

SHEET - 1

The diagram shows a floor plan of a building. At the top, there is a long horizontal section with four small squares, possibly representing windows or doors. Below this, the main floor area is divided by a vertical wall. On the left side of this wall, there are two sets of double doors. On the right side, there is a single door leading to a staircase. The staircase has several steps and is located near the bottom right corner. The bottom of the plan is marked with 'G.L.' (Ground Level) on both the left and right sides.

The diagram illustrates a cross-section of a building structure with the following components and dimensions:

- WEATHERING COARSE LAYED WITH 1:5 MIX FLAT ROOF TILES**: The topmost layer of the roof.
- PARAPET WALL**: The wall on the roof edge.
- ROOF SLAB 1:1.5:3 MIX**: The structural slab above the roof.
- LINTEL BEAM & SUNSHADE SLAB 1:1.5:3 MIX**: The beam and slab above the window.
- BRICK WORK 1:6 MIX**: The masonry walls.
- BASEMENT BEAM 1:1.5:3 MIX**: The beam below the ground level.
- SAND FILLING**: The material between the ground and the basement beam.
- PLINTH BEAM**: The beam at the ground level.
- R.C.C COLUMN**: The vertical structural member.
- FOOTING 1:1.5:3 MIX**: The foundation below the column.
- P.C.C. 1:4:8 MIX SAND FILLING**: The material below the footing.

Dimensions:

- Overall height: 4.12
- Roof height: 1.22
- Room height: 3.05
- Ground level: 0.91
- Basement height: 0.83
- Plinth height: 1.29
- Column height: 1.83
- Footing height: 0.15
- Column width: 1.22
- Footing width: 1.22

Diagram of the second floor layout. The overall dimensions are 8.84 (29'0") by 6.78 (22'3"). The layout includes a staircase (1.82 x 2.70) with a 'Down' arrow, an open terrace (6.33 x 4.20), and a solar panel area (6.32 x 1.91) labeled 'SOLAR PANEL'. A north arrow is located at the bottom left.

The map shows a quadrilateral plot labeled S.NO:24/1E2. The vertices are marked with circled letters: (A) at the top-left, (D) at the top-right, (C) at the bottom-right, and (B) at the bottom-left. The boundaries are defined by the following bearings and distances:

- Side AD (top): 6°0' 12.8
- Side DC (right): 17°0' 23.2
- Side CB (bottom-right): 12.6
- Side BA (left): 21.4

Inside the plot, a shaded rectangular area is labeled "APPLICANT SITE" and "S.NO:24/6A". The location of this site is defined by the following bearings and distances from the vertices:

- From vertex (A): 1°6'
- From vertex (D): 17°0'
- From vertex (C): 38°0'
- From vertex (B): 38°0'

Additional labels on the map include "S.NO:24/1E2" at the top, "S.NO:24/6B" on the right, and "S.NO:112" on the left and bottom.

FSI = $59.95 / 283.00 = 0.21$
(P.C) = $(59.95 / 283.00) \times 100 = 21.18\%$
