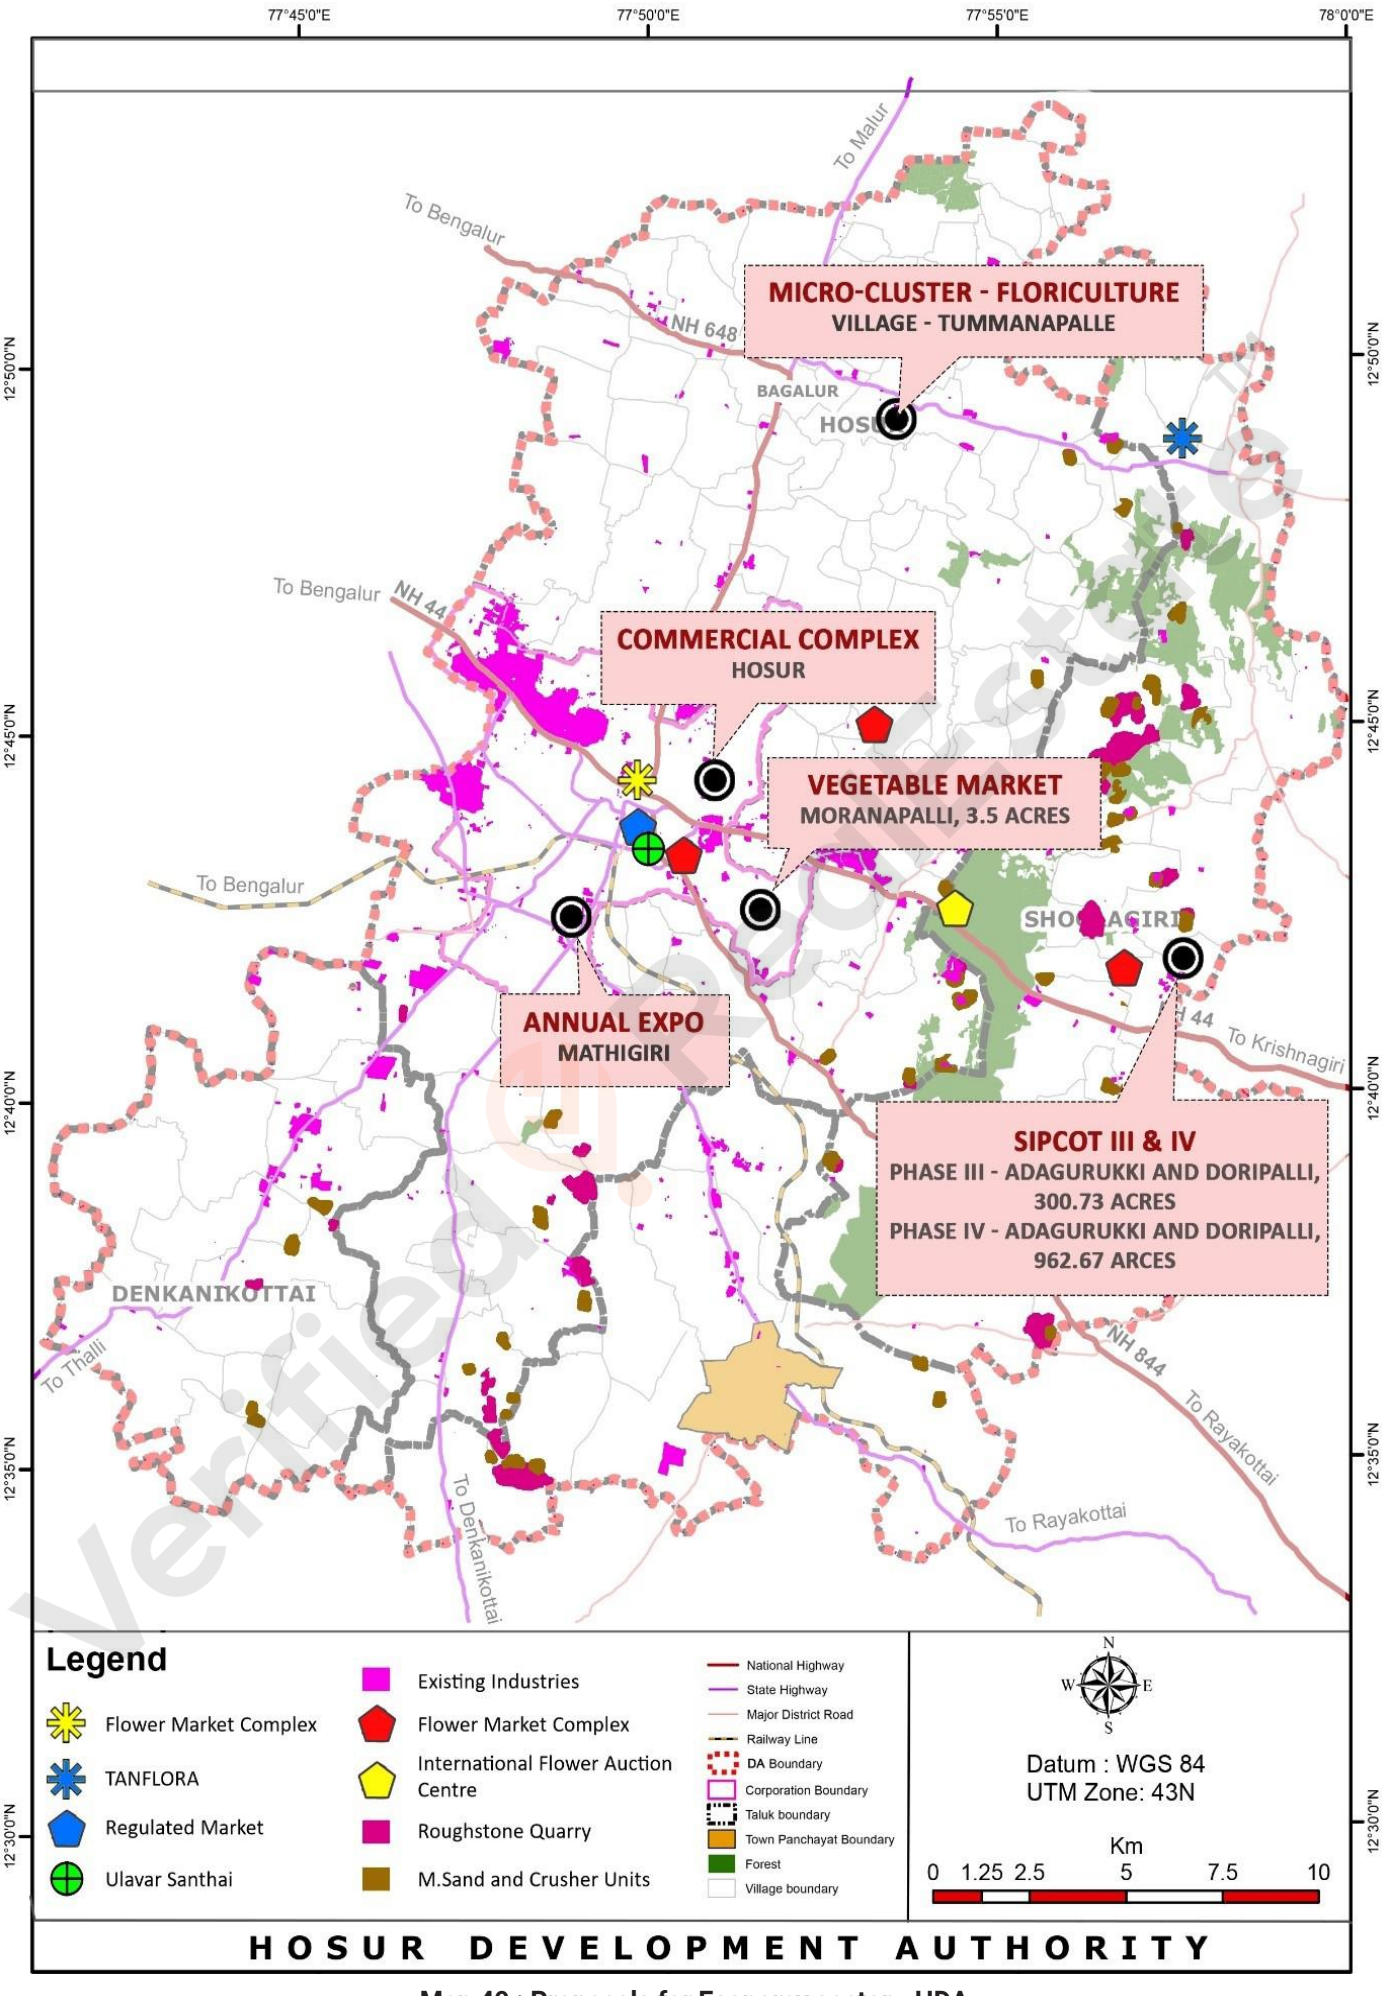

b. Land parcels and villages which are receiving canal irrigation may be dedicated exclusively for agriculture and related activities.

c. Villages with substantial ground and surface water potential where intensive and commercial cultivation is taking place, can be demarcated for primary agricultural use thereby limiting urban activities.

Map 50 : Proposed Road Network Map

Map 51: Identified Road Networks for strengthening

10.6.3 Parking Management

Parking is one of the major problems which has an impact on transport development. The availability of dedicated parking spaces in urban areas has increased the demand especially near bus terminals. Parking has some ill-effects like congestion, accidents, pollution, obstruction to fire-fighting operations etc. The main reasons are haphazard parking in Hosur is reduction in Right of Way (ROW) and lack of infrastructure integration as shown. Before taking any measures for the betterment of conditions, data regarding availability of parking space, extent of its usage and parking demand is essential. It is also required to estimate the parking fares also.

Figure 51: Bus Terminal Showing on-Street Parking

The two-wheeler parking facility is situated adjoining to the bus terminal. However, the car and other vehicles are mostly parked on street. This irregular on-street parking is observed at Bagalur junction on NH44. With the increased number of parking need, the parking facility has to be planned based on surveys and other documentation methods to arrive at the demand.

10.6.4 Public Transportation

With higher inter-state public computational traffic, a comprehensive traffic and transportation study is highly essential to decipher the public transport usage and suggested improvements. Identified proposals are listed below,

a. Proposed bus terminus at Moranapalli at the survey Number 46/1 and 46/2 with an extent of 5.31 Hectares as depicted in the map below.

b. Operating shuttle service between bus terminus railway stations using electric vehicles.

c. Suburban rail connectivity to Bengaluru through Electric Multiple Unit (EMU) or Mainline Electric Multiple Units (MEMU)

Verified

d. For the increased population of 12,92,854 on 2046, the average bus commuter's population would range about 3,82,397. The required increase in bus fleet would be about 4180 buses with a total of 7476 buses in and out of DA.

e. **MRTS Connectivity** - Chennai Metro Rail Limited (CMRL) is undertaking a feasibility study for a Mass Rapid Transit System (MRTS) linking Hosur and Bommasandra. This proposed first of its kind inter-state line, extending approximately 22.3 kilometers along NH-44 via Attibele, seeks to improve connectivity between the two cities Meanwhile, we have proposed two MRTS alignments in Hosur Development Plan, with one alignment along the NH 44 connecting Bommasandra to Hosur SIPCOT Phase II via Attibelle. The other proposed alignment connects Bommasandra to Hosur Bus Terminal along NH 44 and Hosur ELCOT IT Park along NH 207. The two proposed alignments are depicted in the map below. The growth of the IT and industrial sectors in Hosur establishes it as a counter-magnet to Bangalore, reinforcing the need for enhanced transportation infrastructure. The proposal is anticipated to substantially support the increasing daily commuter traffic and the migration from surrounding urban areas.

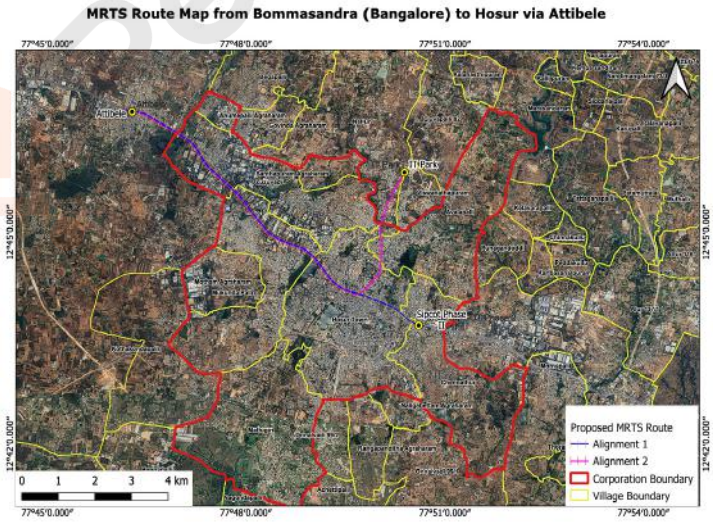

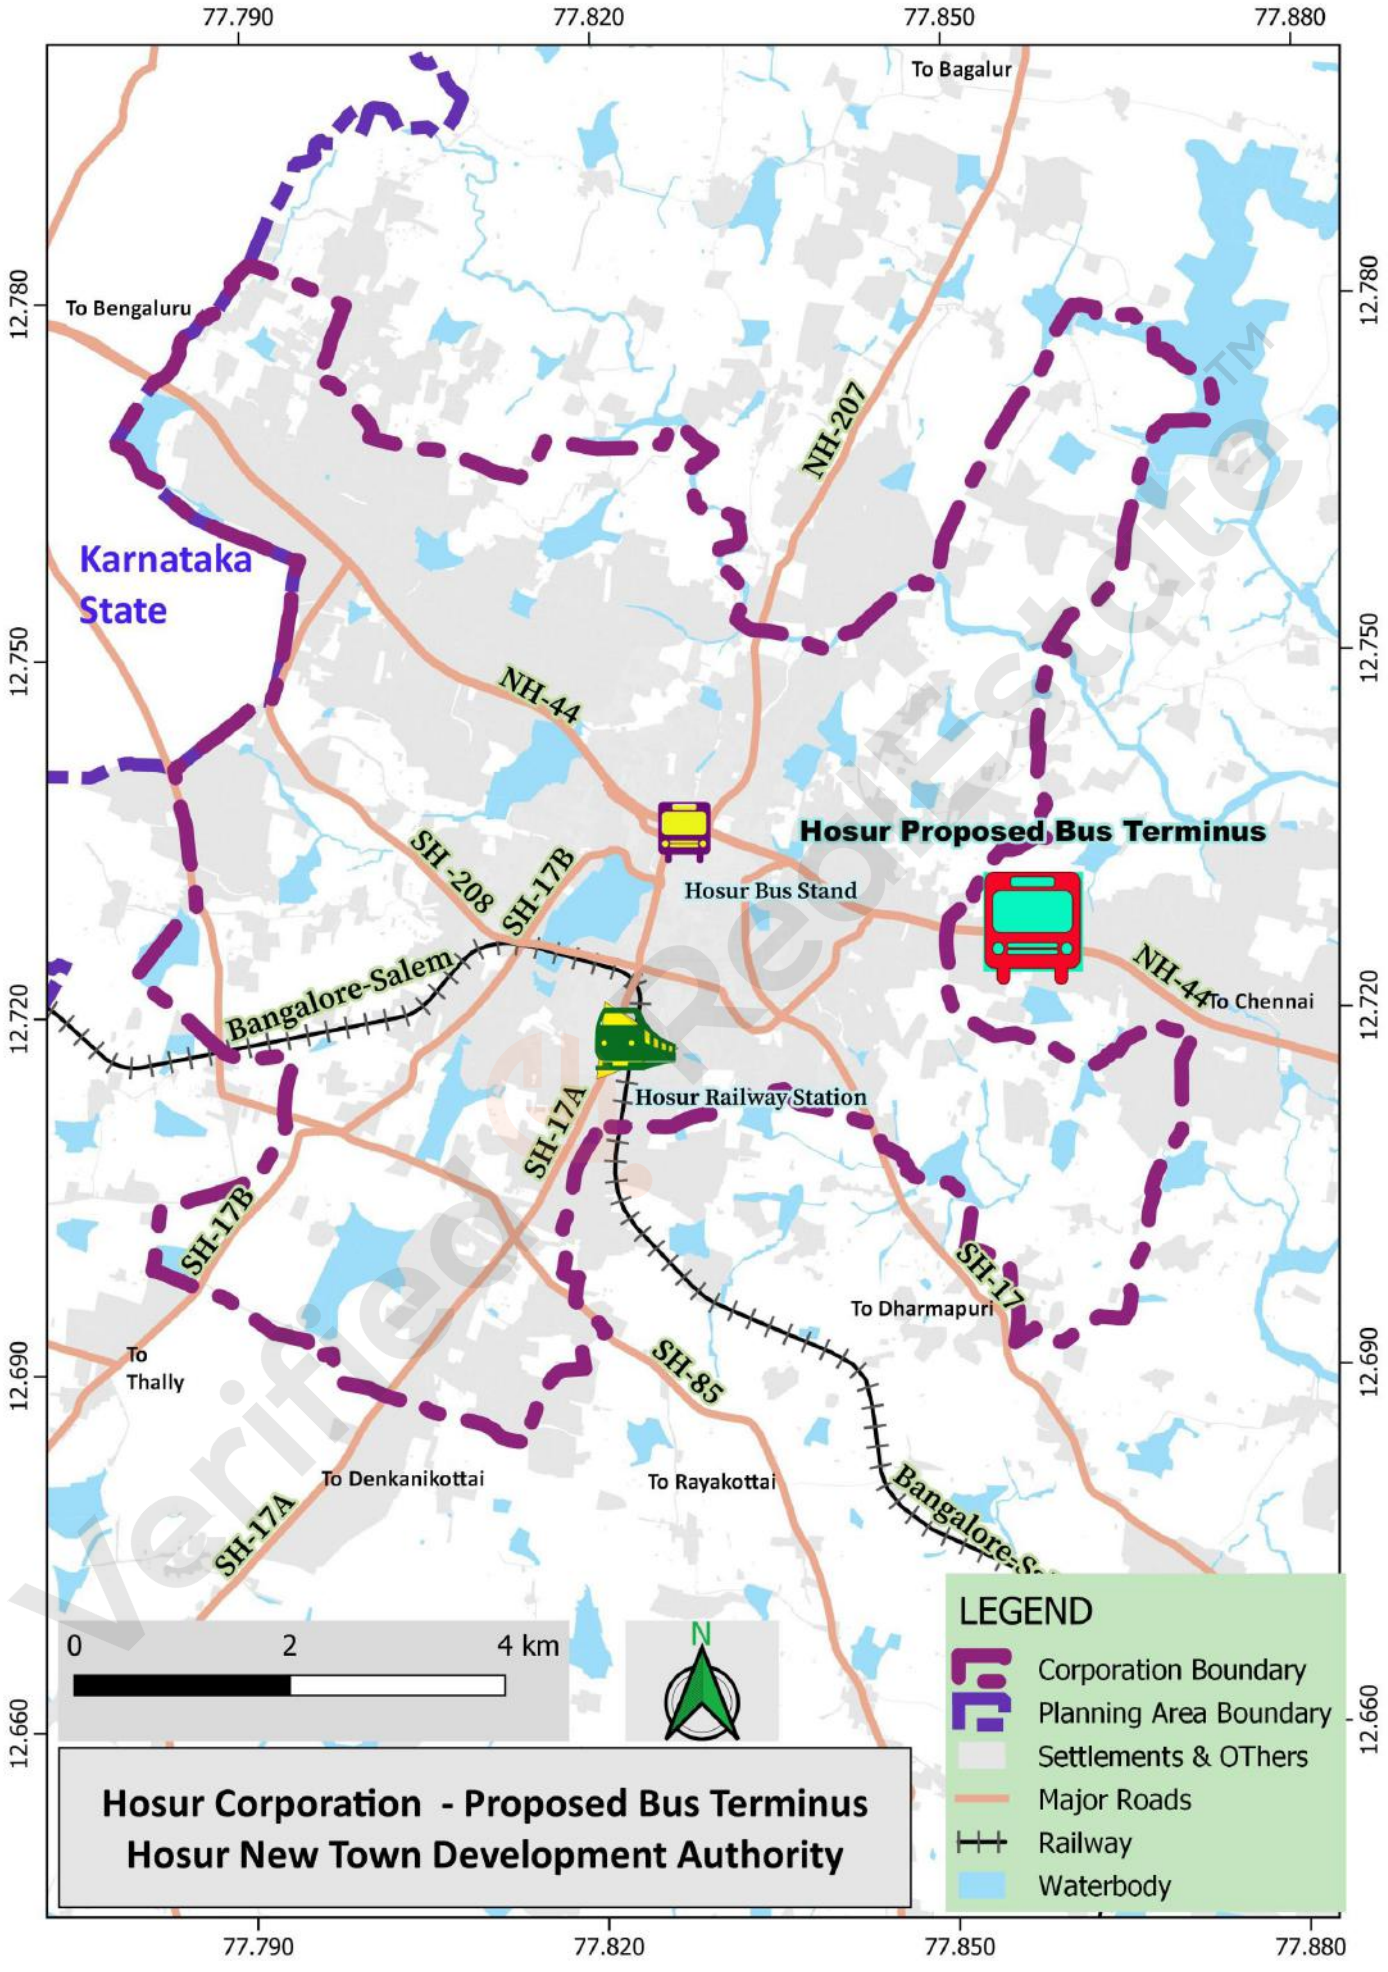

Figure 52: Proposed MRTS Extension

Verified © DeepFacts™

Map 52: Location of the proposed bus terminus

10.6.5 Truck Terminal and Logistics Park

Hosur being an industrial town, goods carrier contributes to nearly 31 percent of the modal share. To cater to the hassle-free movement and management of goods traffic, a truck terminal with wayside amenities and an all-inclusive logistics park is proposed in Kamandoddi village in proximity to the proposed SIPCOT Industrial Estates Phase III and IV.

Truck terminal with an extent of 30.05 acres is proposed along the NH 44 for short-term stopping, parking, servicing, and loading/ unloading of cargo for trucks. It's essentially a rest stop for truck drivers on long hauls. It is proposed to have the following components,

Docking stations: These are designated areas where trucks can connect to trailers for loading and unloading cargo.

Driver amenities: Restrooms, laundry facilities, and a designated rest area for drivers to relax during breaks.

Truck service facilities: Maintenance and repair shops, fuel stations, tire repair stations, and parts stores can help keep trucks running smoothly.

Figure 53 : Proposed Location - Truck Terminal & Logistic Park

Verified RealEstate

Logistics Park is a larger and more comprehensive facility acting as a one-stop shop for all thing's logistics, encompassing warehousing, distribution, and transportation activities. It is proposed along the NH 44, with an extent of 54.73 acres, in close proximity to the proposed SIPCOT Industrial clusters III and IV. The park is proposed to include the following components,

Distribution centres and Warehouses: These facilities are designed for the efficient sorting, storage, packaging, and distribution of goods.

Office space: Logistics companies and other related businesses may have office space within the park for administrative and operational functions for ease of business.

Value-added services: Additional services such as packaging, labelling, and light assembly.

10.6.6 Non-Motorized Transportation

NMT encompasses walking, cycling, and other human-powered forms of travel, offering a plethora of benefits for individuals, communities, and the environment. Some of the key features of NMT are,

i. **Accessibility:** NMT requires minimal infrastructure investment compared to motorized vehicles, making it accessible to a wider range of people, regardless of income or social status.

i. **Sustainability:** By eliminating reliance on fossil fuels, NMT significantly reduces greenhouse gas emissions and air pollution, contributing to a healthier planet.

ii. **Health benefits:** NMT encourages physical activity, leading to improved cardiovascular health, lower obesity rates, and reduced risk of chronic diseases.

iii. **Economic advantages:** NMT reduces dependence on personal vehicles, saving individuals money on fuel, parking, and maintenance. Additionally, it promotes local businesses by increasing foot traffic in commercial areas.

iv. **Safety:** When properly designed and integrated with traffic systems, NMT can create safer streets for pedestrians and cyclists, fostering a more inclusive and vibrant urban environment.

v. **Social benefits:** NMT encourages interaction and community building by bringing people together in shared spaces like sidewalks and bike lanes.

Verified © PeoEstate™

As a part of the detailed traffic and transportation study, detailed analysis on existing NMT infrastructure and modal share can be carried out and derived proposals to be implemented to shift the focus towards pollution free mobility. Developing priority road networks for non-motorized transportation (NMT) involves a multi-faceted approach that considers various factors and stakeholder inputs.

Here are some of the key methodologies employed:

- **Data Collection & Analysis:** It is important to study the existing bike lanes, pedestrian paths, and other NMT facilities in addition to the analysis of vehicle traffic volumes, speeds, and accident rates.
- **Stakeholder Engagement:** Gathering input from residents, businesses, and other stakeholders on their NMT needs and preferences through surveys and focus groups interactions.
- **Network Planning:** Identifying key destinations and routes for NMT users ensuring last-mile connectivity

Key features of the NMT network encompasses,

- **Traffic calming measures:** For a successful NMT implementation, various traffic calming measures, such as speed limits, pedestrian crossings, and roundabouts etc., are to be planned to prioritize NMT.
- **Dedicated Networks & Parking facilities:** These tracks are often to be separated from motorized traffic to avoid encroaching and to be provided with ample bicycle parking facilities making it convenient for cyclists to store their bikes.
- **Public education and awareness campaigns:** Educational campaigns to promote cycling and pedestrian use, encouraging residents to adopt NMT making sure the habit gets deeply engrained in the city's culture.

Verified RealEstate

10.7
Physical Infrastructure

10.7.1 Water Supply

a. The effective rain water harvesting shall assist in increasing the water table level. This in turn shall augment the bore well resources.

b. Water conservation projects shall be proposed to increase water source as the town has varied water sources from ponds to lakes which ultimately get connected to the river. The linkage of these water bodies and maintaining these water bodies can help in meeting the demand of water on a longer run

c. Recycling of grey water for non-potable usage.

10.7.2 Sewerage

a. Additional five STPs in proximity to water bodies: There are five large lakes in the Corporation. The Ramanaicken Lake, Anthivadi Lake and Santhapuram Lake are fully dried up where as Darga Lake and Basti Lake are partly dried up and filled with sewage and sullage. To revive the lakes for the purpose of ground water recharge, recreation and park development, construction of STP's at the edge of lake bed, treating the sewage to pollution control norms, disinfecting and discharging the effluents in to the Lake to support sustainable development of lakes apart from preventing encroachment and unauthorized activities is considered. STPs are proposed at Punaganadoddi, at the boundary of Darga , Santhapuram Lake and Ramanaicken Lake and Anthivadi lake.

b. Sewerage Network is proposed to be constructed in two phases for the existing planning area. UGSS network of length 514 km by gravity and 29 km by pumping is planned in two phases. The Underground Sewerage System has been planned to improve significantly the environment and reduce pollution of the water bodies. The UGSS DPR (2015) proposes the following recommendations for enhancing Underground Sewerage System. The environment, social and economic impacts have been assessed and an environmental management plan has been proposed for mitigating the impact during design, construction and operation and maintenance stages by the contractor. The implementation of mitigation plans by the contractor at all the stages is proposed to be evaluated by a committee.

Verified PropEstate™

Figure 54: Automated Waste Collection System

10.7.3 Solid Waste Management

a. Automated Waste Collection System [AWCS]: Waste from bins collected from streets and buildings are pumped to collection station using vacuum pressure at a designed speed in the range of 60 to 90 kmph through piped network. The collected waste then transferred to disposal site. It is advantageous as it involves minimum human intervention, less space requirement thereby a cleaner city.

b. AWCS – Source: Sunshine Coast Council Village Panchayat with more than 10,000 population, adjacent to urban area, tourism and pilgrims centre, more floating population, with large industries and Institution are eligible to create Micro Compost Centre as per Rural Development and Panchayat Raj. MCC should be away from water bodies. Three compost yards are proposed in Kelamangalam, Belagondapalli and Berigai are 36.325, 0.840 and 2.730 hectares respectively

c. Additional Dry Incineration facility plant is under construction with capacity of 10 tons per day (TPD)

d. MCC with 55MT capacity can be increased as the city is set to expand its area.

e. Bio-Mining facility with 1,02,968 cum quantity of waste processing facility is under construction.

f. An awareness at household and street level can assist in managing waste processing at city level.

10.7.4 Stormwater Management & Flood Mitigation Strategies

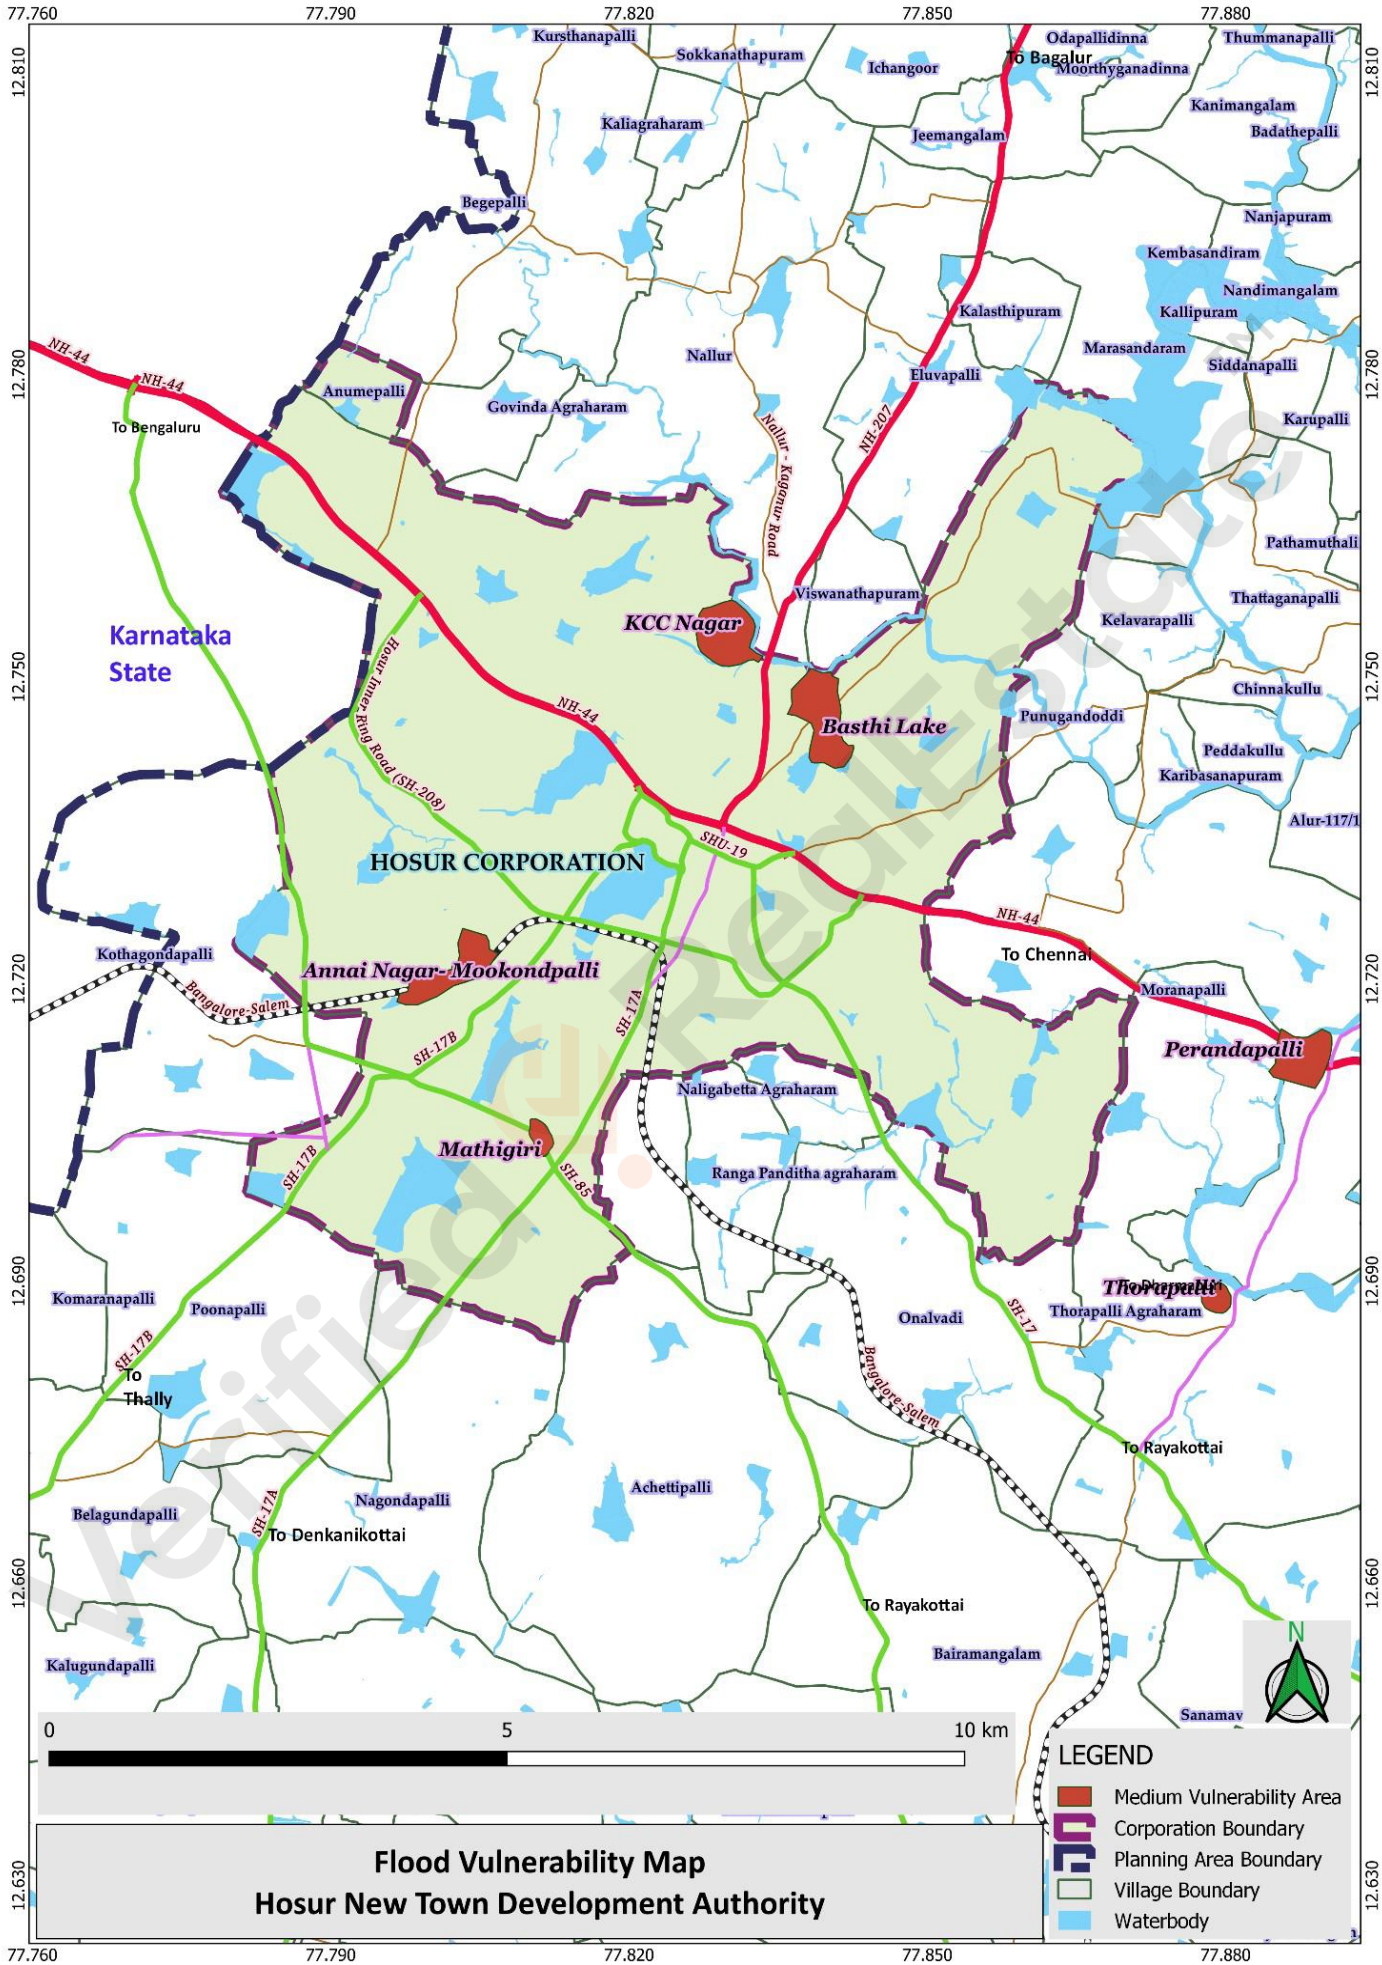

The Disaster Management Plan 2020 prepared by Krishnagiri district clearly defines the flooding zones as Medium vulnerable zones. Also, as Hosur lies in undulated terrain and the natural course of water line is changed or blocked, few areas experience flooding during heavy rain. Map below depicts the flood prone areas in planning area. KCC Nagar adjacent to Basthi lake is faced with frequent flooding. Mathigiri and Mookondupalli inside the corporation limits are also identified as inundation hotspots.

Verified Report

Table 57: Relief centres for accommodating people affected by flood

S.No.	Flood Prone Area	Name of Relief Centres	Distance to Relief Centre (km)
1	Annai Nagar – Mukondapalli	Chenniey's Mahal, Appavu nagar	1
2	Basthi Lake	Chandrasekar Mahal	2
3	KCC Nagar	Thirupathi Mahal	0.3
4	Perandapalli	PUP School, Kumudhepalli	0.5
5	Thorapalli	Government higher secondary school, Perandapalli	0.5
6	Mathigiri	Lavanya marriage hall, Mathigiri	0.5

Verified RedEstate

Map 53: Flood Vulnerability Map

Certain approaches in storm water management aim to rebuild the natural water cycle, i.e. to store run-off water (e.g. retention basins) for a certain time, to recharge ground water (e.g. infiltration basins) and to use the collected water for irrigation or household supply. Most indigenous approach to storm water management collects the rainwater run-off in surface watersheds such as ponds, lakes in the region. It is recommended to clean and regenerate the existing water bodies and link them to create a hierarchy of water collection system.

Rainwater harvesting and management hold tremendous potential for alleviating storm water run-off and increasing groundwater, particularly in urban areas.

10.8 Electricity & Energy Consumption

Development of Solar Cities programme by the Ministry of New and Renewable Energy (MNRE), Government of India, is an immense opportunity for contributing towards a sustainable India in the coming years. This programme is a crucial step towards supporting Indian cities for the development of renewable energy and energy efficiency projects and curbing conventional energy demand by 10% in the next five years. This Development Planrecommended strategies for implementation of conservation of non-renewable energy and thrust on use of renewable energy.

State government initiative for the same is being executed in all public buildings in process of replacing the conventional energy with renewable energy by Tamil Nadu Energy Development Agency (TEDA). The key aspects detrimental to energy demand like population growth and city economic growth has also been considered for ascertaining a city's future conventional energy demands.

Achieving significant reduction in energy consumption requires collective effort by all city departments, other government departments, businesses, industries and citizens. It is the responsibility of leaders in all tiers of Government, commerce, industry and civil society to promote action towards more efficient and renewable energy use.

The following may be promoted in the planning area.

a. Promoting use of solar water heating system in major commercial

b. Use of solar powered street lights

c. Use of Solar home systems

d. Use of Solar photo volatile cells for home inverters

e. Installation of Renewable energy systems for public and semi-public buildings

Verified e-estate

10.8.1 District Cooling System

Space cooling demand is expected to increase 11 times. District cooling system (DCS) supplies cooling energy in the form of chilled water from a central district cooling plant to multiple buildings through a distribution network of insulated, underground pipes. The scale of DCS can be varied from industrial estate to city level.

Schematic sketch of district cooling system is given below. The three major components of the DCS process such as chilled water plant, distribution system and energy transfer station. The chilled water supplied through distribution system and the air handling units converts the chilled water in to chilled air and supplies to end users.

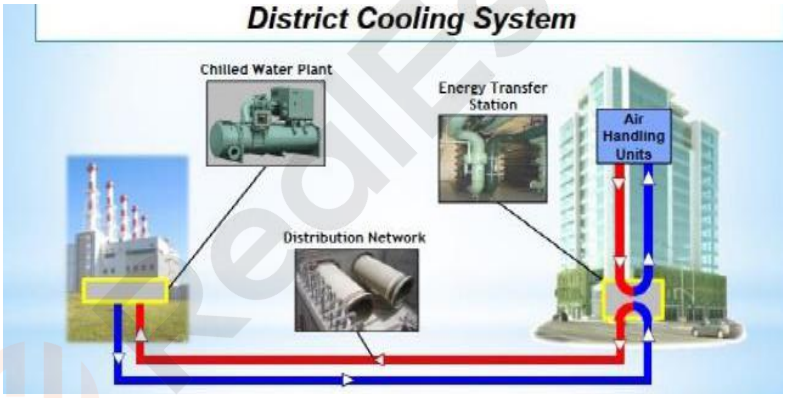

Figure 55: District Cooling System

Benefits of District Cooling System:

a. Reduced primary energy consumption for cooling system: 30% - 70%

b. Reduced peak power demand: 30%-35%

c. Reduced CO2 emissions: 30%-35%

d. Local jobs and alternative revenue to municipalities

e. Benefits to local power grid including local generation, resilience, and balancing

f. High reliability of cooling

g. Greater resilience to power and fossil fuel price volatility

h. Ability to use large scale renewable cooling

Verified by RedFlag

10.9 Social Infrastructure

10.9.1 Housing

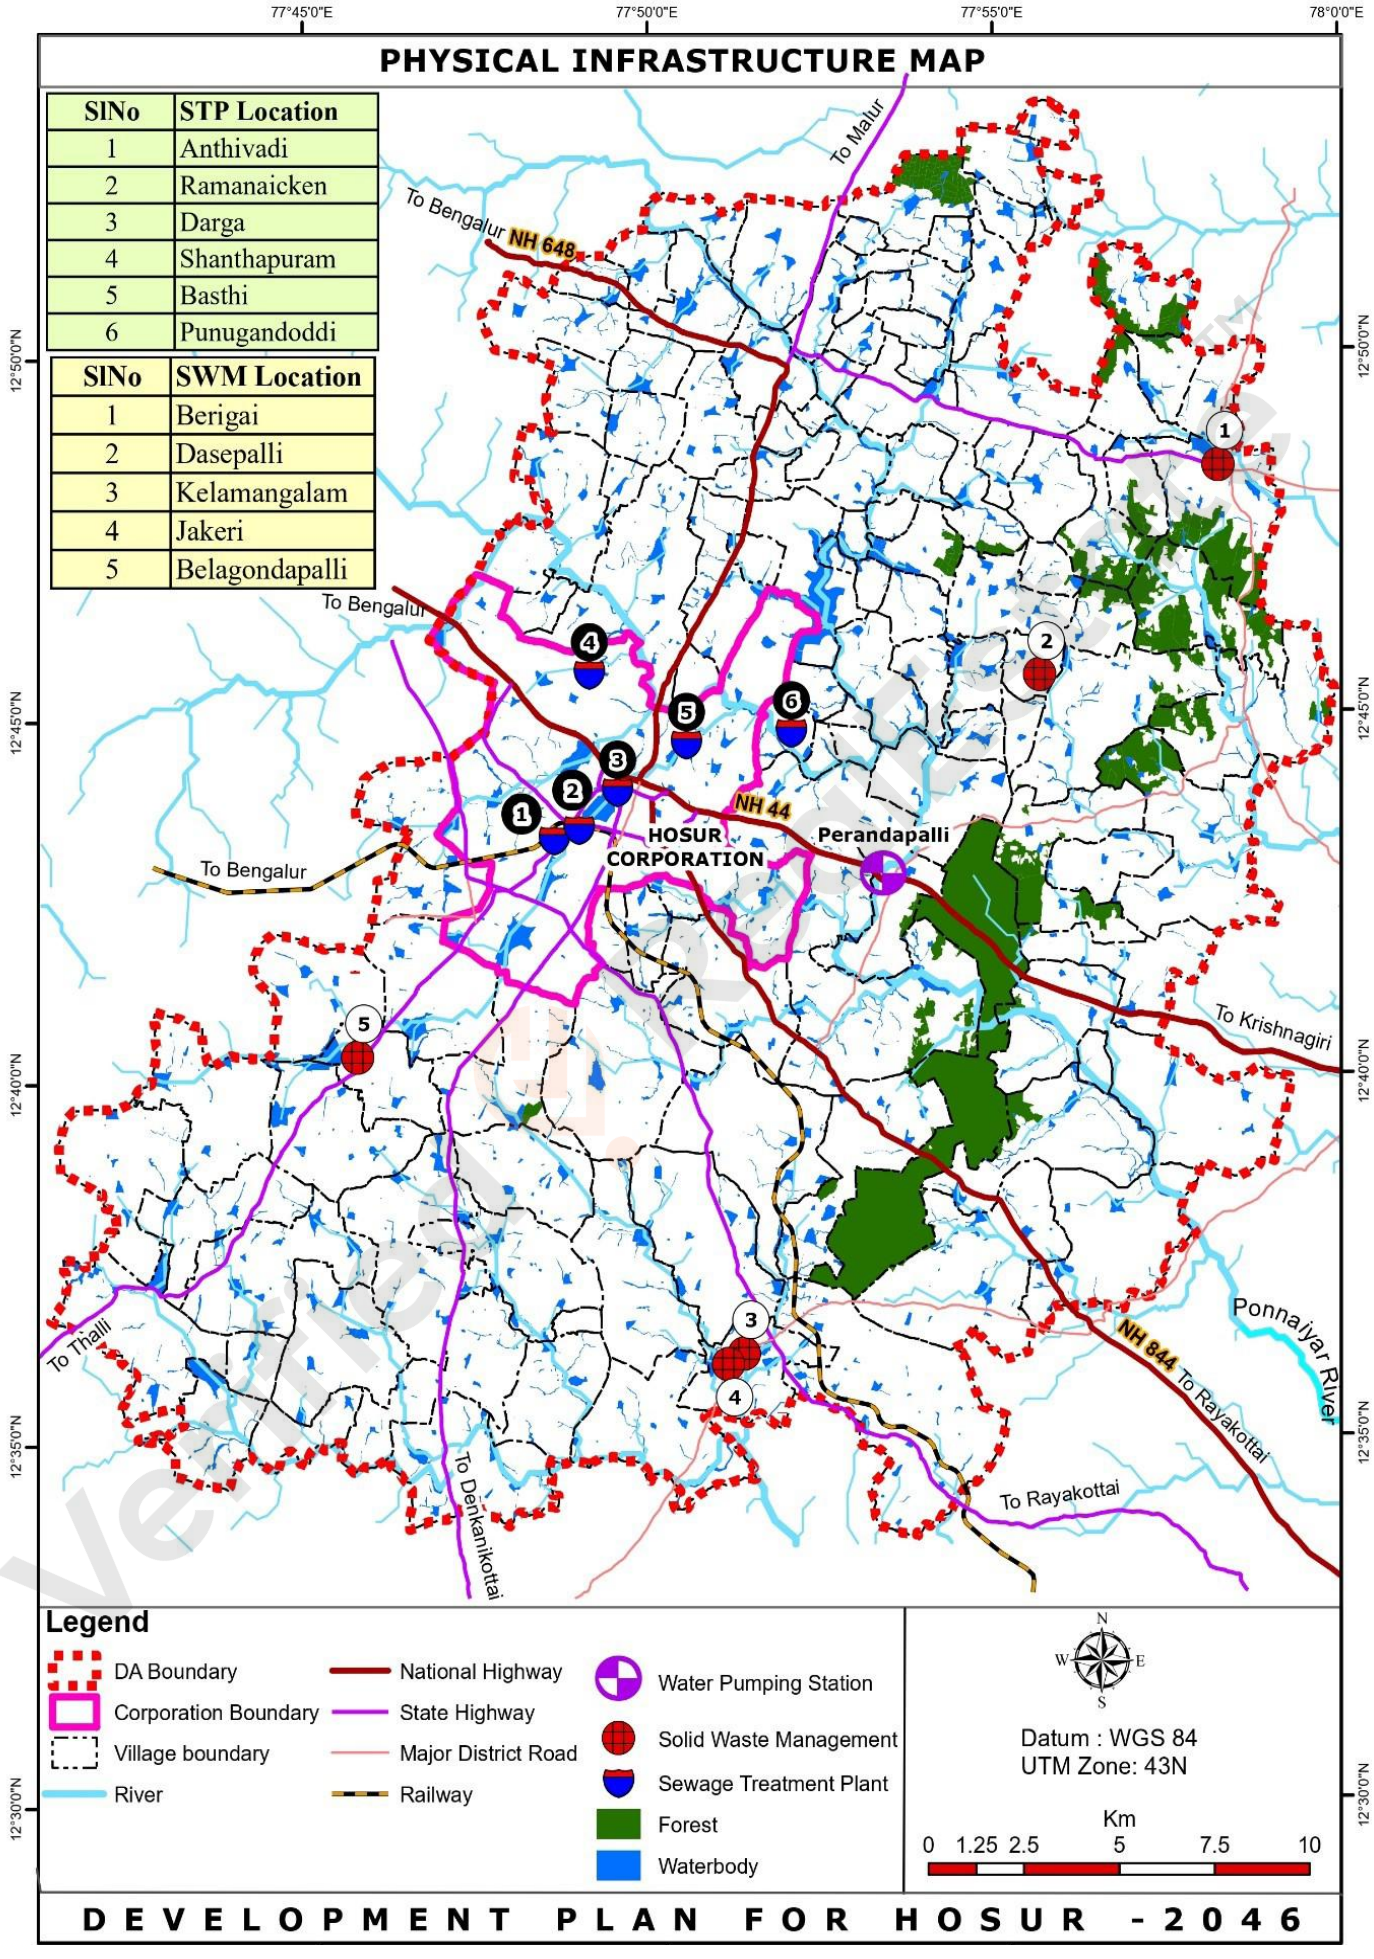

The population density of Hosur corporation in 2011 is 40 pph. The density shall increase to 98 pph during the ultimate plan period 2046. The corporation area can accommodate more housing if the density is increased. The density of planning area in 2046 shall be 15 pph (persons per hectare) with higher density near growth nodes and sparse density in rural areas.

To meet the demand of increased households, it is necessary to earmark adequate areas for development. To facilitate, residential area has been increased from 49.75 sq.km to 268.32 sq.km to the plan period 2046. Private sectors shall take up housing projects at an affordable price. Tamil Nadu Housing Board and Tamil Nadu Urban Habitat Development Board shall come out with more housing projects to cater the housing requirements. Loans at low interest rate may be arranged to the buyers.

10.9.2 Education

For the projected population of 2046, an additional number of primary and senior secondary schools needs to be planned by opening new schools or strengthening the school to accommodate the growth of children population. The requirement can also be meet out by upgrading the existing schools. In order to improve the literacy rate, the education through digital modes can be implemented extensively.

10.11 Land Use Plan

The spatial distribution of land for various urban uses are computed, by considering the needs of the future population and also based on the past and existing status. Existing land use of the planning area is analysed. The land use is analysed categorically, as Residential, Commercial, Industrial, Institutional, Transportation, Recreational, Water bodies, Agricultural and Others. The others consist of Hills, Quarry and Forest. The land use is prepared in accordance with Tamil Nadu Combined Development and Building Rules, 2019.

The planning area comprises of Hosur corporation, Kelamangalam town panchayat and 120 revenue villages. The total extent of planning area is 734.07 sq.km. Existing land use pattern of planning area is given in the table below.

Table 59: Existing Landuse Pattern

No.	Land use Classification	Existing Land use area – In sq.km	% to developed area	Percentage to Total area (%)
1	Residential	50.82	46.34	6.92
2	Commercial	4.39	4.00	0.60
3	General Industries	15.55	14.18	2.12
4	Special & Hazardous Industries	14.55	13.27	1.98
5	Institutional	9.45	8.62	1.29
6	Recreational	0.44	0.40	0.06

6	Transport & Communication	10-12	10-12	12-14	12-14
7	Agriculture, Water bodies and Special areas	Balance	Balance	Balance	Balance
8	Total Developed Area	100	100	100	100

Source: URDPFI Guidelines

Development proposals and decisions made in the recent past will impact the urban form in the future. Hosur's spatial growth has been primarily attributed to locational advantage, Industrial developments in and around Planning Area and expansion of corporation.

The development in Hosur is proposed to be modified from Ribbon based development into continuous spatial development. This will prevent leap-frog developments and also encourages development of underutilized spaces within DA.

Planning area has an extent 734.07 sq.km. out of this, development is restricted in forested area that occupies 41.87 sq.km., water bodies that embraces an extent of 52.19 sq.km, hillocks with an extent of 20.39 sq.km. The total area where developments are restricted is 109.66 sq.km area. The undeveloped area consists of cultivable agricultural lands, Hills, forest and land under water body.

Verified RealEstate

Agricultural dry lands are considered to take up for future urban development for the plan period of 2046. Based on the above criteria and considering the existing trend of development, the land use for the plan period of 2046 is proposed.

The proposed population of Hosur corporation is 12,92,854. The population ranges from 5 to 10 lakh and it is classified as large city. By adapting the same, land use for the corporation area is proposed based on these percentages of large cities land use category. The ground conditions and existing land use are taken into consideration while formulating the land use. When there is undeveloped area available in a planning area, which has much scope and opportunity for the development. At the same time, for the sustainable future, authority needs to retain the agricultural activities.

10.12 Proposed Landuse Plan 2046

The land use for the fringes of planning area is planned based on future employment generation, natural and migrated population growth, infrastructure allocation and natural constraints namely water bodies and reserved forest. Table below represents the proposed landuse breakup for DA.

Table 61: Proposed Land-Use Breakup for Development Area – 2046

No	Proposed Land use	Area in sq.km	% to total area
1	Residential	162.67	22.16%
2	Commercial	9.84	1.34%
3	Industrial	69.86	9.52%
4	Special & Hazardous Industries	28.51	3.88%
5	Institutional	35.28	4.81%
6	Recreational	1.16	0.16%
7	Transport	20.82	2.84%
Developed Area (A)		**328.13**	**44.70%**
8	Agriculture & Others	353.75	48.19%
9	Water Bodies	52.19	7.11%
Undeveloped Area (B)		**405.94**	**55.3%**
	Total (A+B)	**734.07**	**100.00%**

Map 59 : Proposed Landuse Map 2046 – Rest of Development Area

Map 60 : Proposed Landuse Map 2046 – Hosur Development Area

10.13
Landuse Zone Classification

Landuse planning for Hosur Development Area is categorized into the following zones,

10.13.1 Residential

The plan proposed 162.67 sq.km area for residential use, to accommodate the projected population for 2046 as 12,92,854. The residential land use is increased from 50.82 sq.km to 162.67 sq.km. The proposed residential use is inclusive of future commercial, roads and parks. Hosur Corporation shares almost 47 percent population of the planning area. The land use distribution focused on concentrated towards corporation area, city expansion and also along the identified growth nodes.

The existing density is 98 persons per hectare to the residential area and 50 persons per hectare to the developed area. Projected density to the year 2046 is 74 persons per hectare to residential area and 46 persons per hectare to the developed area which can accommodate even more persons.

Settlements are scattered all over the planning area, due to the connectivity. The rural settlements are also observed to be expanding for the past decade. Hence the residential use proposed to the scattered settlements as well. The residential pockets are proposed along the SIPCOT-1 and SIPCOT-2, Govinda Agraharam, Nallur, Viswanathapuram, Kalasthipuram, Jeemangalam, Ichangoor, Kaliagraharam, Sevaganapalli, Kagganur, Sokkarasanapalli, Sathanur, Kempatti, Komaranapalli, Pichugodapalli, Bagalur, Devaganapalli, Kodiyalam, Punugandoddi, Chinnakullu, Peddakullu, Karibasanapuram, Moranapalli, Thorapalli Agraharam, Onalvadi, Naligabetta Agraharam, Ranga Panditha Agraharam, Achettipalli, Nagondapalli, Belagundapalli, Poonapalli, Kothagondapalli, Kelamangalam and Kundumaranapalli.

10.13.2 Commercial

Commercial use is proposed to an extent of 9.84 Sq.km with 1.34percent to the planning area. The existing commercial area spreads on area to major roads and junction like Bengaluru Road (NH-44), M.G road, Nethaji road, Tanks Street, G H road. Due to the development in planning area commercial proposed along the Bengaluru road, Bagalur road and along the major corridors. A commercial complex in Hosur corporation and market area in Moranapalli are proposed to boost the commercial activities in the planning area.

The commercial area is proposed in the main road junction of Kodiyalam, Berikai, Moranapalli, Achetipalli, Thorapalli Agraharam, Biramangalam, Kundumaranapalli, Kelamangalam, Kelavarapalli, Nagondapalli, Kempatti, Madagondapalli, Kalugondapalli etc. revenue villages. Residential use abutting 9m and above road width are eligible to be commercial uses.

Verified © RegEstate™

10.13.3 General and Special & Hazardous Industrial

Hosur is envisioned to be a prominent industrial hub of the state. The general industrial use is proposed 69.86 sq.km with 9.52 percentage of the total planning area. Special and Hazardous Industrial use is proposed to be 28.51Sq.Km which accounts to 3.88 percentage of the total planning area.

Hosur has seen a rapid growth after industrialization due to SIDCO, SIPCOT 1 and 2. To continue with the momentum, the industrial clusters identified abutting SIPCOT phase 2 and its expansion area, ELCOT IT Park in Vishwanathapuram, Kothakondapalli, Komaranapalli, Devaganapalli, Nagondapalli, Kundumaranapalli, Anegollu, Biramangalam, Kamandhoddi Sevaganapalli, Kaganur and Muthuganapalli, Battavarapalli. Proposed SIPCOT phase 3 and 4 also falls on the edge of planning area.

10.13.4 Institutional

The institutional area is proposed with an extent of 35.28 sq.km with 4.81 percent to the total planning area, which includes the educational and public and semi-public uses to provide services to people. The veterinary college and Hospital in Nagondapalli is a renowned institution in the district. Mathigiri cattle farm, Adhiyamaan group of colleges in Chennathur and Moranapalli village, Sericulture training institute and other schools. Since Hosur is a taluk headquarters the administrative offices and taluk offices are part of the Institutional land use. Major pockets of institutional use are proposed in Mathigiri, Avalapalli, Govinda Agraharam, Nallur, Kalli agraharam, Idipalli and Dinnapalli.

10.13.5 Recreational

The existing recreational area is 0.443 sq.km and the proposed recreational area is 1.16 sq.km for the Hosur Development Area. To provide entertainment facilities to the people, recreational area near Kelavarapalli dam is proposed. The recreational use is not only limited to the proposed recreational use, the proposed residential area consists of parks and playground that will contribute in recreational area up on development.

10.13.6 Transportation

Transportation use shares 20.82 sq.km area with 2.84 percent to the total area. The sector which connects all the use for their activity. The planning region is proposed with regional to street level connectivity to ensure ease of circulation. Satellite town ring road (NH-948A) connects the planning area from south west to north east radially connecting to the existing state highways, along with Industrial corridor (NH-844) and Zuzuvadi to Moranapalli highways are proposed by NHAI. A1 to A8 and B1 to B9 are proposed in the Hosur Development Plan. To ease the traffic flow in the corporation, additional bus terminus is proposed in Moranapalli village.

Verified @ PropEstate

10.13.7 Waterbodies

Existing area of water bodies are retained in the proposals as well. Water bodies with extent of 52.19 sq.km with 7.11 percent to the total planning area is retained. Water bodies are to be conserved for sustainable environment.

10.13.8 Agricultural & Others

Agriculture plays a vital role in the planning area's economy. To encourage and sustain agricultural activity such as floriculture, horticulture, and moriculture, to sustain the agro based activity, an extent of 353.75 sq.km is retained in the planning area. Presence of International flower auction centre and proposed market complex at Moranapalli will enhance the agricultural and floriculture activities. The area to be conserved like reserved forest, grazing land and hill area are retained in the proposals for environment sustainability.

The proposed land use is compared with URDPFI guidelines ranges. As the projected population is over seven lakhs for the horizon period, the city falls in large city category. The land use percentage is compared as urban [Hosur Corporation and Kelamangalam TP] and total planning area. It is represented in the table below.

Table 62: Proposed Land Use comparison with URDPFI

No.	Land use	URDPFI Large city – Guideline Range [%]	Corporation [Land Use %]	Hosur Planning Area [Land Use %]
1	Residential	36-39	48.46%	22.16%
2	Commercial	5-6	4.98%	1.34%
3	Industrial	7-8	16.08%	13.40%
4	Institutional	10-12	8.20%	4.81%
5	Transport	12-14	6.20%	2.84%
6	Recreational	14-16	0.23%	0.16%
7	Water Bodies	-Balance-	8.79%	7.11%
8	Agriculture & Others	-Balance-	7.06%	48.19%
TOTAL		100	100	100

10.14 Zoning Regulations

10.14.1 Residential Use Zone

In this zone buildings or premises shall be permitted only for the following purposes and accessory uses. Permissible non-residential activity shall be limited to one in a sub-division.

i. Any residence including dwelling, detached, semi-detached, tenements or flats and service apartments.

ii. Professional consulting offices and incidental uses thereto occupying a floor area not exceeding 40 sq.m.

iii. Nursery schools, Primary Schools, High Schools, Higher Secondary Schools, Libraries and reading rooms.

iv. Parks, play grounds, farms, gardens, nurseries, including incidental buildings thereon.

v. Cottage industries listed in G.O.Ps.Nos.565 and 566 dated 12.3.1962 as amended and indicated in Annexure – V of TNCBDR, with number of workers not exceeding 8 and electric machineries not exceeding 5 H.P.

vi. Installation of Motor for pumping water, Air conditioning, Lifts, Solar Heaters, Dish Antennas, etc.

vii. Storage of domestic cooking gas cylinders subject to the conditions prescribed in G.O.M.s No.329 dated 24.2.1977 viz. the applicant should obtain necessary clearance from the Director of Fire and Rescue Services and from the Dept. of Explosives of the Govt. of India.

viii. Working women hostels, old age homes.

ix. Professional consulting offices, Schools of Commerce including Tutorial Institutions, Govt./Semi Govt. Offices, Banks, Pay Offices, Post Office, Offices of Electricity Board, Chennai City Corporation, Tamil Nadu Cooperative Milk Producers Federation Limited, etc. occupying a floor area not exceeding 300 sq.m.

x. Public Utility Buildings like sewage pumping stations, water works, Fire stations, Telephone exchanges.

xi. Swimming Pool attached to residential activity in a plot.

xii. Daily or weekly markets serving local needs.

xiii. Transport depots, Bus Terminus and Railway Stations.

xiv. Burning, Burial grounds, crematoria and cemeteries.

xv. Air-conditioned Cinema Theatres abutting min. 12 m wide road. xvi) Banks and Safe Deposit Vaults, Business Office and other Commercial or Financial Institutions occupying floor area not exceeding 500 sq.m. provided the width of the abutting road is minimum 10m.

Verified RealEstate™

xvi. Hotels, Restaurants occupying a floor area not exceeding 500 sq.m.

xvii. Hostels, Dormitories, Boarding and Lodging houses and Welfare Institutions occupying a floor area not exceeding 500 sq.m.

xviii. Clinics, Hospitals, Dispensaries, Nursing Homes and other Health facilities occupying a floor area not exceeding 500 sq.m. provided the width of the abutting road is minimum 10m.

xix. Establishments and shops retailing in vegetables, fruits, flowers, fish, meat and such other daily necessities of the residents, including provisions, soft drinks, newspapers, tea stalls, milk kiosks, cycle repair shops, internet / computer centres, ATMs etc. departmental stores occupying floor area not exceeding 500 sq.m. or organized markets.

xx. Bakeries, Confectionaries, Laundries, tailoring, Goldsmith shops, hairdressing saloons occupying floor area not exceeding 500 sq.m.

xxi. Fuel filling stations, and automobile service stations with installation not exceeding 30 HP.

xxii. Industries listed by the Tamil Nadu Pollution Control Board as 'Green' Industries listed in Annexure - VI and subject to maximum installation of 30 HP.

xxiii. Taxi stands and car parking including multilevel parking xxv) Automobile workshop with floor area not exceeding 300 sq.m and electrical installations not exceeding 15 H.P.

xxiv. Religious buildings and welfare institutions occupying a floor area not exceeding 500 sq.m.

All uses/activities not specifically mentioned under sub-regulations (1) above shall be prohibited in this zone.

10.14.2 Commercial Use Zone

In this zone, buildings or premises shall be permitted only for the following purposes and accessory uses:

i. All activities that is permissible in Residential Zone without restriction of floor area (except industries)

ii. All commercial and business uses including all shops, stores, markets, shopping centres and uses connected with the display and retail sale of merchandise but excluding explosives, obnoxious products and other materials likely to cause health hazards and danger to lives.

iii. Fuel filling stations, automobile service stations and workshops with installation not exceeding 50 HP.

Verified RealEstate™

iv. Industries listed out by the Tamil Nadu Pollution Control Board as “Green” Industries and as “Orange Industries” subject to a maximum installation of 50 HP.

v. Research, Experimental and Testing laboratories not involving danger of fire, explosives or health hazards.

vi. Warehouses and other uses connected with storage of wholesale trade in commodities not notified under the Specified Commodity Act, but excluding storage of explosives or products which are either obnoxious or likely to cause health hazards.

vii. Buildings for development of software and its associated computer technology applications, IT Parks.

viii. Broadcasting, telecasting and telecommunication stations.

ix. Helipads subject to clearance by Civil Aviation department, Directorate of Fire and Rescue Services and police department.

x. Manufacture of computer hardware

xi. Preview theatres and dubbing theatres.

xii. Colleges, higher educational, technical and research institutions.

xiii. Foreign Missions, Embassies and Consulates.

xiv. Air-conditioned Cinema Theatres along roads of width min. 12 m and Assembly Halls and Kalyana Mandapams along roads of width min. 15 m and Multiplex / Malls along roads of width min. 18m.

xv. All uses/activities not specifically mentioned under sub-regulations (1) shall be prohibited.

10.14.3 Industrial use zone

In this zone, buildings or premises shall be permitted only for the following purposes and accessory uses:

i. In approved layouts residential, commercial, institutional and other activities as designated therein.

ii. Using electrical H.P or with employees not exceeding 100 in number but excluding industries of obnoxious and hazardous nature by reasons of odour, effluent, dust, smoke, gas, vibration or otherwise likely to cause danger or nuisance to public health or amenity

iii. Residential buildings for security and other essential staff required to be maintained in the premises.

Verified © RegiEstate™

iv. All use permissible in Residential and commercial use zones

v. Storage of petroleum timber and explosives and inflammable and dangerous materials

vi. All industries (without restrictions of H.P or floor area or number of workers) except those industries listed under as red category in Annexure of these regulations.

vii. Container terminals (at sites abutting or gaining access from minimum 18-metre-wide public road)

All uses not specifically mentioned under sub-regulations (1) shall be prohibited in this zone.

10.14.4 Special and Hazardous Industrial use zone

In this zone, buildings or premises shall be permitted only for the following purposes and accessory uses:

i. All Industrial activities permissible in Industrial zone

ii. All special and hazardous industries (classified as 'Red' by the Tamil Nadu Pollution Control Board) without restriction of Horse Power that are likely to be dangerous to human life or health or amenity, but sufficient precaution to the satisfaction of the TNPC Board have been taken to eliminate noxious or dangerous effluents and to alleviate danger to human life or health or amenity.

iii. Uses involving storage, handling and other uses, incidental to such industries.

iv. Active Quarries.

v. Residential, commercial, Institutional and recreational uses incidental to the uses listed above.

All uses not specifically mentioned under sub-regulations (1) shall be prohibited in this zone.

10.14.5 Institutional use zone

In this zone buildings or premises shall be permitted only for the following purposes and accessory uses:

i. Educational institutions including colleges and institutions of higher education, research, technical and training in nature.

ii. Govt. and quasi-Govt. offices and institutions

iii. Professional and business offices

iv. Art galleries, Archives, Museums, Public Libraries, Social and Cultural Institutions and Religious buildings.

v. Hospitals, Sanatoria, and other medical and public health institutions.

Verified RealEstate™

vi. Parks, Play fields, Swimming pools and other public and Semi-public open spaces.

vii. Broadcasting, telecasting, installations and Weather stations.

viii. Public utilities, municipal and community facilities.

ix. Nursery, Primary and Secondary Schools

x. Social and Cultural Institutions including Sabhas.

xi. Residential and commercial spaces not exceeding 500 sq.m.permissible in this use zone.

xii. Transport terminals, bus and railway stations, Airport, Harbour, and parking lots including multilevel parking lots

xiii. Cinema theatres and others entertainment centres and Kalyana mandapams.

xiv. Clubs, community halls, Assembly halls, Auditoriums and Theatres xv) Sports stadium, Recreation Complexes, Exhibition, Fares.

xv. Burial Ground, Burning Ground, Cemeteries, crematoria

xvi. Buildings for development of software and its associated computer technology applications I.T.Parks

xvii. Manufacture of computer hardware

xviii. Bio- informatics centres.

xix. Container terminals at sites abutting and gaining access from public roads of width minimum 18 metres

xx. Foreign mission, Embassies, Consulates

xxi. All public and semi-public recreational uses and open spaces, parks and play grounds, zoological and botanical gardens, nurseries, waterfront developments, museums and memorials.

xxii. Theme parks and amusement parks

xxiii. Open Air Theatre, Exhibitions, Circuses, Fairs and Festival grounds, public utilities.

xxiv. Installations that may be necessary for the uses mentioned above.

xxv. Installations that may be necessary for the uses mentioned above.

All uses not specifically mentioned under sub regulations (1) shall be prohibited.

Verified PadEstate ™

10.14.6 Agricultural Use Zone

In the Agricultural use zone buildings or premises shall be normally permitted for the following purpose and accessory uses:

I. All Agricultural uses.

II. Farm houses and buildings for agricultural activities.

III. All the uses permissible in the residential use zone within the natham boundaries (settlements)

IV. Dairy and cattle farms

V. Piggeries and poultry farms

VI. Forestry

VII. Abandoned quarries used as rainwater harvesting structures

VIII. Storing and drying of fertilizers

IX. Installation of electric machinery of not exceeding 15 horse power may be allowed for the uses mentioned above.

X. Sewage farms and garbage dumping sites.

XI. Mills for grinding, hulling, etc. of cereals, pulses, food grains and oil seeds provided the site has proper access and installations do not exceed 50 H.P.

XII. Burning and Burial grounds, Crematoria and Cemeteries.

IMPLEMENTATION

11

PROPOSAL PHASING AND IMPLEMENTATION MECHANISM

Verified RealEstate™

11.1 Phasing of Proposals

This chapter discusses on the timeline of proposals and the implementation mechanisms that are to be adopted for efficient execution of the New Town Development Plan.

Proposals that have been detailed out in the previous chapters, are categorized as short term, medium term and long-term proposals. Short term proposals are envisioned to be executed during the first five years of NDTP implementation. Medium term proposals are to be executed in the next stage i.e., the next five years of plan implementation. Long term proposals will be carried out in the final phase of the horizon period that is the final 10-15 years of the horizon period.

Phasing of proposals is provided in the table below.

Table 63: Proposals – Phasing

Sector	Short Term Proposals	Mid Term Proposals	Long Term Proposals
Blue-Green Infrastructure	Afforestation using Miyawaki Method with indigenous plants – Urban Forestry Linking of water bodies – Model city schemes - TNSUDP	Animal crossway Geoscaping of Abandoned quarries as Rainwater Harvesting structures and Recreational facilities	Revitalization of Kelavarapalli Dam
Economy	Vegetable Market at Moranapalli with 3.5 hectares Floriculture and Horticulture Promotional/Annual Expo	Commercial Complex in Hosur (25 Crores)	Farmer Credit score system

Verified RealEstate

Mobility	Widening in certain stretches as mentioned in Map Comprehensive Traffic and Transportation Study New Bus terminus for Hosur Shuttle Service from Bus terminus to Railway Station	Cloverleaf Interchange @ NH948 & 844 Junction – Thorapalli Agraharam Flyover at Thally road (SH-17B) and Railway line crossing near sishya school A1 – A1 Road from Zuzuvadi to Moranapalli – 18.24 Km A2 – A2 Road from Sathanur to Deveripalli – 46.5Km in (NH-948A) STRR (Satellite Town Ring Road) A8 – A8 Road from Kothakondapalli to Thuppuganapalli road (NH 844)– 22 Km	Rail commute service between Hosur and Bengaluru (EMU/ MEMU) Truck Terminal Extension of Metro from Electronic City to Hosur Intelligent Transport System Logistics Park at Kamandhoddi Village
Infrastructure	Construction of STPs at Ramanaicken and Punugandoddi. Increasing the capacities of SWM facilities at Dasepalli and Kelamangalam. Phase 2 of Hoganekkal CWSS for increased water supply.	Housing Board Layout proposal (54 Plots) @ Hosur – 4 Crores Government Medical college cum hospital at Hosur Sport Complex at Thorapalli Agraharam Construction of STPs at Shanthapuram, Anthivadi and Bhasti. Construction of SWM facilities at Berigai and Belagondapalli. WTP at Kelaverpalli Dam for use of Ponnaiyar water for irrigation purpose.	Reusable Index for Electronic Gadgets and electric vehicle District Cooling System Amusement Park at Anegollu village O&M of the existing STPs and construction of STPs at Darga for additional load. Advancements in the existing SWM facilities and construction of SWM in Jakeri for additional load.

Verified RealEstate™

11.2 Implementation Mechanisms

Though the Tamil Nadu Town and Country Planning Act, 1971 stipulates a framework for the implementation of the Development Plan, devising a mechanism is necessary wherein, the execution of the phased proposals are carried out by the allotted nodal agencies with the related departments assisting in co-ordination.

Steps involved in the Implementation mechanism of Development Area prescribed by TNTCPA,1971 is detailed below,

A. **Detailed Development Plans:** Following Development Plan approval, the DA prepares detailed Development Plans (DDPs) for specific zones within the new town area. These DDPs provide more detailed land use and infrastructure development guidelines.

B. **Land Acquisition:** If required, Development Plans allow for compulsory land acquisition from private owners through specific provisions in the Act, subject to compensation procedures. This enables faster land assembly for development.

C. **Infrastructure Development**: The Development Area plays a significant role in mobilizing resources and implementing key infrastructure projects like roads, utilities, etc.

D. **Development Activities**: The Development Area invites private developers and investors to participate in building residential, commercial, and industrial units based on the development plan and DDPs. An allotment and auction system are typically used to allocate land parcels.

E. **Monitoring and Evaluation**: The Development Area regularly monitors the implementation progress, assesses the plan's effectiveness, and makes necessary adjustments as needed.

ANNEXURE – VI: LIST OF FLORA & FAUNA IN HOSUR DA

A. FLORA OF HOSUR FOREST DIVISION

a. List of Tree Species (168):

S. No	Botanical name	Tamil Name	Family
1	Hardwickia binata	**Acha maram**	Leguminosae
2	Ficus bengalensis	**Ala maram**	Moraceae
3	Alangium salvifolium	**Alingi maram**	Alangiaceae
4	Ficus religiosa	**Arasu maram**	Moraceae
5	Chukrasia tabularis	**Agil maram**	Meliaceae
6	Ficus glomerata	**Athi maram**	Moraceae
7	Bauhinia racemosa	**Mandarai**	Leguminosae
8	Grewia disperma	**Anaikkatti maram**	Tilaceae
9	Trema orientalis	**Ampurathi maram**	Ulmaceae
10	Ehretia ovalifolia	**Aduthinnapalai maram**	Boraginaceae
11	Pterocarpus santalinus	**Chem maram**	Leguminosae
12	Acacia suma	**Celai maram**	Leguminosae
15	Zizyphus maurtiana	**Elandai maram**	Hippocrateaceae
16	Citrus medica	**Elumicha maram**	Butaceae
17	Strychnos nux-vomica	**Etti maram**	Loganiaceae
18	Bombox malabaricum	**Elava maram**	Malvaceae
19	Butea frondosa	**Elaiporasu maram**	Leguminosae
20	Bassia latifolia	**Illupai maram**	Sapotaceae
22	Eriodendron anfractuosum	**Illavam maram**	Malvaceae
23	Phoenix sylvestris	**Eecham maram**	Palmaccae
24	Pistacia oleosa	**Kadalmuruchi maram**	Anacardiaceae
25	Terminalia chebula	**Kaddukai maram**	Combretaceae
26	Alseodaphne semecarpifolia	**Kaka-nagai maram**	Lauraceae
27	Careya arborea	**Kalkambi maram**	Lecythidaceae
28	Albizzia odoratissima	**Karuvagai maram**	Leguminosae
29	Ficus retusa	**Kallichi maram**	Moraceae
30	Acacia sundra	**Karungali maram**	Leguminosae
31	Murraya koenigii	**Karuveppilai maram**	Rutaceae
32	Terminalia tomentosa	**Karumaruthu maram**	Combretaceae

33	Diospyros chloroxylon	**Karuvakkanai maram**	Ebenaceae
34	Acacia nilotica	**Karuvela maram**	Leguminosae
35	Holarrhena antidysenterica	**Karupalai maram**	Apocynaceae
36	Garuga pinnata	**Karuvembu maram**	Burseraceae
37	Memecylon edule	**Kasan maram**	Melastomaceae
38	Olea glandulifera	**Kattu kallari maram**	Oleaceae
39	Murraya exotica	**Kattukaruveppilai maram**	Rutaceae
40	Moringa concanensis	**Kattu murungai maram**	Moringaceae
41	Albizzia odoratissima	**Silavagai maram**	Leguminosae
42	Elaeodendron glaucum	**Keeri maram**	Celastraceae
43	Dolichandrone falcate	**Klarvalattu maram**	Bignoniaceae
44	Pithecolobium dulce	**Kodukapuli maram**	Leguminosae
45	Premna tomentosa	**Kolakkattaithekku maram**	Verbenaceae
46	Olea dioica	**Koli maram**	Oleaceae
47	Cassia fistula	**Konnai maram**	Leguminosae
48	Gardenia latifolia	**Kottumarikalam maram**	Rubiaceae
49	Sterculia villosa	**Kottaithanuku maram**	Sterculiaceae
50	Psidium guajava	**Koyappala maram**	Myrtaceae
51	Polyalthia cerasoides	**Kothukala maram**	Anonaceae
52	Trewia nudiflora	**Kumbala maram**	Euphoriaceae
53	Gmelina arborea	**Kumil maram**	Verbenaceae
54	Caryota urens	**Kundal panai maram**	Palmaceae
55	Streblus asper	**Kuttipilla maram**	Moraceae
56	Acacia pennata	**Kattusikkai maram**	Leguminosae
57	Albizzia lebbeck	**Kattuvagai maram**	Leguminosae
58	Ficus arnottiana	**Kodi arasu maram**	Moraceae
59	Phyllanthus polyphyllus	**Kilanelli maram**	Euphorbiaceae
60	Pittospormum floribundum	**Kattu sampangi maram**	Pittosporaceae
61	Pleurostylia wightii	**Karikku vagai maram**	Calastaceae
62	Zizyphus trinervia	**Karukava maram**	Rhamnaceae
63	Mimusops elengi	**Magilam maram**	Sapotaceae
64	Melia dubia	**Malai vembu maram**	Meliaceae
65	Mangifera indica	**Mamaram**	Anacardiaceae
66	Millingtonia hortensis	**Maramalli maram**	Bignoniaceae
67	Balsamodendron berryi	**Mulkiluvai maram**	Burseraceae

i) List of Threatened plant species:

Botanical survey of India in their "Red data book of Indian plants" Vol. I to III has given the list of Threatened plant species of India. The list of Threatened species is which are from Krishnagiri forest division is given below.

S.No.	Botanical Name
1	Anisochilus argenteus Gamble. (V)
2	Crotalaria clavata Wight. (E)
3	Crotalaria globosa Wight. (R)
4	Anoectochilus rotundifolius Blatt. Balak. (I)
5	Chrysoglossum halbergii Blatt. (I)
6	Commelina indehiscens Barnes. (R)
7	Dicranopteris linearis var.sebastiana Burm.f.(V)
8	Eugenia discifera Gamble. (I)
9	Lepidagathis barberi Gamble. (I)
10	Peucedanum anamallayense Clarke. (R)
11	Santapaua madurensis Balakr. (E)4

b) Status and survey of selected Critical, Endangered / DD taxa in wild of Hosur Forest Divisions were assessed by Dr. Ravikumar, Proffessor and Head, FRLHT, Bangalore during 2013-15.

List of Endemic/Rare species recorded in erstwhile Dharmapuri District, Tamil Nadu (KM Matthew, 1981-83; Ahmedulla & Nayar, 1987; Sanjappa, 1992; Nayar, 1996; Jagtap & Singh, 1999; V. Singh, 2001; V. Singh, 2001; NP Balakrishnan, 2007; Ansari, 2008).

S. No.	Botanical Names	Habit	Status
1	Acalypha alnifolia Klein ex Willd.	Undershrub	Endemic to southern India
2	Alphonsea sclerocarpa Thwaites	Tree	Rare
3	Alysicarpus scariosus var. pilifer (Prain) A. Pramanik & Thoth.	Herb	Endemic to Peninsular India
4	Andrographis serpyllifolia (Vahl) Wight	Prostrate herb	Endemic to Peninsular India
5	Asystasia crispata Benth.	Herb	Endemic to Peninsular India
6	Barleria acuminata Wight ex Nees	Herb	Endemic to India
7	Barleria buxifolia L.	Undershrub	Rare
8	Barleria longiflora L.f.	Undershrub	Endemic to southern India
9	Barleria montana Nees	Undershrub	Endemic to Peninsular India

Verified RealEstate ™

10	Barleria mysorensis B.Heyne ex Roth	Undershrub	Endemic to southern India
11	Barleria prattensis Santapau	Undershrub	Endemic to India
12	Caralluma adscendens var. attenuata (Wight) Grav. & Mayur.	Herb	Endemic to India
13	Caralluma truncato-coronata (Sedgw.) Grav. & Mayur.	Herb	Endemic to Karnataka and Tamil Nadu
14	Cassia montana Naves & Villar	Shrub	Endemic to India
15	Commiphora berryi (Arn.) Engl.	Shrub	Endemic to India
16	Crotalaria longipes Wight & Arn.	Undershrub	Endemic to India
17	Crotalaria pusilla DC.	Herb	Endemic to India
18	Crotalaria speciosa Roth	Undershrub	Endemic to India

B. LIST OF FAUNA IN HOSUR FOREST DIVISION

ABSTRACT

A	Mammals	-	38
B	Birds	-	262
C	Reptiles	-	30
D	Amphibians	-	10
E	Butterflies	-	172

A) List of Mammals (39):

S. No.	Order	Common Name	Scientific Name
1	Artiodactyla	Four-Horned Antelope	Tetracerus quadricornis
2	Artiodactyla	Indian Gaur	Bos gaurus
3	Artiodactyla	Spotted Deer	Axis axis
4	Artiodactyla	Wild Boar	Sus scrofa
5	Artiodactyla	Mouse Deer	Moschiola meminna
6	Artiodactyla	Barking Deer	Muntiacus muntjak
7	Artiodactyla	Sambar Deer	Rusa unicolor
8	Carnivora	Jackal	Canis aureus
9	Carnivora	Jungle cat	Felis chaus
10	Carnivora	Leopard	Panthera pardus
11	Carnivora	Ruddy Mongoose	Herpestes smithii
12	Carnivora	Small Indian Mongoose	Herpestes javanicus
13	Carnivora	Stripe Necked Mongoose	Herpestes vitticollis
14	Carnivora	Sloth Bear	Melursus ursinus
15	Carnivora	Honey Badger	Mellivora capensis
16	Carnivora	Common Palm Civet	Paradoxurus hermaphroditus
17	Carnivora	Small Indian Civet	Viverra civettina
18	Carnivora	Wild Dog	Cuon alpinus
19	Carnivora	Smooth Coated Otter	Lutrogale perspicillata
20	Chiroptera	Indian Flying Fox	Pteropus giganteus
21	Chiroptera	Indian Pipistrelles	Pipistrellus coromandra
22	Crocodilia	Marsh Crocodiles	Crocodylus palustris
23	Logomorpha	Black-Naped Hare	Lepus nigricollis
24	Pholidota	Indian Pangolin	Manis crassicaudata
25	Primates	Bonnet Macaque	Macaca radiata
26	Primates	Common Langur	Semnopithecus entellus

Verified PadiEstate TM

27	Primates	Slender Loris	Loris lyddekeriannus
28	Proboscidea	Asian Elephant	Elephas maximus
29	Rodentia	Indian Porcupine	Hystrix indica
30	Rodentia	House Rat	Rattus rattus
31	Rodentia	India Gerbil	Tatera indica
32	Rodentia	Lesser Bandicoot	Bandicota bengalensis
33	Rodentia	Little Indian Field Mouse	Mus booduga
34	Rodentia	Three Striped Palm Squirrel	Funambulus palmarum
35	Rodentia	Indian Gerbil	Tatera indica
36	Rodentia	Grizzled Giant Squirrel	Ratufa macroura
37	Insectivora	House Shrews	Suncus murinus
38	Scandentia	Madras Tree Shrew	Anathana elliotti

B) List of Birds (262):

S. No	Order	Family	Species	Scientific Name
1	Galliformes	Phasianidae	Grey Francolin	Francolinus pondicerianus
2	Galliformes	Phasianidae	Jungle Bush Quail	Perdicula asiatica
3	Galliformes	Phasianidae	Painted Bush Quail	Perdicula erythrorhyncha
4	Galliformes	Phasianidae	Red Spurfowl	Galloperdix spadicea
5	Galliformes	Phasianidae	Grey Junglefowl	Gallus sonneratii
6	Galliformes	Phasianidae	Indian Peafowl	Pavo cristatus
7	Anseriformes	Anatidae	Lesser Whistling Duck	Dendrocygna javanica
8	Anseriformes	Anatidae	Indian Spot-billed Duck	Anas poecilorhyncha
9	Anseriformes	Anatidae	Northern Shoveler	Anas clypeata
10	Anseriformes	Anatidae	Northern Pintail	Anas acuta
11	Anseriformes	Anatidae	Garganey	Anas querquedula
12	Podicipediformes	Podicipedidae	Little Grebe	Tachybaptus ruficollis
13	Ciconiiformes	Ciconiidae	Painted Stork	Mycteria leucocephala
14	Ciconiiformes	Ciconiidae	Asian Openbill	Anastomus oscitans
15	Ciconiiformes	Ciconiidae	Black Stork	Ciconia nigra
16	Ciconiiformes	Ciconiidae	Woolly-necked Stork	Ciconia episcopus
17	Pelecaniformes	Threskiornithidae	Black-headed Ibis	Threskiornis melanocephalus
18	Pelecaniformes	Threskiornithidae	Red-naped Ibis	Pseudibis papillosa
19	Pelecaniformes	Threskiornithidae	Glossy Ibis	Plegadis falcinellus
20	Pelecaniformes	Ardeidae	Black-crowned Night Heron	Nycticorax nycticorax
21	Pelecaniformes	Ardeidae	Indian Pond Heron	Ardeola grayii

Verified RealEstate ™

22	Pelecaniformes	Ardeidae	Eastern Cattle Egret	Bubulcus coromandus
23	Pelecaniformes	Ardeidae	Grey Heron	Ardea cinerea
24	Pelecaniformes	Ardeidae	Purple Heron	Ardea purpurea
25	Pelecaniformes	Ardeidae	Great Egret	Ardea alba
26	Pelecaniformes	Ardeidae	Intermediate Egret	Egretta intermedia
27	Pelecaniformes	Ardeidae	Little Egret	Egretta garzetta
28	Pelecaniformes	Ardeidae	Western Reef Heron	Egretta gularis
29	Pelecaniformes	Pelecanidae	Spot-billed Pelican	Pelecanus philippensis
30	Suliformes	Phalacrocoracidae	Little Cormorant	Microcarbo niger
31	Suliformes	Phalacrocoracidae	Indian Cormorant	Phalacrocorax fuscicollis
32	Suliformes	Phalacrocoracidae	Great Cormorant	Phalacrocorax carbo
33	Suliformes	Anhingidae	Oriental Darter	Anhinga melanogaster
34	Accipitriformes	Accipitridae	Black-winged Kite	Elanus caeruleus
35	Accipitriformes	Accipitridae	Crested Honey Buzzard	Pernis ptilorhynchus
36	Accipitriformes	Accipitridae	Crested Serpent Eagle	Spilornis cheela
37	Accipitriformes	Accipitridae	Short-toed Snake Eagle	Circaetus gallicus
38	Accipitriformes	Accipitridae	Changeable Hawk-Eagle	Nisaetus cirrhatus
39	Accipitriformes	Accipitridae	Mountain Hawk-Eagle	Nisaetus nipalensis
40	Accipitriformes	Accipitridae	Crested Goshawk	Accipiter trivirgatus
41	Accipitriformes	Accipitridae	Shikra	Accipiter badius
42	Accipitriformes	Accipitridae	Besra	Accipiter virgatus
43	Accipitriformes	Accipitridae	Western Marsh Harrier	Circus aeruginosus
44	Accipitriformes	Accipitridae	Pallid Harrier	Circus macrourus
45	Accipitriformes	Accipitridae	Black Kite	Milvus migrans
46	Accipitriformes	Accipitridae	Brahminy Kite	Haliastur indus
47	Accipitriformes	Accipitridae	White-eyed Buzzard	Butastur teesa
48	Falconiformes	Falconidae	Common Kestrel	Falco tinnunculus
49	Falconiformes	Falconidae	Amur Falcon	Falco amurensis
50	Gruiformes	Rallidae	White-breasted Waterhen	Amaurornis phoenicurus
51	Gruiformes	Rallidae	Purple Swamphen	Porphyrio porphyrio
52	Gruiformes	Rallidae	Common Moorhen	Gallinula chloropus
53	Gruiformes	Rallidae	Eurasian Coot	Fulica atra
54	Charadriiformes	Turnicidae	Barred Buttonquail	Turnix suscitator
55	Charadriiformes	Recurvirostridae	Black-winged Stilt	Himantopus himantopus

Verified RealEstate™

56	Charadriiformes	Charadriidae	Yellow-wattled Lapwing	Vanellus malabaricus
57	Charadriiformes	Charadriidae	Red-wattled Lapwing	Vanellus indicus
58	Charadriiformes	Charadriidae	Little Ringed Plover	Charadrius dubius
59	Charadriiformes	Jacanidae	Pheasant-tailed Jacana	Hydrophasianus chirurgus
60	Charadriiformes	Scolopacidae	Common Snipe	Gallinago gallinago
61	Charadriiformes	Scolopacidae	Spotted Redshank	Tringa erythropus
62	Charadriiformes	Scolopacidae	Marsh Sandpiper	Tringa stagnatilis
63	Charadriiformes	Scolopacidae	Common Greenshank	Tringa nebularia
64	Charadriiformes	Scolopacidae	Green Sandpiper	Tringa ochropus
65	Charadriiformes	Scolopacidae	Wood Sandpiper	Tringa glareola
66	Charadriiformes	Scolopacidae	Common Sandpiper	Actitis hypoleucos
67	Charadriiformes	Scolopacidae	Temminck's Stint	Calidris temminckii
68	Charadriiformes	Glareolidae	Small Pratincole	Glareola lactea
69	Charadriiformes	Laridae	River Tern	Sterna aurantia
70	Pteroclidiformes	Pteroclididae	Painted Sandgrouse	Pterocles indicus
71	Columbiformes	Columbidae	Rock Dove	Columba livia
72	Columbiformes	Columbidae	Nilgiri Wood Pigeon	Columba elphinstonii
73	Columbiformes	Columbidae	Eurasian Collared Dove	Streptopelia decaocto
74	Columbiformes	Columbidae	Spotted Dove	Spilopelia chinensis
75	Columbiformes	Columbidae	Laughing Dove	Spilopelia senegalensis
76	Columbiformes	Columbidae	Common Emerald Dove	Chalcophaps indica
77	Columbiformes	Columbidae	Grey-fronted Green Pigeon	Treron affinis
78	Columbiformes	Columbidae	Yellow-footed Green Pigeon	Treron phoenicopterus
79	Columbiformes	Columbidae	Green Imperial Pigeon	Ducula aenea
80	Psittaciformes	Psittacidae	Vernal Hanging Parrot	Loriculus vernalis
81	Psittaciformes	Psittacidae	Rose-ringed Parakeet	Psittacula krameri
82	Psittaciformes	Psittacidae	Plum-headed Parakeet	Psittacula cyanocephala
83	Psittaciformes	Psittacidae	Blue-winged Parakeet	Psittacula columboides
84	Cuculiformes	Cuculidae	Greater Coucal	Centropus sinensis

85	Cuculiformes	Cuculidae	Lesser Coucal	Centropus bengalensis
86	Cuculiformes	Cuculidae	Sirkeer Malkoha	Taccocua leschenaultii
87	Cuculiformes	Cuculidae	Blue-faced Malkoha	Phaenicophaeus viridirostris
88	Cuculiformes	Cuculidae	Chestnut-winged Cuckoo	Clamator coromandus
89	Cuculiformes	Cuculidae	Jacobin Cuckoo	Clamator jacobinus
90	Cuculiformes	Cuculidae	Asian Koel	Eudynamys scolopaceus
91	Cuculiformes	Cuculidae	Grey-bellied Cuckoo	Cacomantis passerinus
92	Cuculiformes	Cuculidae	Fork-tailed Drongo-Cuckoo	Surniculus dicruroides
93	Cuculiformes	Cuculidae	Common Hawk-Cuckoo	Hierococcyx varius
94	Cuculiformes	Cuculidae	Indian Cuckoo	Cuculus micropterus
95	Cuculiformes	Cuculidae	Common Cuckoo	Cuculus canorus
96	Strigiformes	Strigidae	Indian Scops Owl	Otus bakkamoena
97	Strigiformes	Strigidae	Oriental Scops Owl	Otus sunia
98	Strigiformes	Strigidae	Indian Eagle-Owl	Bubo bengalensis
99	Strigiformes	Strigidae	Brown Fish Owl	Ketupa zeylonensis
100	Strigiformes	Strigidae	Mottled Wood Owl	Strix ocellata
101	Strigiformes	Strigidae	Brown Wood Owl	Strix leptogrammica
102	Strigiformes	Strigidae	Jungle Owlet	Glaucidium radiatum
103	Strigiformes	Strigidae	Spotted Owlet	Athene brama
104	Strigiformes	Strigidae	Brown Hawk-Owl	Ninox scutulata
105	Caprimulgiformes	Caprimulgidae	Jungle Nightjar	Caprimulgus indicus
106	Caprimulgiformes	Caprimulgidae	Jerdon’s Nightjar	Caprimulgus atripennis
107	Caprimulgiformes	Caprimulgidae	Indian Nightjar	Caprimulgus asiaticus
108	Caprimulgiformes	Caprimulgidae	Savanna Nightjar	Caprimulgus affinis
109	Apodiformes	Hemiprocnidae	Crested Treeswift	Hemiprocne coronata
110	Apodiformes	Apodidae	Asian Palm Swift	Cypsiurus balasiensis
111	Apodiformes	Apodidae	Little Swift	Apus affinis
112	Coraciiformes	Coraciidae	Indian Roller	Coracias benghalensis
113	Coraciiformes	Alcedinidae	Stork-billed Kingfisher	Pelargopsis capensis
114	Coraciiformes	Alcedinidae	White-throated Kingfisher	Halcyon smyrnensis
115	Coraciiformes	Alcedinidae	Common Kingfisher	Alcedo atthis
116	Coraciiformes	Alcedinidae	Pied Kingfisher	Ceryle rudis
117	Coraciiformes	Meropidae	Blue-bearded Bee-eater	Nyctyornis athertoni
118	Coraciiformes	Meropidae	Green Bee-eater	Merops orientalis
119	Coraciiformes	Meropidae	Blue-tailed Bee-eater	Merops philippinus

Verified RealEstate ™

120	Coraciiformes	Meropidae	Chestnut-headed Bee-eater	
	Merops leschenaulti			
121	Coraciiformes	Meropidae	European Bee-eater	Merops apiaster
122	Bucerotiformes	Upupidae	Eurasian Hoopoe	Upupa epops
123	Bucerotiformes	Bucerotidae	Indian Grey Hornbill	Ocyceros birostris
124	Piciformes	Megalaimidae	Brown-headed Barbet	Megalaima zeylanica
125	Piciformes	Megalaimidae	White-cheeked Barbet	Megalaima viridis
126	Piciformes	Megalaimidae	Coppersmith Barbet	Megalaima haemacephala
127	Piciformes	Picidae	Brown-capped Pygmy Woodpecker	Dendrocopos nanus
128	Piciformes	Picidae	Yellow-crowned Woodpecker	Dendrocopos mahrattensis
129	Piciformes	Picidae	White-bellied Woodpecker	Dryocopus javensis

=====

ORDER:

Hosur New Town Development Area was notified and declared under sections 10 (1) and 10 (4) of Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) in the Government orders 1st and 2nd read above respectively.

2. The Commissioner of Town and Country Planning in his letter read above has requested the Government to add certain villages to Hosur New Town Development Area, citing the population and industrial growth in and around Hosur New Town Development Area, under section 10 (1) (c) of Tamil Nadu Town and Country Planning Act, 1971.

3. The Government, after careful consideration of the above proposal of the Commissioner of Town and Country Planning have decided to declare the intention of the Government to include additional areas in the Hosur New Town Development Area. The appended Notification will be published in the Tamil Nadu Government Gazette.

4. The Collector of Krishnagiri District is directed to republish the Notification in the District Gazette.

Housing and Urban Development [UD4(2)] Department

G.O.(Ms).No.205 **Dated:18.11.2022**

சுபகிருது வருடம், கார்த்திகை 2,
திருவள்ளுவர் ஆண்டு 2053.

Read:

1. G.O.(Ms) No.257, Housing and Urban Development Department, dated 22.02.1978.
2. G.O.(Ms).No.782, Housing and Urban Development Department, dated 19.05.1979.
3. G.O.(Ms) No.337, Housing and Urban Development Department, dated 24.04.1984.
4. G.O.(Ms).No.96, Housing and Urban Development Department, dated 29.05.2017.
5. From the Director of Town and Country Planning, letter Na. Ka.No.9569/2012/TCP-7, dated 26.05.2022 and 28.06.2022.

======

ORDER:

In the Government Order third read above, orders were issued for approval of New Town Development Plan for Hosur New Town Development area under section 28 of the Tamil Nadu Town and Country Planning, 1971 (Tamil Nadu Act 35 of 1972).

2. In the Government order fourth read above, orders were issued declaring the inclusion of additional areas in the Hosur New Town Development area under sub-section (4) of section 10 of Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972).

3. In the letter fifth read above, the Director of Town and Country Planning has stated that the New Town Development Plan for the modified Hosur New Town Development Area has been prepared, taking into consideration, the current developments and also future developments and has requested the Government to give consent under sub-section (2) of section 24 of the said Act to the Hosur New Town Development Authority to the publication of a notice of the preparation of the New Town Development Plan for the Hosur New Town Development Area.

..2..

4. Under sub-section (2) of section 24 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972), the Governor of Tamil Nadu hereby gives his consent to the Hosur New Town Development Authority to the publication of a notice under section 26 of the said Act, for the preparation of the New Town Development Plan for the Hosur New Town Development Area.

5. The draft New Town Development Plan for the modified Hosur New Town Development Area as consented to by the Government under sub-section (2) of section 24 of the said Act is returned to the Director of Town and Country Planning, and he is requested to acknowledge the receipt of the same. The Director of Town and Country Planning is directed to ensure that the various requirements specified in the said Act and the New Town Development Plan (Preparation, Publication and Sanction) Rules, 1983 are strictly adhered to by the Hosur New Town Development Authority before the New Town Development Plan is re-submitted to the Government for approval under section 28 of the said Act.

ABSTRACT

Urban Development – Development Plan 2046 for Hosur New Town Development Area – Approval under section 28 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) – Accorded – Orders – Issued.

==========

HOUSING AND URBAN DEVELOPMENT [UD4(2)] DEPARTMENT

G.O.(Ms).No.08. **Dated: 20.01.2025.**

குரோதி வருடம், தை 7.

திருவள்ளுவர் ஆண்டு 2056.

Read:

1. G.O.(Ms).No.96, Housing and Urban Development Department, dated 29.05.2017.
2. G.O.(Ms).No.205, Housing and Urban Development Department, dated 18.11.2022.
3. From the Director of Town and Country Planning, letters Na.Ka.No.9569/2012/TCP-7, dated 07.10.2024 and 28.11.2024.

======

ORDER:

In the Government Order first read above, orders were issued declaring the inclusion of additional areas in the Hosur New Town Development Area under sub-section (4) of Section 10 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972).

2. In the Government Order second read above, the Government have accorded consent under sub-section (2) of Section 24 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) to the Hosur New Town Development Authority for the publication of a notice of preparation of the New Town Development plan under Section 26 of the said Act for Hosur New Town Development Area.

3. The Director of Town and Country Planning in his letter third read above has forwarded the draft Development Plan 2046 for the Hosur New Town Development Area and has requested the Government to accord approval under section 28 of the said Act.

..2..

4. The Government, after careful consideration, have decided to accept the proposal of the Director of Town and Country Planning in para 3 above and to approve the Development Plan 2046 for the Hosur New Town Development Area. Accordingly, in exercise of the powers conferred by Section 28 of Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972), the Governor of Tamil Nadu, after consultation with the Director of Town and Country Planning, hereby approves the draft Development Plan 2046 for the Hosur New Town Development Area.

5. The copies of the said Development Plan 2046 for the Hosur New Town Development Area as approved by the Government are communicated to the Director of Town and Country Planning.

6. The following Notification shall be published in the Tamil Nadu Government Gazette. The Director of Town and Country Planning is requested to ensure that the Notification is republished in the manner as prescribed in rules 12 and 15 of the Master Plan (Preparation, Publication and Sanction) Rules.

NOTIFICATION.

In exercise of the powers conferred by sub-section (1) of section 30 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972), the Governor of Tamil Nadu hereby publishes the approval of the Government under Section 28 of the said Act for the Development Plan 2046 for the Hosur New Town Development Area submitted by the Director of Town and Country Planning.

2. The approved Development Plan 2046 for the Hosur New Town Development Area with all its enclosures shall be kept open for the inspection of the public during working days in the office of the Hosur Municipal Corporation during office hours.

ABSTRACT

Urban Development – Development Plan 2046 for Hosur New Town Development Area – Approval under section 28 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) – Accorded – Orders – Issued.

==========

HOUSING AND URBAN DEVELOPMENT [UD4(2)] DEPARTMENT

G.O.(Ms).No.08. **Dated: 20.01.2025.**

குரோதி வருடம், தை 7.

திருவள்ளுவர் ஆண்டு 2056.

Read:

1. G.O.(Ms).No.96, Housing and Urban Development Department, dated 29.05.2017.
2. G.O.(Ms).No.205, Housing and Urban Development Department, dated 18.11.2022.
3. From the Director of Town and Country Planning, letters Na.Ka.No.9569/2012/TCP-7, dated 07.10.2024 and 28.11.2024.

======

ORDER:

In the Government Order first read above, orders were issued declaring the inclusion of additional areas in the Hosur New Town Development Area under sub-section (4) of Section 10 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972).

2. In the Government Order second read above, the Government have accorded consent under sub-section (2) of Section 24 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972) to the Hosur New Town Development Authority for the publication of a notice of preparation of the New Town Development plan under Section 26 of the said Act for Hosur New Town Development Area.

3. The Director of Town and Country Planning in his letter third read above has forwarded the draft Development Plan 2046 for the Hosur New Town Development Area and has requested the Government to accord approval under section 28 of the said Act.

4. The Government, after careful consideration, have decided to accept the proposal of the Director of Town and Country Planning in para 3 above and to approve the Development Plan 2046 for the Hosur New Town Development Area. Accordingly, in exercise of the powers conferred by Section 28 of Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972), the Governor of Tamil Nadu, after consultation with the Director of Town and Country Planning, hereby approves the draft Development Plan 2046 for the Hosur New Town Development Area.

5. The copies of the said Development Plan 2046 for the Hosur New Town Development Area as approved by the Government are communicated to the Director of Town and Country Planning.

6. The following Notification shall be published in the Tamil Nadu Government Gazette. The Director of Town and Country Planning is requested to ensure that the Notification is republished in the manner as prescribed in rules 12 and 15 of the Master Plan (Preparation, Publication and Sanction) Rules.

NOTIFICATION.

In exercise of the powers conferred by sub-section (1) of section 30 of the Tamil Nadu Town and Country Planning Act, 1971 (Tamil Nadu Act 35 of 1972), the Governor of Tamil Nadu hereby publishes the approval of the Government under Section 28 of the said Act for the Development Plan 2046 for the Hosur New Town Development Area submitted by the Director of Town and Country Planning.

2. The approved Development Plan 2046 for the Hosur New Town Development Area with all its enclosures shall be kept open for the inspection of the public during working days in the office of the Hosur Municipal Corporation during office hours.

(BY ORDER OF THE GOVERNOR)
