CONDITIONS:

(I)THE FOLLOWING CONDITIONS OF PWD VIDE CE, WRD, CHENNAI REGION, CHEPAUK, CHENNAI-5, LETTERNO.DB/T5(3)/F-NOC.10746 MINJUR VILLAGE 5788 / 2025 / DATED:31.07.2025, ARE TO BE COMPLIED BY THE APPLICANT BEFORE SANCTION OF THE LAYOUT.

1. The applicants' land should be filled with earth filling with proper compaction to minimum level of (+)10.010m (i e)5.270m is above the Full Tank Level (FTL) of Vallur Anicut (+)4.740m to protect the site from inundation during floods. The process of earth filling and compaction should be done in layers of not more than 0.30 achieve required degree of compaction for the depth varies from 1.960m to 2.300m depending upon the existing field levels. Also, the applicants should pro pumping operation for the seepage water, if it is proposed to have base as well as de watering arrangements during flood periods. The all round within the site should not be less than (+)10.010m and the regular habitation should not be below MFL.
2. The applicants should clearly demarcate boundary of their commencement of any developmental activities in the presence of R body and WRD authorities concerned without fail and should not Government land and the same should be maintained as it is in the Revenue records.
3. The permission granted to the applicants, should not be altered / modified/changed to any others. Based on the records submitted by the applicants, the granted. If any documents seem to be fake / manipulated / fabricated, above permission will be cancelled without any correspondence. Hence, t are solely responsible of genuinety of the documents submitted.
4. The WRD officers should be allowed to inspect the site at any time, during execution and thereafter, if necessary. Advance intimation should be given to the concerned before commencement of work.
5. The applicants should abide by the rules and regulation of the WRD time. The applicants should also abide court of law of both State & Central from time to time.
6. WRD is giving opinion only in connection with the inundation aspect ar deliver any rights to the applicants to encroach the WRD / Government La The NOC for this site from the WRD is purely issued on the basis of inundation point of view.
7. The applicants should not object at any time for the maintanance works/improvement works of the Channel which is proposed to be carried out by applicant should give an undertaking in writing to the effect that the above pre not obstruct in case any maintenance/improvement/development works Revenue records [FMB], which are proposed to be carried out by WRD periodically.

TECHNICAL SUGGESTION

(a). The applicants should prepare the layout proposal by considering the Micro drain of suitable size within the site as per prevailing site conditions. The same should be connected to the local drain/channel rainwater harvesting reads with road side drain and sewerage treatment and as disposal and gartrages/debris and other solid waste management as per norms in existence within the applicants land according to existing rules in force and should get proper approval from competent authority without fail

The sewage or any unhygienic drainage (Treated or Untreated) should not be let into drain/channel/course at any cost and the debris and other materials should not be dumped into the drain/surplus course obstructing free flow of water. The applicants should make drainage network, at their own cost and the same is to be connected to natural storm water drainage/channel. There should not be any hindrance to the tree flow of internal drain to downstream

(b) The applicant should provide necessary setback distance within the site as per site condition as per the norms in existence and as per the rules in force of CMDA (as per the circular issued by the office of the Commissioner of Town & Country Planning, Chennai-2 vide Roc. No 4387/2019/BA2/Dated 13.03.2019) during development and there should not be any construction activities in the setback areas in future also The CMDA should issue completion certificate only after obtaining completion certificate NOC from WRD.

(c). The applicants should get clearance certificate for this site from the Revenue department to make sure that the site is not an encroached property from the water body as well as confirming this proposed site boundaries.

(d) The sewage water from the applicants' land should not let into the drain and for the disposal of the sewage water, suitable arrangements should be made for the same by the applicants, and as well as the construction materials/debris/garbage's should not be dumped into the River/Eri/Channel/Pond at any cost.

At any cost, sewage/sullage should not be let into River/Eri/Channel/Pond, and the garbage's/debris and construction materials should not be dumped into the River/Eri/Channel/Pond restricting the free flow of water.

The owner of the document received from the applicants in respect to the ownership is purely of applicants' responsibility and it is only for reference purpose to this department The legal validity of this document should be verified by the Development/ Revenue authorities. The specific remarks on inundation are purely issued on technical grounds in respect to the physical location of land.

Failing to comply with any of the above conditions. WRD reserves rights to withdraw the Technical opinion on inundation point of view to the above proposed site and in event, the applicants shall not be eligible for any compensation whatsoever and as well as legal entity.
