ABSTRACT

Schemes – State Scheme - Introduction of Mudalvarin Grama Salaigal Membattu Thittam (MGSMT) – Implementation of Scheme during 2022-23 at a cost of Rs.2300 crore – Accorded - Guidelines approved - Orders - Issued.

Rural Development and Panchayat Raj (SGS.2) Department

G.O.(Ms).No.34 **Dated: 18.03.2023**
சுபகிருது வருடம் பங்குனி 04
திருவள்ளுவர் ஆண்டு-2054

Read:

From the Commissioner of Rural Development and Panchayat letter No.74399/TU1/2022 dated 06.12.2022, 27.02.2023, 15.03.2023.

ORDER:

In the letter read above, the Commissioner of Rural Development and Panchayat Raj has sent a proposal as stated as follows: -

Rural Road Connectivity is a critical component in the socio-economic development of rural people by providing access to amenities like education, health, marketing etc. It has been well established that investments in rural roads, lifts rural people above the poverty line. The major chunk of the rural roads consisting of Village Panchayat and Panchayat Union roads is under the purview of Rural Development and Panchayat Raj Department. The understanding of the functionality of these roads is important for the overall understanding of the Rural road network in the State.

(i) The roads passing through more than one village panchayat and connecting to important utility centers, major roads, bus plying come under the category of Panchayat Union Roads. These roads are owned by the respective panchayat unions.

(ii) Roads within the Village Panchayat boundary and connecting to various utility centers, habitations, social amenities, facilitating farm connectivity may be defined as Village Panchayat Roads. These roads are owned by the respective Village Panchayats.

2. The road development plans have been the basis of planning and development of roads in India, especially rural roads. The road density is one of the parameters to assess the connectivity status of the road network in the State. The rural road density in Tamil Nadu is 146 Km/100 Sq. Km as compared to the National value of 117 Km/100 Sq.Km. This is indicative of the level of penetration of the rural roads in the State. The decadal growth of the rural roads is symptomatic of the State's robust rural road network.

(i) The overall length of rural roads i.e. the Village Panchayat and Panchayat Union roads has increased from 1.03 lakh Km in 2011 to 1.55 lakh Km in 2022, an increase of 55% in the last decade.

(ii) Imbalance of Village Panchayat and Panchayat Union roads. 83% Village Panchayat roads and only 18% Panchayat Union roads (Action: Reclassify important Village Panchayat roads to Panchayat Union roads)

(iii) Similarly, the Black Topped surfaced roads has increased from 65,012 Km in 2011 to 1,05,654 Km in 2022, an increase of 63%.

The current status of Village Panchayat and Panchayat Union Roads is as given below:

Sl. No.	Type of Surface	Panchayat Union Road	Village Panchayat Road	Total
		Length in 'Km'		
1	Black topped	25,720	76,369	1,02,089
2	Cement concrete	319	3246	3,565
3	Double layer WBM	140	1,771	1,911
4	Single Layer WBM	360	9,575	9,935
5	Gravel	149	4,622	4,771
6	Earthen	901	32,179	33,080
	Total	**27,589**	**1,27,762**	**1,55,351**

3. The above status has been achieved after considerable investment by the State over a period of time. At the same time, the expanding rural road network continues to put pressure on the limited finances available. The State is now facing a critical investment choice between capital and O&M expenditure. To add to this the lack of guaranteed funding is compounding the problem to such an extent that the good work done over the years is likely to be undone if the issues are not addressed in a comprehensive and sustainable manner. Thus the state has to reengineer its

approach and evolve solutions, taking a holistic view of the rural road development and put in place a vision, policy and mechanism to address the issues highlighted below,

(i) Optimization of investments on improvement and maintenance (Action: Network level planning and categorization of roads).

(ii) Aging roads without periodical or routine maintenance. There are 46,535 Km of roads of more than 5 years which have not been renewed after 5 years. Routine maintenance is completely absent (Action: Clearing Back log of Periodic maintenance and implement Routine Maintenance.)

(iii) Lack of funding from the state for Village Panchayat (VP) and Panchayat Union (PU) roads (Action: Address Government to provide separate funds for Rural roads)

(iv) Need for a clear policy, vision towards future development of rural roads (Action: Formulation and Implementation of Rural Road Vision and Policy).

4. The above are the primary issues of concern and the Rural Development and Panchayat Raj Department proposes to address them through various measures and some of which are detailed below:

a). Reclassification of Village Panchayat Roads

In the opening paras, the functional classification of Village Panchayat and Panchayat Union roads has been indicated and in order to address the issue of imbalance of the Village panchayat and the Panchayat union roads, the roads falling within the criteria given below will be reclassified as Panchayat Union roads.

* All Bus plying Village Panchayat Roads(VPR).

* Village Panchayat Roads which are more than 3Km.

* All Village Panchayat Roads connecting the National Highway (NH), State High way (SH), Major District Road (MDR), Other District Road (ODR) and By-pass roads.

* Village Panchayat Roads connecting important tourism, pilgrimage and heritage places.

Verified RedEstate ™

As per the criteria mentioned above, around, 38,600 Km Village Panchayat Roads are to be classified as Panchayat Union Roads as given below:-

Sl. No.	Criteria	Existing Surface length in Km						
		Earthern	Gravel	Gr.II	Gr.III	BT	CC	Total
1	Bus plying	106	20	45	7	5673	37	5888
2	VPR roads which are more than 3 Km	3711	404	484	98	9248	70	14015
3	Roads connecting the NH,SH, MDR,ODR and By-pass roads	2921	377	1029	161	13713	496	18697
Total		**6738**	**801**	**1558**	**266**	**28634**	**603**	**38600**

Under section 242 of the Panchayat Act, 1994, the Government has the powers to make rules on various items including (xiii) as to the classification of public roads and fairs and festivals as appertaining to the Panchayat.

5. Hence, the Commissioner of Rural Development and Panchayat Raj has suggested to frame separate rules by delegating powers to the respective District Collector, who is the Inspector of panchayat, to reclassify village panchayat roads identified under the above category to panchayat union roads and vice-versa (if required). A separate proposal would be mooted to this effect to the Government. If these roads are added to the existing Panchayat Union roads, the total length of PURs will be **66,189 Km (27,589 Km + 38,600 Km).**

a). Prioritization:

The need for prudent utilization of resources is required to ensure that the road network is in functional status in all-weather conditions. The reclassification of Village Panchayat roads to Panchayat Union roads will address this to an extent but further prioritization of the roads through network level planning is required. This will be done through further breaking down the Panchayat Union roads (includes reclassified Village Panchayat roads) as below,

- *All Bus plying Roads.*
- *Roads of length more than 3 Km.*
- *Roads connecting NH, SH, MDR, ODR and By-pass roads.*
- *Roads connecting important tourism, pilgrimage and heritage places, socio-economic utilities etc.*
- *Roads providing single connectivity to Habitations.*

Verified PDFstore™

The roads in the above categories will be grouped as Major Union Roads (MURs). The remaining PURs will be termed as Other Union Roads (OURs). This categorization will help in prioritizing the road network at the Block level (Network Level Planning). The use of spatial data will be crucial to this categorization. The above categorization will aid in focused improvement of the road network at the block level. This priority list will help consolidate the road network with optimal usage of funds. Out of the total length of 66,189Km PURs (includes reclassified VPRs), the length of MURs under different categories is as given below:

b). Major Union Roads and Other Union Roads:

Sl. No.	Category	Length in Km
	Major Union Roads (MURs)	
1.	Bus plying Roads	13752
2.	Roads more than 3 Km	20726
3.	Roads connecting the NH,SH,MDR,ODR and By-pass roads	23261
4.	Total Major Union Roads (MURs)	57,739
5.	Other Union Roads (OURs)	8,450
	Total Panchayat Union Roads (PURs)	**66,189**

The Village Panchayat roads will also be prioritized based on their utility while selecting roads for improvement. Thus each block will have a list of roads ranked based on their priority and such list will form the basis for selection of roads under all schemes. While taking up roads from their own funds the BPs and VPs shall adhere to this list. Overall the selection will be based on the following criteria,

- **Ranking in the priority list.**
- **Age of the road.**
- **Pavement Condition Index (PCI).**

At the district level while choosing roads between different blocks, additional weightage will be given to population benefitted, utilities connected, traffic etc.

Verified © RegiEstate

A Standard Operating Procedure (SoP) will be put in place which will deal with the selection of roads and the use of MIS and GIS data will be made.

Tentative classification for prioritization of roads

Sl. No.	Type of Surface	Panchayat Union Road		Village Panchayat Road	Total
		MUR	OUR		
		Length in Km			
1	Black topped	46931	7423	47735	102089
2	Cement concrete	772	150	2643	3565
3	Double layer WBM	338	69	1505	1911
4	Single Layer WBM	1683	235	8017	9935
5	Gravel	842	108	3821	4771
6	Earthen	7173	465	25441	33080
	Total	**57739**	**8450**	**89162**	**155351**

c). Maintenance Backlog:

There are 1.02 lakh Km length of Black Topped roads and out of this 43,214 Km length of rural roads are less than 5 years and 58,875 Km more than 5 years old. In essence the roads under 5 years should be under routine maintenance and over 5 years should be subjected to Periodic maintenance or Strengthening considering the age and Pavement Condition Index (PCI).

However, at present these roads are neither under routine maintenance nor periodic maintenance. Pradhan Mantri Gram Sadak Yojana (PMGSY) roads are the only exception since Government of India mandates both routine and periodic maintenance, though the same is made from state funds. The asset value of **1.02 Lakh Km** roads even with conservative estimates is around **Rs.54,000 crore**. The lack of maintenance of these roads will set a platform for premature failure of these roads and the substantial asset loss to the Government.

The actual funds required for the maintenance of the 1.02 Lakh Km roads will be as follows:

Sl. No.	Age of roads	Intervention	Length in Km	Cost per Km	Amount in Rs. crore
1.	Less than 5 years (except PMGSY)	Routine Maintenance	43,214 - 8340 = 34,874	Rs.1 lakh/Km/ year	349.00
2.	Between 6 to 8 years	Periodic Renewal	19,575	Rs.18.92 Lakhs/Km	370.00
3.	More than 8 years	Strengthening	39,300	Rs.40.20 Lakhs/Km	15,799.00
		Total	**1,02,089**		**16,518**

Note: *The roads in Sl.No. 2 and 3 will be put into Routine Maintenance immediately upon completion of strengthening/renewal as the case may be at an amount of Rs.147.18 crore for one year.*

The backlog in periodic maintenance and strengthening cannot be addressed in a single year. The objective should be to clear the backlog over a period of 5 years. However, it is to be noted that maintenance cannot be a 5 year plan or 10 year plan; it will be a continuous requirement due to aging of other roads. One important measure is to make RM compulsory there by postponing periodic renewal and strengthening.

d). 5 year plan:

The requirement of fund for clearing the present backlog in the next 5 years is as given below:

Sl. No.	Year	Strengthening (Length in Km)	Cost in Rs. crore	Periodic Renewal (Length in Km)	Cost in Rs. crore	Total	
						Length in Km	Cost in Rs. crore
1.	2022-23	7860	3443	3915	882	11775	4324
2.	2023-24	7860	3615	3915	926	11775	4541
3.	2024-25	7860	3796	3915	972	11775	4768
4.	2025-26	7860	3985	3915	1021	11775	5006
5.	2026-27	7860	4185	3915	1072	11775	5256
Total		**39300**	**19023**	**19575**	**4872**	**58875**	**23895**

Note: Future cost projected considering inflation of 5%

Verified RealEstate

Priority will be given to the Major Union Roads followed by the Other Union Roads in this scheme.

e).Fund Resources:

As per section 110 and 112 of the Panchayat Act, 1994, it is the duty of Village Panchayat and Panchayat Unions to maintain the Village Panchayat and Panchayat Union roads respectively. This is to be done through State and Central Finance Commission (CFC) grants and from their own revenues, if any.

The only capital funding for roads comes in the form of state share under Pradhan Mantri Gram Sadak Yojana (PMGSY) and NABARD-RIDF loan funding. Thus the department has been solely dependent on State Finance Commission (SFC) grants for the improvement of the Panchayat Union and Village Panchayat roads, which on the other hand has been growing steadily.

In the last 5 years 46,443 Km length of rural roads have been taken up for improvement at a cost of Rs.13,685 crore the quantum of funding from the state budgetary and the over dependence on the State Finance Commission (SFC) grants either directly or indirectly for the improvement and maintenance of the rural roads. However, both State Finance Commission (SFC) and Central Finance Commission (CFC) have made several restrictions in pooling of these funds for specific schemes and also have pre-tied the grants to sanitation, water supply etc. Hence, there is limited scope for tapping funds from SFC grants for the improvement and maintenance of the village panchayat and panchayat union roads. Further, the Village Panchayats spend around 90% of their resources towards the Mandatory Committed Liabilities as given below.

Sl. No.	Category	% of funds used
1.	Minimum Grant to pay CC charges to TANGEDCO and Water charges to TWAD (by Village Panchayats)	43%
2.	Salaries of Panchayat Secretaries	18%
3.	Salary of Sanitary Worker	6%
4.	Honorarium of OHT Operators	7%
5.	Honorarium of Thooimai kaavalars	12%
6.	Monthly honorarium to Panchayat Presidents	1%
7.	Honorarium to Librarians	1%
8.	MNP – reemployment – convergence of salary	2%
	Total Mandatory Committed Liabilities	**90%**

Verified by PSR Estate

As indicated above, only 10% of the devolution grants are available for other works, thus the allocation from FC grants for roads has become almost impossible.

During the year 2021-2022, total length of 3,230 Km rural roads have been sanctioned for improvements under TNRRIS and PMGSY. No other sanction has been made for VP and PU roads and none during 2022-23. This is well below the ideal funding requirement to keep the roads in serviceable condition.

Hence, the State should allocate a definitive % from States Own Tax Revenue (SoTR) for the rural roads every year outside of the SFC grants.

Rural Road Policy

The rural roads are a State subject as per the 7th schedule of the constitution. The adhoc mode of rural road management and funding is due to lack of clear State policy. The rural connectivity can be sustained only if the rural road network is maintained in good condition, at all times. **"Tamil Nadu Rural Roads Maintenance Policy"** was formulated for the maintenance of all the Village Panchayat and Panchayat Union Roads in the state in 2016. However, due to non-availability of funds the policy has not seen the implementation stage. Now the department will formulate a Comprehensive Rural Roads Policy inculcating a long term vision and also addressing issues related to the improvement and maintenance of Rural Roads.

f). Components of Interventions

The status of Village Panchayat and Panchayat Union roads clearly indicates the heterogeneous nature of the rural road network. The un-surfaced roads are 32% of the road network. This provides the classic road network management problem of improvement versus maintenance. Further, the road network condition is different in different districts/blocks, hence there cannot be any generic intervention. The overall intervention shall be broad based and shall include,

(i) Upgrading the Non-BT road to BT standard.

(ii) Strengthening of the existing damaged BT roads.

(iii) Maintenance of the existing BT roads.

Considering the huge investments made in the last decade and the assets created therein, the Government would focus on maintenance of the assets created. The Upgradation of unsurfaced roads would be taken up only on specific cases which have quantifiable benefits such as roads connecting unconnected habitations etc. Hence, they are not considered in this proposal. In case of unsurfaced low utility roads, the provision of an all-weather surface using locally available materials/ alternate technology will be considered.

6. The Commissioner of Rural Development and Panchayat Raj has stated that he has proposed to take up strengthening of 7,860 Km length of Major Union Roads at a cost of Rs.3,443 crore and periodic renewal of 3915 Km length of Major Union Roads at a cost of Rs.882 crore. The 5 year Routine Maintenance cost after

improvement is built into the proposal. The roads would be maintained by the same contractor for 5 years.

7. The Commissioner of Rural Development and Panchayat Raj has further informed that the fund tie-up regard to Devolution Grants for the year 2022-23, it is informed that only two installments of about Rs.750 crore of SFC grants is pending for the year 2022-23 and the amount will suffice for committed liabilities of AGAMT II, TANGEDCO payment, Salaries etc. Hence, Rs.600 crore may be met from Devolution grant of 2023-24. The Fund tie-up is accordingly modified as below:

		Rupees in Crores		
Sl. No.	**Source of fund**	**2022-23**	**2023-24**	**Total**
1	CGF(State)-Rural Infra	300	400	700
2	CGF(District)	200	200	400
3	Pooled Assigned Revenue	500	500	1000
4	Savings of RD Department	1300	-	1300
5	Devolution	-	600	600
		2300	**1700**	**4000**

8. In the circumstances stated above, the Commissioner of Rural Development and Panchayat Raj has requested the following orders from the Government for the implementation of MGSMT 2022-23.

1. To accord approval for the introduction of Mudalvarin Grama Salaigal Membattu Thittam (MGSMT) for Improvement of Panchayat Union and Village Panchayat Roads.

2. To accord administrative sanction for the Improvement/Strengthening / Maintenance of 10,000 Km length of roads at a overall cost of Rs.4000 crore including the 5 year Routine Maintenance.

3. To accord financial sanction for the total amount of **Rs.4000 crore** from the fund sources indicated in Table above for the year 2022-23.

4. To accord financial sanction for using administrative cost of **1%** of the overall allocation of Rs.4000 crore. The amount shall be permitted to be met from interest accrued in the scheme.

5. To approve the draft Guidelines for the implementation of **Mudalvarin Grama Salaigal Membattu Thittam (MGSMT) for the year 2022-23** which is enclosed as Annexure - A to this order.

6. To approve selection of roads based on the detailed process given in para 5 of the draft guidelines which is enclosed as Annexure - B to this order.

Verified PeoplEStore

9. The Commissioner of Rural Development and Panchayat Raj has requested the Government to issue necessary orders for the implementation of MGSMT at a cost of Rs.2300 Crore for the year 2022-23 and to approve the draft guidelines.

10. The Government after careful examination have decided to accept the proposal of the Commissioner of Rural Development and Panchayat Raj and issue following orders:-

(i) The introduction of **Mudalvarin Grama Salaigal Membattu Thittam (MGSMT)** for Improvement of Panchayat Union and Village Panchayat Roads is approved.

(ii) Administrative sanction is accorded for the Improvement/ Strengthening /Maintenance of 10,000 Km length of roads at a overall cost of Rs.4000 crore including the 5 year Routine Maintenance cost after improvement built into the proposal for the years 2022-23 and 2023-24.

(iii) Financial sanction is accorded for the total amount of **Rs.2300 crore** (Rs. Two Thousand Three Hundred Crore Only) from the fund sources indicated in Table mentioned in para 7 above for the year 2022-23.

(iv) Financial sanction is accorded for using administrative cost of **1%** of the overall allocation of Rs.4000 crore. The amount shall be permitted to be met from interest accrued in the scheme

(v) Guidelines for the implementation of Mudalvarin Grama Salaigal Membattu Thittam (MGSMT) for the year 2022-23 which is enclosed as Annexure - A to this order.

(vi) The selection of roads will be based on the detailed process given in para 5 of the guidelines, which is enclosed as Annexure - B to this order.

(vii) The Commissioner of Rural Development and Panchayat Raj is permitted to utilize the Capital Grant Fund, Pooled Assigned Revenue, Devolution and Savings of Rural Development Department to the extent mentioned in the table at para 7 above.

Verified RealEstate™

(viii) The Commissioner of Rural Development and Panchayat Raj is authorized to draw and disburse the funds under Mudalvarin Grama Salaigal Membattu Thittam (MGSMT) for the year 2022-2023.

(ix) In order to ensure competitive bidding, the relevant Acts and Rules, including the Tamil Nadu Transparency in Tender Act, 1998 and Rules, 2000 with subsequent amendments should be abided in letter and spirit.

11. This order issues with the concurrence of Finance Department vide its U.O.No.8823A/Finance(RD)/2023-1, dated:18.03.2023.

ANNEXURE - A

(G.O.(Ms)No. 34,Rural Development and Panchayat Raj (SGS-2) Department, Dated 18.03.2023)

Guidelines for "Mudalvarin Grama Salaigal Membattu Thittam (MGSMT)"– 2022-2023

1. Introduction

Rural Road Connectivity is a critical component in the socio-economic development of rural people by providing access to amenities like education, health, marketing etc. It has been well established that investments in rural roads lifts rural people above the poverty line. Tamil Nadu has a vast network of rural roads and almost 100% of the rural people have been provided with all-weather roads. In order to ensure sustain the benefits of connectivity it is imperative to ensure keeping the roads in motorable condition through periodic interventions. Hence, it is proposed to introduce an exclusive rural roads improvement scheme funded by the state government. The scheme will be called the "**Mudalvarin Grama Salaigal Membattu Thittam (MGSMT)".**

2. Objective

The objective of the "**Mudalvarin Grama Salaigal Membattu Thittam (MGSMT)"** is to Upgrade/strengthen/maintain the Major Union Roads (MURs), Other Union Roads (OURs) and Village Panchayat Roads (VPRs).

3. Allocation of Funds

The allocation of funds to the districts/blocks will be based on actual field requirements and Pavement condition Index, road network, density, Total Population, SC/ST Population, Area, funds allotted in the last 5 years, backward blocks etc.

The allocation of funds will be decided by the committee headed by Principal Secretary to Government, Rural Development and Panchayat Raj and members including Commissioner of Rural Development and Panchayat Raj, Chief Engineer (RD) and Additional Director (R&B).

Verified RealEstate ™

4. Category of works

The scheme will permit the following type of works,

i. Earthen, Gravel and WBM roads of the rural roads should be taken up for upgradation as Black Topped roads.

ii. *Strengthening of Black Topped roads which are more than 5 years old and with weighted PCI of 2 and below.*

iii. *Periodic Renewal of Black Topped roads which are more than 5 years old and with weighted PCI of greater than 2 and upto 3.*

5. Procedure for selection and execution of works

I Each Block should prepare a Block Rural Road Plan (BRRP) which should provide a complete profile of the road network in the block. The list of VP roads to be classified as PU roads, Identification of Major Union Roads (MURs) and Other Union Roads (OURs), Details of last improvement, Roads under improvement, Roads proposed in other schemes, PCI along with geo tagged photograph, Assessment of annual budgetary requirement for Upgradation, Strengthening, Periodic maintenance and Routine maintenance. The BRRP will cover both PU roads and VP roads.

II The Bus plying Village Panchayat roads, VPR roads of more than 3 Km, VP Roads connecting the NH, SH, MDR, ODR & By-pass roads and VP Roads connecting important tourism, pilgrimage and heritage places, socio-economic utilities etc and VP roads providing single connectivity to habitations shall be listed out. These roads will be reclassified as Panchayat Union Roads.

III The Panchayat Union roads which satisfy the above criteria along with the re-classified VP roads will be termed as Major Union Roads (MURs). The remaining Panchayat Union roads will be categorized as Other Union Roads (OURs).

IV The Major Union Roads (MURs), Other Union Roads(OURs) and Village Panchayat Roads (VPRs) shall be proposed for strengthening or periodic maintenance based on the Pavement Condition Index(PCI) of the road as indicated in para 4 of these guidelines and upgradation of Non-BT roads to BT roads based on priority.

V Within the MURs the prioritization of the roads shall be based on PCI initially and then in the order, bus plying roads, roads of more than 3 Km, single connectivity roads, roads linking NH, SH, MDRs, roads linking to important tourism, pilgrimage and heritage places, socio-economic utilities. The OURs and VPRs shall be considered next by order of PCI.

VI The roads selected should have completed 5 years from the last improvement and no roads of less than 5 years should be proposed. The roads affected due to natural calamity or unforeseen situations and having age less than 5 years can be proposed with the specific recommendation of the District Collector and subject to approval of the Commissioner of Rural Development after sample verification of the Chief Engineers/Additional directors/Superintending Engineers.

VII The roads proposed will be selected only from the list of updated Village Panchayat and Panchayat Union roads which are available in the tnrd.gov.in website and roads without "road code" are not permitted to be taken up under this scheme.

VIII The roads requiring forest clearance, land issues etc should be part of the prioritized list but can be proposed only if *all-clear* is available to lay the road.

IX The Block Rural Road Plan (BRRP) along with the proposal shall be submitted to the Directorate for verification and approval. The allocation of funds will be based on the following criteria.

a) 75% of the roads (Length in Km) would be selected based on the eligible roads under BRRP.

b) 25% of the roads (Length in Km) would be selected based on the list of roads received from the District Collectors which have been left out of BRRP Matrix weightage with due justifications. These roads will be taken up under MGSMT after approval of the State level committee indicated in para 3 of the draft guidelines".

Verified by RajResults

6. GIS

The roads proposed by the Blocks will be verified with spatial data available with the department. As a pre-requisite, the release of funds to districts will be subject to the condition that all the blocks in the district comply with 0% data gap in online road register and 100% porting into GIS platform.

7. Specifications and Project Preparation

Roads taken up under this scheme shall conform to specifications and standards laid down in IRC–SP-20 Rural Roads manual, Ministry of Rural Development (MoRD) specifications on Rural Roads or Ministry of Road Transport and Highways (MoRTH) specifications as the case may be. Geometric standards shall be maintained as per IRC SP 20 Rural Roads Manual, such as

i) *For traffic more than 100 motorized vehicle/day, Carriage way width should be 3.75/3.00 m for single lane.*
ii) *Roadway width should be 7.5m in case of Plain & Rolling terrain and 6.0m in case of Mountainous and steep terrain*
iii) *Right of way should be 15 m for plain and 12m for Steep terrain*
iv) *Ruling Gradient should be 1 in 30 for Plain and 1in20 for Steep terrain*
v) *Camber should be 3 to 3.5 % for Bituminous pavement*
vi) *Super elevation should be 7% for plains and 10% for hilly areas and Minimum super elevation should not be less than percentage of the camber.*

Pavement design of the roads proposed shall be as per figure 4 of IRC SP-72-2015 (Guidelines for the Design of flexible pavements for Low Volume Rural Roads) for traffic intensity upto 2 msa (million standard axles), (Note: IRC SP-72 permits use of Bituminous Macadam for traffic intensity more than 1.5 msa).

In case of Upgradation and strengthening of roads, where the traffic is more than 2 msa (million standard axles) strengthening of flexible pavements by using Wet Mix Macadam (WMM), Dense Bituminous Macadam (DBM) and Bituminous Concrete (BC) as per traffic intensity and strength of the soil should be done as per IRC-37-2012, (Guidelines for Design of Flexible

Verified by RedIEstate

pavements).Use of Automatic Paver Finisher and other equipment's are mandatory for laying of Bituminous layers.

After the selection of roads, detailed estimates shall be prepared by the engineers concerned after thorough field inspection and necessary soil test. Only after the actual estimates are prepared, the proposal should be put up by the Project Director, DRDA to the District Collector for Administrative Sanction.

Transect walk with geo-tagged photographs at every 100m should be prepared while submitting proposal. Required CD and Protective works should be taken up along with road. In the event of provision of the same, then proper photographs of the proposed location along with justification should be enclosed. The details of transect walk should be part of the Detailed Project Report.

Estimates should be prepared after carrying out detailed topographical and soil surveys and the proposed thickness of the road should be based on existing sub- grade CBR, traffic intensity and existing crust. Approximations based on physical observations are not at all permitted.

Improvement and widening of shoulders to the required standards is mandatory and the Geometric standards indicated above shall be followed. Since, shoulders are important component of roads in maintaining its service conditions; the strengthening of shoulder using any of the approved stabilization wherever local earth is of poor California Bearing Ratio (CBR). The typical cross section of a rural road is given in the annexure to these guidelines for reference.

All roads proposed under this scheme should be verified by the Assistant Executive Engineer (Roads & Bridges) for confirming conditions of subgrade soils, existing crust, proposed provisions, necessity of protective works, cross drainage structures.

8. Road Safety Measures

The purpose of Road Signs is to promote road safety and efficiency by providing for orderly movement of road users on the roads. Road Signs notify road users of regulations and provide warning and guidance needed for

reasonably safe, uniform and efficient operation. Hence, the location and the type of road signages, road markings etc should be identified during transect walk and necessary provisions should be made in the estimate.

Intersection improvement shall be a mandatory aspect for the roads merging into NH, SH and MDR. In case of roads with accident spots, black spots, unsafe geometry etc necessary road safety measures including speed calming works, protective barriers should be made. The contractor shall be responsible for safety of the road users during construction.

Cautionary, mandatory, informatory signs using road markers, reflectors, delineators etc are to be provided depending on the site requirement in accordance with IRC: 67-2012 guidelines for Road Signs. In the case of road markings, the Code of Practice for Road Markings, IRC: 35-1997 has to be adopted. For safe and easy access of differently-abled persons, informative signs indicating the international wheelchair symbol shall be installed at appropriate places especially at important junctions, busy traffic zones, school zones etc. Similarly, engraving on the surface of the zebra crossing for blind or for persons with low vision shall also be provided. Construction of kerb cuts and slopes in the pavements for easy access of the wheel chairs is also to be provided mandatorily, wherever required. Road safety measures like road signs should not exceed 5% of the total cost of the work.

The rural road safety manual issued by NRIDA shall be used as reference for the provision of road safety measures.

9. Avenue Plantation

Raising of avenue plantations will be an integral component under this scheme. Fruit bearing trees, shade trees, timber trees etc should be planted along the roadside beyond the outer periphery of the berms so as to avoid cutting of trees in future during widening/improvement in convergence with MGNREGS. Avenue Plantation shall be done as per IRC-SP-103-2014 (Guidelines for Tree Plantation along Rural Roads) Avenue plantations need not be done from this scheme's fund. The same can be done either under general Fund or MGNREGS or in co-ordination with the Forest Department under the special scheme for massive tree plantation in non–forest areas.

Verified by RecFast™

10. Technology Initiatives

In order to promote cost-effective and fast-track construction technologies in the construction of rural roads, it has become imperative to mainstream the technologies already developed through R&D in the past.

Following Technologies may be adopted based on the requirement and need:

- ***Soil stabilization Techniques***
- ***Use of Innovative new additives (List of Materials accredited by IRC is available on the Website of IRC and NRRDA)***
- ***Use of fly ash***

The above list is indicative and the choice of technology is not limited to the above and appropriate technology can be adopted based on field conditions. Selection of technology shall be done in consultation with and approval of the Chief Engineer (RD)/Superintending Engineer (RD) and the State Technical Agency, NIT, Trichy. The guidelines on technology initiatives issued by NRIDA may be referred for this purpose.

11. Test verification of list of works and the estimates

The District Collectors shall, on getting the proposals for Administrative Sanction under this scheme, depute officials to test check the need and genuineness of the works identified and correctness of the estimates prepared. The District Collector shall himself inspect at least 2% of the works before according Administrative Sanction. The Project Director, DRDA will inspect and super-check atleast 10% of the works in the field.The Executive Engineer (RD) and other Assistant Director level officers shall each inspect and will super-check atleast20% of the works in the field. Assistant Executive Engineer (R&B)will super-check 100% of the works in the field independently and check the correctness of the estimates. Thus, the District Collectors should ensure 100% super-check of the roads proposed under the Scheme.

12. Administrative Sanction

After the approval of BRRP and allocation of funds and list of roads are approved by the Committee indicated in para 3 of these guidelines. The District Collector will accord Administrative Sanction based on the preparation of detailed estimate. The District Collectors shall have the right to amend the

Verified © RedEstate™

list of works, if need arises after consultation with the Commissioner of Rural Development & Panchayat Raj.

13.Technical Sanction

Technical sanction will be accorded by the competent authority as per G.O.(Ms) No.203, Rural Development & Panchayat Raj Department, dated: 20.12.2007, amendment to the Tamil Nadu Panchayats (preparation of Plans and Estimates for works and mode and conditions of Contracts) Rules 2007 and G.O.(Ms)No.111, Rural Development & Panchayat Raj(PR-1) Department, dated 21.08.2018.

14.Tendering

(i) The works under Mudalvarin Grama Salaigal Membattu Thittam will be executed following the Tamil Nadu Transparency in Tenders Act, 1998 and Rules, 2000. Table-II of Notification-II in the Tamil Nadu Panchayats (Preparation of Plans and Estimate of works and mode and conditions of contracts) Rules, 2007 vide G.O.(Ms)No.203, Rural Development & Panchayat Raj Department, dated 20.12.2007. will be followed for tendering.

(ii) The Project Director, District Rural Development Agency (DRDA) shall be the tender inviting authority. The District Collector/ Chairman, District Rural Development Agency shall be the Tender Accepting Authority.

(iii) e-submission of bids will be followed for the works.

15.Execution of works

The measurements will be recorded by the Block Engineer/Assistant Engineer and the Check Measurement will be done by the concerned Assistant Executive Engineer(R&B). The Executive Engineer (RD) shall super check the works as per the norms indicated in G.O.(Ms)No.111, Rural Development & Panchayat Raj(PR-1) Department, dated 21.08.2018.

The instructions of the National Green Tribunal regarding onsite compliance during construction of roads shall be strictly followed.

The Citizen Information Board with the provisions given for road maintenance/strengthening and Name Board with road name, contractor name, PIU name, start and completion of work shall be erected at the start

Verified by RealStack

point of the Road. The model Citizen Information Board (CIB) will communicated to the districts.

The progress of the works along with geo-tagged photographs shall be uploaded in tnrd.tn.gov.in website through ***Thittam*** app.

16. Quality Control

All the mandatory Quality control tests before, during and after execution of the works shall be carried out as per the Quality Control Handbook Vol. I and II published by National Rural Infrastructure Development Agency (NRIDA). These shall include, but not limited to,

i. *Sieve Analysis, Atterberg limit, Proctor Density, Field Density for Earth work.*
ii. *Atterberg limit, Gradation, Aggregate Impact value, Proctor Density, Field Density, Thickness for sub base and base course.*
iii. *Rate of spread for prime and tack coat.*
iv. *Gradation, Aggregate Impact value, Binder Content, Thickness and surface regularity for bituminous surface.*
v. *Compressive strength of concrete for cross drainage works.*

- A separate QC register should be maintained for each work and the record of tests shall be entered by the Block Engineer/ Assistant Engineer and verified by the Assistant Executive Engineer (R&B) and Executive Engineer (RD).
- The quality of the works will be verified through independent State Quality Monitors and/or other 3rd party agencies.
- Quality Control (QC) register shall be submitted along with the bills and the same shall be verified before release of payment.
- An amount not exceeding 0.5% of total estimate cost may be provided in estimate for DPR preparation. However, the DPR cost is limited to soil investigation, topographical survey and preparation of drawings. The actual DPRs should be prepared departmentally.

17. Flow of Funds

The Commissioner of Rural Development and Panchayat Raj shall open a Single Nodal Account (SNA) at the Directorate and all payments will be to the vendors shall be done through an e-payment gateway to be deployed in tnrd.tn.gov.in website.

Verified RealEstate ™

18. Administrative Cost

An amount of 1% of the total scheme allocation shall be provided as Administrative Cost. This amount shall be met from the interest accrued from the scheme funds. The Administrative cost shall be used for Scheme Quality Monitoring (SQM)/Third party inspections, monitoring, inauguration of projects and development of IT Tools and IT infrastructure for the planning and implementation of the scheme.

19. Documentation

Proper documentation of the works should be done capturing various processes in the implementation of the scheme. Photographs of the site before undertaking the work, during execution of the work and after completion of the work should be taken and properly documented and to be submitted to the Directorate.

The Principal Secretary to Government, Rural Development and Panchayat Raj Department is empowered to modify the guidelines, whenever necessary, in consultation with the Commissioner of Rural Development and Panchayat Raj.

P. AMUDHA
PRINCIPAL SECRETARY TO GOVERNMENT
