Plan on Rain Water Collection Tank

The technical drawings show the front and side elevations of the collector panel. The front elevation is a rectangle with a width of 2.75 and a height of 3.50. It features a central grid representing the collector panel, labeled "COLLECTOR PANEL 66"x50"x20". Above the grid is a horizontal pipe with a valve, labeled "50"x20". The side elevation shows the panel's profile, with a width of 2.5 and a height of 2.5. It includes a sloped roof structure and a circular component at the top right.

SIDE ELEVATION
