DETAILS OF PLAN DEVELOPMENT WORKS TO BE EXECUTED IN PROJECT

- **Water Supply:**

  Underwater sump is provided to store the water. Also, an Overhead tank is provided with 2 compartments, one for Bore water and other for drinking water storage. In addition, Water connection will be provided by Arasankazani Village Panchayat.

- **Sewage Disposal:**

  Septic Tank will be provided and water will be disposed by Private Sewerage Tanker lorry.

- **Solid Waste Disposal:**

  Bins are provided outside the building for collecting the garbage from all the flats, which will be removed by the Arasankazani Village Panchayat, Garbage Van.

- **Renewable Energy:**

  Not Applicable.

- **Fire Fighting:**

  As this project is not in an MSB building category, special provision and arrangement for firefighting does not exist.

- **Emergency Evacuation Services:**

  As it is a non-high rise building which is not applicable.
